REFERENDUM PROPOSAL

Lawmakers challenge anti-pork survey

By Carlito Pablo and Christine O. Avendaño

MEMBERS of the House of Representatives yesterday crossed party lines to challenge the Pulse Asia survey which found that 84 percent of Filipinos were against the current pork barrel system.

Some dared Pulse Asia to do a survey in their respective districts, while others suggested that the reality on the ground, which

a referendum be conducted to is that our constituents apprecisettle whether the people were in favor of lawmakers enjoying pork barrel funds.

House Deputy Majority Leader Rep. Eduardo Gullas (Alayon, Cebu) said results of the survey, which covered 1,200 respondems from Oct. 22 to Nov. 6, were "at best, open to question."

"The survey does not reflect

are the projects we're bringing home through our pork barrel," Gullas said.

He said the best way to determine the acceptability of the pork barrel system was through a na-

tional referendum. "We can perhaps have this referendum simultaneously with the next elections, whether it's the local or barangay elections, whichev-

At the Senate, Franklin Drilon. president of the chamber, said the findings of Pulse Asia validated his observation that the "wrongdoing of a few lawmakers in abusing their pork barrel privileges has created a negative pub-

lic perception of the system," 'It is indeed unfortunate that pork barrel has become synony-

US Marines here on relief mission

By Tonette Orejas and Jun Malig PDI Central Luxon Desk

CLARK SPECIAL ECONOMIC ZONE-US Marines have started arriving in the country to join in the relief and rescue operations for typhoon victims in Aurora and Quezon provinces where landslides and flash floods have left over 1,000 people dead or missing.

They are here for humanitarian assistance and disaster response missions," US Navy Capt. Dennis Williams said in a phone interview. "We will stay here as long as the people of the Philippines want us to help them," he added.

An advance team of 40 US Marines from Okinawa, Japan, arrived Tuesday night at Clark and will be joined by another 560 marines over the next few days, Williams said.

Maj. Archangel Gamido, civil military operation officer and acting public information officer of the Philippine Air Force's 600th Air Base Wing here, said two US C-130 Hercules transport aircraft loaded with relief goods landed at the Diosdado Macapagal International Airport on Tuesday night. More C-130 cargo planes with tons of foods and clothing are scheduled to arrive.

Seahawk choppers

Yesterday, the US Marines on board two Seahawk helicopters arrived in Infanta, Quezon, to drop off medicines, drinking water and food packs to hungry survivors left homeless by landslides and floods.

The helicopters from the US Navy's Squadron 14 based in Japan also air-

(047) 252-5569

lifted sick survivors to and from the Villamor Air Base in Passy City.

It is expected that 12 more US military belicopters from Okinawa will join the relief operations within the next few days.

Three huge transport helicopters capable of carrying 2,275 kg of cargo were due to arrive at Clark on Wednesday night, Williams said.

Williams said the US Marines would also be ferrying tents, generators and blankets in the next few

Since Tuesday, two HH60 Blackhawk helicopters, operating from a US Navy ship anchored in Subic Bay, have been shuttling medical teams and emergency supplies to Real, Infanta and General Nakar towns in Ouezon which bore the brunt of the casualties and devastation.

Williams said the advance team of US Marines had begun assessing the extent of the damage and amount of work needed to prevent a humanitarlan crisis in the worst-hit areas.

Much of Infanta remained covered in mud and hundreds of survivors crowded a school converted into an evacuation and medical center. Intermittent rain and high winds were hampering clean-up operations and threatening to ground air support.

Stretching food

Survivor Nenita Ruidera, 67, jostled for a kilo of rice which she said she would try to stretch for several days. "I would have to make porridge with it so it would last long," she said.

Ruidera, along with her four children and four grandchildren, had survived the mudslides but said many remained sick and should be

BOC list of smugglers useless, senators say

By Christine O. Avendaño

glers in the country submitted by Customs officials has been dismissed by senators as "nothing."

At the resumption of the joint hearing yesterday of the Senate committees on trade and commerce and economic affairs into the growing problem of smuggling, senators said they had doubts about the integrity of the confidertial watch list of "suspected Custom offenders" submitted by the Bureau of Customs.

They said the list had been prepared only by BOC officials without coordination with other intelligence agencies.

They also found that the names of other known amugglers were curiously excluded from the BOC list.

Sen. Mar Roxas, who chairs both committees, told reporters the senators were dismayed with the BOC which apparently was not serious about the fight against smuggling.

Frankly, I don't find the list to be worthy of any urgent and immediate study. It looks like they just made it up," Hoxas said, saying testily that BOC. officials should just resign from their positions.

Second list

It was the second list of suspected smugglers that the BOC submitted to the committees since the Senate inquiry began in September.

Last October, the BOC turned over a list of 200 suspected smuggiers but Roxas dismissed it as a "mere inventory of old and pending cases of smuggling that involve mostly old fry." He then asked for an updated list.

Sen. Juan Ponce Enrile suggested that the committees accept the second list submitted by the BOC "without vouching for its integri-

ty, credibility or truthfulness." During the hearing, Enrile asked BOC officials whether suspected smugglers Ferdie Lee and Johnny Trajano were included in the watch list.

Enrile said Lee was a Singaporean allegedly involved in the smuggling of drugs while Trajano, an alias, is the "giant of them all."

BOC deputy commissioner Reynaldo Nicolas replied "no," prompting Enrile to tell him

Nicolas said the list was continually updat-A MUCH-AWAITED hist of suspected big-time ed but then left the senators when he said that this was the first time the BOC had prepared a smugglers watch list.

Enrile later told committee members to use the list with caution. "We have to study that list because we don't know if the contents there are true," he said.

Enrile described Trajano as someone who could smuggle in an airplane if he wanted to.

He also said that reports have reached him that suspected smugglers would pay P1 million in exchange for their names to be taken out of the BOC watch list.

Chinese national

Sen. Panfilo Lacson was also surprised that Trajeno was not included in the watch list. A former national police chief, Lacson said Trajano was a known smuggler whose real name was Johnny Sy, a Chinese national.

Lacson was surprised that the BOC person nel were the ones that prepared the watch list. He said that at the PNP during his tenure. an order of battle or watch list was usually prepared with the assistance of other agescies involved in intelligence work.

"Obviously they want to protect their own turf because somebody might input personal: ries that they do not want to include in the watch list," he said.

"That could only be the reason why they did not involve other intelligence units in agencies," he said.

Roxas said he had been told by BOC offirials that the name of businessman Lucio Cowas included in the watch list, but he has yet to go through the list to confirm this.

Sen. Richard Gordon threatened the BOC bfticials with contempt "if they are not forthright." Gordon said the BOC was not doing its job

in fighting smuggling and the BOC officials who appeared at yesterday's hearing seemed to have been lying.

They are giving a document that does not have any meaning. They just listed down names just so they would have something to give to us," he said.

2005 budget House approves

THE HOUSE of Representatives approved on third and final reading last night the proposed P907.7 billion national budget for 2005 with a vote of 155-22 with no abstentions.

Speaker Jose de Venecia Jr. hailed the passage of the 2005 general appropriations bill which he described as "spartan, prudent and

The approval of the budget is our commitment to reform and responsible development," De Venecia sald.

Rep. Rolando Andaya.jr. (LP, Cumurines Sur), chair of the house appropriations committee, was the principal sponsor of the budget bill. Andaya noted that the 2005 budget is P46

billion or 5.3 percent higher than the P861.6

Pollowing the House approval, the budget bill will now be submitted to the Senate ha

billion budget for the current year.

floor deliberations. This will then be tackled by the bicameral

conference committee composed of representatives from both chambers.

Senate President Franklin Drilon, however. said that it was now impossible for the Senate to deliberate on the proposed 2005 budget this month even if it were to hold a special sea sion. The Senate will go on recess on Dec. 17.

Drilon had said that the Senate would only hold a special session for the purpose of ensuring the passage of the President's revenue Carlito Pabio

For those hesitant about surgical fat-loss. Available this week only from December, 6-11, 2004 (Offer limited to first 25 callers)

new judge for Tan tax case

By Philip C. Tubezz

THE GOVERNMENT will ask the judge who is set to try taipan Lucio Tan and several officials of Fortune Tobacco for tax evasion to inhibit himself from hearing the P25 billion case, Justice Secretary Raul Gonzalez said yesterday.

Gonzalez said that government prosecutors would ask Marikina Metropolitan Trial Court Judge Alex Rulz to inhibit himself from the case since he had already dismissed it March 1999.

"We want a different judge since he may have already prejudged the case after dismissing it." Gonzalez

"Our petition to have this case transferred to the Court of Tax Appeals has been denied (by the Supreme Court). At least, we will get a judge with a fully neutral mind," he added.

Gonzalez said that prosecutors handling the case would file their perition to inhibit Ruiz once they get a copy of the high court's ruling denying the government motion to transfer the case to the CTA.

DOJ wants Joker hits GMA retreat on telco tax M

By Michael Lim Ubac

PRESIDENT Macapagai-Arroyo's retreat on her planned telecommunications franchise tax following a fruitless meeting with telecom industry leaders set a bad precedent in the legislative process, said admin-Istration Sen. Joker Arroyo.

"The tempo on any legislation affecting industry from now on will be conducted by the telecom executives, not the government," Arroyo said.

"What senator or congressman can stand up to them after the President had been so easily rebuffed?" said the

The government had proposed imposing a 5 to 7 percent franchise tax on telecommunications companies but after a meeting last Saturday between the President and legislative leaders and

the heads of the country's top telecom firms, the government said it was placing the revenue measure in the back

It would instead focus on the passage of a measure to increase the valueadded tax (VAT) from 10 percent to 12

The telecom franchise tax measure would have raised about P11 billion for the government next year.

The Senate minority bloc projected, however, that the revenue measure, coupled with the 10 percent value-added tax on mobile phone rates, would generate as much as P20 to P30 billion.

Par from blaming the President, however, Arroyo costigated her advisers for exposing her to a meeting where her request could be denied, however diplo-

hand or, having been so advised, she nevertheless persisted?" asked Arroyo.

He pointed out that the telecom executives politely declined the President's appeal in the presence of a phalanx of congressional leaders led by Senate President Franklin Drilon and Speaker Jose De Venecia, her fiscal managers and the revenue and economic chairs of both legislative

Arroyo said the telecom executives did not do anything wrong in denying the President's request "because indeed they are duty-bound to protect their companies' interests.

He said the real problem lay with the President's advisers and handlers.

"Why they proceeded with the meeting without the preliminary spadework and with the result uncertain, a process

"Was the President not advised before- that embarrassed the President, is the product of juvenile minds in the Palace,"

he said. Drilon said, however, that the tele com franchise bill remained part of the President's eight revenue priority mea-

"I am not aware that it is totally shelved," he said, but admitted that the House had decided to give priority to the increased VAT bill over the franchise tax

Drilon said there was nothing the Senare could do about the matter as all revenue measures originated from the House.

"Under the Constitution, the House must initiate [tax measures]. We can only adopt, alter, amend, reject a revenue measure that originates from the House," he

Palace defends meetings with telco, tobacco execs

By Gil Cabacungan Jr.

MALACANANG does not find anything wrong with President Macapagal-Arroyo's secret meetings with top executives of the telecommunications and tobacco industries saying that these were no different from congressional hearings.

"This is part of the dialogue, it is part of consultation. Even Congress coes this when they conduct hearings be! te passing a bill," said Press Secretar 'anacio

Bunye in an interview with dzR. Just like the public hearings cana ted by the Senate and the House of Pepresentatives, Bunye said that the two consultations made by President Arroyo included not only industry executives but also the leaders of Congress. But unlike congressional hearings, the President's consultacumstances as both were unannounced to

Some lawmakers have frowned on the President's consultations with the industry executives because they see this as an intrusion into their lawmaking turf. Sen. Joker Arroyo also said that the consultations have been a source of embarrassment for the President who has not obtained the support she expected from a Congress dominated by

President Arroyo met with tobacco executives in her Forbes Park residence last month and held a similar meeting with telecommunication executives in Mala-

cañang last Sanurday. While the President succeeded in getting the nod of rivals Portune Tobacco

tions were held under clandestine cir- and Philip Morris Philippines in supporting a compromise formula on the tobacco tax, she failed to convince telecommunication executives to agree to her proposal to shift the industry's tax from value added tax to franchise tax. The President has since scrapped the franchise tax and decided to push instead a higher VAT rate for telecommunication

> "We don't see anything bad about us consulting with business sectors to be affected by any legislative or executive action," Bunye said.

Bunye said the consultations have led to speedier deliberations on controversial bills such as the proposal to raise taxes on cigarettes and alcohol products. "We believe in due time the proper law will be passed," Bunye said.

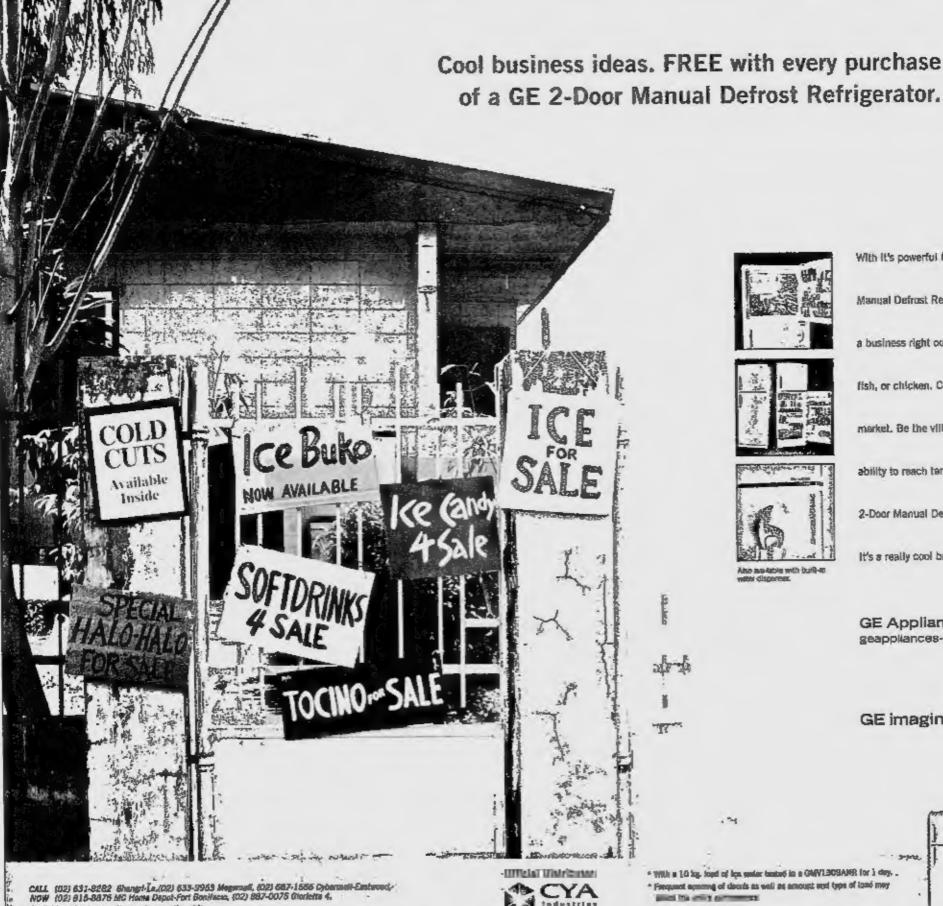

Group warns of text revolt

By Norman Bordadora

THE CONSUMER advocacy group TxtPower yesterday threatened another "text revolt" against the proposed two-percent increase in the value added tax after what the group called the success of telecommunications firms in lobbying against the franchise tax.

Trixle Concepcion, TxtPower spokesperson, said the group is planning a stronger, bigger and more powerful text message-based protest if the increased value added tax pushes through to make up for President Macapagal-Arroyo's alleged junking of the franchise tax proposal.

"The tax on windfall profits of the telcos has been cannibalized and named into a Another Oppressive Tax on the Poor People," Concepcion said.

Multi-billion savings and loan scam bared Singapore PM

A CONCERSSMAN from Sorsogon yesterday usplored the alleged pillage and mismanagement of the multibillion-peso assets of the Air Materiel Wing Savings and Loans Association, Inc. (AMWSLAI) through "ingenious schemes" by its board of trustees.

In a privilege speech, Rep. Jose Solis, a retired Army general and former member of AMWSLAI, said the organization's trustees "conspired" to grant themselves with P77 million in advanced gratuity pay without approval from the general membership and authority from the Monetary Board of the Bangko Sentral ng Pilipinas.

The AMWSLAI was created on June 11, 1956 by at least six Air Porce personnel with initial capital contribution of PSO each and served as "paluwagan" for members to counter usurers, it has grown to about 32,000 members today, composed

of active and retired military officers, enlisted men and civilian employees.

Solis said that i 2003, the BSP supervision and examination department III uncovered at least 10 irregularities allegedly committed by the incumbent AMWSLAI board which remained unresolved until today.

These anomalies included the grant of P680 million loans to 10,000 nonmembers in violation of the corporate by-laws; the grant of car loans to trustees with repayment period longer than their three-year terms, and the grant of additional compensation to trustees in excess of allowable 10 percent without BSP approval.

Solis also said that the BSP examination team also discovered that more 'than P2.7 billion past due loans remained uncollected; booked valuation reserves for loans and other risk assets is deficient by more than P2 billion; acquisition of a 14-door apartment over-

prices by P1.2 million, and contracting the services of a favored construction company identified as Emeco International Trading and Construction Inc.

Furthermore, the AMWSLAI board also created the Philcredit Lending Service, Inc., and diverted some P150 million in cash advance to finance the operations of the lending firm, which same set of directors and officers like the AMSLAI.

The AMWSLAI trustees have obtained DOSRI (Directors, Officers, Stockholders and Related Interests) loans from Philcredit Lending. The DOS-RI loans were obviously taken from the AMWSLAFs P150 million cash advance to the lending firm," Solis disclosed.

Solis said that six of the incumbent AMWSIAI officials were arrested last Nov. 23 by virtue of the warrant issued by Pasay Judge Thelma de los Santos and Judge Gina Bibat Palamos for falsification of private documents.

They were Thadeus Geronimo, Luvin

Manay, Tereso Pelias, Ismael Abad, Johnson Nestor Ocfemia and Anselmo Geronimo.

They were arrested on the complaint of two AMWSLAI members, retired Air Force Col. Laureano Lacambra and Maj. Marlon Marasigan for allegedly faking private documents related to the embezzlement of the P77 million members' contributions. The suspects were set free on a P12,000 bail bond each.

Solis said many of the incumbent AMWSLAI officials have managed to continue sitting as board members for the past 15 years and apparently have successfully covered up several anomalous transactions from the soldiers' trust fund.

"They have been able to perpetuate themselves as members of the AMWSLAI Board of Trustees and conducted several anomalous transactions that caused massive dissipation of corporate funds and membership contributions," Solis said.

arriving today

SINGAPORE'S new Prime Minister Lee Hsien Loong is arriving in Manila today for a twoday official visit, foreign affairs officials said

Lee, son of former Prime Minister Lee Kuan Yew who assumed the post in August this year, is visiting the country as part of his swing around member-countries of the Association of Southeast Asian Nations (Asean), foreign affairs spokesperson Gilberto Asuque

The Prime Minister, whose entourage includes his wife Mrs. Lee and Foreign Affairs Minister George Yeo, will call on President Macapagal-Arroyo and other government of-

The President and Mr. Lee will discuss bilateral and multilateral issues, and explore opportunities for cooperation in security, trade and investment, tourism, information technology and socio-cultural cooperation, according to Asuque.

Airport terminal fees hike sought

By Clarissa S. Batino

TERMINAL fees at the Manila airport may soon go up to about P800 for overseas trips and to P200 for domestic flights.

On top of that, the state-run airport operator is studying proposals to impose a security fee and to start charging anew for the use of trolleys.

This is what the Manila International Airport Authority would like to happen so it could arrest a drop in revenue this year. MIAA general manager Alfonso Cusi said the hike in terminal fees could improve the airport agency's annual revenue by about 30 percent.

The Ninoy Aquino International Airport that is run by the MIAA charges a terminal fee of P550 on overseas flights and P100 on local

"The MIAA has been asking for approval to increase the terminal fee overseas to about P800 and in domestic to about P200. But we would like to make sure that any increase would not drastically affect travel," said Cust.

>From January to October, the MIAA posted a net profit of P640.4 million against a 10-month target

of only P256.3 million. Cusi said the agency already surpassed its full year profit target.

Of the net income, a little over P200 million came when Cusi started in the MIAA in August. He said the agency's profit target from August to October was only P91.2 million.

However, revenue or gross sales during the 10-month period sagged at P3.67 billion against a target of P4.2 billion.

*Our total revenue generating capacity was adversely affected by the non-implementation of the planned increase in international and domestic passenger terminal fees," Cusi said

The MIAA, he said, had to cut costs so it could register profits despite declining revenue.

Cusi said since he started at the MIAA, the agency had posted savings of P303.8 million. The MIAA had earmarked a budget of P910 million to cover expenses from August to October but spent only P606 million.

Apart from the increase in terminal fees, the MIAA wanted to collect a \$5 security fee and to charge travelers for the use of the trolley. Cusi said these revenue-enhancing measures were still under review.

2nd Week of Advent 1st Reading:

ls 41:13-20 Mt 11:11-15

Jesus said to the crowds, "No one greater than John the Baptist has come forward among the sons of women, and yet the least in the kingdom of heaven is greater than he. From the days of John the Baptist until now the kingdom of heaven is something to be conquered and the unyielding seize it.

Up to the time of John, there was only prophesy; all the prophets and the Law; and if you believe me, John is this Elijah, whose coming was predicted. Let anyone with ears listen!"

Jesus said, equivalently, that John the Baptist was the greatest man (or among the greatest) who ever lived. Yet, he added, "the least in the Kingdom of heaven is greater than he." The expression "the least" is the superlative form of the expression "little one." "Little ones" is the term used for disciples (see 10:42; 18:6, 10, 14); so "the least" is the least disciple. The greatest man who ever lived thundered judgment, but even the legit disciple knows the greater depth and the superior power of love.

The scholars have found no satisfactory interpretation of the middle part of today's reading. Enough for us to meditate on the strange paradox that power is ultimately weak, and weakness ultimately powerful. "When I am weak, then I am strong," wrote St. Paul (2Car 12:10). Expand it from your own experience: when I fail, I learn more (and more deeply) then when I win; when I am disappointed, I begin to emerge from the fag of my illusions and touch reality; when I stop trying to surpass myself, I discover only then that I have been trying to abandon the child in me who alone will enter the kingdom of heaven...

against the extension earlier denounced the Monday practice in a one-page n wletton yearonder fl., dopped and announced their "full support" behind Philippine National Police Director General Edgar Aglipay, whose term has been extended.

> Dick Afroilan, executive director of the Association of Chiefs of Police of the Philippines Inc. (AC-CPI), said the resolution had "no teeth" and was not meant to criticize Aglipay.

> During its 6th national convention last

> > AVALA

BLS

an orga ed and ac 100 police officia' med a resolution con-30ing the practice of extending the terms of retiring PNP officials.

The ACCPI said the scheme "casts the organization into disrepute and eventually into disintegration" that "deprives" other police officers their opportunity to get higher positions.

The position, in principle attacked Aglipay who had been granted a sfxmonth term beginning last Sept. 13, the day he reached the mandatory retirement age of 56.

The INQUIRER ITE port on the resolution irked Aglipay who insisted the AC-GPI assailed the extension of terms in all other police positions except that of the PNP chief.

In a statement, AC-CPI chair Guillermo Domondon vesterdáv said the resolution should not be "interpreted to cast doubt" on the PNP chief.

"Any impression to the contrary does wrong not only to the PNP chief but also to the (ACCPI) general assembly," the retired former PNP comptroller said. "We want to correct such impression."

Domo..do: his group was even commending Agapay for assuring the PNP that he would no longer seek another extension after his term expires on

March 13 next year "The association fully supports the programs and projects of the chief, PNP; no ifs, no buts," he said. i

In the first place, Afroilan said the ACOPI could not do anything about President Macapagal-Arroyo's decision to extend Aglipay's term and that of other top PNP officials.

Ours was just an opinion," he told the INDURER. "If the President chooses to extend a police official's term, who are we go question it?"

Gays want free AIDS testing

By Carlito Pablo - !

GAYS yesterday distributed an open-letter at the House of Representatives calling for the passage of a bill providing for

free AIDS resting. Citing their right as "honest taxpayers," members of the gay organization Altermale lobbled for the crafting of such bill as part of their "Later is Too Late" campaign against the dreaded Acquired Immune Deficiency

Syndrome. "While we agree that taking the AiDS test is a personal decision, we feel that encouraging our fellow gays-and most especially straight males with a wandering eye-to take the AIDS test, is a step in the right direction," Altermale vice president Vincent Mendoza said in a statement

"it's no longer enough for gays and straight men alike to be content with Just knowing about the dangers posed by AIDS," Mendoza

PHILHEALTH CIRCULAR

No. 29, a. 2004

ALL ACCREDITED INSTITUTIONAL HEALTH CARE PROVIDERS, PHILHEALTH

Revised Guidelines for Accreditation for Year 2005 SUBJECT:

AND ALL OTHERS CONCERNED

I. The Department of Health has Implemented Administrative Order 147 s.2004 effective May 15, 2004. Based on service capability, hospitals are now categorized as Infirmary, Primary Care, Secondary Care, and Tartiary Care. PhitHealth will still follow the old categorization as Primary, Secondary and Tertiary categories for all accredited hospitals.

REGIONAL OFFICES, SERVICE OFFICES, ACCREDITATION DEPARTMENT

For guidance of everyone concerned, the equivalent categories for DOH and Phill-tealth are as follows:

DOH	PhilHealth
Birthing Homes (Primary)	Primary Category
Birthing Homes (Secondary)	Secondary Category
nfirmary	Primary Category
rimary Care	Secondary Category
Secondary Care	Tertiary Category
Tortiagy Care	Tertiery Category

II. Per Philiteath Board Resolution No. 723, s.2004, the Board resolved to approve the increase in accreditation fees.

A. The Fees for Initial Accreditation and Re-accreditation are as follows:

Type of Institutional Health Care Provider	Fee
Primary Care Benefit or OPB Providers (inc. RHUs/HCs)	P1,000
TB-DOTS Providers	P1,000
Non-Hospital Maternity Care Providers (Inc. Birthing Homes)	P1,500
Infirmary (formerly primery hospitels)	P3,000
Primary Cara Hospitals (formerly secondary hospitals)	P5,000
Ambulatory Surgical Centers	P5,000
Free Standing Dialysis Centers	P5,000
Secondary Care Hospitals (formerly lartiery hospitals)	P8,000
Tertiary Care Hospitals (formarly tertiery hospitals w/ teaching & training programs)	P10,000

R. The Fees for Renewal of Accreditation are as follows:

Type of Institutional Health Care Provider	
Primary Care Benefit or OPB Providers (inc. RHUs/HCs)	P1,000
TB-DOTS Providers	P1,000
Non-Hospital Maternity Care Providers (Inc. Birthing Homes)	P1,000
nlimary framerly primary hospitals)	P2,000
Primary Care Hospitals (formerly secondary hospitals)	P4,000
Ambulatory Surgical Centers	P4,000
Fran Standing Dialusis Centers	P4,000
Secondary Cara Hospitals (formerly tertiary hospitals)	P8,000
Tertiary Care Hospitals (formarly tertiary hospitals w/teaching & training programs)	P10,000

- Aŭ government owned inetitutionaj health care providera shall be granted a 20% discount on the initial accreditation faces,
- 2. All institutional health care providers shall be granted a 25% discourt on the accreditation renewal fees provided that all renewel requirements are submitted 60 days prior to the date of expiration or of the date of renewel of accreditation.

- All institutional health care providers shall be granted a 10% discount on the accreditation renewal fees provided that all renewal requirements are submitted 30 days to 59 days prior to the date of expiration or of the date of renewal of accreditation.
- 4. The increase in accreditation fees and the rules on the application of discounts on fees shall take effection all applications for initial accreditation, re-accreditation, or renewal of accreditation filed beginning January 1, 2005.
- 5. In case the hospital is licensed as Tertlary under the old DOH classification, the renewal fee shall be set at Secondary Care Hospital which is Php8,000 until such time that the hospital is issued a new DOH license using the new DOH classification.
- El. Schedule in Filing Applications for Renewal of Accreditation of Hospitals and ASCs for the
 - A. It is reflexated that the current accreditation of Hospitals and Ambulatory Surgical Clinics (ASCs) will expire on the following dates:

Radion	Expiry Date
Regions VII, VIII, IX, X, XI, XII, CARAGA and CAR	April 30, 2005
Region V	June 30, 2005
National Capital Region (Rizal Province included)	September 30, 2005
Regions I, II and III	October 31, 2005
Regions IV-A, IV-B and VI	November 30, 2005

B. To facilitate processing of applications for renewal of accreditation and the evalinem of discounted accreditation fee for the year 2005, hospitals and ASCs are enjoined to strictly adhere to the filing period as follows:

Region	Filing Period	Period of Vaildity		
Regions VII, VIII, IX, X, XI, XII, CARAGA, CAR	January 1-31, 2005	May 1, 2005 - Apr. 30, 2006		
Region V	March 1-31, 2005	Jul. 1, 2005 - June 30, 2006		
National Capital Region (Rizal Prov. Included)	June 1-30, 2005	Oct. 1, 2005 - Sept. 30, 2006		
Regions I, II and III	July 1-31, 2005	Nov. 1. 2005 - Oct. 31, 2006		
Regions IV-A, IV-B and VI	August 1-31, 2005	Dec. 1, 2005 - Nov. 30, 2006		

- 1. Please note that accreditation takes effect on the date of recommended approval by the Accreditation Committee. Claims for confinements before this date shall be automatically dented payment. However, If the application for renewal is submitted within the above-stated tiling periods then the privileges of accreditation of the institutional health care providers shall not be attended by a gap notwithstanding the actual date of approval of the application for renewal.
- 2. The timely submission of applications with the full compliance to accreditation, requirements shell facilitate the approval of providers' accreditation and the continuous reimbursements of filed claims. In case the hospital cannot fully comply with the requirements for the renewal of accreditation for reasons beyond the control of the facilities, such application is deemed acceptable based on the decision of the AVP for PhilHealth Regional Office concerned.
- 3. Procedures in filling of applications for renewel of accreditation of hospitals and Ambulatory Surgical Clinics (ASCs) including the schedule are the same as in CY 2004.
- 4. Pursuant to Philiteath Circular 15, e.2064, the hospital is required to submit updated linancial statements in the application for renewel of eccreditation of hospitals. Again, it is reiterated that this is to determine the financial capability of hospitals in the delivery of quality health care services.
- (V. Schedule in Filing of Applications for the Ranswal of Ascreditation of other health care facilities. for the Year 2005-2906

The renewal of accreditation of other health care providers shall follow the explay date of custerul accraditation.

For guidance and strict implementation.

Navy ship on mercy mission battles lethal sea of logs

pine Navy landing craft floared through the pitch-black night vainly searching for the shore, giant logs slammed menacingly into the side of the vessel.

"This is what I was afraid of," said Chief Petty Officer Bienvenido Monedero, as he sucked on a cigarette, worry etched on his weather-beaten face. These logs could be deadly and could set us adrift."

The crew had cut off the engine, fearing the propeller of the 60-foot steel-hulled vessel could be sheared off or snagged by the deadly flotsam.

Navy vessel DF 317 was look-

REAL, Quezon-As the Philip-ing for a drop-off point for much- Navy in Real. Its mission is to fer- smithereens," he said. needed relief supplies for Real, one of three eastern towns worst hit by storms last week which have left over 1,500 people dead

> The back-to-back storms that hit Luzon have cut communications and left tens of thousands homeless, without food, water or medical supplies.

Navy workhorse

The only light source coming through the darimess was the faint blinking of flashlights from survivors huddled on a nearby

DF 317 is the workhorse of the

ry relief from the port of Mauban, some 50 kilometers across a stretch of the Pacific Ocean which continually churns with waves as large as houses.

Its small crew of 12 have not slept for days. They are kept awake by black coffee and the importance of their mission.

"In my 30 years at sea, this is by far the worst disaster I have witnessed," said Monedero, who has skippered navy vessels in areas such as the Sulu Sea which is infested by pirates and rebels.

The sea can be unpredictable and the logs could batsmaller vessels into

On the vessel's bow, volunteers and the vessel's crew sat with flashlights trying to spot logs in the gloom.

Mile-long logs

A concentration of flotsam and huge logs washed down by the floodwaters from the Sierra Madre mountains stretched for about a mile and blocked the mouth of bay giving access to Re-

A portable generator was the only power source on the 20year-old ship which has seen bet-

"Logst Logst," one of the crew

members shouted, before a loud crashing sound was heard from the ship's port side.

The boat swayed a little, but seemed to take the blow. Everyone breathed a sigh of relief, but Monedero appeared more wor-

"This boat can take it. But not all the time," he said.

The vessel slowly inched its way to the pier, Monedero barking orders as he struggled on the wheel in the darkness.

Worthwhile voyage

The only communication was between crew members shouting directions to port officials on the armed with M-16 rifles.

ground. The Pacific breeze muffled the sound on the ground.

Some 45 minutes later the vessel managed to dock, but it wasn't gentle. The waves sent the vessel crashing against the concrete pier. Luckily there was no dam-

Bust another day at the office," said Monedero, who is planning to retire in a few years after his eldest daughter finishes law school.

"It's times like this that make it all worthwhile."

A throng of survivors suddenly crowded the pier, jostling for rai

HOLIDAY cheer? Or so it would seem but not quite. The faces break into smiles of rollef as goodies are now within reach of these typhoon victims in Infanta, Quezon.

RECENT disasters in mind, President Arroyo said illegal loggers are violators of the right of sustainable environment during Human Rights Day ritus

Task force has 30 days to nail illegal loggers

From page A1

"grateful" for her officials' "swift response." She said illegal loggers had been arrested in seven pre-dawn raids in Mauban, Quezon, and had been charged. (See article on Page A10.)

"We shall prosecute the wrongdoers and restore the dignity of victims of oppression," she said.

Vigilance required

Defensor said personnel from the Armed Forces and the Philippine National Police, and even from the Department of Environment and Natural Resources, might be involved in

illegal logging. "I do not discount that possibility. That's why the community must be vigilant. If the community makes it a fight, illegal logging will be stamped out," he said.

Defensor said he could "hit hard" because

he had "no personal interests."

He chided Sen. Jamby Madrigal for saying that he had done nothing to protect the environment and natural resources: "She should examine her family's history. What are the business interests of the Madrigals?"

The neophyte senator belongs to one of the Philippines' wealthiest families, who built its fortune on shipping, mining and real estate.

"If she wants to help, she should do something and not just talk," Defensor said, adding that the DENR under his helm had been "actively" campaigning against "hot logs."

Serious challenges

Press Secretary Ignacio Bunye said government relief and rehabilitation efforts would be unrelenting and would push through until every affected family had been able to get back on its feet.

"But we acknowledge the serious chailenges entailed in the rehabilitation of our de-

nuded forests," he said, adding: "This is a strategic issue of national survival that will require the active participation of ev-

ery citizen in the community. "Our newfound solidarity to help the victims

of the calamity must also rekindle our sense of awareness and concern for the environment as an investment in our future."

Burrye clarified that the suspension of commercial logging operations ordered by the President in the wake of the disaster would be in force until the DENR had concluded its investi- a four-bould have a total log han," he added. garion on illegal logging in the affected areas.

Long-term solution

The operations are suspended until such time that the DENR has made its investigation. After that, the DENR as lead agency that investigates the individual logging concesor operations will, on a c sis, make a decision if the operations will resume," he said in a radio interview.

Bunye said the President recognized the need for a long-term solution to the problem of the forest denudation by means of legislation.

"Congress will have to pass a law. We need to have a consensus on whether we should have a total or partial log ban, and for how long," Bunye said.

He said the President would certify whatever final version the Congress committees would decide.

ignorance, greed

Manila Archbishop Gaudentio Rosales, a longtime champion of environmental preservation, attributed the lack of a policy on logging to the supposed ignorance and greed of the government.

Rosales said the "application of economics" was the main reason Malacañang and Congress was still not going for a total log ban to save the forests and reduce the damage during typhoons.

"Greed is destroying the forest," Rosales said in a homily during a Mass on the feast of the lmmaculate Conception at the Manila Cathedral

in an interview after the Mass, he said the govermnent and the people still did not understand how nature worked despite strong reminders of "the wrath of God and nature" during calamities caused by environmental degradation.

"Why do they not respect nature? Again, it's money ... They do not understand total or selective log ban," Rosales said.

You impose a selective log ban when you still have forests to select from. But when you have very little, practically nothing, left, then

Fought for ill years

Rosales, who fought illegal loggers for 11 years during his tenure in Bukidnon, said the government should not only go after illegal loggers but halt logging altogether.

"At this stage of the game, it's not just illegal logging that should be stopped, but even legal logging," he told reporters in an interview at the Arsobizpado de Manila.

He said a total log ban for 30-50 years would be enough to rehabilitate and revive the forest cover, of which only 2 percent is left.

"it's hard, hard, hard to fight illegal loggers because it involves money, greed," Rosales said.

The difficulty is the strong application of economics. Let me say this as a man engaged in it before ... We have the wrong policy of making money out of our natural resources, cutting trees for export," he said.

Capital punishment

In a privilege speech, actor-turned-senator Ramon "Bong" Revilla Jr. sought the death penalty for illegal loggers after seeing for himself the death and destruction caused by landslides and floods in Quezon.

Buhay ang inutang, kaya buhay din ang imbayaran. Death to illegal loggers!" he said. Revilla recounted the two days he spent

last week in the typhoon-devastated town of Real in Quezon, which, he said, was an experience that had made him "a complete human being" and "a better public servant."

He said he was in the province on Dec. 5-6, the height of Typhoon "Yoyong," and that what people saw on TV paled in comparison with the truth of what he saw there. With reports from Re Zamora and Christine O.

He's so stricken by grief, he lost bis mind'

mountain in Barangay Villa in Ma. Aurora town rushed down the following day, Suril, 44, ran, shouting and warning his team to run for safety.

Uprooted trees, rocks

Aquino, explaining what happened to the Suril team, cited the accounts of survivors. He said that when the team reached Labi Bridge, a strong gush of water carrying uprooted trees and rocks swept away Suril and DPWH workers Luis Nanong and Edgardo Aragon.

Their bodies were found more than four days later in the downstream tributaries of the river.

Nanong's right leg was missing. Battered by rocks and trees, their bodies bore several wounds.

Eulogy

During the burial for Suril in Baler on Monday, Aquino called him and the DPWH workers "unsung heroes."

"Amid this disaster, our men did their duties to the detriment of their lives. They exemplify public service and dedication to communicies we are tasked to serve," he said. On Monday, helicopters airlift-

ed gasoline for the bulldozers at the work site. Aquino said he suspended clearing operations, not wanting to risk the lives of DPWH personnel any further.

it may take several weeks before the Bongabon-Baler Road is opened again to traffic, he said.

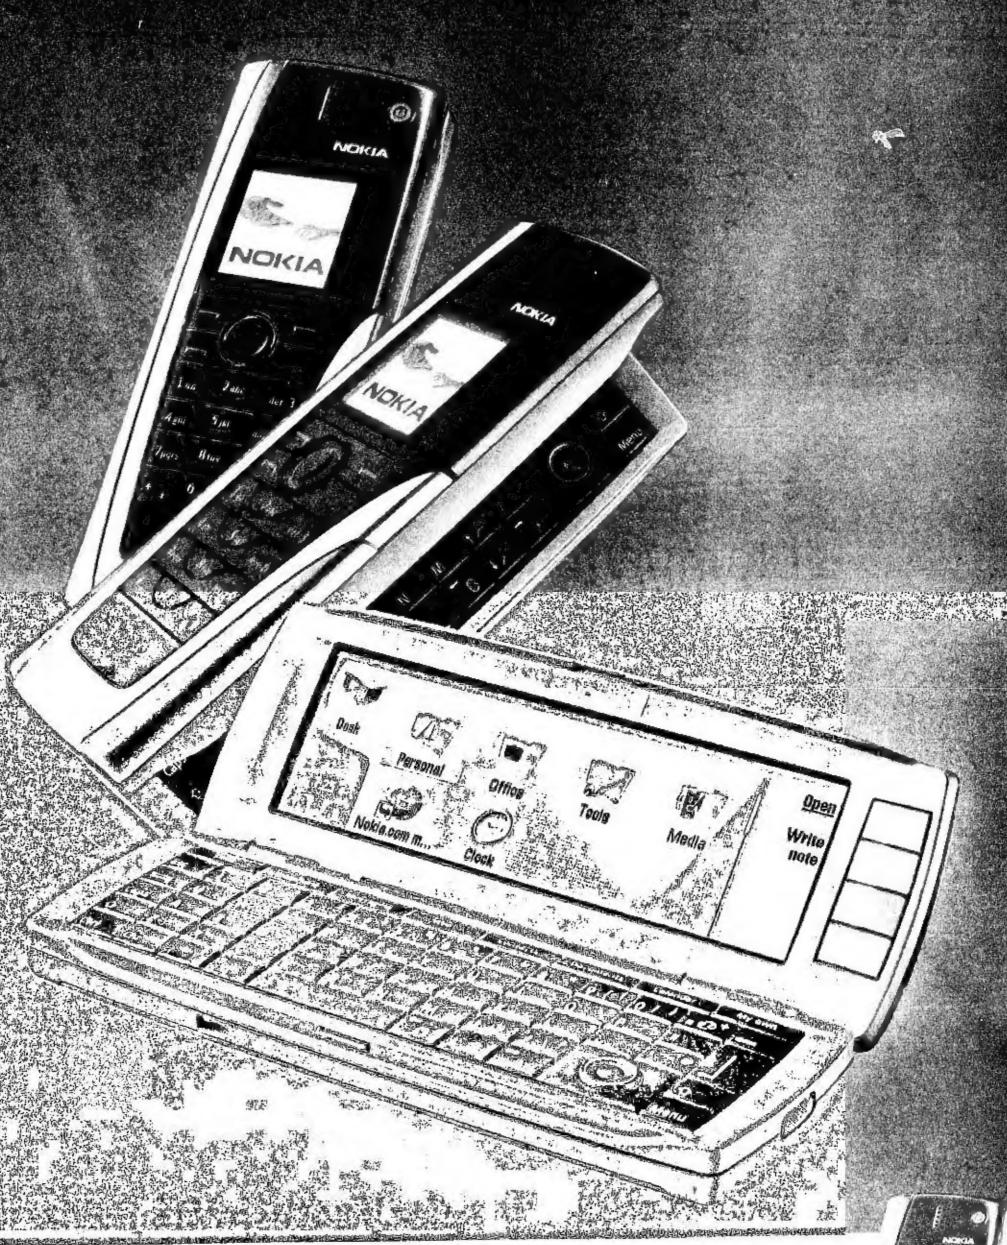

Aurora la accessible via Pantabangan in Nueva Ecija. The route to Dingalan, which is separated by Mt. Mingan from the rest of Aurora, was reopened via a repaired bridge in Barangay Cuyapa in Gabaidon, Nueva Ecija. The DPWH put up a steel Bailey

bridge in that section. Residents placed tree trunks on the approach to the Langawan Bridge which had been damaged so light vehicles carrying food supplies can get to Dingalan.

US SEAHAWK chopper ferries children and sick residents from Real, Quezon, for treatment in Manila. Forty US Marines have arrived here on a relief mission for the victims of the back-to-back typhoons that had hit the country, and will stay here for as long as they are needed. (Story on Page A2)

Defensor, Corpus lead raid on Mauban sawmill

By Volt Contreras

MORE of the same damning evidence, but still no face for the evil that is illegal logging.

An armed team led by Environment Secretary Michael Defensor and forest czar Victor Corpus stormed six sawmills allegedly processing "hot logs" in Quezon in a series of raids that began Tuesday night.

But the team, which invited news crews to cover the raids, failed to arrest any of the sawmill owners and merely took into custody two men serving as caretak-

As of yesterday, Defensor could only name the sawmill owners who, he said, would be charged with violation of forestry laws.

it was the government's first high-profile action against logging syndicates since President Macapagal-Arroyo ordered a crackdown last week.

In a statement, the Department of Environment and Naturai Resources said the six sawmills were all operating in Mauban town.

Their owners are: Rebecca Gonzales, Barangay Ba-ao; Danny Miraflores, Alubin; Carmen Manuba, Aluhin; Dance Mamore, Aluhin; Noel Co, San Lorenzo; and Joel Aimirenes, Tejero.

"These sawmills were illegally processing timber that originated from Real, Infanta and General Nakar towns, which were all

severely devastated by the flash floods brought by four typhoons recently." Defensor said in the statement.

He said the loggers used Mauban as a processing area for the logs and supplied wood to furniture makers in Valenzuela and Cainta, Metro Manila.

Expensive varieties

Defensor, said among the seized logs were expensive varieties like lauan and narra.

The sawmill owned by Gonzales stood just behind her house, he said, adding: "The band saw was still running [when we got there]. What the workers did was to remove the teeth of the band anw and run off with it."

In Miraflores' case, he had a be "held responsible." business sign declaring him to be a copra dealer. But his two-story house supposedly had secret passageways leading to the basement where hundreds of cut logs were stored.

At the back of the house was a 10-meter-wide river, where "hot logs" were believed floated for faster transport. The village is along Quezon's coastline that faces the Pacific Ocean.

Defensor said none of the nawmili operators were arrested, but papers found in their premises showed they used "recycled" permits to transport logs signed by Primitivo Galinato Jr., Region 4-A executive director.

Galinato, he said, would also

Later in an interview, Defensor suid the volume of the seized logs had yet to be determined but initial estimates placed their worth between P6 million and P8 million."

Only caretakers

Asked why the raid failed to yield hig fish, Defensor said only the first and sixth sawmill raided were manned, each by a single caretaker, when the team arrived.

He could only recall the name of one of the caretakers as "Fred" from the sixth sawmill.

INQUIRER chief of photographers Ernie Sarmiento, who covered the operation, supplied the name of the caretaker of the first sawmill: Xerces Tampok.

When confronted, Tampok claimed he was merely a "fisherman" hired to guard the place two months ago, Sarmiento recalled.

The mill yielded a chainsaw and a stockpile of logs concealed in one of the rooms, Sarmiento

Corpus ordered some of the soldiers to guard Tampok before the team left for the second tar-

Going by Sarmiento's account, it was not hard to see how people marning the rest of the sawmills were able to get wind of the oncoming raiders and to flee.

The convoy was composed of around 15 cars and two mounted police escorts, navigating mostly rough roads.

Lawmakers challenge anti-pork survey

mous with kickbacks and corruption," said Drilon, who will give up his pork barrel next year in response to the fiscal problems of the government.

Still, he said there was a need to overhaul the pork barrel system "to ensure transparency and accountability in its implementation."

But Sen. Punfile Lacson, who has given up his pork barrel for good, said the pork barrel system should be abolished.

"I studied pork barrel and made a judgment on it as evil," Lacson told reporters in reaction to the finding of Pulse Asia that 54 percent of respondents wanted the pork barrel reduced.

The survey also found that 30 percent of the respondents wanted it abolished, while only 16 per-

Jamby subjects 'sin tax' ...

From page Al

relief in the Senate Tuesday night when out of the blue she lectured senior colleagues about the effect of supply and demand on the consumption behavior of smokers.

Interpellating Sen. Ralph Recto, chair of the Senate ways and means committee, Madrigal rattled off economic largons such as econometric model, regression analysis and elasticity in explaining the proposed increases in excise taxes on cigarette products.

Amid chuckles from fellow senators, Madrigal, who is not known to be an economist or a tax expert, proceeded to use an algoritythmic model to find the incremental income of the manulow-priced of facturers cigarettes.

Applying the proposed rates of Sen. Juan Ponce Enrile (a 435.7-percent tax rate on low-priced cigarettes), Madrigal said would yield PO.7 billion for the first year.

She then used a "regression analysis" to predict consumer behavior in a certain market, in this case the cigarette industry.

Pythagorean theorem

Not even Recto, resident tax expert of the Senate, or Sen. Mar Roxas, former trade secretary, used regression analysis in presenting the wisdom of the proposed tax rates.

"Would the chairman accept my amendment in the event that I prove, through Pythagorean theorem, that this is a point at which the consumer will not buy cigarettes," Madrigal told Recto.

Using a projector, she illustrated through a line graph the basic demand and supply intersection to prove that higher tax rates on low-priced brands would deter low-income people from buying cigarettes because of the prohibitive price.

It was then made apparent that her ultimate goal is to help smokers quit the habit, not increase revenues.

Flawed model

Recto was then forced to ask Madrigal about her theory, pointing that the model was flawed because it only talked of the supply as recorded by the market, and did not take into account other "observable factors."

In the real world, eigarette dealers also buy supplies from smugglers which cannot be quantified at this point, he said.

"I went through tedious ... computation to show why we reached certain elasticities," Madrigal answered back.

She said that clasticity referred to the relative response of one factor to another (or if the prices go up in the case of cigarettes, would the smoker decrease consumption or shift to another brand).

"I did this to prove a point: that there is an econometric model, and that there is empirical data and pro-'cess," she added.

Not empirically based

But Recto said the ways and means committee had a "differ-

MADRIGAL: Certain elasticities

ent finding."

"But your findings are not empirically based and they are not calculated. Can you give me your calculations, models so that we can compare," Madrigal snapped

Recto, trying to understand her calculations, said that what Madrigal was saying was that the volume of consumption of a cigarette priced at PI.12 per pack, if increased by 630 percent, would not change.

"Meaning to say, if you raise the low-end tier, or increase the tier, it will be the same volume," he said.

Madrigal said that she was just "wanting to see at which point taxes could be increased where low-end manufacturers the would not have an increase in demand for his products, or where it would remain at the same level."

She said she wanted to point out that certain cigarette manufacturers would not benefit or lose from raising excise tax rates by at least 630 percent.

At this point, Roxas then interjected, saying he too was trying to understand the finding of Madrigal's econometric model.

'Slope co-efficient'

"Given the data and the regression analysis, what is the slope co-efficient that was found?" Roxas said.

Roxas was referring to the "elasticity" of consumer behavior in the absence of substitution (quit smoking by resorting to soft drinks and candies as alternatives).

He noted that the Madrigal model assumed "a broad range of action or behavior patterns by consumers because it takes the impetus as an increase in consumer activity."

"If you could just simplify what would be the calculated behavior change, assuming a simplified world-one product with no subattrution either in cigarettes or in other consumer behavior-what would be the behavior pattern for every one percent or one unit of price?" he asked.

'Scientific rigors' Roxas then ended his interpel-

lation by telling Madrigal that although she should be credited for inserting "scientific rigors to our discussion, the model should be simplified such that there be no substitution because there can be a great deal of debate as to what would be substituted."

clo for "indirectly implicating" his camp to the murder

51-year-old Singson's long-time secretary, was killed with a single shot in the back while walking along Malvar Street in Ermita, Manila, at 6:45 p.m. on Tuesday.

"She could have been mistaken for Emma Lim," Singson told the INDUMER by phone early yesterday.

Lim, another secretary of Singson's, is also scheduled as a prosecution witness in the plunder mal that resulted from the governor's expose in 2000 that Estrada had received payoffs from justeing operators.

'Feelers'

But in an strange twist, Estrada spokesperson Didagen Dilangalen claimed that Perez had sent "feelers" to the former President's camp to testify against Singson.

The truth is, we lost a vital witness," said Dilangalen, a former representative of Maguindanao. "Villa-Ignacio's claim that the victim was to be used by the prosecution as a rebuttal witness was just an afterthought."

Contacted for comment, Singson said: "What Dilangaien said is a confirmation that they are behind the killing of my secretary of 16 years."

He said Perez was loyal, trustworthy and committed in her service to him and his family, and that she had no enemies and was even rejuctant to testify in his favor.

Singson confirmed Villa-Ignacio's statement that Perez had been helping the prosecution.

He said Perez had been going to the Sandiganbayan and giving relevant information to the prosecution panel and reporting to him the developments of the tri-

Insights, information

In a break during the hearing, Villa-Ignacio said Perez was "earmarked" to "refute" the testimony of two secretaries of Sen. Jing-

goy Estrada, the ex-President's eldest son.

The two secretaries earlier testified that they had not seen Singson or Lim going to the young Estrada's office supposedly to pick up jueteng collections.

"One cannot discount the possibility that the killing might be related to the ongoing trial," Villa Ignacio said, adding that Perez had also been "active" in the case involving the Estradas' alleged misuse of the excise tax.

The Estradas are likewise accused of collecting P170 million in the tobacco excise tax intended for Ilocos Sur.

"(Perez) gave us details not known in the subject matter," Villa-Ignacio said. "She was able to give insights and information which I used to cross-examine the witnesses."

'Irresponsible'

But in an interview, Flaminiano said Villa-Ignacio's claim was

DOA at the Philippine General Hospital, Singson's secretary Marilyn Perez was felled by a single shot in the back while on her way home.

"irresponsible."

Former Sen. Rene Saguisag, Estrada lawyer, agreed. He said they did not even know that Perez was giving information to the prosecution panel.

Sagaisag also said they did not even know Perez existed.

Asked to comment on the supposed link between Perez's murder and the plunder trial, Senator Estrada told reporters: "If they would put the blame on us, I don't think that is proper. We have nothing to do with

He expressed sympathy for the bereaved family.

Asked why they were being linked to the crime, the senator said it was probably because Singson had accused him and his father of receiving kickbacks from jueteng operators.

Singson's charges against the Estradas led to the former President's impeachment trial in 2000.

Both father and son are facing plunder charges before the Sandiganbayan.

One child dies of hunger every 5 seconds, says UN report

ROME-More than eight years lier estimate. ofter a pledge to halve the number of the world's hungry by 2015 that number has hardly budged-with one child dying of hunger every five seconds-a UN agency said Wednesday.

Though the number of hungry people in developing countries fell in the early 1990s, that trend was later reversed, the Food and Agriculture Organization said in its annual report on world hunger, By 2000-2002 the figure stood at 815 million, just 9 million below the decade-ear-

The target of cutting the number of undernourished people in the developing world in half by 2015 is still within reach, the Food and Agriculture Organization said, contending that the cost for countries to do that would be more than offset by what they would earn in extra productivity and income.

The report said present levels of hunger cause the death of more than 5 million children every year.

it also presented fighting hunger as a good investment,

ing the target pale in comparison erodes cognitive abilities. to the price paid by not acting.

Governments set the goal of halving the undernourished people by 2015 at the UN World Food Summit in 1996.

Wednesday's report said hunger and malnutrition cost around \$30 billion in direct medical expenses each year, with estimated indirect costs due to premature death and disability ballooning into hundreds of billions of dollars.

The report said hunger cuts productivity and earnings, re-

saying the global costs of achiev- duces school attendance and veloping countries held steady.

According to the agency's estimates, an annual increase in funding of \$24 billion would be needed to reach the hunger target, but it would reap \$120 billion in returns each year.

The report blamed the recent rise in hunger levels largely on a worsening situation in the world's two most populous countries, China and India, both of which had earlier recorded improvements. The number of undemourished people in other de-

All but one of the 16 countries with the highest levels of hunger are in sub-Saharan Africa, where many nations are suffering from food emergencies, the report said.

The report proposed a combiagricultural productivity and direct food aid to achieve the 2015

It cited a pledge by world leaders in September to raise an additional \$50 billion a year to fight hunger as an example of current commitment to tackle the problem.

Hartwig De Haen, of the agency's economic and social department who oversaw the report, said the target was "ambitious but still feasible."

The report drew attention to a second challenge faced by both denation of programs to help boost veloped and developing countries obesity and diet-related diseases, aggravated in part by urban lifestyles.

It also highlighted the domination by supermarket chains of international food sales, blocking out small farmers who do not have the technology to meet the supermarkets' standards.

Saudi Arabia probes US consulate attack

tried on Tuesday to discover how militants penetrated the elaborate defenses of the US consulate in what al-Oaida sald was a reprisal for last month's US assault on Falluja in Iraq.

At least nine people died in Monday's attack in Jeddah, the first against a Western diplomatic mission and first big strike in six months in the world's top oil exporter by militants bent on driving Westerners from the birthplace of Islam.

"We have to find out exactly what gave them the ability to get inside and get through the gate," ministry security Interior spokesperson Brig. Gen. Mansour Turki said. "The measures taken were thought to be enough to prevent this."

A statement in the name of al-Qaida's Saudi wing said the squadron of martyr Abu Annas al Shami breached the bastion of the Crusaders" in what it called "the blessed Falluja attack."

US-led forces have blasted

Arabia their way into Falluja to hunt for wanted al-Qaida suspects. insurgents and foreign fighters, including those loyal to America's top enemy in Iraq, al-Qaida ally Abu Musab al-Zargawi.

> Relatives of Shami, Zarqawi's spiritual mentor, say he was killed in an earlier US strike in traq.

The brazen attack against a symbol of the US government in Jeddah showed that Saudi-born Osama bin Laden's ai-Qaida network still poses a threat despite an 18-month-old crackdown in which leading militants have been killed or captured.

It also highlighted flaws in US and Saudi security measures to protect the mission from al-Qaida, which has repeatedly vowed to strike at US interests in the

Officials say the assailants followed an official consulate car into the complex, firing guns and hurling grenades to force entry. No US diplomats were killed but the gunmen burnt the US flag and set fire to buildings.

The Interior Ministry named three attackers killed in the raid, but none was on a list of top

It said another dead militant had yet to be identified, and it would not reveal the name of a fifth, captured militant.

The attackers took a chance while a consular car was going in, so the door was open," Turki said. "They threw grenades at the guards at the gate and stormed through. They had no access mside the consulate itself as they were kept to the perimeter."

"It's clear that some of these people have been looking at our procedures,". US Ambassador James Oberwetter told reporters. "They clearly understood how our cars entered the compound and in my view had scoped it out. We have no plans to move the consulate," Oberwetter said after a top Saudi National Guard official suggested moving the mission to a less exposed area that would be easier to protect.

Oberweiter said the consulate

would reopen in a few days.

Officials said five consulate staff-a Yemeni, a Sudanese, a Filipino, a Pakistani and a Sri Lankan-were also killed. Reuters

UN nixes calls for Annan's resignation

UNITED NATIONS—Security Council members expressed confidence in UN Secretary General Kofi Annan on Tuesday, dismissing calls by some US legislators for him to resign over the scandal-plagued oil-for-food program for Iraq.

Even US Ambassador John Danforth said he had "great confidence" in Annan although he repeated the White House view that no one could make a definitive judgment until all the facts were in from investigations into allegations of corruption in the \$64-bil-

During a working luncheon of the 15-nation council, Annan expressed his determination to "carry out the investigation and to make the facts known to everybody," said Algerian Ambassador Abdallah Baali, the council president for December

There was certainly a unummous view that this was the right thing to do," Baali said.

"Nobody in the room called for Kofi Annan's resignation. On the contrary, we all expressed our confidence in the secretary-general," said Ger-Ambassador Gunter Pleuger. Reuters

Bid to hold new Ukraine presidential polls hits snag

KIEV---Efforts to resolve deadlock over restaging a rigged election stalled on Tuesday after Ukraine's outgoing president reported no progress in talks and parliament took no action to change legislation and the consti-

The row caused further ripples between the West and Russia, which blocked US and European diplomatic efforts for a joint position on the Dec. 26 election re-run. Foreign Minister Sergei Lavrov said that amounted to interference in Ukraine's affairs.

The election, rigged by authorities to hand power to Prime Minister Viktor Yanukovich, triggered mass protests in support of opposition leader Viktor Yushchenko. The Supreme Court backed Yushchenko's charges of mass fraud and ordered the new vote.

Signs emerged that more than two weeks of turmoil were beginning to dent the economy. The budget deficit jumped to \$1 billion from next to ail in the two months preceding

the tainted Nov. 21 vote. The latest mediation effort to reconcile an opposition that has mobilized hundreds of shousands of protesters and President Leonid Kuchma suffered a serback when the veteran leader reversed his stance on concessions within a matter of hours.

Some progress appeared to have been made after marathon "round-table" negotiations brokered by European Union foreign policy chief Javier Solana, when Kuchma told reporters he would meet two of three opposition demands.

But, in a written statement hours later, he said: "If we are to speak in general terms, no agreement was reached and instead of a statement from the round-table talks, there was simply a statement for the press."

Parliament also adjourned without passing laws agreed with Kuchma as part of an earlier deal to end the stand-off.

In Bulgaria, Russia torpedoed a declaration by 55 member states of the Organization for Security and Cooperation in Europe (Osce), which called for all parties in Ukraine to cooperate for a fair re-run of the

"Our partners demanded additional formulations which actually meant interference in the negotiation process in Ukraine," Lavrov told a news conference.

US Secretary of State Colin Powell rejected the notion, saying it was "a matter of allowing a country to choose how it wishes to be governed and who it wishes to have as its

comments, Kuchma said Yushchenko's Our Ukraine group had stalled

talks by insisting on the government's dis- cision on changes to electoral law or the con-

The president and parliament are eyeing each other with suspicion as they pursue different aims to solve the crisis.

The opposition is demanding dismissal of officials which oversaw last month's vote and new laws to prevent rigging in addition to Yanukovich's removal.

Kuchma, who said after Monday's mediation he would agree to the first two demands, wants the opposition to vote for constitutional changes to cut the powers of the next president and give more power to parliament and the prime minister.

He issued a decree later on Tuesday noting Yanukovich's decision to take a "break" to campaign in the new vote and appointing Finance Minister Mykola Azarov as acting pre-

Parliament put off until Wednesday any de-

stitution. Many said Kuchma was blocking attempts at a solution by refusing to sack Yanukovich.

The man who is supposed to be guarantor. of the constitution is ignoring our decision of Dec. 1," said centrist deputy Vasyl Havrylyuk, referring to parliament's vote to dismiss Parliament on Wednesday could approve a

legislative package approving both new election rules and constitutional changes. Or it could separate the issues and refuse any

reduction in the president's powers-as Yushchenko's allies have advocated in anticipation that their candidate will win on Dec. 26.

The president and prime minister must merely carry out the laws and constitution. In the situation we have today there is only one guilty party-and that's Kuchma," Petro Poroshenko, a Yushchenko aide, said. Reuters

Doctors say Ukraine opposition leader was poisoned-The Times

LONDON--Ukraine's opposition leader Viktor Yushchenko was poisoned in an artempt to kill him during election campaigning in September, a British daily reported Wednesday quoting the doctor who oversaw his

Doctors at Viennas Rudolfmerhaus clinic are within days of identifying the substance that left Yushchenko's face disfigured with cysts and lesions, Dr. Nikolai Korpan was quoted as telling The Times in a telephone in-

Specialists in Britain, the United States and Prance had beloed to establish that it was a biological agent, a chemical agent or, most likely, a rare poison that struck him down in the run-up to the presidential election, he said.

Doctors needed to examine Yushchenko again at the clinic in Vienna to confirm their diagnosis but were in no doubt that the substance was administered deliberately, he was quoted as saying.

"This is no longer a question for discussion." Korpan said. "We are now sure that we can confirm which substance caused this illness. He received this substance from other people who had a specific aim."

Asked if the aim had been to kill him, Kor-

pan said: "Yes, of course."

Proof that Yushchenko was deliberately polsoned would be a devastating blow for his rival, the prime minister, Viktor Yanukovich, as the

two candidates prepare for a repeat of a presidential run-off on Dec. 26, The Times said.

It would raise questions about whether the poisoning was ordered by Yanukovich, his allies, or even the Kremun, which fears that Yushchenko will take Ukraine out of its sphere of influence by joining the North Atlantic Treaty Organization and the European Union, it said.

Yushchenko had said recently that he would soon reveal proof that his opponents had tried to assassinate him, but a spokesperson said he had no plans to travel to Vienna, the newspaper said.

Yushchenko fell ill on Sept. 6 and was rushed to Rudolfinerhaus four days later with severe abdominal pain and lesions on his face

and trunk, The Times said. His liver, pancreas and intestines were swollen and his digestive tract covered in ulcers, but doctors could not explain the symp-

2 churches in Iraq bombed

This military handout file picture taken Oct. 14, 2003 shows Pakistan's surfaceto-surface ballistic missile, Shaheen-1. Pakistan test-fired Wednesday the ballistic missile which can hit targets up MOSUL—Guamen bombed two churches in 30 but mised the prospect of troubled regions the tense Iraqi city of Mosul on Tuesday, fueling fears of ethnic and sectarian unrest ahead of an election next month.

President Viadimir Putin of Russia, a fierce opponent of the war, told fraq's prime minister in Moscow he feared the country could break up and said planned Jan. 30 elections were unumaginable.

US troops suffered their 1,000th combat death in Iraq on Tuesday when US sokiier was killed in Baghdad. The Pentagon also issued figures for a record monthly US death toll in Iraq. It said 136 American soldiers were killed last month. The previous highest was 135 in April.

At least four Iraqi National Guard troopers were also killed in two incidents, one in the capital and another further south.

"I cannot imagine how elections can be organized under a full occupation of the country by foreign troops, Putin told Irag's US-

backed interim Prime Minister Iyad Allawi. "I also cannot imagine how you on your own will be able to restore the situation in the country and stop it from breaking up."

Allawi reaffirmed the election date of Jan.

taking two or three weeks longer to yote-a proposal that could not immediately be checked with election officials and would break a UN deadline of Jan. 31 for the ballot."

A new CIA assessment, reported by the New York Times, gave a gloomy picture, of tracts future, seeing further insecurity if the government fails to assert itself and promote prospertty.

No one was killed not, it appeared, injured, in the bombings in Mosul; smoke billowed from one of the northern city's Armenian churches and one of its oldest Chaldean churches was ablaze and a wall shattered. The attackers were not identified."

In a city of 1.2 million where the two main Surmi Muslim communities, Arabs and Kurds, are already on edge following a rout of UStrained police last mouth by Sunni Arab insurgents, the latest in a series of attacks on Christians was grist to the mill of those who believe Iraq risks slipping into civil war.

At least 16 Kurdish peshmerga fighters were killed in a suicide car bomb attack in

Mostil on Saturday. US troops have turned to

to 700 Ion away. US intel reform bill passed WASHINGTON-The House of Representarives on Tuesday approved landmark legislation to revamp America's intelligence network, clearing the way for major reforms armed at preventing a repeat of the Sept. 11 artacks. The historic bill, ap-

proved by a vote of 336-75, by and large adopts the recommendations of the Sept 11 Commission on ways to stop future terror strikes against the United States, and comes after months of meetings, hearings and contentious bargaining.

The White House President George W. Bush was "very pleased" by the bill's passage and expected the Senate to follow suit.

"The president is very pleased with House passage. He knows that this bill will make Amenca safer," White House spokes person Trent Duffy said.

Republican Sen. Susan Collins, who led the effort in the US Senate to draft the bill, said the legislation gives Amenca's halfcentury-old security apparatus a muchneeded overhaul.

"This legislation is going to make a real difference to the security of our country," Co,lins said.

"It is going to improve the quality of melligence provided to our military and it will help to keep civilians safer here at home," she said.

The top Democrat on the reform bill effort, Connecticut Sen. Joe Lieberman, acknowledged that although there was almost universal agreement in Congress that intelligence reform was sorely needed, crafting a bill that awmakers in both houses and both parties could agree on was anything but easy.

"We have walked a long and winding road to get to this day, but ultimately we've otten to exactly where we wanted to be," Lieberman said.

He added that the bill "will reform Amenca's intelligence assets so that to the best extent possible we can feel that we are ready to prevent another Sept. 11 from happening."

Members of the Sept. 11 Commission, in a statement after the vote, said they were "deeply grateful" for the bil's passage.

The measure heads to the US Senate for a vote and expected passage Wednesday, and then goes to President Bush's desk for signing into aw. APP

Rocking

In youth, the heart exults and sings, the pulses leap, the feet have wings. —Henry Wadsworth Longfellow

S the Philippine Daily Inquirer celebrates its 19th anniversary today, it would not be an exaggeration to say that it has turned out to be Longfellow's kind of youth—energetic, dynamic, independent, bold and innovative, eager to explore new horizons. In other words, very much full of life and enthusiasm.

This year's anniversary theme, "Rocks at 19" certainly speaks a lot about the livourer. Rock music, after all, is universally identified with the young and is generally upbeat.

At its birth, it was considered revolutionary. During its "golden age" in the 1960s, it was viewed as an expression of the young generation's defiance of the establishment, though to this day it is also said to have given the young a sense of cohesion.

The incurrent, in a sense, is similar to rock music. In its early, fledgling days, it was a powerful voice in the "revolution" against the corrupt Marcos dictatorship. Following up on its monumental role in bringing down the dictatorship, the paper again was a defiant voice against the plunderous Estrada regime and contributed to its fall. And to this day, to use a cliché, it continues to afflict the comfortable, even as it seeks to comfort the afflicted.

Meanwhile, it has been blazing new trails. To make for faster and easier delivery of INQUIRER copies to its readers in the Visayas and Mindanao, it put up separate printing plants in Cebu and Davao. Then, it led the Philippine press' "incursion" into the Internet. It was also the first in the country to introduce a free paper, aptly called Libre, a tabloid which is circulated in Metro Manila's mass rail

The year that is coming to close saw the Inquirer coming up with more innovations. One is the "Correction Box" where, as the name suggests, factual errors in previous reports are corrected. Another is "In the Know" which provides brief backgrounders on the issues of the day to help readers get a better appreciation of the news. Earlier, in another first, it went into broadcast media with "Super!" at 103.5 K-Lite and InqTV on ABC-5.

There have been other bold moves that show more than just youthful dynamism on the part of this paper. These were made not so much to maintain the newspaper's position as a market leader, which comes almost naturally with the quality of service it provides and which is reflected by its position at the top among the nation's broadsheets. They were made as part of a continuing, allaround effort to live faithfully by the tenets of the journalistic profession, improve service and reach out to a larger audience—here and abroad—especially the youth. This is in line with its mission "as a world-class processor and provider of news and information ... serving as a catalyst of social progress." At the same time, these moves keep the Inquark in step with the fast advancing information-communication technology.

No, the INQUIRER is making today's Filipino youth a special audience not because they belong to the same generation. The INQUIRER subscribes to the words of Franklin Delano Roosevelt: "We cannot always build the future for our youth, but we can build our youth for the future."

But the way things look, our present generation of leaders doesn't offer much promise about building the future for our youth. Still it is not too late to build our youth for the future. And in this task, the Incurrent will keep doing its share.

As the youth of today become adults of tomorrow, they will eventually take on the mantle of leadership in this country—in politics, business, religion and every field of human endeavor. The Inquires, too, will inevitably grow in age, but we will strive not to grow old. For as Samuel Uliman said: "Nobody grows old merely by living a number of years. We grow old by deserting our ideals. Years may wrinkle the skin, but to give up enthusiasm wrinkles the soul."

Yes, we are committed to keeping our ideals and our enthuslasm.

When generals go daft

"HE'S mad is he? Then, I wish he'd bite some other of my generals," George II reportedly snapped when told that Gen. James Wolfe had gone daft

That's also the reaction surging among members of the Association of Southeast Asian Nations toward Myanmar's Junta for stalling. Juan L. Mercado yet again, on restoring freedoms.

Myanmar's caudillos dance an "incorrigible one-step forward, two-steps backwards fox-trot," Maiaysian Member of Parhament Lim Kit Siang told legislators from seven Asean countries in Kuala Lampur. The shuffle blocks the release of Nobel Peace Prize laureate Aung San Sun Kyi, journalists and other detainees.

Some parliamentarians are now pressing their governments to object when Yangon assumes the rotating chairmanship of Asean in 2006. The generals "seven-step road map" to

Myanmar today is "the largest prison for journalists in Asia," the Paris-based Reporters Without Borders says in a new report documenting the plight of 18 detained journalists.

Sus Kyi's National League for Democracy won a landstide victory in the 1990 general election. But the military never allowed parliament to convene, and unleashed waves of arrests. Yet, Sut Kyi continues to draw widespread support at

home and abroad.

The stakes for the press are high. Offending the regime means prison. The 72-year-old journalist Win Tin has been detained for 14

years now.
"Torrure is commonplace and some journalists suffer from serious mental disorders resulting from long isolation," Reporters Without
Borders says. Newsmen have received long
sentences for articles deemed "hostile to the
state," talking with foreign journalists, even
"owning undeclared video cameras"—an eeric
clone of the Marcos regime's order to register
mineograph machines.

Yangon's daily newspapers are governmentrun outlets for turgid propaganda. The military and their families control most publications. As in our "New Society," censorship is clamped on. Censors blue-pencil words such as

I HAVE to make a correction. The story that

came out in the news about Fr. Charitto Colen-

dres wasn't exactly accurate. The truth is far

richer and more dramatic. It takes nothing

away from Pather Cha's heroism. It only points

to the heroism of a lesser known figure, who

was his companion, a convent assistant named

Dionisio, a strapping youth born to poor folk and used to hard work, told this version of

what happened during the last night of Father

hurried to Barangay Canagao. A fierce wind was

already blowing then, accompanied by driving

rain, which foretold of dire things to come. Pa-

ther Cha worried about Barangay Canagao be-

cause it was a low-lying area which easily flood-

ed. And by the looks of things, it wasn't going to

be an ordinary storm. Before they left, Father

Cha toki Dionisio half-jokingly, "Eat your fill, we

are going to have a long, long night."

It was 7 p.m. when they got to the barangay,

the darkness broken only by shafts of light

from fluorescent and kerosene lamps through

windows. They banged on the doors of the

houses and esked the people to board a couple

of jeepneys and a 10-wheeler truck. The baran-

gay was in grave danger, they said, the folk had

to get to safer ground. It took a while to con-

vince the people to go, many of them saying that if they left, they would die, too. They

But by dint of pleading and cajoling, they fi-

naily persuaded the folk to pack up. While peo-

pie were rushing to and from their houses to flah out their things, Dionisio noticed an infant

who seemed to have been lost. He picked up

the child and delivered it to a woman on one of

the jeepneys, charging her with its care until its mother came along. When they were finally done, they lumbered on toward infants.

Shortly before they got there, they found

their way blocked by rocks and mud and de-

bris. But it was high ground, so they decided to

Not so Pather Cha. He wortled no end about

VIEWPOINT

"democracy," "corruption" or "education."

To beat the censors, "the trick is in the presentation," Thint Bawa (Your Life) edutor U Tin Maung Than told The New York Times' Seth Mydans. The 47-year-old doctor-turned-writer "played the game hard, bobbing and weaving, winking and nudging, honing his metaphors, comparisons and historical references until it all became too much and he fled from Myanmar for safety,"

It's a game played by all independent-minded writers in dictatorships from the Philippines of Marcos to Ayatollah Khomeini's Iran and today's Myanmar, writer versus censor, says Mydan's analytical feature titled, "Burmese Editor's Code: Winks And Little Hints."

In repressive states, writing under censorship is an art form. Many of their rules are universal. Write only upbeat articles or "sunshine news." Thus, many confine themselves to gossip, sports and lifestyle features. Praise the regime. That guarantees publication. It's also safer.

Direct criticism is taboo. Even factual reports on drought or poor crop yields are forbidden. These could arouse feats of price increases. You cannot knock those in power, limelda and the First Pamily, for example, could only be accorded fulsome bosannas.

A few in Myanmar, as in martial aw Philippines, push against the boundaries of what's acceptable. "You cannot blame," Tin said. "You have to give hints that you are being critical, that you are talking about the current system. The hints are in your choice of words, your tones, your composition. You use words with double meaning. The challenge is to get through to those keen readers without tipping

He wrote about flag burning in the United States, ostensibly to criticize it but, between the lines, to give a glimpse of freedom.

Still the government remains paranous about Suu Kyl's drawing power. Favorable reterences in the press to the opposition leade are "clearly forbidden." It's verboten to write about female heads of state. Gloria Macapaga Arroyo, Corazon Aquino, Megawati Sukamop utri, Indira Gandhi or Margaret "Thatche would be blacked out

Given the muzzled press, the pressure for reform is coming from outside. UN Secretary General Kofi Annan, for example, said that Surkyi and other political prisoners must be included in the current spate of releases involving more than 9,000 prisoners. Asean foreigningsters, meeting in Phnom Penh last July also pressed for the release.

President Arroyo and Thai Prime Minister Thaksin Shinawatra were reported to have remaided Myanmar Prime Minister Soe Win athe Laos Asean summit of still unfulfilled pledges. Now, the parliamentarians are weigh

Whether these pressures will cause; the hard line generals, like Soe Win, to unbend, remain to be seen. Less than 40 political detainees, or one percent, were among those freed to impres Asean heads of state meeting in Vientiane.

Then President Fidel V. Ramos argued for Myanmar's acceptance by Asean. He Insister that Asean credentials would restrain the Junt from taking even more repressive measures Both national and regional interests, he claimed, were served by having Myanmar in a stead of "peeing from the outside." The trace record says otherwise.

"As for being a general, well, at the age of four, with paper hars and wooden swords, we all generals," the actor Peter Ustinov once san adding: "Only some of us never grow out of it."

As Yangon shows, generals who never me ture can go daft. They can impoverish a one rich nation and crucify a gentle people, as on own "Rolex 12" did.

kin who had come to visit him and whom he had left behind in Infanta. He could see the lights of the convent in the distance, which made the compulsion to reach it greater. He asked the sturdier men in their group if they would accompany him through the fields and make their way to Infanta by foot. By then the fields were already covered by water. The men replied that they were good swimmers but they would not risk wading through the fields in the dark. Pather Cha thought about it, and decided to walk alone.

When he was but a few meters gone, Dionisio ran after him. Bahala na, he thought, but he would not leave the priest alone. Pather Chahad brought along a 30-meter rope and they tied themselves to it so they wouldn't get separated. They hadn't gotten far when the water rose, climbing up to their chests with starrling rapidity. It was no longer possible to go forward, but by then it was no late to turn back. They tied the other end of the rope to the wires of an electrical post that had toppled over and decided to wait for light or for the waters to abb, whichever came firm.

cob, whichever came first.

Then without warning, they heard a thunderous roar and before they knew it, a column of water fell on them. And along with the water, mud, debris and logs. Piles and piles of logs, raining on them with the force of hursed missiles. Instinctively, Dionisio, who was in front, tried to cover Pather Cha with his body. But a log bit him in the ribs and as he pitched forward another grazed him in the head. While his head spun, he heard Pather Cha cry out, "Save yourself!" And then he lost consciousness.

Diorasio woice up hours juses inveligited pitu-

self dead and floating with a bloated belly. He belly certainly gave that sensation. He realized he was alive only when he reached mud again and again. He was holding on to a log anstanding on water that reached up to his neck. He tugged at the rope but felt no operhere. He should Father Cha's name, but got no response. He was alone. Later, they would find father Cha's body floating underneath the logs.

Dionisio loosed himself from the roparound his waist, and summoning whateve remained of his strength swam to a nearby cocount tree. He clung to it, and waited for day light and salvation or a new avalanche of muand water and death, whichever came first too. He prayed, He asked forgiveness for he sins and prepared to meet his fate.

And then he felt a strange sensation. He lost all sense of fear. He felt a calm descend on hum As he pondered his fate anish the buzzing in his ears and the fuzziness in his brain, he saw thing with a shaft of clarity. Whatever happened to his now, he thought, his life had been worth something. Father Cha and he had saved more than thundred lives the night before. If they hadn't got ten the folk of Barangay Canugao to leave fo higher ground, those folk would now be in the same position he and Pather Cha were.

His mind suddenly drifted to the fost infanhe had sported in the barangsy, and wondereif its mother ever found it. He dozed off again When he woke up. a gray light was people-

Let's not overreact on logging issue

AUSTRALIAN businessmen Peter Wallace, who runs the Wallace Business Forum, met with the media yesterday to disclose the results of WBF's annual survey of multinationals doing business in the Philippines. This column will present the results over the next few days.

One relevant query raised by the media at that forum was about the logging situation here, following the recent massive floods and and the swath of death and destruction wrought by an avalanche of logs from the mountains, which were probably illegally cut. Wallace was asked how other countries dealt with logging while at the same time protecting the environment.

Wallace noted that New Zealand runs one of the biggest and most successful wood-processing industries in the world, and yet its forests are well-protected. The key, he stressed, is responsible logging: New Zealand is very careful to enforce the law and reforests more than it can cut.

There seems to be an overreaction by legisintors and other sectors to the recent tragedy, to the point of reviving the old debate between a total and selective log ban. Sen. Aquilino Pimentel Jr. has butted anew for total log ban, a measure that has been pending in Congress since the late 1980s. But Wallace rightly stressed that this won't be the answer. A total ban would lack up the price of wood, making it even more attractive to go into illegal logging. Then more of our forests would disappear.

I recall that former Malaysian Prime Minister Mahathir Mohamad was asked some years back why he didn't impose a total log ban in his country. His reply was that it would be pitiful for the poor people if they were to lose their livelihood. As Mahathir rightly saw it, the solution is not a intal log ban, but to impose very strictly the rules on logging. This means prohibiting the cutting of trees in banned areas such as the watersheds and riverbanks up to 5 kilometers inland, and punishing those who do so, without fear or favor, as well as those who buy and sell illegally cut logs. In addition, reforestation ought to be strictly carried out by those with legitimate timber licenses, under

pain of cancellation of their licenses.

A dinner hosted last Saturday by President Macapagal-Arroyo at her Forbes Park home drew officials of the telecom companies, lawmakers like Senate President Franklin Drilon, Senators Ralph Recto and Mar Roxas and Representatives Joey Salceda, Exequiel Javier and Jesh Lapus (who chairs the House ways and means committee that's sponsoring the proposed tax on telecom franchise), and Cabinet finance officials. The purpose was to persuade telecom officials to help ease the country's fiscal problem by shouldering part of the tax burden. But the telecom people balked at the idea of being taxed simply because they're making profits. They argued that they would be paying P28 billion in taxes next year, P10 billion more than this year, and that they have been taking risks all these years, but it was only since 2000 that they began to make money on their investments.

The telecom people persuaded the adminis-tration to instead push for a 2-percent acrossthe-board increase in the current 10-percent valne-added tax as an alternative revenue measure. By then Lapus was very discondited as he saw

his proposal for a franchise tax crumble. Sen. Joker Arroyo is right. There should have been some softening up of the telecom officials before that dinner, so that GMA would have been spared the embarrassment of being turned down by them. In military parlance, that would be part of the so-called complete

pines: A Century of Deforestation."

tion often falls short. At times it's given to shooting from the hip and then back-tracking. Por instance, I hope it will process the propos-al for a total log ban well and not cave in to kibitzers so readily, as well as the expected entry of foreign mining capital.

A look at the increased VAT measure shows that at the current 10 percent rate, the revenue collection amounts to P166 billion. An addition of 2 percent will bring in P30 billion more. But if the VAT exemption for professionals such as the lawyers and doctors, as well as electric cooperatives and fuel prices, is removed, this is estimated to bring in another P8.5 billion.

However, increasing the VAT is expected to raise howls from various sectors as it will hit everyone, unlike the telecom franchise tax which will only tax the telecom firms' "windfall profits." By the way, these firms resent that term since it is usually taken to mean profits from quick investments, which, they insist, is not the case with them.

Senate President Drilon assures the media that the Senate version of the "sin taxes" bill that will be ready by next week will be "very good." The goal of Congress' rush (finally) to pass two or three revenue measures is to convince various international credit-rating agencies that the government is dead serious in tackling its fiscal problem, and that it does not deserve a downgrade of its credit standing. The decision of Fitch Ratings not to downgrade RP's credit rating and instead merely change its outlook on RP from "stable" to "negative" is being received with some elation. Administration officials read it as a sign that these rating agencies are convinced about reforms here.

But as the Senate chief furned before the media yesterday, news reports saying that the Filipino-Australian firm that recently purchased Masinloc power plant from Napocor for \$561 million is woefully under-capitalized, do not win confidence for the administration. The perception could be that some windowdressing is going on to avoid a disastrous downgrade in our credit rating.

of Santo Tomas Hospital.

Unwitting ally of globalization

(Conclusion)

WHEN labor agitation eliminates more jobs than it protects, it drives away workers from its ranks and makes the employed share the fears of their exploiters. Germany's labor movement is losing membership today as strikes get checkmated by the ability of workers in neighboring countries to absorb the high-paying jobs of the Germans.

What happens in Europe is happening here, and worse: companies here cannot migrate abroad (though their owners' bank accounts may end up overseas), so they shut down. The result is that the Left has curved out a niche for itself in relatively dead-end occupations such as the civil service, but it cannot attract (and thus, work for) Filipmos working abroad, or in call centers and other flourishing occupations.

The Left does have a point in criticizing the lack of industrialization in the country, because only industrialization could have resulted in the creation of a strong middle class, and enough productive employment to create wealth on a sufficient scale to be distributed. However the Left has never been interested in fostering a middle class, which tends to cling to such un-socialist concepts as property and entrepreneurship. Neither has the Left been interested in actually supporting industry in the capitalist sense nor in any sort of deal involving trading some rights today so that sufficient eco-

nomic progress can ensure a better tomorrow. This is what's missing from our Left, and which made possible the supremacy of socialism in much of the industrialized, non-communist world: trading near-term comfort for building a flourishing economy, which permits a more equi-

table society later on. R Slouil Jose recently eastigated Filipino communuses by saying in effect that the day the Left furned to Maoist China was the day it doonted its revolution, due to the racist distrust of the majority of Phipmos for the Chinese and China as a power. He might have added that a filipino communist singing Mao's praises is no different from a Pilipino

THE LONG VIEW

politician boothelting in Washington, D.C.

The leftist who prevents development by agitating squatters creates a mendicancy every bit as corrosive and great as the Filipino politician giving away public land-communal property-which nums it into private property for nothing. The only winner, between the politicism giving away a finite amount of public land, and the leftist agitating the new residenes of that land to resist development, is the entrepreneurial squarter who becomes a squarter landlord, profiting from generations of new squarers while he and his family become middle class.

The list of losers, on the other hand, is massive. There's the public, which loses more and more land supposedly for community use, and which must endure the resulting sprawl and lack of development that come from such giveaways. There are the squatters, who think receiving something for nothing such as land that's not theirs simply because they want it, is possible---and then get increasingly despondent when they realize life doesn't work according to the magical formulas of the politicians who wreck development plans by gladly giving away public land. By receiving land as a politician's gift, they can live with voting for the politicians in exchange and waiting for seasonal dole-outs.

The corresponding crosson of personal initiative and the work ethic is colossal and complete. Before the 1950s, giving land to the landless was based on the premise that they would pay on installment so they'd earn title to the land. While wily lawyers and landowners discredited this policy, instead of making it work, it was replaced with ourright gifts.

And so even the politicians end up suffering, unable to implement genuine development, or impose political will, because they are now held hostage by a mendicant population that is coming to realize it can vote for show-biz imbeciles who won't even bother to try to change things.

Then there are the owners, who cannot make use of their land as it's occupied by more squatters. They either have to sell at a loss (depriving them of a commensurate chance to invest in businesses that might foster development) or undergo expropriation. This convinces them of the sensibleness of capital flight or outright emigration.

Indeed, if I am harsh when it comes to the Left,

it's because in so many ways it duplicates and magnifies the opportunism and selfishness it criucizes in government and the private sector Poutically it is simply the most organized of the partiesfor-hire, ensuring its electoral successes according to the time-dishonored principle of guns, goons and gold (while mainstream politicians are adapting to the new political strategy of ads, jingles and films, which at least spreads money around and kills no one). In education, the bailtwicks of the Left are losing talent and competitive advantages because of a stubborn demand for state subsidies instead of developing the assets its institutions are lavishly endowed with, namely land. In the environment, it contributes to the despoiling of the land by having a hand in logging extertion rackets, and by denouncing mining investment without offering alternatives (except, perhaps, the dream of future mining activities with socialist characteristics: meaning the ruthless exploitation of mineral resources under a future People's Republic of the Philippines, whether or not the local and marginalized communities of the future agree). It denounces globalization while conveniently ignoring the contributions of a globalized population and forgetting that its contributions to environmental destruction make emigration abroad all the more essential for survival.

Justice delayed by holidays

ministration to promote domestic court, that is, without prior consultourism, President Macapaga, Arroyo recently dec ared a legal holiday, Nov. 30 2004 as a worlong day while making Nov. 29, 2004 a non-working day.

To ordinary citizens, the substitution may be insignificant-after al), the business on the working day can easily be addressed on the holiday-turned working day. To practicing sawyers and their clients, however, it means justice from abroad to testify on that day, irretrievably delayed.

It may have gone generally unnoticed, but it is common practice among the courts of law, including quasi-judicial bodies, to space the hearings of cases by months. For example, a case scheduled in November 2004 would be set for next hearing in February or March 2005 or even much later. As a consequence of the declaration of Nov. 29, 2004 as a non-working day, the cases scheduled for hearing that day had to be postponed to February or March 2005 or thereafter. The new schedule considering ways look ahead—far, far ahead—

FOLLOWING a practice of her ad- this was unliaterally chosen by the and not act only at the eleventh tation with the calendar of lawyers-would be subject to the availability of the lawyers and their chents. If the affected lawyer had committed the date for another case, a further postponement would be inevitable.

Other equally undesirable situations might have also resulted from the "honday substitution" -say, a witness coming at the way Just think of the auline tickets restricted to a short period of validity and subjected to stiff re-booking fees. Worse, he might have applied for a vacation leave timed with the hearing, and this is not to mention collateral matters like hotel bookings that carry prohibitive cancellation charges. And it is not remote that his relatives have cancelled their other activities to make time for him.

To be sure, presidential prerogatives can never be outlawed. But the executive department can al-

hour This would immeasurably goide courts in scheduling hearings. That way, we could spare the litigants and other affected parties from unnecessary suffering and inconvenience.

さんかんしょ はあるのとなるというない あいからかいかい

Better still, I suggest that an administrative policy be adopted making public houdays failing in the middle of the week working days: but the Monday immediately preceding or the Friday immedistely following should be converted into non-working days. I also propose that, in the absence of such policy, the Supreme Court ordain that cases set on a day declared as a non-working day be automatically reset to the "substituted" holiday. These are little remedial measures that will go a long way in reassuring litigants and lawyers of a judicial system ever mindful of the truism that justice delayed is justice denied.

Enrile's 'sin tax' is superior

I AGREE with what Solita Monsod said in her column ruled, "A supenor sin tax bill." (PDI. 11/20/04) The Senate can redeem itself should it approve the sin tax bill proposed by Sen. Juan Ponce Ennle. The bill would definitely benefit Philippine society. As pointed out, the bill mandates a uniform specific tax rate for all eigarettes. This would surely prevent cigarette companies from evading

All eigarettes have the same effect on people's health. Therefore, smoking, regardless of the brand of eigarette in use, should be discouraged in equal degrees. So why should there be different tax rates? Another favorable feature of the bill is that the tax rate would automatically adjust to the inflation rate every two years. Also, the Enrile bill, if approved, can help the local tobacco industry because imported cigarettes will be imposed a higher tax rate.

But what I like most about the proposed bill is that 5 percent of the additional tax revenue of P18 billion it is expected to generate in 2005 will be divided equally among the Lung Center, Heart Center and National Kidney institute.

The bill promises many benefits for our country, but let's not forget that if passed into law, its successful implementation is still up to government efficiency.

Filipinos in Afghanistan

Angelito Nayan, Annetta Planigan and Shqipe Hebibi from captivity, This is a triumph of peace over terronsm and gives us new hope for the rehabilitation and development in Afghanistan.

We wish to thank both the

Philippine and Afghanistan governments and the United Nations for their effective handling of the situation. We salute the team of Undersecretary Jose Brillantes of the Department of Foreign Affairs for its hard and efficient work; most importantly, for taking time to listen to the concerns of the Filspinos here, especially the rumored ban on the travel of Filipinos to Afghanistan.

We also commend the people of Afghanistan for being with us in this moment of trial and for raising the morale and hope of Angelito and company while they were in captivity. We also commend the Filipino nation, here and all over the world, which prayed and monitored the developments of this case. The media, most especially Reuters and ABS-CBN, including GMA 7, played an important role in ways that we cannot elaborate,

Most importantly, we commend Angelito, Annetta and Shqipe for their courage and faith. We will' continue to pray that their lives return to normal as soon as possible, and that the emotional wounds inflicted by this experience heat as swiftly, making them better persons. We shall remain a community. for Angelito, whether he chooses to return here or stay elsewhere

We commue to call on the DFA to institutionalize its presence in Alghanistan, through an honorary consular office or something better than that. And we urge the Department of Trade and Industry to organize an economic exploratory mission to determine the viability of sending Filipino investors to Afghanistan.

May the scars of this experience. make us closer and stronger in meeting the many challenges that face our nation in pursuit of peace and national development. Our community will remain a silent but very active supporter of any effort along this line, whether it is pushed by the Philippine government or by another member of the community of nations.

-ERMITE VALDEAVILLA, coordinator, The Filipinos in Afghanistan, c/o ruth@pbsp.org.ph

Reforestation a political cliché

ONCE logging destroys our forest covers, root systems give way and loosen the top soil, allowing min water to easily cascade to lower grounds where humans live. Logging is the root cause of flash

But logging cannot exist without the knowledge and consent of our political leaders. We even elect big-time loggers to Congress like the Antoninos, Almendrases and Dees. Either by commission or omission, politicians (including mayors and governors), provincial police

commanders, forest rangers of the Department of Environment and Natural Resources and the logging concessionaires are all equally responsible for wanton and illegal logging in our country and, altimately for the death and destruction caused by flash floods.

Our tropical furests, our Godgiven natural wealth, can give us long-term economic benefits (e.g., eco-tourism) instead of short-term logging, a one-shut deal that only benefits a few. Reforestation is a convenient cliché

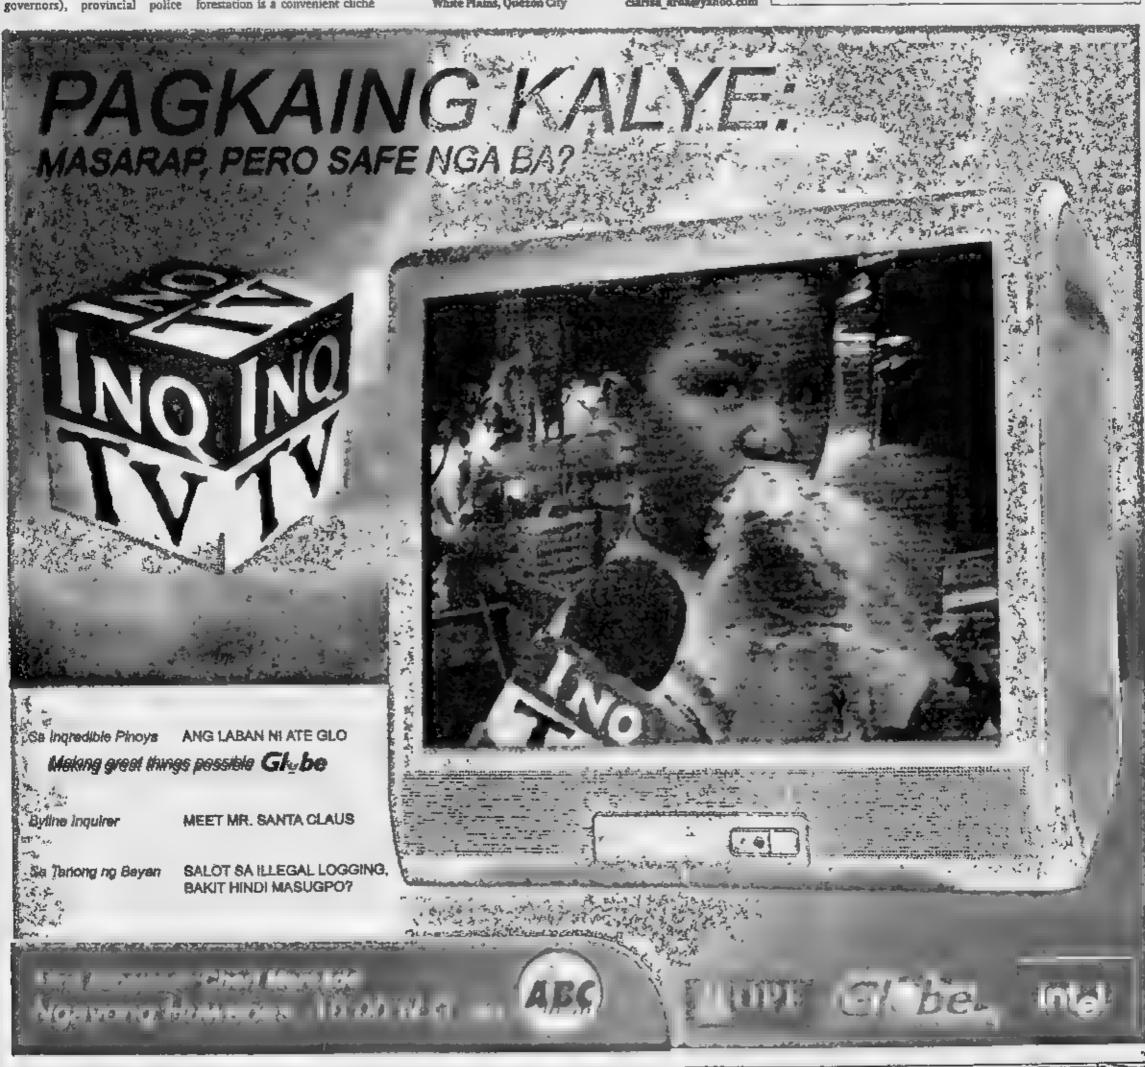

of loggers. But it takes over 100 years to just approximate the lush growth of our original tropical

Why can't our President-with the vast powers she holds—and our congressional leaders focus on the root cause of flash floods and the long-term benefits of environmental stewardship?

Traders tagged in logging in Quezon

CALAMBA CITY— A former ranking official of the Philippine National Police in Quezon yesterday said businessman and a real estate developer are behind the extensive illegal logging operations in Gener-

al Nakar town.

The police official, who talked on condinon of anonymity, said the real estate developer, who is also a lawyer and a scion of a wealthy family from Nueva Ecija, has been financing several logging activities in the northern part of Quezon for more than 10 years.

The source told the nessman ownership over some

30,000 hectares of forest lands in General Nakar, including the vast lands of Barangay Umlray, which was one of

the hardest but areas un Quezon. The source, who is now the chief of a key PNP unit in Southern Tagalog, said leaders of the Dumagais and other tribesmen in the upland communities were the ones who provided him with information regarding the unabated cutting down of mature trees in the area.

INQUIRER that the busi- THE INITIALS of a logger or a logging firm are very visible on a tree claimed trunk swept into the lowlands by denudation and typhoons.

"The Dumagats said (the lawyer) bought the rights to own the land (many of which were part of their ancestral domain). They said (the lawyer) was the biggest financier of logging in General Nakar," the source said.

He said the lawyer-turned-developer provided chainsaws to loggers and later financed logging.

The lawyer even imported his men from the Visayas and from Central Lazon, the source added.

ging trade so he tried to bring in people who were experienced in logging," the official claimed.

He said the logs from Umray town were commonly hauled by carabacs along the riverbanks and into the seafront where barges await the haulers.

The logs are then submerged in the water by placing rocks and other objects on top of it.

He said some of the lawyer's men stayed at the sawmills to receive orders from their clients.

Successful campaign

Aside from Roxas, he said several Chinese businessmen were also involved in logging concessions ın Quezon.

He said to curb the illegal logging activities, he talked with the governor of the tribal communities in upland Quezon and urged them to help in government's against campaign

logging. He said they worked closely with Quazon Gov. William Enverga and the military units in the area to gather information about the financiers.

The source said logging operations in Quezon stopped after they raided at least eight saw mills in General Nakar.

He said their operations were successful because the Dumagat leaders ensured that "nobody from their group will engage in logging."

They served as our ears and eyes

"Apparently he was new to the log- in the area. Their cooperation proved to be very vital in our campaign because they were the ones who scoured the vicinity," he said.

He said from time to time, he and Enverga would inspect the mountain range using the helicopters of the Philippine Air Porce.

Big problem

it was during these trips that he got information that there are more than 100 logging areas in General Nakar alone.

This problem is bigger than we ever imagmed," he said.

"successful" campaign, he replied. "You know it's hard to keep ail the residents from engaging in the logging trade. The government does not have alternative livelihood for them."

He said "since time immemorial" logging has been an easy source of money for residents in the uplands.

He then blamed erring environment officials, corruption and inept' forest rangers for the continued degradation of the forest.

We have rated very poor in . . . the implementation of special laws. But we cannot put accusing fingers just Asked what happened to their on forest rangers alone," he said.

Blast kills man

MIDSAYAP, Cotabato--- A man was killed while his pregnant wife was seriously wounded when a hand granade went off inside their house here. Pofice said Allan Fermil, 40 had his hands severed after he allegedly pulled off the safety pin of a tragmentation grenade at 2:30 p.m. Wednesday. Senior Insp. Jovit Culaway, Midsayap police chief, said Fermil's wife, Analita, lost one of her eyes due to shrapnel injuries and had to undergo an operation to save her baby. Police initial reports showed that a heated argument preceded the explosion. It was not known how Fermil managed to possess a granada. The family refused to issue a statement. Jewelry shop heist

BUTUAN CITY-About P5 million worth of jewelry was jost after three suspected members of the notorious Acetylene Gang robbad the Pariflas pawnshap and jewelry store here on Saturday night. City police chief Senior Supt. Efren Anggo said the auspects used a portable acetylene gadget to tear down the store's exit door and the vault, where the pieces of jewelry were kept. Anggo said the relatively ax security of the store paved the way for the heist, the largest so far in recent years here. Franklin Caliguid, PDI Mindanso Bureau

Student gunman yields

DAVAO CITY-The son of former councilor Senforiano Alterado surrendered after he was tagged as the one who shot dead a student at the familyowned Mindanao Aeronautical Technical School (MATS). Edwin Alterado, president of the Agricul-Gre Foundation School, an affiliate of MATS in Davao del Norte, on Tuesday surrendered to the Sta, Ana police station accompanied by his father Senforteno. His alder brother Eduardo said Edwin surrendered "to show that we are not evading any responsibility if there is one." During the weekend, police hunted down Edwin after he was tagged as the one who shot and killed MATS student Zaldo Shat on Nov. 28. Witnesses pointed at Edwin as responsible for the killing. Reports said at 2 a.m., Silet came out of the school with his friends when Edwin allegedly shot him after accusing him of rebbling the school. This, however, was denied by Eduardo saying that his brother was innocent. Anthony Atlada, PDI Mindanao Bureau

Money changer robbed

GEBL CITY-Six robbers, one of whom a woman, fied with at least P200,000 cash from a money changer shop at the Raintree Mall along F. Ramos Street here in a daring daylight helet. Police said three armed robbers entered the Alco Credit and Foreign Exchange shortly after the mint mall opened at 9:20 a.m., pretended they were customers before declaring a hold-up. The robbers, three of whom stationed themselves just outside of the shop to serve as lookouts, first confiscated the guns of the two security guards before fleeing in a motorcycle with cash and two callular phones of the employ-Shunnex Napaliacent, PBI Visayes Bureau

Jarque at 810-9150 (Manila) and Naty Gatuz 09194418225 (Bacolod City).

Pols repacking relief goods to woo voters

LUCENA CITY-Soldiers braving the stormy weather and dangerous mountainous terrain just to bring much awaited help to calamity victims in far-flung areas have assailed the opportunism of some local politicians in northern Quezon in the distribution of relief

We hike mountains and cross rivers just to be able to reach the calamity victims in remote areas but here comes some local politicians ordering us to just turn over the goods to them and they will be the one to distribute the goods by themselves," a juntor Army officer, who requested anonymity, told the biquiter.

The official said that at first, they acceded to the request of the politicians.

"But when we saw it with our own eyes that they were repacking the goods and placing them in a plastic bag labeled with the politicians name, its nauseating political opporrunism," the soldier said.

The soldier declined to identify the politiclans saying it would only create animosity that would only hamper the delivery of relief

"But we no longer give them the relief goods. We distribute it by ourselves. Sometimes we make coordination with a trusted non-government organization in the area to help us in the distributions," the military offi-Elections for mayor, governor and other lo-

cal officials are held every three years and once a candidate is elected, his time is spent mostly on campaigning for another term and rarely for public service.

The distribution of relief, goods among calamity victims has also become a problem among local officials.

Infanta Mayor Grace America admitted that the distribution was really unruly during the initial days of the distribution of goods. She said they resorted to the distribution of

relief coupons to the barangay officials. They know the conditions of their constituents, who really need the goods," she said.

In Real town, Nora Solliestre, the municipal welfare and development officer, said they were also at the receiving end of numerous complaints about the unfair distribution of relief goods.

Those complaining just want to have more. The relief goods are for all. No one should have more than the others," she said. Solliestre said they also resorted to the allo-

cation of food enupous to the barangay offi-Meanwhile, coordinators of "Served The

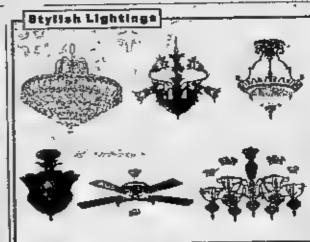

People Corps-Sagip Mamamayan" and "Balsa-Bayanihan Laban sa Sakuna," a disaster response program by militant Bagong Alyansang Makabayan, assailed the military for harassing the members of the group.

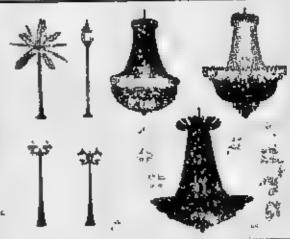

The group said some members of the group were prevented by the military from bringing relief goods to areas being claimed by communist guerrillas. — Delfin Mallari Jr., PDI Southern Luson Bureau

Missionaries restore dignity of disabled

By Juan Escandor Jr. Naga City

T A VERY young age, Jessie was left to the care of an abusive stepfather, who tied him inside a poultry house for several months after his mother died.

Neighbors who learned about Jessie's 'situation reported the matter to the police, Subsequently, the Department of Social Weifare and Development took custody of the box, but because it does not have accommodation facilities, it turned him over to the Missionaries of the Poor in Naga City.

Jessie, who was then 4 years old, was suffering from epilepsy. He communicated like a cock and ran with his arms

spread like wings.

and smell things that he saw. When he laughed, he cackled like a cock. He also avoided eye contact with people by covering his head with his arms," said Bro. Rodel Tabanao, a volunteer.

But Tabanao said they had rebuik Jessie's life by making him overcome his psychological impairment. Now 10 years old, Jessie has discarded the ways of the cock and can

now follow instructions, he said. The Missionaries of the Poor (MoP) easlly stands out in Naga as one of the very

"He used to go around in circles, chase few entities that religiously uphold, almost

A FAR cry from their decrepit situation in the streets, this mixed group of disabled persons enjoys a meat.

in a samely deed of charity, the rights and dignity of rejected disabled individuals.

It began its mission in the Philippines and in Naga in 1993, among the slum dwellers. That year alone, it took care of 110 mentally retarded persons.

The MoP finds fulfillment in caring for the physically and mentally disabled, who have been abandoned by their families. Its mission is to bring dignity to the homeless disabled and destitute.

On Oct. 17, 1997, the Vatican formally recognized the MoP as a religious institute, its founder, a Jesust priest named Fr. Richard Ryan Ho Lung, opted to live with the poorest of the poor in the ghettos of Jamaica instead of a promising career in the academe.

"He made the difficult decision of leaving the Society of Jesus, which he loved, and founded a religious community of men who dedicated their lives in the sole service of the rejected and the destitute," said a literature on the souof service of the MoP in Naga.

Born to a poor couple from Hong Kong on Sept. 17, 1939, Lung personally experienced poverty in Richmond, St. Mary, Jamaica. He would openly share to fellow missionaries how several times he, his parents and three other alblings shared a cup of rice for a meal.

His parents could only afford one pair of pants for him, which became tattered over time, "exposing his rear end to the elements and his ego to a battering."

Lung is described by his fellow missionaries as "somebody who had experienced poverty but rejected a life of ease amid the opportunities that came in his

Vow of poverty

Pr. Charles Ma. Susai, head of the mission in Naga, revealed that all the priests and lay missionaries of the MoP practice the vow of poverty and a regimented like in favor of spirituality.

"All the priests and brothers own only three habits, two pants, two shirts, four pairs of underwear and a pair of sandals each. We sleep in domnitories with small lockers, ear the same simple food, wash our dothes, dean our rooms, do manual labor and devote ourselves to prayer and medita-

tion rune hours every day," Susai said. Ora et labora, or prayer and labor, is their routine from 5 a.m. to 9 p.m. daily,

They have no slesta, do not smoke, drink or gamble, or watch television. They are also not allowed to have personal bank accounts.

The missionary-priests provide, for have sheltered and cared for some 500

venir program celebrating the 10 years A MISSIONARY-BROTHER bathes two disabled elderly at the shower room of the Apostolate Center in Naga City.

FR. CHARLES Ma. Susai dotes like a father a kid suffering from cerebral palsy in his arms.

free, marriage ceremonies, baptisms and blessings of the dead within the village where their center is located. In some instances, they pay for the church fees of unmarried poor couples to fulfill the sacrament or make coffins or bury the dead of poor families.

During Mass, which they celebrate at 10 a.m. on Sundays, the offertory rirual of passing around the offering box is absent. They do not ask for money during the Mass, which some mentally disabled restdents attend together with the villagers.

Apostolate Center

The priests and brothers of the MoP

physically and mentally disabled persons over a period of more than 10 years at the Apostolate Center, a facility for the homeless and the mentally, physically and terminally ill people in the compound of the Heart of Mercy, the mission center, in Cararayan, Naga.

They have cared for the terminally ill and permanently impaired individuals until their death, or helped them reintegrate into their homes of origin if ever their families had been located.

At present, the center serves 120 adusts and children who are fed, bathed, clothed, groomed and given medication and therapeutic services by caregivers who are volunteers from the community and the missionaries.

"We ensure that they [residents of Apostolate Center] live in an atmosphere congenial to well being that allows them to live in dignity and respect for each other," Susar said

The MoP takes in those who belong to the poorest of the poor, who are no longer able to support themselves and without families to take care of or had been abandoned by them.

They have children, women, men and elderly individuals with manageable mental cases, congenital defects and psychological impairment.

Indeed, in this present society, it is a gem to find people voluntarily caring for mentally and physically disabled persons, not their kin, without pay or expectation. The Missionanes of the Poor belongs to this tribe.

Bonifacio: The neglected hero

By Marion Ramos Maragondon, Cavite

monuments built to depict his heroism and streets named after him, most Filipinos continue to give Andres Bonifacio, "The Great Plebeian," the cold shoulder.

Historian Ambeth Ocampo shared this sentiment during the Nov. 30 unveiling of a four-meter Bonifacio monument on the hillside of Mt. Nagpetong in Maragondon, Cavite, said to be the "official" execution site of the great revolutionary and his younger brother, Procopio.

The ceremony, led by Mayor Monte Andeman, was part of the nation's commemoration of the hero's 141st b.rth anniversary.

Sculptor Toym Imao crafted the bronze monument, which also features a wounded Procopio lying on Bonifaclo's left. Interestingly, Imao's father took his name after the acronym TOYM (Ten Outstanding Young Men), as he was born the same time the elder Imao received a TOYM award.

Two panels of murals adorn the

Ocampo, chair of the National Historical Institute (NHI), said the majority of history books used in schools today presented several misconceptions about the life and rimes of Bonifacio. These were among the reasons no Bonifacio Shrine had been declared yet.

Mysteries surrounding the hero's death on May 10, 1897, have remained

unexplained, Ocampo said. For one, he said, no one really knows exactly where the "Champion of the Working Class" was killed and buried. The country's historical archives do not have precise information about the matter, aside from the memoirs of Lazaro Makapayal.

Makapagal was ordered by Gen. Emilio Aguinaldo to bring Bonifacio and Procopio to the execution grounds. Some history books used by high school students identified Mt. Bunds as the site where the two were shot by Aguinaldo's men, Ocampo said.

"Even now, no one can really tell where his remains are. The bones found here (in the early 1990s) are now gone after World War II. I, for one, refuse to believe the authenticity of the

remains," Ocampo said. The reported discovery of Bonifacio's bones was used as a political tool when then presidential candidate Manuel L. Quezon ran against Aguinaldo in the Commonwealth elections, he said.

Ocampo immented that the centenary of Bonifacio's death in 1997 was treated with less fanfare than that of another national hero, Dr. Jose P. Rizal, in 1996 and the Independence Day centennial

As if to add sait to injury, this year's commemoration of Bonifacio Day was eclipsed by news about Typhoon "Win-

Long overdue

imao said the Bonifacio Monument in Nagpatong, the tallest and largest so far, was put up to dispel myths about the "Pather of the Philippine Revolution."

He said he wanted to portray Bonifa-

MARKER of execution site?

cio as "a genius war tactician and an intellectual organizer."

The image depicts Bonifacio not as the usual hot-headed, bolo-wielding revolutionary that many Filipinos think of him. I wanted to picture him as a bright and brave hero who knew how to use his brains and gun," he said.

For Georgina Reyes-Encanto, professor and former dean of the University of the Philippines College of Mass Communications, the monument was long overdue."

Until the project started a year ago, the site had remained unnoticed. Grafscrawled all over the concrete marker were glaring indications of how the rite was ignored.

"For years, Bonlfacto's deeds have been neglected. This project is definitely long delayed," Encanto said.

She compared the rather deplorable state of national historical landmarks. such as her uncle's house where

Aguinaldo's Katipunan faction tried Bonifacio for sedition in Maragondon, to how other countries preserve theurs as national treasures.

Encanto said she almost bought the house in the early 1990s after learning that its occupants nearly sold it to give way to a commercial establishment.

"So what we did was to help the family in their daily expenses just to avoid the sale of the trial house. It was really very saddening," she said.

She added: "In other countries, the government would spend millions just to save their historical landmarks."

Encanto sald she was doing research for a book on Maragondon's history, which, she hoped, would give the youth a better grasp of the town's importance as "seat of revolution in Cavite."

Jeffrey Lubang, former curator of the trial house, blamed politics for the government's alleged negligence in preserving Bonlfacio's records, especially his ties with Caviteños.

Some provincial officials and local officers of the Cavite Historical Society (CHS) still give weight to the politics behind Bonifacio's death and the stature of Aguinaldo, an Imus native, Lubang said.

It's time to put all the politics behind and instead work for the protection of Bonifacio's memoirs," Lubang

Curiously, none of the invited Cavite officials and CHS officers attended the

PCSO TODAY

On top of P5-M calamity assistance

Sweepstakes earnings boost PCSO assistance to typhoon victims

by Dmitri Arce

EXT TIME you think twice about buying a sweepstakes ticket this December, consider this: for every P10 you spend to purchase one ticket, about P1 60 will go to the ryphoon victims of Quezon and Aurora provinces.

The donated amount may seem a pittance at first glance. Until one learns that 40,000 sweepstakes booklets were printed and put on sale for the December sweepstakes daily draw (SDD).

With each booklet having 50 tickets, the maximum amount that the Philippine Charity Sweepstakes Office (PCSO) can allocate for food and medicine of hundreds of thousands of typhoon-ravaged families in remote Quezon province, is P3.2 million. That is, if every ticket is sold in the December draw.

Last week, the PCSO allotted 25 percent of net earnings generated from the total sales of its new sweepstakes game to victims of the series of typhoons that ravaged the provinces of Quezon

The financial assistance from sweepstakes sales, according to PCSO General Manager Rosario C. Uriarte, is on top of the P5-million Calamity Fund that the agency earmarked as assistance to the calamity victims.

"The PCSO family joins the nation in condoling with the families of those who died and those rendered homeless in the wake of the typhoon onslaught. We hope to contribute in our own small way to ease the pain of their sufferings." Uriarte explained.

Uniarte added the PCSO Board of Directors approved the allocation of 25 percent of the Charity Fund derived from the sales of the Sweepstakes Daily Draw (SDD) for the months of November and December this year.

"This (amount) maybe viewed as a small amount to compensate for the loss of lives and property, but we hope this would augment whatever resources are available for the victims," Urigite pointed out

The Sweepstakes Daily Draw is the latest game introduced by PCSO, wherein an individual can bet even just once in a month but whose ticket is eligible to win for 31 days in the daily draws.

The new sweepstakes held its inaugural draw yesterday, Dec. 1. Selling of tickets began as early as November 3 this year.

"The Sweepstakes Daily Draw Is a project of the PCSO that is primarily geared to boost the agency's capacity to render charity service to those who need it. In times of great disaster like this, we are even in a better position to provide immediate

assistance because of the renewed public support for revenue projects like the sweepstakes dairy draw." Uriarte explained.

Carlos Castillo, OIC-Manager of the PCSO Sales Department, reported gross sales of P9,704,463.60 from 27,047 booklets of sweepstakes tickets sold from November 3 to November

Net receipts, however, reached only P9,510,374.33 after deduction of payments for documentary stamp tax and two percent (2%) printing cost. Fifty-five percent of net receipts would go to prizes, 15 % to operating fund and 30% to charity fund

"We will get the financial assistance for the victims of typhoons Unding, Violeta and Winnie from this Charity Fund," Uriarte said.

The PCSO has already extended financial assistance to around 9,000 victims of calamity and fire, even to rebel returnees, within the first 10 months of the year This financial assistance amounted to a total of P23 million, which is part of PCSO's Calamity Fund.

From January to October this year, a total of around 8,700 victims of fire all over Metro Manifa and the rest of the country were given financial assistance by PCSO. The amount of assistance is P2,000 per victum.

Among the beneficiaries are hundreds of victims of fire that razed makeshift houses in the state-run shipyard in Baseco Compound in Port Area, Manila, in January this year.

The recipients also include hundreds of fire victums in Barangay Potrero in Malabon City early

Financial assistance was also extended to flood victims in llocos Norte upon the request of Rep.

Aside from fire victims, financial assistance was given to around 225 robel returnees; 155 of whom were from the provinces of Barangas and Laguna, and another 100 from the New People's Army in North Cotabato, Davao del Sur and the Agusan provinces.

Some 554 families displaced in seven barangays in the municipality of Aleosan, North Cotabaco were also given assistance charged against the Calamity Fund totaling PL3 multion

The financial grants to these victims of misfortunes, man-made or otherwise, are approved by the members of the PCSO Board of Directors through several resolutions.

To apply for this request, a victim or a representative for a group of victims may go to the PCSO office in E. Rodriguez Ave in Quezon City.

The cost of charity
Interview with Betsy Paruginog

Assistant General Manager for Finance

AS THE PRINCIPAL government agency mandated by law to raise and provide funds for health programs, medical assistance, services, and charities of national character, the Philippine Charity Sweepstakes Office (PCSO) has become synonymous with "ready help" in times of disasters, natural or man-made. Last week, while the nation reeled from the effects of three devastating typhoons, PCSO Today's writer-consultant Ferdinand G. Mendoza interviewed Betsy Paruginog, PCSO Assistant General Manager for Finance for a numbers check on the agency's financial capability to render charity. -EDITOR

FERDINAND MENDOZA (FM): Can you give a picture on how much try assistance are cancer, heart ailment, PCSO is spending for charity?

BETSY PARUGINOG (BP). Our computed average disbursement on a day to day basis ranges from 34 to 44 million pesos. This amount was computed on a 20-day formula. From January to November of this year, PCSO has given a total amount of P3 2 billion for charity.

FM: How much do we spend for charity on a daily basis?

BP. We have been providing financial and medical assistance to about 34,457 cases since January of this year This amounts to 869,345,610.82 pesos or an average of 3,592,337.23 a day since the beginning of 2004. On the average, PCSO receives about 150 to 200 requests for medical and financial assistance daily.

BP: The top illnesses requiring char- Asian Hospital and St. Luke's Medirenal or kidney failure, lung diseases, liver and Biliary Atresia, Hepatitis and Diabeles mellitus.

FM: Just how much does PCSO spend on these illnesses?

BP Cancer requires continuous treatment. Aside from chemotherapy, the patient needs regular laboratory examinations, radiation therapy (linear or cobalt), or brachytherapy for cervical cancer, which costs more than a hundred thousand pesos per patient. Brain tumor patients need Stereotactic or Gamma Knife and the latest treatment called intesive Modified Radiation Therapy or IMRT For these, the patient (or most likely, the PCSO) would need to spend 100 thousand pesos. Likewise, for an Acute Myelogenous Luckemia patient. A bone marrow transplant

cal Center

For Biliary Atresia patients, the total cost of one liver transplant is 3 million pesos and transplantation is not available in the Philippines. The nearest country which offers liver transplant is Taiwan. Usually, PCSO manages to extend one million pesos per patient. Despite this, families of Bifiary Airesia patients still need to raise 2 million pesos to cover cost of

Renal disease dialysis runs to about five to six thousand pesos a week for every parient. For those patients requir ing kidney transplant, post-operative medicines are provided and cost PCSO between 20 to 30 thousand pesos. Kidney transplant costs 100 thousand pesos. So, you see, the number of people we reach may not be that impressive to some. But when you include the type of disease we address and the

Sources 5 4 Lotte 62 h 31 E

why PCSO spends more than P3 million a day to sustain its medical assistance

FM: How about Acquired Immune Deliciency Syndrome? Presently, an HIV patient needs about 25 to 30,000 pesos a month for for AIDS?

Currently, PCSO has nothing earmarked for AIDS. We have a standby fund of one billion pesos, but that's for SARS. And this doesn't mean 1 billion cash-on-hand. What standby fund means is that if there is an instruction from the President, we will prioritize it.

Special PROJECT

to transplant."

Saving Jeremaia

FOR EIGHT HOURS, doctors at the Mayo Clinic in Rochester, Minnesotta had operated on the little girl. The ducts that carned bile from her liver to her intestine had been inflamed and a second inflamed and obstructed since the day she was born. Her one chance to live depended on the success of a delicate liver transplant operation.

Born in March 1999, Jeremaia Matubis was a healthy, beautiful, pink-cheeked baby at birth

Recells proud grandfather Jesus Matubis: "Iba pala ang feeling kapag apo mo ang lpinapanganak. Tuwang tuwa kaming mag-asawa. [Words cannot explain the happiness we felt at having our first

A director for Corporate Affairs of Manila Water Company, Matubis added they had no idea the happiness and contenument they felt was going to be fleeting.

Within weeks, Jeremaia's clear skin had turned yellowish. The child's pediatrician dismissed the change as a result of breastfeeding.

"Sabi ng doktor paarawan lang (Doctors said our granddaughter just needed a little sun]. But we got worried when after the fourth month, Jeremaia's stomach started to bulge. Her yellowish skin also turned black sh," said Marubis

The family rushed Jeremaia to the Philippine General Hospital. There, doctors diagnosed the child as suffering from Billary Atresia, a serious infant disorder characterized by a blockage of the

"We also discovered that Biliary Atresia had no known cause and that it was incurable. The only remedy was a liver transplant," said Matubis.

Doctors, however, informed the Matubis fami that no liver transplants were ever performed in the Philippines. The operation could be done in the United States at the cost of US\$25,000 or a whopping eight million peacs

Not wasting time, Marubis wrote letters to hospitals all over the world, seeking assistance for Jeremaia's operation.

"Wala kaming ganun kalaking pera [We do not have that kind of money], but I was very optimistic we could raise funds that could save the life of my granddaughter," said Matubis.

At first, Matubis recalled, there seemed to be no response to his letters, until then Vice-President Gloria Macapagal-Arreyo instructed her then Chief of Staff Edgardo Manda to help the Matubis family locate any nospital that will accept Jeremaia. high-powered antibiotics. A single dose of antibiotic can cost a family as much as P3,200. "When Jeremaia was hospitalized, doctors said

she needed five doses. This happened after Jeremaia went under Kasai procedure," sald

An Infant with Biliary Airesia has to take

Named after famed Japanese surgeon Morio Kasai, the procedure - also called a hepatoportoenterostomy - is considered by physicians as a temporary cure for Biliary Atresia.

In the Kasai procedure, damaged ducts are removed and replaced with the infant's intestine, which acts as a new duct. But the process, according to Matubis, has a catch.

There is a 50-50 chance that the child will develop an infection. This happened to Jeremaia and we had to spend a lot for antiblotics," recalled Matubis.

Matubis said that about 40 percent of the distressed families that approached LiftBabies Foundation belonged to the lower income economic bracket.

He added that the number of new-born children with Biliary Arresia is still growing.

Matubis said, however, that LiftBabies help to provide a realistic, but hopeful perspective to families whose children suffer from the bile duct disorder

"We do our best to make couples realize and cope with the financial and emotional demands of the ailment."

Looking with pride at a picture of a now healthier Jeremaia, Matubis is quick to admit that he never gave up hope on his first grandchild.

He continous to hope LiftBabies Foundation would see the day when children afflicted with Biliary Atresia would have no need to travel across the globe just to undergo an operation that could save their lives.

"One day," he said, "liver transplants will be performed right here in the Philippines."

Who cut the trees in the forest

(with apologies from the old children's nursery rhyme, "Who Killed Cock Robin")

"WHO KILLED the "rees in the forest?"

"L" said the lo_k er,

"with my chainsaw and lager, I killed the trees in the forest."

"Who saw the trees die?" "I," said Lola Unday,

"Between the whirting and kaingin, I saw the "Who named the logger?"

"]," said the reporter,

"Because there was no other, I named the

"Who'll cry in pain?"

"I," said the Rain, "Till the skies are drained, I'll cry in pain."

"Who'll rant and rave?"

"I," said the wind, "To both tyrant and slave, I'll rant and rave."

"Who'll set the fine?" "I," said Time,

"Once I draw the line, I'll set the fine." "Who'll warn the people?"

"L" sald the steeple

"With the beil in my temple, I'll warn the

"But who'll believe? Who'll believe? Who'll believe..."

IT WAS TOO LATE.

'Daddy knows best' Winning the sweepstakes through gentle persuasion

by Ferdinand G. Mendoza

IN THIS particular case, Daddy knows best. A father's gentle persuasion brought sudden

good fortune to his eldest son, who bagged the jackpot prize in the first draw of the "Isang sweepstakes tiket, Isang bewang araw-araw papremyo" promo of the Philippine Charity Sweepstakes Office

"I was practically forced by my father to buy the new Sweepstakes Dally Draw (SDD) tickets he was seiling," gushed the lucky car sales representative who purchased an entire booklet af-

(PCSO) last December

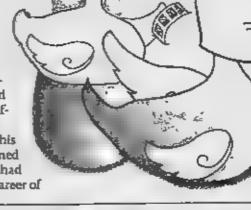

ter a little cajoling. He added that his father, a just-returned overseas worker, had decided to make a career of selling SDDs sourced from a relative who worked

"Little did I know that my desire to encourage him in his new venture would not me P200,000," he said, adding that the tickets enjoyed brisk sales in their neigh-

> borhood. "My father started with one booklet sold. In no time, he had soid five booklets and neighbors were still coming to the house to purchase tickets," he said.

Asked on what he'd do with his winnings, the 29-year-old father of four said he and his wife - who worked as a group manager at a fast-food joint - might venture into selling mop

But then again, maybe he'd ask what his father thought was

By Carlos Catillo, Sales Managor, PCSO

2. Tickets can be bought from private ticket agents, vendors or outlets, at the PCSO Central Office, B. Rodriguez Ave, Quezon City, and at PCSO District Offices nationwide.

3. You can only buy tickets by the booklet at the PCSO. One booklet consists of 10 whole tickets, each having 5 single tickets. One booklet has 50 single tickets.

4. A booklet purchased directly from PCSO offices enjoys a 28% discount, costing only P360 P10 per single ticket. A ticket vendor or agent can thus earn P140.00 per booklet if he buys directly from PCSO and sells it to individual

5, Ticket counters at PCSO offices open at 8 a.m. and close at 2 p.m. daily. Selling of tickets by agents and vendors outside PCSO can go on for 24 hours since tickets are eligible to play daily, even if they have already won.

DRAW MECHANICS AND ANNOUNCEMENT OF WINNERS

The SWEEPSTAKES DRAW shall be held at the PCSO draw court everyday at 4 p.m. It shall be witnessed by an independent judge and other PCSO officials and Commission on Audit (COA) representatives.

7. The daily draws will be broadcast over NBN Channel 4 during the 9 p.m. LOTTO draws.

8. The SWEEPSTAKES DRAW results shall be published together with the LOTTO DRAW

results the following morning in all leading newspapers and be broadcast in different radio

whole ticket has 5 single shares with identical numbers. Each single ticket, however, has an assigned letter, which is any of the following: P.C.S.O.L. Thus a single ticket has a mumber and letter combination.

10. The jackpot prize goes to a single ticket or share that bears the lucky number-letter combination drawn. All the other tickets that share the same number but have the other letters shall be given the consolation prizes.

11, The jackpot prize for the winning per booklet. Retail price is P500 per booklet or a number-letter combination is P100,000. The consolation prize for the four remaining tickers with the same number as the jackpot prize but bearing different letters is P25,000.00 each. If one person buys the whole winning ticket consisting of 5 single tickets with identical numbers, then he wins a total of P200,000.00 for the day.

12. Each ticket is eligible to play dally for the entire month and win the jackpot or consolution prizes many times over. A multiple winner shall be issued a certificate in lieu of the ricket to claim the prize anew.

13. If the winning number for the day is still unsold by PCSO, then the unwon prizes for the day will be added to the prize for the last draw date of the month.

On the last draw date, all the unwon prizes plus the day's Jackpot and consolation prizes shall form the total prize pot. In case the drawn number is still unsold, another will be drawn until such time that a drawn ticket is won,

HON ROSARIO C. URIARTE General Manager Phillippine Charity Sweepstakes Office THRU: DR. JOSE GOCHOCO Team Leader Medical and Dental Team

Dear Madam Uriarte:

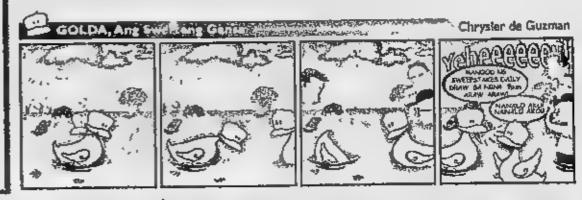

Relative to our medical and dental mission conducted last November 24, 2004 in our Municipality, as partial fulfillment in our basic program on basic health and medical services as incorporated and highlighted under the five-year Sasmuan Integrated Development Program (SIDP), we would like to express our deepest thanks for manifesting your concern on what we believe to be for the best interest of public service by sending out your doctors and dentists to assist and help us on abovementioned undertaking.

We are glad to inform you that our constituents are very much appreciative and cognizant to the love, care and concern sean from us.

Thank you once again and hope to see you in our next medical and dental mission. God Bless and Mabuhay!

Very truly yours,

CATALINA C. BAGASINA Municipal Mayor Sasmuan, Pampanga

Actor Martinez acquitted of drug charge

By Nancy C. Carvajal

ACTOR William Martinez was acquitted of a drug charge yesterday by a Passy City judge who found the case against him "legally weak."

in a 23-page decision, Judge Eleuterio R Guerrero ruled that the case against Martinez was full of loopholes.

Guerrero found the prosecution's evidence on the improvised tooter, a tube used to sniff shabu, allegedly seized from Martinez on April 24 at the Centennial Terminal of the Ninoy Aquino International Airport, unreliable and anconvincing.

Tooter in question

The decision further stated that the prosecution, led by 2nd Assistant Prosecutor Artemio Puti, failed to identify the glass tube presented in court as the same improvised tooter allegedly seized from the ac-

cused. Dakak resort in Zamboanga del Norte with his wife, Yayo Aguila, last April when he was apprehended after a routine body L search allegedly yielded a tooter o in his possession.

The judge also noted that court staff.

while the actor had been subjected to a drug test and was found to positive for methamphetamine hydrochloride or shabu, such evidence did not satisfy the requirement of proof of moral certainty that Martinez had indeed used shabu.

Damages

Guerrero also directed the court to return to Martinez, the amount of P50,000 he had posted for his temporary liberty during the duration of the

Martinez heaved a sigh of relief, but did not look surprised when the decision was announced.

"I never doubted that I would be acquitted, because I know I'm not guilty," said the actor, a popular teen idot in the '80s.

His wife and his children, along with his mother, Margie, and younger sister Day cried when the decision was read.

"These are tears of joy," Yayo The actor was on his way to told reporters, friends and fans who packed the courtroom.

Martinez, who turned up in a pole berong and black pants, gamely posed with his wife for souvenir pictures, following a request from some memoers of the

Marikina to purge resettlement sites

By Luige A. del Puerto

THE CITY of Marikina is set to purge its resettlement sites of

enters, Mayor Mandes Fernando disclosed yesterday. "The units in the settlements are for the beneficiaries. They are for supposed to be rented out to

other people," Fernando said.
The mayor said roughly 20 percent of the residents in the re-

location sites are not the beneficiaries of the city's resettlement

The Marikina Settlements Office said there were around 30,000 families in the city's resettlement sites.

"It is illegal to rent a unit in a resettlement site," Fernando said.

"Usually, these renters are the ones who allegedly bring drugs and crime to the area," she said.

The mayor added, They have nothing at stake, no investments in these places so they don't care what happens there."

"(But) if you own the place, would you allow your children to grow up in a place where there are rapists and criminals? Of course not!" the mayor said.

Citing the Olandes resettlement site, Fernando said the area had become relatively peaceful after

she drove away renters.

The mayor also disclosed that she had certified as urgent to the City Council a proposed ordinance that would put up estrow accounts where beneficiaries could deposit P500 monthly.

The account would be for the residents of settlement sites whose ownership is under dispute. One such site is the Tumana District, where up to

10,000 families now reside.

"If you are not the beneficiary, you won't pay," she said. Fernando admitted that the

city's list of families in the settlement centers needed apdating. Too many people, she said, have left and settled in these sites in the last few years.

The major resettlement sites in Marikina City are those in the Tumana District, Nangka, Sto. Nino,

Malanday, Camacho, San Miguel Realty and Parang.

Pernando said the purge already, started but on a limited scale.

Once the ordinance on the escrow account is in place, she said, they would already go "full blast."

The mayor expressed optimism that it would be passed before the year ends, for the purge to go full blast in January.

3 alleged car thieves fall in QC

By Tina G. Santos

CENTRAL Police District operatives have arrested three alleged members of a car theft syndicate and recovered eight vehicles stolen in Quezon City last month.

Police identified the suspects as Noel Nuñez, 22, Jesusito Alafriz, 53; and Benjamin Joselito Alafriz, 19, all of Tondo, Manua.

Numez was apprehended by untelligence agents on Dec. 6 on Congressional Avenue, and seized from him was a green Masubishi Lancer and several car starters.

The two other suspects were arrested the next day at a garage on Tha Street, Barangay Sto Domingo. In their possession were a white Toyota Corolla and a white Toyota Corolla XL.

Five other vehicles were found near the house of Alafriz.

The suspects are detained at the CPD headquarters in Sikatuna Village while charges are being readled against them.

CHILDREN in masks join Malabon Mayor Canuto Oreta in leading officials, residents and guests to a giant blico of the city's famous nootles at

Malabon celebrates 'pansit'

By Edson C. Tandoc Jr.

FOR A change, thick noodles with delicious yellow sauce and placed in round native trays took the place of murky floodwaters in the streets of Malabon City.

in an event made to coincide with the Feast of the Immaculate Conception, Malabon residents and officials celebrated yesterday their first Pansit Malabon Pesti-

Pestivities began with a parade, where students denced on the streets using native trays or bilaos as props.

And to make sure the message was put across, organizers paraded a bildo eight feet in diameter carrying 40 kilos of the noodles that made Malabon famous.

Unlike the usual ponsit, Pansit Malabon uses thick and firm noodles called "luglog."

The key difference, however, lies in the toppings, which partic-

Subic name-dropper not spared in smuggling drive Have you seen Jun-Jun

THE NEW antismuggling task force chief at the Subic Freeport, renred Lt. Gen. Jose Calimum, is doing an excellent job. He has not spared somebody who dropped the name of Pirst Gentieman Mike Arroyo.

The name-dropper is Repoldo Nadar, president of a company that recently tried to smuggle in a brand-new Mercedes Benz at the freeport.

You know how much value Nadar's company placed on the Mercedes Benz? \$550 only!

Nadar claims to be a close friend of First Gentleman Mike Arroyo, although I'm sure the President's husband doesn't smuggling know about his hanky-panky in Subic.

Not only has Calimlim seized the smuggled auxury car, he also ordered the filing of charges against Nadar

What Nadar didn't know was that after the President appointed Caumlim as Subic Freeport antismuggling czar, First Gentleman Arroyo had a long task with h.m.

ON TARGET Ramon Tulfo

intimidated by people who would drop his name. He told the retired general to arrest anybody who uses his name in illegal activities.

I have a tip for Calimlim: Watch out for the shipments of a guy named Fred Galang. He uses Mike Arroyo's name in luxury through the Subic Freeport. He reportedly places "FG" markings on his car shipment to deceive customs personnel into thinking that the cargo belongs to the President's hus-

Many customs personnel at Subic have fallen for that ruse. Caliman should not.

The President must be Arroyo told Calimlim not to be proud of her customs man at

tional Airport (Naia), Celso Templo. Templo is not easily intimidated by big names placed on cargoes arriving at the Naia.

Templo recently ordered the seizure of \$8 million worth of ammunition and cartridges for small arms consigned to the Philippine Army. The sender was the Department of the Army Headquarters, US Army Joint Munitions Command.

The Naia customs chief ordered the shipment held because it did not have an import permit and a permit from the Firearms and Explosives Office (FEO) of the Philippine Nationai Police.

No amount of explanation from Maj. Gen. Antonio Anciano, deputy chief of staff for logistics, and a memorandum from Lt. Col. Charles K. Corner of the Joint US Military Advisory Group (Jusmag), would convince Templo to release the

shipment. "They have to present an im-

the Ninoy Aquino Interna- port permit and a permit from the PNP for me to release the shipment," he said.

Attaboy, Templol

For having two members of the Office of the Ombudsman arrested for attempted extortion years ago, Fire Insp. Virgilio M. Acabal is now reaping the wrath of the Ombudsman.

Ombudsman investigators Gerald Barrez and Rodrigo Bumanglag were arrested in an entrapment operation after they tried to extort money from Acabal to settle a case with the investigating body. Acabal said he was facing a criminal case with the Ombudsman for buying a lot in a squatters area.

As a result of that entrapment, Burnanglag was dismissed but Barrez was able to wnggle himself out of trouble.

Barrez is now pursuing another criminal case against Acabal, a trumped-up charge, the fire offi-

Beermen simply too tough for Hotdogs

By June Navarro

DANNY Seigle gave San Miguel Beer breathing room with back-to-back hits that eventually turned back Purefoods, 93-86, last night in the Gran Matador PBA Philippine Cup at the Philsports Arena.

Seigle's jumpers scuttled the TJ Hotdogs' final-half uprising and the Beenmen went on to break a twogame losing skein.

"Leave him (Seigle) open and he'll make his shors. By the time you think about guarding him, he has already gotten his rhythm," said San Miguel Beer coach Jong

Seigle, who missed his first nine shots from the field, made it 87-79 for SMB with two minutes left and finally broke the backs of the TJ Hotdogs, who leaned heavily on Kerby Raymundo and Jun Limpot.

After losing for the fourth time in as many meetings with the Beermen this year, the TJ Hordogs fell to 7-7, two games behind the thirdnuming Barangay Ginebra Kings

In the second game, Red Bull battled back from 14 points down in the third period and tripped league-leading Talk 'N Text, 105behind a pleasant surprise from veteran Nelson Asaytono.

Assytono knocked in 14 of his 29 markers in the fourth to aid the come-from-behind victory.

Red Bull won its third straight and climbed to 6-7 while Talk 'N Text slipped to 10-4 after losing a third straight game.

Color developed in the second period when Mark Telan was fouled

hard by Jimweli Torion. Telan complained about the foul and got an earful from Red Bull coach Yeng Guao.

Teian then confronted Gulao and both of them engaged in a staring march. Guiao was later seen dishing out more words to Telan each time the Phone Pals center passed the Red Bull bench.

Meanwhile, the Philippine Basketball Association and the Basketball Association of the Philippines finally signed the memorandum of agreement for a four-year partnership that will be highlighted by the country's participation in the Asian Basketball Confederation men's championship.

Distrito turns self in to FBI

FORMER PBA player Rudy "The Destroyer" Distrito has surrendered to Federal Bureau of Investigation (FBI) agents in Callformia.

Former PBA commissioner Emilio "Jun" Bernardino, under whose watch Distrito last played in the professional league, called it a hopeful sign that the ex-cager wants to clarify his involvement in a fatal stabbing incident in Las Vegas.

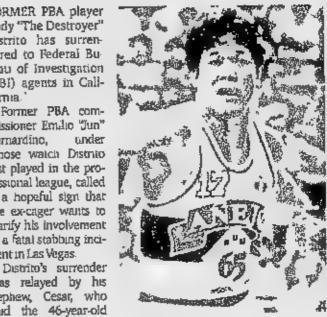

was relayed by his nephew, Cesar, who said the 46-year-old former Gmebra standout called family mem-

bers in Bacolod to inform them of his surrender to the authorities to clear up his name. "Tumawag na siya at sinabi

niya na handa na siyang sumuko sa FBI (He called to let us know he has surrendered to the FBI)." said Cesar. Cesar added that Districo.

who staned his PBA career with the now defunct Crispa Redmanizers, is being aided by immegrate relatives in California.

"it's a honeful sign, especiady for people like us who can only wish that this never happened," said Bernardino, "I'm just really hoping that at the end of the day, Rudy will be able to provide aght that will lead to his vindica

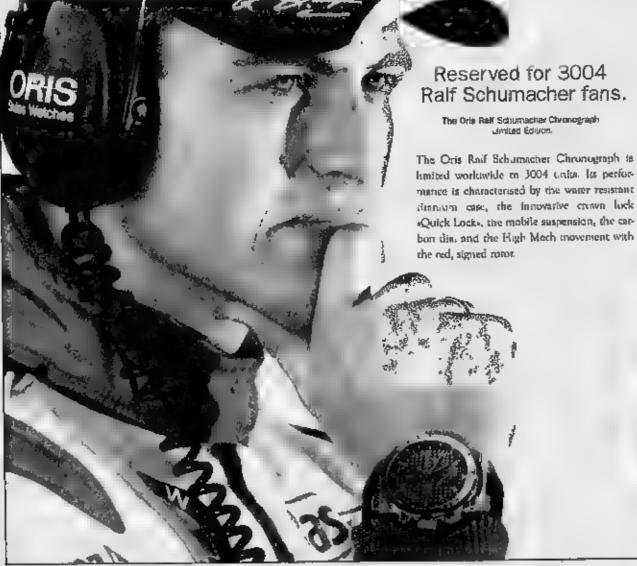

DISTRITO: Out to clear rume

Reports from Las Vegas revealed that Distrito had given hunself up to FBI agents and will soon be turned over to the Los Angeles Police Department.

LA public information officer Jason Lee said that once the FBI turns over Distrito to their department, extradition proceedings would immediately start.

The Las Vegas Metropolitan Police Department reported that Distrito stabbed a 24-year-old Mexican victim, later identified as Juan Amaya, several times after a supposed argument.

Amaya, it was learned, was the new husband of Distrito's former wife Joselyn. With reports from Francis Ochon, Marlon Bernardino

Inspired Jewels seek revenge

THE MONTAÑA Jewels are definitely pumped up when they battle Granny Goose Tortillos in the PBL Open Championship today at the UST

Coach Robert Sison said his Jewels have been training hard to get back at the Tortillos, who ended their five-game winning run in the first round with a 79-72 deci-

"Our morale is high. Our practices have loss in the tournament last Tuesday.

been good," said Sison, whose Jewels (6-2) gun for the solo lead against the dangerous Tortillos at 2 p.m.

"Gusto talaga ng mga bata na makabawi (The boys really want to win this time),"

Meanwhile, Air Philippines (2-7) and ICT-SI-La Sade (3-6) clash to avoid early elimination at 4 p.m.

The odds favor Montaña this time after Granny Goose absorbed its first back-to-back pable of pulling surprises.

They are hardworking and their defense is one of the best in the league," he observed. 'Por us to beat them, we have to play better defense and execute our play well.

We have to win to boost our chances in the semis," said Sison, whose team is fighting for one of two outright semifinal slots with tournament leaders Granny Goose (6-3) and Magnolia-FEU (7-3).

We're also keeping a close eye on

But Sison knows that the Tortillos are ca- Magnolia," added Sison. "They're playing great right now and that's my extra motivation for the boys.

The Jewels will again lean on veterans Alex Compton, Jon Dan Salvador and Al Magpayo, while the Tortillos will turn to JR Quiñahan, Ardy Larong, Jet Latonio and Chico Lanete.

In the second game, ICTSI-Le Salle is favored to repeat its 96-77 drubbing of Air Philippines in the first

round. Jasmine W. Payo

Filipino boxing prospects impress ring guru Roach

By Jasmine W. Payo

IT was one of the more amusing questions thrown at renowned American boxing trainer Freddie Roach

Rev Santilian, the 26-year-old OPBF welterweight champion from Iloilo City, wanted to know if going to sleep right after a tiring bout can cause

"I don't think so," smiled Roach, who's conducting a free two-day boxing clinic at the Ninoy Aquino Stadium. "There's really no medical proof."

Santillan was pleased with the answer. He later thanked Roach and asked for his autograph.

"My goal is to become a world champion," said Santillan, who trains with the Wakee Salud Stable in Cebu, in Filipino.

Santillan, who holds an impressive 50-3 win-loss record (40 KOs), definitely wants to learn more from the man who turned Manny Pacquiao into a boxing celebrity.

Like Santillan, there were a number of aspiring amateur boxers present at the clinic yesterday, all hoping to be the next Pacquiao. Roach believes that there is such a possibility.

"There are many great young prospects here," observed Roach, who has trained over 10 world champions, including Mike Tyson.

The 44-year-old trainer, in fact, pointed out that Filipino boxers are among the most hardworking tot he has seen. "American fighters get a little bit lazy." said Roach. "They're not hungry and they become spoiled, it's frustrating to see champs who are lazy."

Roach, who's been in the country for two weeks now, said he saw several promusing talents while training Pacquiae for his bout with Thailand's Fahsan 3K Bartery on Saturday at The Port, Taguig.

"Here in the Philippunes, I don't see anyone ger ting spoiled," added the 2003 trainer of the year. "Unlike in America, you guys here have a harder time growing up. That's why I like seeing guys like Manny achieving great things. He has great work ethics and he's not spoiled. I like that in a fighter"

Roach added he even told Pacquiao to slow down. "Manny is at the top of his game right now," he said. "In fact, he has a tendency to train too hard and I have to tell him not to overdo it."

"His work ethics is unbellevable," he added.

Pacquiao promises Saturday massacre

"LET'S just see on Saturday the Filipino camp bared.

Shrugging off claims by the rival That camp that Manny Pacquiao is not in peak form, trainer Freddie Roach blurted out that dare yesterday.

Roach was reacting to statements credited to Fahsan 3K Battery that Pacquiao has not trained sufficiently for their big bout on Saturday

However, Roach bared that Pacquiao, a dreaded southpaw, would be 100-percent ready on fight night and should be able to end the bout early, possibly with a right punch.

In fact, Pacquiao's stated four-mile jog was cut down to only two yesterday morning because the fighter's conditioning was already pearing perfection,

Manny is proof of that."

Memorial Sports Complex

presides over the actual demonstration of boxing

Pacquiao also did not do usual hard gym work and had only limbering exercises at the Wild Card Gym in Paranague.

"Abangan na lang sa Sabada (Let's just wait for Saturday), chorused Buboy Pernandez. Pacquiao's Filipino handler who said Roach would bare an even greater part of his training talest in today's clinic at the Ninoy Aguino Stadium.

After having observed Pacquiao during gym work Tuesday, the 30-year-old Fahsan saxd the Filipino had uneven swearing, which the Thal blamed on rushed, uneven training.

Upon hearing about the Thaiclaim, Pacquiao also said all questions should be answered on Saturday.

"Mahirap panay usapan, sa Sabado na subukan (Let's stop talking and settle things on Saturday)," said the Ring Magazine featherweight champ in predicting a massacre.

Fahsan's manager, Jimmy Chachotochuang, said Pacquiao, based on their findings, has trained thoroughly for only three weeks for the big march.

This means, the manager added, that akhough Pacquiao enjoys a big edge in speed and power, he could be beaten by Fahsan, who enters the ring an awful underdog.

The That camp had also bared that, instead of runrang in the first four rounds as initially planned, Fahsan would meet Pacquiao headon after the first beil.

Also lending his expertise in the chirac today is Philippmes-based referee Bruce McTavish of New Zealand. Yesterday's participants included

cadets from the Philippine Military Academy, coaches dom me Amateu Boxing Association of the Philippines (Abap) and trainers from the country's various boxing stables.

Also proving to be a big hit with the participants was sports nutritionist Dr. Sanirose Orbeta who lectured the participants on proper nutrition and dietmg, among others.

Roach obviously enjoyed interacting with the parriciparus, signing autographs and possing for photos.

FREDDIE ROACH. Unlike in America, you guys here have a harder time growing up. That's why I like seeing guys like Manny achieving great things.

Lack of sponsors continues to bug **SEAG** organizers

By Marc Anthony Reyes

FOR every \$100 spent by Vietnam in staging the 2003 Southeast Asian Games the Philippines will be spending only \$4 in hosting next year's SEAG.

That, in a mashell, describes the night budget the country is working on in its third staging of the SEAG, although organizers continue to worry about the lack of sponsors so

"Companies this time of the year have arready used up their budgets," Philippine Southeast Asian Games chief organizer Ober Pagdanganan told the Inquirer yesterday.

"Maybe we can start early next year to work out a marketing scheme to tap the private sector."

"From the start, we know that we are working on a tight budget, but that won't hinder us from making this a success," said Pagdanganan, who predicted a record-breaking number of live audience for the opening ceremonies which will be held at the Quirino Grandstand.

· He said First Gentleman Mike Ar-

royo will launch a pledging session on Dec. 11 among officials of top government and private corporations but the proceeds of the fundraising will be given to the 500 national athletes training for the LETRAN seeks its second win to-Games and not to the SEA Games

In new changes approved, equestrian will now be played in Lipa and not in Carmona, Cavite, while ladies football will be held in Marikina instead of the Ultra as previously

Officials wanted to move Canoe/kayak to Subic from La Mesa Dam but Philsoc still has to determine whether the Subic site is up to

international standards. The 41 national sports associations taking part in the SEA Games were also given until Dec. 13 to declare the equipment they will be needing so the Philsoc can make arrangement with the Philippine Sports Commission.

Pagdanganan added that more than one television network might cover the Games instead of a solo coveror which is usually the practice.

Tied with the La Salle Lady Archers at No. 3 with 1-1 (wittloss) slates, the Letran spikers tackle the SSC belles at 3 p.m., hoping to inch closer to reigning champion Santo Tomas Tigresses (3-0) and the Philippine Sports Commission Lady Legends (3-1).

Backstopped by the power-hitrang Roxanne Pimentel, UST outlasted PSC in a thrilling 18-25, 25-16, 17-25, 25-14, 15-9 victory Tuesday for its third straight win and the solo lead in this tournament sponsored by Shakey's Pizza and co-presented by Dunkin Donuts, HBC Home of Beauty Exclusives, Smart and PLDT with Mikasa and Accel as official volleyball and outfitter, respectively.

Lyceum and Far Eastern University collide at 5 p.m.

The Lady Pirares dropped its only match so far to the Lady Legends in four sets, 18-25, 19-25, 25-19, 13-25, last Nov. 30 while the Lady Tams are in the cellar with the SSC spikers with a 0-2 card.

La Salle, the back-to-back UAAP ridist, opened its campaign with a 21-25, 31-29, 21-25, 19-25 defear to rival UST on Nov. 28 but bounced back strong and downed San Sebastian, 21-25, 25-14, 25-21, 25-17, late Tuesday for a share of third place with Lettan.

REINFORCED: Two Filipino-Americans and two Filipino-Britons reinforce the Philippine football tearn currently seeing action in the 2004 Tiger Cup in Kuala Lumpur; Malaysia. The tearn backed by the PCSO and Pagenr bowed to Myanmar, 1-0, in extra time in their opening game last night.

First Gentleman holds fund-raiser again Saturday

MRST Gentieman Mike Arroyo again seu the ball roiling for the buildup of Pinoy athletes for next year's Southeast Asian Games through a pledging session this Saturday at the Herocs Hall in Malacanang.

Top executives from government and private firms have been invited to enlist their support in raising funds for the training of the first batch of athletes who passed

the stringent criteria laid down by the Medalyang Ginto Executive Council of the First Gentleman Foundation.

A total of 248 athictes, most of them gold medalists in last year's Vietnam Southeast Asian Games and various International events, make up the first batch of beneficia-

ries to be known as "Team Tagumpay." The breakdown of the Initial beneficiaries: Diving 6, swimming 7, archery 3, athletics 8, baseball 22, men's basketball 17, billiards-snooker 3, boxing 5, bowling 12, canoe-kayak 5, chess 4, cycling 2, dragon boat 39, equestrian 2, fencing 9, golf 7, gymnastics 2, judo 3, karatedo 5, lawn howls-peranque 12, musey that 2, rowing 6, shooting 4, men's and women's softball 41, taekwondo 10, triathion 5, wrestling 1 and wushu 6.

Basketball greats immortalized in Bocobo-Celis book

A BOOK chronicling the greatest players of Philippine basketball, rided Legends and Heroes of Philippine Baskerball, will be formally launched this Saturday at the ELJ Communications Center, ABS-CBN compound, Quezon City.

President Macagapal-Arroyo was presented with the book by the author, Dr. Christian Bocobo, during her visit in San Francisco two days before the formal book launch at the Marriott Hotel in California in November 2004.

Philippine Basketball Association chair Buddy Encamado and Talk N Text governor Rickie Vargas graced the occasion. Former RP team mainstay Alberto "Big Boy" Reynoso and Diodo

Purnaren were special guests. The book is co-authored by Bocobo, a San Francisco-based Physical Medicine and Rehabilttation specialist, and Marula Bullerin spons columnist Beth Celis.

It has a rich collection and compilation of action photos and portraits of great Philippine baskerbail star players representing different eras. Profiles of stars include the hometown and

school teams they played for. Interesting facts abound in the book, including all-time records set by players in college and professional leagues.

scarred Abe Rosal.

THE BATTLE "begins" today in the 55th Fil-Am Golf Invitational at both the Baguio Country Club and Camp John Hay. Not to belittle the presence of a spillover 165 teams but, truth to tell, the 13 teams vying for the top plums (Fil Championship with 6 squads, and Am Championship with 7) start to get the usual media mileage the next four days. Unfair?

Not really to the 820 other players out of a field of 888 entered.

The stars of the show always get the spotlight because they'deserve it. And we are talking here of 68 players from the Fil and Am Championship Divisions.

They earned it. Each one of them is a star In his own right, You don't hype the front act of either Martin Nievera or Lan. Misalucha do you? Always, the main performer gets top biling.

While the Pll-Am as a whole is basically fun and-social, exclude the Championship Divisions of Fil and Am.

Over there, competitors go for gore, thirst for blood, battle to survive. When the war's over, there will be no love lost among the

Over there, they temporarily set aside the adage: "The beauty lies not in winning, but in taking part."

But who will the golf gods favor thus year?

It's hard to tell. The field is littered with teams fancied to win the crown of this fabled tiff that was once listed in the Guinness Book of World Records as the world's biggest ever golf

cournament. By Sunday, we will know if defending tan Tabanas and Paul Miñoza, who now carry their home team, Del Monte, the 2004 PAL Interclub champion.

Lovell Gopez, the youthful Mizuno-DHL skipper, will now lean on a team known to scavenge for gold from garbage: Erwin Vialuan, Marvin Dumandan, Raymund Sangil, Laurence Negrido and Kit Lopez, Southwoods has World Amateur veterans Mike Bibat and Artemio Murakami, who will team up with Antonio Asistro, Jun Jun Plana and World Amateurs alternate Gene Bondoc.

But even as they are the headline hogs beginning today, the 68 so-called stars will just be among the 888 players during the awarding ceremonies on Sunday. Competing is one thing, being together on awarding night is another. In that night of nights, each and

everyone is just simply called a golfer The winners become mere decorations.

FASTBREAK. My good neighbor, Wilmer "Pink Basket" Embuscado, has left his catering chores momentarily to assume anew his job as skipper of Batch '92. His players-Jose Santos Jr., Narciso Ragua, Teddy Tan, Yasuhiko Omeda and Philip Baunsta-ore serious contenders in Flight C of the Am Division. And, of course, my fellow Beatlemaniac, Nilo Mercado of Publicis Dialog/Shoe Mart, has brought in his own bold brigade-Theody Pascual, Al Etrone, Ludwig Ledesma, Ding Kalinga, Eric Jaudines and Teddy Quizon in Fil C Division, and Mike Gonzales, August Mendoza, Tony Villanueva, Eric del Rosario and Boy Galiste in Am D Division. Nilo's squads are running second in their divisions. Good luck, gentiement

KOBE'S FAULT

Malone rules out return to LA Lakers

LOS ANGELES-Karl Malone has ruled out a return to the Los Angeles Lakers because of comments made by Kobe Bryant in a radio interview, Maione's agent said

"Karl is furious," agent Dwight Manley said Tuesday. "He felt very disrespected and betrayed. after personally being the first to stand up for Kobe over the last year throughout his rape charge and all he went through."

Manley said remarks made by Bryant on Monday, coupled with what the agent called "recent personal attacks made in private," led Maione to his decision.

Asked if Malone might play elsewhere, Manley repued: "This certainly opens up that possibility."

Bryant told XTRA on Monday he didn't believe Malone, who is recovering from losee surgery, would come back to the Lakers, calling it "just intuition."

"It's not really fair to hold it over the guys' heads that are here," Bryant said. "The guys that we have here are working hard, practicing hard every day. It's kind of rough for them to be looking over their shoulder, wondering if he's going to come back and then everybody is going to disappear.

They are here giving me 110 percent. It's really not fair for us to sit around and speculate how long this is going to go on. I mean, you can't sit up here and speculate for the remainder of the season whether or not he is going to come back. I mean, that's not fau to the guys that are working here."

Cavs rise in East;

Rockets blast off

CLEVELAND—LeBron James scored 27 points and assisted on Lucious Harris' clinching 3-pointer with 6 seconds left Tuesday as the first-place Cleveland Cavaliers won their eighth straight at home, 103-97, over the New Jersey Nets.

MCGRADY

As 12-6, the Cavaliers have the best record in points to lead Milwaukee past Indiana, 89-86, for its first road win of the season. the NBA's Eastern Conference—the first It was the fifth straight loss for the Pacers, the time they've had that distinction after 15 games since March 21, 1989,

"I feel like we're a good means right now and we're going to keep going," said

when they were 48-17.

After his two free throws put the Cavaliers Shake up 97-93 with 1:35 to play, James stole Richard Jefferson's crosscourt pass and streaked in for a thunderous slam dunk.

The Nets pulled within 100-97 on Jason Collins' tip with 30.9 seconds to go, but Jurnes fed Harris

Knocked-out Colombian boxer dies

PANAMA CITY, Panama—Colombian boxer Carlos Meza died Tuesday, four days after being knocked out in the ring, according to boxing officials.

"Unfortunately, Meza has died," said Miguel Prado, president of Panama's Boxing Commission.

Meza, 26, never regained consciousness after being knocked out in the 12th round of a bantamweight bout against Panamanian Rucardo Cordoba on Friday in the Atlantic port city of Colon.

Dr. Winston Grenald, the boxing commission's physician, said Meza had died as a result of a coma induced by three skuil fractures and the accu- cording to a hospital news release. mulation of fluid on the brain. He said doctors "did all they could" to save the fighter from Barranquilla, Colombia.

Doctors said earlier Tuesday that Meza had suffered "brain death," and that they were only waiting for vital signs from his internal organs to cease in order to issue a formal death certifi-

Docrors here are forbidden from disconnecting life support systems as

long as a patient's organs are working. The bantamweight fighter under went an operation on Saturday to ease

swelling from cerebral bleeding, ac-

Meza was reportedly undefeated in

eight fights before the bout against Cordoba. He was listed as the 14th ranked contender by the World Boxing Association

Meza's wife, Luz Mery Torres, said her hasbend had hoped to buy a house for his family.

"I don't understand what happened. He was well prepared," the weeping Torres said.

Fellow boxer Irene "Mambaco" Pacheco said, "Carlos always liked close-in fights, and he was devoted to his wife and two children."

ENTERTAINMENT

When popularity and quality diverge

ONE of the big hits on the local film scene this year is "BC12 of U." What accounts for its good showing at the tills, and how does the movie rate on point of quality?

First, the "hit" factors: It's a teen flick, and there are millions of teenagers out there. It's also a killig production, so it's easy for all those teens to empathize with.

In addition, the film has three stories, and that speaks directly to the shorter attention

span of young people these days. The production's anthology format also means greater variety, and that's another plus as far as young viewers are concerned.

Another big draw is the movie's romantic-comedy-drama orientation, resulting in lightweight entertainment that some producers believe is what today's hard times welcome most.

But the most potent attraction is the movie's stellar casting, with not one but three young love reams-Kristine Hermosa-Diether

Ocampo. Heart Evangelista-Geof-Eigenmann, and Sandara Park-Hero Angeles.

in this regard, the biggest draw is the Sandera-Park tandem, thanks to their youth, and her epitomizing the Asian wave that's the current hot trend in entertainment

All of these plus popularity points, pius Star Cinema's unrivaled publicity promotiona. muscle, account for the movie's unusually strong showing at the tills.

Now, what about quality? The main problem with the film in this regard is its constricting TV orientation.

This can be attributed to the fact that its three directors cut their teeth on productions, hence the relative narrowness of men vision.

This is a major .imtation, because the movie looks too small for the his most film requires greater complexity, range and depth than TV, and those elements are what are lacking "BCaz of U" (-Which, by the way, as an apt title for the movie, because its rendering is as constructed as the

or lack of it) Other limitations emanate from the inadequate scripting. especially in the Kristine-Diether episode, where Knstine's allimportant decision to filt Diether on their wedding day isn't sufficiently motivat-

production's scope,

2004 NU107 ROCK AWARDS

Yoyoy jammed while Yowong howled, and cops found Ecstasy

By Irene C. Perez and Marinel R. Cruz

IT WAS a wet night, but it rocked.

Supertyphoon "Yoyong" did not stop hordes of artists, rockers, groupies, fans and wannabes from braving the fierce winds and trooping to the World Trade Center for the 2004 NU107 Rock Awards last Thursday night.

Radioactive Sago Project opened the event, called "Unsitent Night"—which featured 16 awards, 15 bands, one foreign act, one mad downpour and thousands of damp bodles-with the cha-cha piece "Astro" and a beer-smashing skit.

Four-man band Bamboo is the night's big winner, bagging the awards for Artist of the Year, Song of the Year for "Noypi," Drummer of the Year for Vic Mercado and Listeners Choice

"It's a big win for the rock scene, for Fil-ipino music," said frontman Bamboo Mañ-

Bamboo, who left the band Rivermaya some years ago, is pretty much delighted to be back in the music circuit. "I love the crowd," he declared. "It's my job, I love what I do."

This married guy said there's no issue between Bamboo and present-day Rivermaya boys who performed "Liwanag sa Dilim," a

potential videoke classic which most people in the audience already know by heart

"We're good," said Bamboo. "Mark [Escueta] and Rico (Blanco) are my still friends, no

Surprise act

The Brit rock act The Barbs made a surprise appearance at the end of the show and performed "Massive Crush," much to the payingpatrons' delight.

"The local rock scene here is amazing," said vocalist Amy Casey. "It's more than we expected. Everyone here is passionate about what they do. They really jump around. People are going f***king crazy!

Hot babes are Rock Awards staples, and this year's pack included models Rissa Samson, Nicolette Bell, Cindy Kurieto and Reema Chanco, movie sexpots Ara Mina, Asia Agcavili and Julia Clarete, and teen star Chynna Ortaleza.

So what's the controversy this year? You choose: Asia suggestively rubbing NU107 president Atom Henares' belt buckle and holding out a dildo-like contraption; Nathan giving Tim Yap a big hearty hug; or Yoyoy Villame in a green jacket and Santa's hat jamming with Tropical Depression, Joey "Pepe" Smith and Jr. Kidlat in a reggae act.

Yes, Yoyoy Villame was there with Typhoon Yoyong.

"Influence," Urbandub's second album, won Album of the Year. No mean feat for this indie band that shuttles between Cebu and

"Astro" by Radioactive Sago Project won Best Rock Video. Mohawk-sporting director R.A. Rivera, set to do videos for Drip ("Song #9"), Imago ("Taning") and Sago ("Mr. Pogi in Space"), was quite busy with the booze backstage that he almost didn't make it to say

Still backstage, <=>andwich drummer Mike Dizon grimaced in pain from severe muscle pain, and spent a couple of hours on his back, prompting his band mates to call medical help

Mike said it was due to stress and lack of sleep, but refused hospitalization and insisted on performing after finally propping himself up. He was still able to pound the drums for <s>andwich on "2 Trick Pony."

The band won Producer of the Year for their indie album "Thanks to the Moon's Gravitational Pull."

"Raymund [Marasigan] worked his ass off." said <s>andwich and Kiwan vocalist Mare Abaya. "And it was a turning point in our career because our record company dumped us and we started from zero."

He said it's now straight indie for the band. "It's hard to get a record deal unless you're as big as Bamboo," Marc said. "And there's a lot more money in going indie."

'No sellouts'

Jerome Velasco of The Mongols was voted Guitarist of the Year and Buddy Zabala of Twisted Halo and Cambio was Bassist of the year. Slapshock, which got the mosh slam-

Goth band The Late isabel was the in the Raw awardee Rock veterans The Jerks were not present to accept their Hall of fame award.

Recently signed-up pop-rock act Orange and Lemons was voted Best New Artist. As for those who accuse the band of selling out, frontman Marco Fundales said going

over to Universal Records from Termo Recordines was an experimental move. "If it works out, OK, if not, were going back

to being indie," said Marco. "Serlouts? We don't have any money yet." Two new awards were given out this

year Rising Sun Award for Sponge Cola and Female Rock Icon Award for Cynthia Alexander, Unfortunately, both were a no-show. Cambio and Chicosci, a band

pretty popular with high school girls, performed. So did Kjwan, 6 Cycle Mind, Sugarfree, Ciudad, The Dawn and Kitchie Nadal

Judges included Martin Galan, acoustical engineer, consultant and former The Dawn manager; Jack Madrid, MTV general manager; Christine Fonacier, MTV Ink editor, Jaime Fabregas, theater and movie actor; Myra' "Skarlet" Ruaro, Brownbeat All Stars vocalist; Ray abella, musical arranger, Chikoy Pura, The Jeries frontman; Patrick Reidenback of Club Dredd, and Wally Gonzales, Juan de la Cruz Band bassist.

By Marinel R. Cruz

ORMER actress Amalia Fuentes last Tuesday said she was preparing to file a complaint against GMA 7's investigative program "Imbestigador" for takrest house in Nasugbu, Batangas, without her permission.

give them access to every nook and cranny of my home," the feisty actress told inquirea Entertainment in a phone interview. They can only come

According to a statement GMA 7 who claimed to have been "forced to

The "Imbertigador" report these people allowed entry even when also said Fuentes did not allow nobody approved of it?

'We made an effort to get both sides," Enriques told Inquiren Entertainment in a phone interview last Sunday. "That's the standard process in every story. Our researchers called her twice, but she refused to answer."

But Fuentes, who said she had just arrived from a trip to Europe last Dec. 1, said "Imbestigador" kept calling her house while she was away but not when she came back. "Because they knew I would not be able to talk to them," she pointed out, "You know, I will not look for a fight but I will never run away from one.

"Imbestigador" said it acted on a phone call it had received through its Imbestigador Action Center "We immediately started research work on it," said the statement. "We interviewed the boy's parents and referred the case to the DSWD and the PNP."

"We simply reported the story," Enriquez pointed out. "We focused on the facts of the case. We had no other agenda. As for her complaint, we'll let our lawyers handle it. We can only comment on the facts at hand."

According to Fuentes, singer Ima Castro, one of her tenants, owns the "stolen" bracelet.

"We were able to recover it because the boy admitted to pawning it for P10,150. Thubos ko pa nga," she ex-plained. "He took it while he was she added

"WE SIMPLY reported the story," says "Imbestigador" host Mike Enriquez.

cleaning Ima's place. Ima said she also lost money at that time."

Mother's choice

Because of the incident, Fuentes said she took the boy and his mother to the police, which recommended the filing of qualified theft against the

The first hearing was set on Dec. 2, but was reset to Jan 2, said Fuentes.

"When I found out that he was just a minor, I made his mother choose between putting the boy behind bars and paying for the things he stole," she sa.d. "She said she'd pay for it. But they don't know where to get the money. She had no choice but to leave the boy to me.

"He was under my care. I never detained him. I don't understand why his mother would ever think that I was keeping her son from him."

Fuentes was referring to an incident when the boy's mother came to visit him but was not allowed to enter the subdivision.

"The guards didn't know her," Fuentes argued. "All she had to do was to tell us she was coming over.

"I was just going to forget everything and sign an affidavit of desistance. But she had to do this to me,"

ing video footage inside her

Being part of the media doesn't inside when I tell them so."

sent to Inquire Entertainment last Tuesday, "Imbestigador" aired a story last Saturday on a 15-year-old boy serve Fuentes for months, allegedly as payment for a bracelet that [Fuentes]

'Eat Bulaga!' special sabotaged?

CABLE TV subscribers from Las Piñas, Parañaque, San Pedro Laguna, Quezon City and some other areas in Manila were so frustrated because they missed the airing of the "Eat Bulaga" silver anniversary special last Nov. 27.

Right in time for the spectacular opening number, GMA's channel signal on Sky Cable and Home Cable in the above went from bad to gone. GMA Network's News and Public Affairs department, dzBB AM and the company's telephone operator received many calls from cable subscribers in the affected areas who doubted the timing of the distortion and disappearance of GMA's signal on Sky Cable.

GMA news interviewed some people from Sky Cable in Sta. Rosa, Laguna, who cited technical problems in their fiber optics as the cause of the signal disruption. In Las Piñas, a brownout at Sky Cable's substation was the apparent cause

The overnight TV rating of "Eat Bulaga" reached 37 points versus the competitor's 11 points but the "Bulaga" rating could have been higher had the simultaneous signal distortion incidents not occurred.

Producers of "Eat Bulaga" promised to replay the opening of the special this month. Was there sabotage, or was it mere coinci-

Reader writes

I'M GIVING way to this eyewitness account of a brawl involving South Border

"Hey, Dolly Anne.

"I eat the Inquines for breakfast and your column interests me no end. I'm writing about an incident involving South Border that I witnessed last night at the MTV AIDS Summit Concert at the Fort and left a bad taste in my mouth. Considering the gravity of the incident, I felt it was my duty to expose it to the public and deflare the heads of these egoma-

"My friend and I were at the artists' entrance of the venue at around 8:30 p.m. when our attention was caught by three burly security persons pushing two teenage guys to a shady spot that was a few yards away from us. They ganged up on them behind a portalet and we heard them hurling invectives at the two poor guys. We assumed that the teenagers had caused trouble at the concert or slighted some performers at the event.

Then we saw members of South Border (Duncan, Vince and this other guy) appear, with grim look on their faces and closed fists as if ready to pounce on anybody. It was easy to figure out that they were the artists offended by the two locks. We heard one guard said, Paghubarin 'yang mgo yani Sino pang mga

DOLLYWOOD Dolly Ann

Carvajal

and punched them in the back. Then they asked the band members to punch the kids some more, Vince and this other burly guy did. The kid in the red shirt was writing in pain while rolling on the ground, clutching his sides. Still not satisfied, the guards made him stand up and told him to squat (Wag ninyong paalisin yanl Paiskwatin ninyo nang

kasama ninyo, ha?' and they pulled this kid in a

red shirt who really looked scared. The guards

made the two kids squat behind the portalet

dalawang oras!"). The band members immediately test after punching the two kids. "I just can't believe that members of South Border would physically assault some defenseless 'average' kids. If those kids might have slighted them, they should've understood it by now that they are celebrities and

they would have their share of haters. "And those security guards! I don't have enough foul words for them! Those kids were there to have a good time. Instead those guards made punching bags out of them. And to think that event was supposed to have been held for a good cause!

"Poolpizzer."

'Bitag'

IN ITS more than two years of airing, "Bitag" has entrapped syndicates and other bad elements, with producer/director/host Ben Tulfo, personally supervising and executing all the operations. A lot of the successful operations of "Bitag" are picked up by other prime

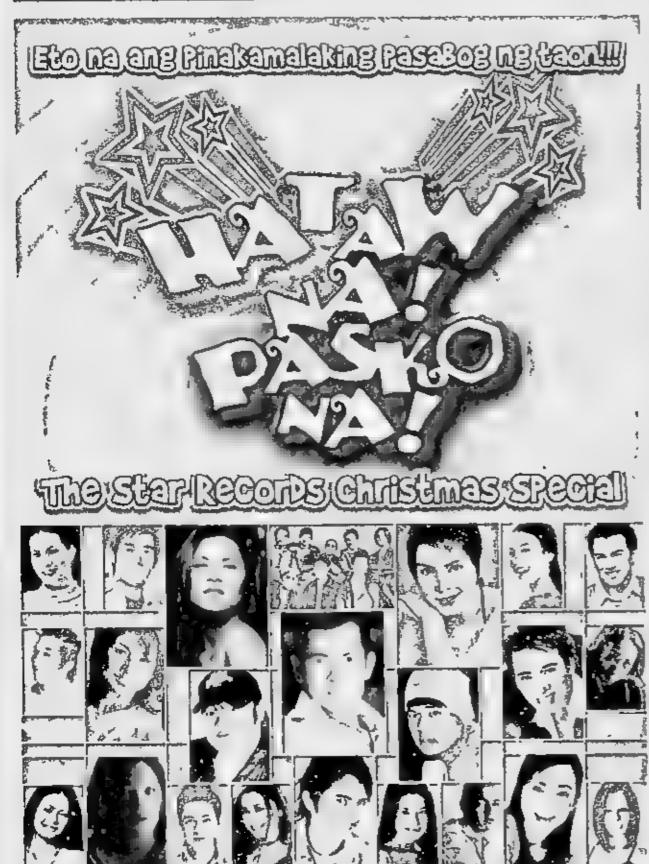

time news programs in leading networks. One of the missions of Ben Tulfo was the fall of the No. 2 man in human trafficting in the country, with the help of the CIDG-Anti Organized Crime and Businessman's Concern Division (AOCBCD).

"Bitag" now airs every Saturday, 9-10 p.m.

"It's not a job for me but a way of life," says Ben "Bitag," "I am and I will always be a Ronin, or a masterless warrior, I am not at the mercy of the networks unlike other hosts."

said it was much better."

1998," Wallace said.

Wallace said PCUP members'

and eighth in 2002.

The report also showed that Malaysia and South Korea as the MNC leaders overwhelmingly hoped for improved governance of the country in terms of clearer policies, strong enforcement of laws, steady rules that are not changed midstream, and respect

for business contracts. WBF chief Peter Wallace said in a press briefing that the findings were part of the results of the 2004 corporate performance survey that covered WBP's Philippine Corporate Update Program.

Wallace explained that the survey was conducted last September and that 49 of the 140 companies under the PCUP were poiled.

The respondents were spread out over varied industries with consumer and industrial manufacturing, chemicals and pharmaceuticals, utilities and power, business services, and trading among them.

The survey found that the Philippines ranked seventh after China, India, Thailand, Vietnam,

top investment weaknesses: bureaucratic red tape, economic instability, changing policies, govemment attitude, transport infrastructure, currency volatility and political instability. preferred investment site in Asia

following criteria as the country's

The top three weaknesses were mostly unchanged in the past five ed from sixth in the 2003 survey years except political instability, which fell to seventh from second

At the same time, the corporate executives listed the following as the country's top investment strengths: worker education level, their proficiency in the English language, quality and quantity of muddle management and technical people, comfortable local lifestyte, business conditions were the availability of needed skilled or semi-skilled workers, attitude to forsame as the previous year while eigners by business associates, 28 percent said it was worse," he ability to accept Western business said. "Only 15 percent said it was practices, labor reliability, attitude somewhat better and nobody to foreigness by the public, and quality of business partners.

"Clearly, business sentiment The report added that overall, has yet to recover and is still well the resulting index of investment below its peak immediately prior attractiveness showed the busito the Asian financial crisis of ness sentiment seemed to be more neutral than positive. The respondents identified the

Respondents also put forward the following recommendations to the government:

 reduce graft and corruption by means of a few "high profile" imprisonment, especially among erring police and military officers;

· rationalize the tax and incentives system for investment to make it competitive with those of other Asian countries;

 improve investment in infrastructure especially in the power sector considering a homing shortage, and at the same time provide guarantees of non-impairment of contracts with private firms;

 liberalize the business environment, stop being protectionist and privatize government busi-

 minimize judicial incervention in legitimate business operations, and

 address the public sector deficit and debt issues promptly and more decisively.

Finally, Wallace said the country's leadership was a significant factor in the country's attractiveness to investors. "It is the leader that matters."

Gov't debt rises to **P**3.63T

By Michelle V. Remo

THE NATIONAL government's outstanding debt rose to P3.63 trillion in August due to higher foreign and domestic borrowings coupled with the depreciation of the peso.

The P3 63-trillion obligation of the national government as of August was 1.4 percent higher than the P3 58 trillion recorded the previous month.

Documents from the Department of Finance showed that the debt figure for August consisted of P1.9 trillion worth of domestic borrowings and P1.73 trillion worth of foreign liabilities.

The amount of foreign debt in August rose by 2.2 percent from July. The DOF said in a statement that the increase in external borrowings was due to P20 billion worth of net availment, P10 billion worth of net depreciation of third currencies against the US dollar, and P6 billion in depreciation of the peso against the green-

The amount of domestic borrowing in August at P1.9 trillion was 0.7 percent higher than in July. The DOF said the increase was caused by the issuance of P1 billion worth of government securities and other "domestic adjustments" worth P13 bl...ab

The debt burden has been growing because of the budget deficits that the government incurred over the past several years.

The government is targeting to begin easing its debt burden only in 2009 or 2010 when it expects to have wiped out its budget

The government's gaping budget deficit

C. DUALARIES ESCAPE FASTER WITH THE NEW 2.3L FORD ESCAPE

Ecozone exports jump 13.6%

TOTAL exports from the country's economic zones remained on an uptrend as receipts jumped 13.6 percent to \$25.6 billion in the first 10 months from \$22.5 billion a year

The Philippine Economic Zone Authority reported that the 10-month export revenues of \$5.7 billion from the four public ecozones hardly expanded from last year's.

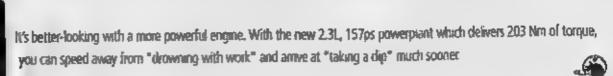

Baguio City Economic Zone shipped out \$2,43 billion worth of products; Cavite Economic Zone, \$1.72 billion, Mactan Economic Zone, \$1.34 billion, and Bataan Economic Zone, \$243 million.

Of the public ecozones, Bataan posted the biggest increase in exports at 9.2 percent from \$222.5 million in the first 10 months last year. Bagulo reported a 5-percent decrease from \$2.55 billion in the same period in 2003

The private or special economic zones (SEZs) shapped out a total of \$19.7 billion worth of products, an increase of 18.2 percent from \$16.6 billion last year.

The top five SEZ exporters were Laguna Technopark Inc. with \$6.5 billion; Gateway Business Park, \$3.6 billion; Amkor Technology SEZ, \$1.9 bilnon; Carmelray Industrial Park I, \$865.2 million, and Carmelray Industria: Park II, \$649.7 milbon.

MAJOR PROPERTY firms said they did not see a substantial impact on real estate operations of a Malacañang order suspending logging activities following killer floods and landshdes.

A high-ranking official at Ayala Land Inc. said there were alternatives for property firms such as "engineered wood" or synthetic wood used for floors or kitchen cabinets, which are imported mostly from China.

This may increase costs since the materials are imported, but local property executives said this had been done in the past.

"We don't annoppare any major effect. It is a selective log ban, which won't make it as easy to source lumber as before," the ALI official said.

The official also said that all of ALI's projects would continue. "Nothing will stop because of the

During the nine-month period, ALI spent P5.55 billion or 58 percent of the P9.52-billion budget for projects for itself and its subsidiaries for the year. The bulk was used for residential building projects such as Serendra, One Legazpi Park, The Columns and One Aeropolis. The rest was used for the development of shopping centers, primarily Market! Market!, build-to-suit office buildings, residential subdivision projects and equity investments.

Residential developer Belle Corp. also said there were other alternatives available in the market aside from lumber that may have a minimal effect on costs for the company, company vice chair Willy Ocier said.

The bulk of the sales revenues during the first nune months for Belle was from Phase 1 of its farm lots subdivision project, Plantation Hills in Batangas, which was launched last year. Roughly 80 percent of the project has been completed. Total operating expenses climbed 33 percent to P70.3 million from P52.9 million in the nine-month period due to the heightened development activines in Plantation Hills, preparations for three additional phases for this project and preparations for Saratoga Hills, a new house-and-lot subdivision project located close to Plantation Hills. Saratoga was planned for launch within this year.

Gov't debt

and burgeoning debt are the main factors the country is confronted with a fiscal problem and threats of a credit-rating down-

Earlier, London-based ratings firm Fitch Ratings downgraded its outlook on the Piulippines from stable to negative, although it retained the country's credit

Ratings firm Moody's Investors Service, for its part, is

assessing whether to push through with its earlier warning of downgrading the country's credit rating. Representatives of Moody's were in the country last week to evaluate the country's fiscal situation.

The Arroyo administration is pushing for several revenue-raising measures, such as higher taxes and reduced fiscal incentives, to plug the budget gap and meet its medium-term goal of a zero

A simple eye examination can detect early signs of cataract.

The golden years are filled with warm family gatherings and the smiles of grandchildren. But as we age, our risk of blindness from catarect increases.

The symptoms of cetarect are quite varied. Changes in color perception and frequent changes in eyeglass prescription are just some of the more subtle and lesser known symptoms. Treatments for cataract have improved, making more efficient aurgical procedures available.

Visit your eye doctor today and find out more about cataract. Because there's so much to took forward to.

3 bidders vie for Cirio's 40% stake in Del Monte

By Elizabeth L. Sanchez

ITALIAN food company Cirio Finanziara S.p.A is in advanced talks with three bidders interested in its 40-percent stake in Singapore-listed manufacturing firm Del Monte Pacific Ltd., which owns the brand rights over Del Monte products in the Philippines and in the Indian subcontinent.

DMPL said in a disclosure to the Stock Exchange of Singapore that Cirio will select a winning bidder if the terms are acceptable, after which it will proceed with the sale of its 39 99 percent stake in the company

The fine, bidders were not identified. DMPL, however, said that MCI Inc., the holding company of the Lorenzo family, has a right to match any final offer that Cirio will accept.

The Lorenzo family holds a 22-percent cent to \$45 million.

"However, shareholders should be aware that there is no assurance that a definitive agreement will be signed with any party and there is no certainty that a general offer for DMPL will take place," DMPL said in its statement.

Cirio earlier defaulted on more than 1 billion euros, approximately \$1.33 billion in 2002 and is now under liquidation.

Administrators have been selling its assets to raise cash to partly repay debt, and the 40 percent stake in DMPL was estimated to be worth about \$180 midion.

Del Monte recently announced an 18percent increase in its third-quarter turnover this year to \$51 million from a year ago, while net profit rose by 34 per-

Thrift banks' bad loans ratio down to 11.67%

By Doris C. Dumlao

THE NON-PERFORMING loans of Philippine thrift banks declined to 11.67 percent of their total portfolio as of end-July, from 12.07 percent in the previous month, the Bangko Sentral ng Pilipmas reported yesterday.

The improvement was attributed to the 3-percent decline in their actual NPLs combined with the 0.3-percent expansion of their total loan portfolio during the period.

The end-July NPL ratio of thrift banks was also 1.33 percentage points lower than the 13 percent ratio

banks' NPL ratio stood at 12.04 percent, or 0.45 percentage point lower than the 12.49 percent ratio a month

The ratio of real and other properties owned and acquired to gross assets rose by 0.49 percentage points to 11.53 percent from 11.04 percent a month ago. It was also 1.81 percentage points higher than the 9.72 percent ratio a year ago.

Of the sector's total loan portfolio. 2.56 percent represented restrucniced loans.

In the meantime, the non-performing assets of the banking industry reached 16.88 percent of total Exclusive of inter-bank loans, these assets, up from 16.64 percent a percent a year ago.

month ago and 16.31 percent a year

The BSP said this was due primarily to the industry's continuing efforts to foreclose mortgaged assets. It is also partly due to "the contained" expansion of the banks' gross assets during the month, the BSF added.

The industry's non-performing assets rose by 1.9 percent to P50 billion, while gross assets grew at a slower

The NPLs covered by loss provisions-or the NPL coverage ratio-Improved to 38.54 percent from 38.24 percent a month ago and 37 7

LBP plans to bid out P10B in idle assets

STATE-OWNED Land Bank of the Philippines plans to bid out P10 billion worth of idle assets, possibly under another special purpose vehicle (SPV) dea..

This is to follow the recent disposal of P13.5 billion worth of bad loans under the SPV network.

In a press briefing yesterday, Landbank president Gary Teves said the bank would continue pursuing efforts to get rid of bad assets, particularly real and other properties owned and acquired (ropoas).

"We'l, look for buyers for the remaining NPLs (non-performing loans) and roposs," Teves said.

He said the bank's asset recovery group would be asked to present in the next board meeting a proposal to clean up the remaining P16 billion in ropoas. He said the bank would aim to unload at 14 percent of its total portfolio.

least P10 billion soon.

After recently forging an agreement to sell P13.5 billion worth of had loans to Deutsche Bank-Cargill Financial Services International Inc. and JP Morgan, Landbank's NPL rato declined to only 8 percent from

During the last bidding, however, Landbank was unable to sell the ropoa portion of the assets offered to foreign investors.

The bank tapped mostly foreign bidders during the first round of the asset sale, Teves said.

He said the bank would offer the remaining assets to local investors. He said the local market might be more generous in terms of pricing.

They are more familiar with the domestic environment and there are no ownership restrictions," Teves said.

One strategy eyed by the bank to make its property auctions more attractive to local investors is to divide the assets into smaller lots, or with book value of as low as P250 million.

The successful assets disposal by local banks under the SPV

framework involved mostly NPLs, rather than ropoas.

The SPV Law of 2002 intends to help banks get rid of their NPAs by waiving some of the taxes and reducing fees imposed on the sale or transfer of assets. The law waived the documentary stamp tax, capital gains tax and e-VAT (expanded value added tax) and likewise reduced the registration/transfer fees by 50 percent.

The tax relief and other benefits under the SPV Law are available only up to April 8 next year.

Teves also announced that Landbank chalked up a net profit of P19 billion from January to October, representing 86 percent of its 2004 target of P2.2 billion.

"We're looking at P2.5 billion in net profit for next year," Teves Doris C. Dumlao

Smart bucks proposed frequency fee formula

By Clarissa S. Batino

SMART Communications Inc may have to shell out more than fee of Pl malion for every P155 million to pay the National 100,000 additional subscribers in Telecommunications Commission for the use of radio frequen-

This, according to a Smart offi- will remain. cial, is the additional cost the relco wil. have to pay if the NTC's plan to base the spectrum users spectrum fee on the amount of fee on the number of subscribers, instead of the number of base stations, would push through.

The company yesterday said this plan of the NTC was unreasonable and had no legal basis.

Rogelio Quevedo, head of Smart's legal and carrier business, said the regulator's plan would only encourage the hoarding of frequency spectrum band

The cash rich subsidiary of Philippine Long Distance Telephone Co. said it had 17.5 million subscribers as of end-September.

Globe Telecom Inc., for its part, said it would study first the NTC formula before making any comment. The joint venture of Ayala Corp. and Singapore Telecom counted 11.7 million subscribers as of end-September. Third play- spectrum, not the funds that er Sun Cellular said it broke the 1

China's biggest computer maker acquires IBM's PC business

BELJING---Chinese maker Lenovo Group said Wednesday it will take over IBM Corp.'s personal computer business, creating the world's thirdlargest PC maker in a \$1.75-bilhon deal that announces China's ambitions to become a key player in the global industry.

The deal-one of the biggest foreign acquisitions ever by a Chinese company—is expected to quadruple sales of Lenovo, already Asia's biggest computer maker, the companies said.

At the same time, it shifts International Business Machines Corp. to a peripheral role in a technology tt pioneered

Lenovo, formerly known as Legend, joins a wave of Chinese firms with aggressive plans to expand abroad.

This acquisition will allow Chinese industry to make significant intoads on its path to globalizotion," Lenovo chair Liu Chuanzhi said at a news conference. "It has changed the structure of the global PC manufacturing business."

Lenovo will take over IBM's desktop PC business, including research, development and manafacturing for \$1.25 billion (946 million euro) us cash and shares, while IBM retains an 18.9-percent stake, Liu said

Lenovo also agreed to take on habilities that raise the total value of the deal for IBM to \$1.75 billion (1.32 billion euro)

The Chinese company will be allowed to use IBM's brand name under a licensing agreement, Liu

structured the deal to ensure that IBM retains a say in the PC business, despite its small stake.

Lenovo Group's worldwide PC business will move its headquarters to New York.

Lenovo was founded in 1984 by academics at the governmentbacked Chinese Academy of Sciences and first worked out of a small cottage.

First set up to distribute equipment made by IBM and other companies, by 1990 it was selling PCs under its own brand name.

IBM now focuses on consulting and software, outsourcing much of its manufacturing.

The sale to Lenovo is expected to cut production costs and breathe new life into the PC busi- 1998 takeover of Digital Equip-

The companies appear to have small portion of IBM's total sales that never materialized. and profits.

"The IBM brand will gain great recognition in China, the world's fastest growing economy and the world's fastest growing market for PCs," said John Joyce, IBM semor vice president and group executive of IBM Global Services.

Beijing-based Lenovo has 27 percent of China's computer market. Its shares are traded in Hong

Lenovo will need to branch out in services and other areas as profit margins for manufacturing shrink, said Duncan Clark, managing director of the consulting firm BDA China Ltd.

"it's not going to be easy, but they're certainly not shying away from any of these challenges," Clark said

He suggested Lenovo call the new venture "Big Red" a play The deal follows numerous on IBM's Big Blue nickname and

Both IBM and Lenovo have seen profit margins suffer amid aggressive competition.

IBM had 5 percent of the worldwide PC market in 2004, selling 6.8 million units, according to Gartner Inc., a US technology consulting firm.

That compares with 16.4 percent for Dell Inc. and 13.9 percent for Hewlett-Packard Inc., which makes the HP and Compag brands. Lenovo ranks fifth in sales worldwide.

Chinese firms' ambitions will only grow, Clark said.

"It's this combination of this large market, manufacturing base, engineering talent," plus government encouragement to Chinese companies to make their mark abroad, he said.

announcement Lenovo's Wednesday followed reports that a deal was imminent. As speculation mounted Tuesday, IBM's stock fell \$1.57 per share to \$96.10 in trading on the New York Stock Exchange.

Shares rose 10 cents in afterhours trading, to \$96.20.

Japan avoids recession; grows by 0.1% in Q3

TOKYO-Japan just missed falling into recession after revised thard quarter figures Wednesday showed much lower-than-expected growth of 0.1 percent as the government insisted the economy faces only a temporary slowdown.

domestic product (GDP) growth of 0.1 percent in the three months to September gave an annualized gain of 0.2 percent under a new methodology, compared with 0.1 percent and 0.3 percent in preliminary data.

Analysis had been expecting the revised figures to show a gain of 0.3-0.4 percent on the quarter and 1.2-1.8 percent annualized, especially in view of strong corporate capital spending figures announced ,ast week.

The Cabinet Office also said that under the new system of compiling the data, the economy had actually contracted 0.1 percent in the April-June quarter after expanding 1.7 percent in the January-March quarter.

A recession is broadly defined as two consecutive quarters of negative growth, meaning Japan's economy just scraped by and came very close to a halt in

the third quarter. A key factor in the poor performance was private consumption, which was much weaker-than-expected, increasing only 0.2 percent in the third quarter, down from the 0.9-percent rise reported in the original estimate.

Even though an improved labor market has helped cheer consumer sentiment, it has not made a major change in average disposable income, Economy and Fiscal Minister Heizo Takenaka told re-

Despite the figures, the market The Cabinet Office said gross too appeared to look on the more positive side, coming off early lows. The Tokyo Stock Exchange's benchmark Nikkel-225 index finished 67.74 points or percent higher at 0.62 10,941.37

Investors may have been reacting to one undoubtedly bright point-corporate spending on plant and equipment was revised sharply to 1.1 percent growth against an initial estimate of a 0.2 percent fall.

At the same time, export growth was revised up to 0.6 percent from the initial 0.4 percent, providing some relief that the economy's key driver remains on course even as the dollar rumbles, threatening overseas rev-

There have been fears that a soft patch in the US economy, Japan's No. 1 export market, and credit-tightening aimed at cooling off the red-hot Chinese economy could stifle hit Japanese ex-

Kanno, economist for Japan at-JP Morgan Securities Asia, said nonethe less that the downside risks for Japan remained "quite big" with Wednesday's data.

LOWER OUTPUT

Opec hawks want prices high

VIENNA, Austria-Raise prices. Ease production. For weeks ahead of this week's Oper meeting, hawks in the organization have been talking tough about the need to keep oil revenues high—and lowering output.

With the organization pumping about one million barrels a day above its official production ceiling-and prices well below the highs of a few months ago-sentiment for scaling back on production is shared even by some countries that normally take a more restrained stance

Qatar, Kuwait and Libya appear to have abandoned tradinonal ally Saudi Arabia, joining Iran and Venezuela in urging compliance with Opec's official quota of 27 million barrels a day.

We will determine if the over production of oil in the market makes it necessary to call for (members) to go back to the quotas previously established," Venezuelan Oil Minister Rafael Ramirez told a press briefing in Caracas on Tuesday.

"Venezuela would probably support" cutting overproduction before asking for a quota reduction, Ramírez said, adding that his country will support Opec members' consensus decision.

There are also some suggestions for raising Opec's price band for crude

Purnomo Yusgiantoro, Indonesia's oll minister and Opec's secretary general, said this week that such a move would be justified because of "the inflation that occurred since 2001 and the depreciation of the dollar" against other major currencies.

The group's price band is now between \$22 and \$28 a barrel. Officials from both Iran and Venezuela-Opec's No. 2 and No. 3 producers-have said recently they would like to see the low end at about \$30 a barrel.

The United Arab Emirates' new energy

IRANIAN Oil Minister Bijan Namdar Zanganeh speaks to journalists after the "Iran and Middle East Oil and Gas Forum Conference" In Tehran. Zanganeh said that Opec is likely to stick with its current production quota and price band when it meets in Cairo on Dec. 10. AP

minister, Mohammed bin Dhaen al-Hamili, on Tuesday expressed support for raising Opec's price band for crede to between \$30 and \$38 a barrel to take into account inflation and the weakening of the dodar.

But he added that Opec was not thinking of replacing the dollar with another currency as the denominator for oil sales.

Petroleum prices have been high due to strong global demand, a tight supply cushion and fears of output disruptions in Iraq, Nigeria and Russia. In September, a strong hurricase knocked out significant oil production to the Gulf of Mexico, though the region's output is now recovering.

Market prices remain nearly double the

bostom end of the present scale. Still, crude prices are hovering around their lowest level in three months, reflecting rebuilt stocks, slowing economies, high production by both Opec and non-Opec countries, a relatively mild Northern Hemisphere winter and the end of speculative futures buying that led oil to settle at \$55.17 twice in October.

The Saudis—who make up nearly a third of total Opec production—have not spoken pubhely about their preferences.

Traditionally, they have been a moderating fluence at ministerial meetings in recognition that too much of a strain on the world's

economies will backfire by reducing demand. Publicly, Opec officials deny there is a rift. AP

Colgate-Palmolive to cut US productivity growth slows; store sales dip 4,400 jobs, restructure

products including Ajax detergent and Irish Spring soap, plans to cut its worldwide workforce by about 12 percent, or about 4,400 jobs, and close one-third of its factories as part of a four-year plan aimed at boosting its sales

and profits. The company said Tuesday it would reduce its global workforce from its current level of 37,000 and close a third of its 78 factories worldwide during the course of the four-year restructuring effort. The savings would be invested in sales and marketing initiatives.

During a conference call with investors on Tuesday, chair and CEO Reuben Mark said that the

NEW YORK-Colgate-Palmolive job cuts would come mostly from Co., which makes consumer manufacturing, and said that factories-both general plants and special purpose plants-are being closed worldwide.

The news sent Colgate's stock up \$3.64 to \$49.93 in late trading on the New York Stock Exchange.

The moves come as the consumer products industry has been grappling with higher costs in raw materials, gas and packaging, all of which have put more pressure on companies' bottom

Colgate-Palmolive is aiso faced with increasing competition from rivals like Procter & Gamble Co., which have stepped up the number of new products and ramped up advertising

WASHINGTON—The US economic outlook dimmed on Tuesday after reports said business productivity grew more slowly in the third quarter than first estimated, labor costs rose and other indicators signaled softening

Chain store sales fell in the crucial shopping period after Thanksgiving, planned job cuts climbed during November and a survey of consumer confidence waned in possible pointers that the economy tempered its pace in the final months of the year.

The Labor Department said nonfarm business productivity, or worker output per hour, grew at a 1.8 percent annual rate in the July to September period—the slowest clip since the fourth quarter of 2002. It also nudged up growth in unit labor costs to a 1.8-percent pace in a potential boost to inflation.

Wall Street had expected an upward revision to productivity growth to a 2 percent rate from an originally reported third-quarter pace of 1.9 percent.

Productivity in the second quarter grew at a rate of 3.9 percent.

Stocks lost ground but their fall was trig- more efficient and instead lifted hiring. Dur gered by factors such as tumbling energy shares rather than the economic data

Higher unit labor costs also backed views the Federal Reserve will stick with a measured pace of rate increases and lift its benchmark funds rate a quarter percentage point to 2.25 percent at its next meeting on Dec. 14

The slowdown in productivity was traced to a rise in hours worked, which grew at a rate of 2,4 percent in the third quarter, the fastest pace since third quarter of 1999 as companies ran operations for longer to maintain output. This had been initially reported as a 2.1-percent growth rate

Productivity growth was also substantially lower compared with a year ago when it rose by 9 percent

But this is not necessarily had news since it also reflects cyclical changes in company hiring and a welcome boost to job cre-

Officials had predicted productivity would moderate as companies exhaust ways of boosting output by making existing workers ing the third quarter over 400,000 new US jobs were created.

However, the November employment report said a much weaker than expected 112,000 jobs were created and the impression of a troubled labor market was backed by a report from employment consultant Chailenger, Gray & Christmas

It found that US businesses announced 104,530 planned job cuts in November, compared with 101,840 in October and warned this could crimp consumer spending at a critical time for the economy.

A survey of consumer confidence told a similar story, with Investor's Business Daily and TechnoMetrica Market Intelligence reporting that their economic optimism index fell modestly to 54.5 in December after dropping to 55.1 in November. A reading above 50

indicates optimism. Indeed, US retailers continued to report disappointing sales in the key week after the Thanksgiving Day holiday, which kicks off the Christmas shopping season.

Nikkei up, other stocks down

SINGAPORE-A recovering dollar as Honda and Canon lifted Tokyo's main stock index on Wednesday as exporters gained, but Asian mining, steel and oil shares slipped on weaker metal prices and a fall in the cost of crude to a three-

Weak Japanese economic growth dam capped stock market gains and lifted Japanese government bonds. European shares were set to open lower after US stocks were dragged lower by a drop in oil company is-

month low.

Gold dropped sharply as the dollar's recovery sent the euro back be-

low \$1.34. The dollar climbed to 103.58 year from 102.97 yen in late New York trade and a five-year low of 101.83 yen hit last week.

Tokyo's benchmark Nikkel average closed up 0.62 percent at 10,941,37, lifted by exporters such

Hong Kong's Hang Seng dropped 0.48 percent by midday to 14,166.85, and an MSCI index of non-Japan shares fell 1.23 percent to a two-week

low of 252.14. China oil firm CNOOC fell 2.4 percent and Japan's AOC dropped 4.9 percent after crude prices hit a new three-month low in early Asian trade as mild winter weather in the United States and expectations of a rise in heating fuel stocks kept downward pressure on the market.

BHP Bulton, the world's biggest diversified miner, fell one percent in Australia as base metals prices eased, and Nippon Steel fell 0.4 percent in Tokyo after UBS downgraded the global steel sector on prospects for lower prices next year.

Weakness in BHP and fellow miner Rio Tinto helped send Australia's S&P ASX 200 down three-quarters

Lenovo remained suspended in Hong Kong after the Chinese computer maker struck a landmark deal to buy IBM's PC manufacturing business for \$1.25 billion in cash and Lenovo stock. World stocks as measured by the MSCI World Index fell 0.24 percent. Gold was at \$447.50 an ounce, down from \$450.50 in New York.

Ten-year JGB futures rose 0.03 points to 139.10.

VISITORS admire a new model of a Honda car during a motor show in Singapore on Nov. 11. Car sales in Asia are expected to surge at a world-fastest 16 percent annually over the next 15 years as the region becomes critical for the auto industry to off-set sluggish growth in other key markets, a leading analyst sald.

LAMOIYAN CORPORATION

Making the difference for the glory of God

A David in the midst of Goliaths

Republic of the Philippines Malacañan Palace, Manila

Message

extend my warmest greetings to Lemotyna Corporation family on the occasion of your 16th Anniversary

Your corporation has built a solid name for excellence and traditional Filipino values. I welcome the good news of your planned PhP.00M expansion program as a gesture of confidence in the country's economic fundamentals and prospects for growth. Lamoiyan Corporation deserves public recognition not only for this huge investment, but also for the numerous charitable projects it has sponsored and initiated through the years.

I look forward to your great success as you enter the global market with your homogrown Phopping-made products. This expansion will no doubt create more jobs and opportunities for your fellow Filipinos. May your sterling achievements inspire others to estudite your example of diligence and hard work combined with a strong forth in the Lord and great pride in our equatry.

Mabakay ang gawang Piliphol

Republic of the Philippines Office of the Vice President

Message

Congratulations to the Lamoiyan Corporation on its 16th Analyersary colobration

Your persistent desire to produce and deliver world-class products at affordable prices has undeniably made you one of the leading companies in the country. This auspicious occusion is not only recognition of that fact, but is also a shining testimonal to the cert of the world of the Filipino's togethiny.

I commend the officials and staff of Lamoiyan Corporation for continuously believing in the Filipmus. The P100 million investment will definitely go a long way in providing good opportunities for our felloweren. With your extensive expansion program, I believe that you will be able to serve more people and eventually splift the Philippuse scarciny.

Let us all join hands in uplifting Filipino lives!

MABUHAY KAYONG LAHATI

Republic of the Philippines House of Representatives

Message

My most fubilant congratulations in Lansoiyan Corporation on your 16th anniversary celebration!

I have always believed in the ability of the Filipino to do great things given the opportunity. This is why I am especially clated by the opening of a new, fully-computerized mothpasto manufacturing plant in Paradacus City, which is steadily gaining the status of an industrial guard in the Philippines. I am certain that many Parasaqueños are very eager to be part of this enterprise. Let us all focus on the work at hand and look forward to a brighter temorrow.

Lameiyan Corporation is a faithful ravestor in the Filipino spirit and a true pariner in autional development. I wash you all the best on your 16th year.

Republic of the Philippines City of Paranaque

Message

I would like to extend my warment felicitations to one of Parafaque's resident business enterprises, Lamoiyan Corporation, on the company's P100M

The City of Parahaque vigorously promotes business in the locality as this would not only contribute to the growth of the city but to the overall economic development of our country. We wish you continued success to that not only will you bask in the rewards of your drugent efforts but also continue in making Parahaque proud of one of its local extrepreneurs.

With its ongoing P100 million plant expansion and deeply religious team of dedicated people, Filipino maker of world-class quality products like Hapee toothpaste is poised to take on the MNCs in the global arena.

In the Bible, the story about young David fighting the fully armored Golisth with stones and slingshot never fails to inspire

Likewise, this present-day Filipino company found its own place under the sun and made its presence felt despite the fact that there are so many multinational companies already entrenched in the consumers' consciousness.

The Bible described Goliath as a robust, tall man who came into the battlefield completely arroed and ready, while David's sole weapon (aside from stones and slungshot) was his full faith in Yahweh.

Like David, Lamotyan Corporation had also came into business armed only with the sincere intention of survival, Later on, the company realized that this auryival instinct gave them the opportunity to be of service to their countrymen - the Filipines.

Buy Filipine. Boost our economy.

Presently, the company is treading on this context Buy Filipino. And why not when it is the only Filipino company that emerged in the midst of the multinational toothpaste makers. Lamouyan Corporation, maker of Hapec toothpaste, Dazz Dishwashing Aids, Fash Liquid Laundry Detergent, Tenderly Fabric Enhancer, and Lucteona Ferninine Wash faces the challenge presented by the fastgrowing technological society. Hand in hand with people who are adept in their field of specialization, Lamoryan Corporation counts on their world-class and quality-based but less proced products to gain more consumers' confidence; this in turn will pave the way for their products' entrance to every Filipino home.

Buy Filipino is not just a contextual thought, but also a unifying force that binds our fellowmen in our desire to belp boost our economy upwards. Patronizing our Philippine-made products not only manifest our love for our country, it also speaks of our appreciation to our fellowmen who strive hard to develop and bring to us what we mostly need in a very reduced price. Buy Filipino also intends to make us aware that our country's only hope to rise above our present economic downfall is to compel everyone of us to do our part in implementing some measures towards wise budgeting schemes. Lamoryan Corporation could only agree in this line of thought, because aside from it being a Filipino company, it also had its share of struggle to survive in the economic market.

Humble beginnings as MNC supplier.
The company has its own story to tell. It started in 1980 as Aluminum Container, Inc., which manufactured and sold collapsible aluminum tubes for toothpaste then. The chents they supplied were the multimational companies like Colgate-Palmolive, Phil (for Colgate) and Philippine Relining Company (for Close-

The company had been put into disadvantage in the year 1985 when their clients switched to a new type of packaging, that of laminated plastic tubes which rendered the company's manufactured aluminum tube products useless to these grant companies. Confronted with this acenario, and realizing that the toothpaste industry accounted for 90 percent of the total production requirement, it seems that the only thing left is to close the

Maker of Hapee—the first Filipino toothpaste,

But then, the company owner, Cecibo K. Pedro, could not bear the thought of placing people, his own employees at that, in the anemployment list. Cecilio turned to the Almighty God, praying hard as be had never prayed before. And like the biblical Moses whom the Lord had chosen to guide his people out of Egypt, Cecilio also received that divine inspiration to lead his employees out of unemployment status. Instead of closing the company for good, Cecilio Pedro decided to find ways to use their own product

the aluminum tubes. Well, what would be a better alternative than to fill those tubes with the company's own-produced toothpaste, thus, making the competitors glance their way because another toothpaste brand had been launched in the market. Hapee toothpasts, with the tagline "Quality you can afford" came into

Sometime later, the company had also opted to adopt the use of plastic tubes instead of the aluminum ones. Today, other packaging companies supply Lamoiyan Corporation the tubes, closures and cartons, clearly indicating that Pedro had not only retained his employees but has opened its door also to the Filipino Packaging Industry and its numerous workers.

The company's name, Lamoiyan, happened to be the contraction of the Chinese name of Pedro's grandmother - Lim (Lam) Irene, the name was given to her in Hongkong. His grandmother played a great role in Cecilio's life as she instilled in her own family their

Although the company was founded by 'accident', it doesn't mean that it would just rely on luck to boost their products. It would have to exert an extra effort to fight and weather all the storms in order to get a fair share in the toothpeste market. Fortunately, through hard work and sheer determination, the company had won a share of this same market dominated by multinutional companies that had been there longer than they were. With this turn of events,

multinational companies could not help now but give the company another lingering 'look'. Well, this company deserves that 'second look' because it had already been gamering awards in succession.

Recognizing the Fruits of Hard Work.
In recognition of its achievements, Lamoiyan Corporation was awarded the Most Outstanding Toothpaste Manufacturer (1990, 1993, 1995, 1996, 1997, 2001 & 2002) by the Consumers' Union of the Philippines. It is also an Agora Awardee as Marketing Company of the Year in 1992, conferred by the Philippine Marketing Association, and received a Special Citation for Best Outdoor Advertising in 1993 given by the Catholic Mass Media Awards. Lamotyan President Cecilio K. Pedro received as award, too, from the Philippine Inspects as One of the Ten Chistandine Voyan Men the Philippine Jaycees as One of the Ten Outstanding Young Men (TOYM), Business Entrepreneurship category in the year 1991. The company is likewise the recipient of awards such as Most Outstanding Program for Equal employment Opportunities for the Disabled in 1993, presented by the Personnel Management Association of the Philippines, and the Employer of the Year, also in 1993, from the Apolinario Mabini Rehabilitation Award. Most recent is the Ozanam Award (2004) for Service from the Atenco de Mansla Board of Trustees.

World-class Products Made Affordable for every Filipino. Lamoryan products are comparable with the output of multinational companies in terms of quality and world-class appeal. Happe toothpaste, for instance, had brought to the market a wide variety of toothpaste products with different flavors and taste that would sausfy the young and the old alike. Hapee Pure White, for one, is fortified with maximum fluoride protection and a mild must taste with Allantoin and Vitamin E for gum protection that will be an enjoyable experience for the whole family, Hapee Sparkling gels, introduced in 1988, comes in red (Explosive Membal Red) and green gel (Fresh Green Outburst) and was designed for teens. Gumtect contains Triclosan, Allantoin and Vitamin E suitable for people with sensitive gams. Hapee Premium Mint has a double mmt flavor suited for those who prefer a stronger mint taste. Kids are considered, too, because the company comes out with Hapee Kiddie Toothpaste that comes in 5 fauty flavors - Tutti Frutti, Strawberry, Melon, Orange and Green Apple. Kutning Cool Mint and Kutning Vibrant Red Gel are very much affordable by the budget conscious household.

Other company products are the Dazz Dishwashing Aids in pasts and liquid. The pasts contains Biosol-X that is effective in removing grease and stains, with free sponge in every cup. Meanwhile, the liquid has an anti-bacterial formula and comes in 3 variants - Fruity twist, Floral Fantasy, and Citrus fresh. Both paste and inquid are environment friendly and 40 percent more affordable

For fabric care, the company offers the Fash Liquid Laundry Detergent, which contains Optical Brighteners that help maintain the whiteness of white fabrics and retain the brightness of colored ones, aside from being an efficient remover of tough dirt and grime.

Tenderly Fabric Enhancer is a must-try, too. The only fabric enhancer specially formulated with antibacterial agents, it maintains fabric softness and retains the natural fabric absorbency. It comes in 3 variants, Morning Dew, Powder Fresh and Sweet

For women hygiene, Lacteens Ferninine Wash bad been formulated for that arresting ferminine allure. It is safe to use and contains Lactoserum, Lactic Acid clus a cooling agent which cleanses and refreshes, giving an all-day feeling of coolness and confidence.

The beauty of it is that all these products are priced much, much lower than those same products that are to be found in the market today. And considering our economic situation now, this reduction of prices is a welcome treat to one and all.

Doubling Plant Capacity. Investing For the Future.

Added to this is that Lamoiyan Corporation is presently undergoing a plant expansion, adding modern machinery that would do the work efficiently, which proves that they are really finding ways to improve and bring their products into a world-class category. They are opening their plant to scheduled tour visits to make the people aware of how their products are made and assure the public that the quality of their products are not left to chance but are being worked out by people who are experts in this kind of endeavor. As another company value states, "In the pursuit of excellence the company will be doing things better than before and better than its competitors. We believe in the continual improvement of our products, our works and ourselves."

Moreover, the company has a clear-cat mission of improving the quality of life by bringing essential products within the reach of the common people. And a vision of having a Lamoiyan product in

Lamoryan Corporation may be considered a David as far as the multinational Goliaths are concerned but this relatively new company, compared to other companies that have been there longer, is proving to everyone that it deserves to be noticed because the company is here to stay, continuously making the difference for the Glory of God

Empower the Poc

he Philippine Business for Social Progress (PBSP) reiterates its commitment to empower the poor sector of society in the celebration of its Foundation Day and 34th Annual Membership Meeting on December 9, 2004 at the Peninsula Manıla.

celebration will be highlighted the Millennium Development Trade & Industry Secretary Ce-Goals by 2015 - a set of goals ratified by member states of the United Nations which adheres to specific targets and milestones in reducing extreme poverty and worst forms of human deprivation by 2015.

With over 180 members, PB-SP is the only non-profit consortium of leading industries and corporations focused on social development and corporate responsibility, the first such organization in South East Asia

PBSP helps improve people's lives by promoting private sector participation in increasing economic activity, providing access to better education, giving basic health services, protecting the environment and organizing communities for collective planning and problem solving.

The 34th foundation celebration and membership meeting will be participated in by the captains of the industry and advocates of social responsibility who include PLDT chairman Manuel Pangilman, Phinppine

Carrying the theme: "Busi- Daily Inquirer chauman Marixi ness Empowering the Poor," the Prieto, Phinma treasurer Ramon del Rosario, Jr. PBSP president by a keynote address focused on Ma. Luisa Perez-Rubio and sar Purisima, among others.

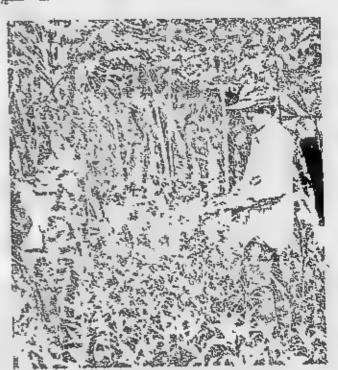

The event coincides with the launching of a book entitled "Planting Development Harvesting Peace and testimonials by scholars and beneficiaries of

A new CD "Guitara, Lapis atbp., a collaboration of Joey Ayala and Noel Cahangon will also be launched during the celebration.

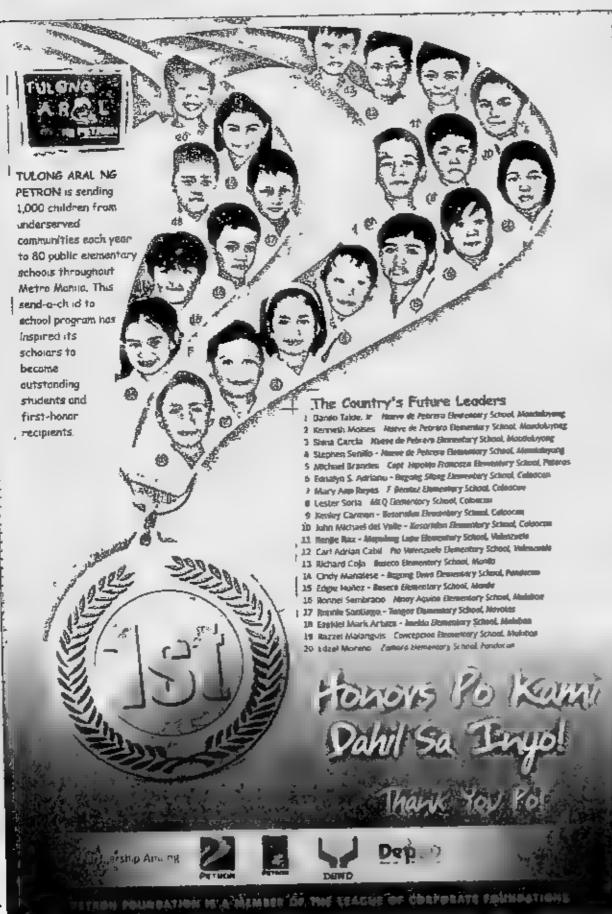

I GREET the member organizations, management and staff of the Philippine Business for Social Progress (PBSP) on the occasion of your 34th Foundation An niversary and Membership Meeting.

From its creation in 1970 up to the present, the PBSP has been in the forefront of corporate social responsibility programs. It has beined improve people's aves by promoting private sector participation in economic and social activities at the grassroom - providing access to education, giving basic health services, protecting the environment and organizing communities for collective planning and problem solving.

With some 200-development practitioners, PBSP is able to transform lives for the better. It has given hope to landless farmers, marging, fisherfolk, rural workers, orban poor and indigenous cultura, communities. For the past 34 years, the very essence of corporate social responsibility look harman shape and form with the heartwarming efforts of your staff, volunteers and member organizations to reach out to these marginalized sectors.

I commend the PBSP for as retentless efforts to work alongside government and our people in order to build a suring and progressive society. We are moving lownrds the same direction in working to combat poverry wherever it is present. The government cannot win the buttle alone. It needs the heart, passion and conviction of a socially commuted organization like the PBSP in implementing our blue prior for growth and social justice that is the Medium Term Philippine Development Plan. I thus invite you to interfere with the different agencies and departments of government as well as our local government units in a common effort to the poverty, fight corruption and bring bonor and dig-

Congrarulations on your anniversary and may god's tranquil joy fill your hearts this Christmas. Mahuhay ang Philippine Business for Social Progress!

LAlvery GLOR MACAPAGAL-ARROYO Republic of the Philippines

WE CLOSE 2004 and enter 2005 with more focus on the Millennium Development Goals (MDG's) prescribed by the United Nations. Set into action during the last Summit of Lenders of the United Nations during the year 2000; the MDG's are meant principally to and reduce extreme poverty, hunger, and child mortality, to improve health standards, enhance environmental standard, achieve uni-

versal primary education, and promote gender equality.

The United Nanons have suggested that the role of business in the fulfillment. of the MDG's could be focused on three key result areas: first, its own core business community; second, enhanced social invosument; and third, advancing pol-

scy advocacy and dialogue. Given PBSP's leadership in the NGO community and its prominence, it is important to enjoin our members to achieve our development objectives with a keener sense of commitment and a higher

plane of endeavour as we enter the new year. Just recently, the Board of Trustees was unanimous in agreeing that 2005 should be n year during which PBSP will work harder to build on its legacy of poverty reduction by being the leading proposent of MICS and by aligning with the government's 10-point agenda.

Indeed, PBSF is better positioned than most organizations in our country to do just that. We can use our experience to mobilize the business community to do more for our people, to encourage not just more social investment but also better and more effective social investing, and to persuade a constitues conservative business community to be a stronger advocate and agent for change.

I look forward to PBSP's tacreased leadership as we enter the threshold of a new year, Mebuhay sa inyong labath

Philippine Business for Social Progress

The Business Sector Assists the Urban Poor

" IF YOU want peace, reach out There are at present 24 STEP-UP who pledged P2 million medical to the poor," goes Pope John program sites in urban poor com-

And the Philippine business sector heeds. Not after but even long before the pope made the appeal.

Created in December 1970, the Philippine Business for Social Progress has realized the need to factor into their plans and budgets social projects that help transform the community. Eventually, and as they expected, the positive changes redound to their business operations, thus proving a point-business cannot thrive in an environment where the majority are poor.

One specific concern that the bus ness sector addressed is the improvement of the living condition of Manila's informal settlers. Coming in droves from rural areas which have suffered decades jects, revolving fund for housing of neglect, squatter colonies have mushroomed in the capita, in search of a better ufe.

" It is our duty to help them because if we don't there will be consequences," said Juan B. Sancommittee.

paliative won't change the face of urban poverty. Assistance should be holistic, touching every entical aspect of urban aving. This means not only provision for decent living quarters but livelihood assistance, institutionbunding and organizational strengthening as well. In short, a gromprehensive assistance program that gives dignity to both the recipient and the giver.

This led to the creation in November 2002 of STEP-UP or Strategic Private Sector Partnerships for Urban Poverty Reduction Program in Metro Manils - a clear example of how a publicprivate partnership is making an impact on the lives of 35,000 urben poor through a synergy of auand 24 homeowners associations.

to the poor," goes Pope John program sites in urban poor com-

These, in concrete terms, are stepping up efforts to improve the lives of the urban poor. But how was it done?

First the Funds

PBSP struck gold with a \$3.6 million grant from the Japanese Fund for Poverty Reduction through the Asian Development Fund. PBSP, for its part, has committed to match the amount with \$3.33 million in financial and inkind assistance that would come from civil society partners and the private sector.

As of May 2004, about \$750,000 have been raised from PBSP members and partners. Eighty percent of the P33 milnon released so far by the ADB went to community infrastructure proimprovements, micro-enterprise deve opment, training, partner ship-building with professional organizations and risk reduction and management.

STEP -UP has a business contos, chair of Nestle Philippines sensus group composed of CEOs and PBSP corporate citizenship of Nestle Phiappines, Piapinas Shell, Central Azucarera Don Pe-PBSP knows full well that mere dro, Petron Corporation, and Monark Equipment Corp. which acts as program advisory group.

The set up has enabled the leveraging of financial assistance, skills sharing and mentoring between the employees of PBSP member companies and the assisted communities. "I feel a deep sense of satisfaction in seeing a community transformed from one marked by muddy streets with no access to water to one that is well-planned and maintained," said Max Paca, A PBSP active member and president of GST Philippines.

Giving a share for the urban poor can be an spontaneous gesture. In one occasion, a visiting CEO verbally agreed to donate P75,000 worth of landfill when tlatives coming from the business he saw an on going construction sector, government, civil society of a multi-purpose center. Or the case of ten business executives

organized tout

Jose Antonio Banson, president of Monark Corporation said: The advocacy of PBSP among the urban poor is very relevant. Seeing it for myself is better than any power point presentation. It is true many business owners want to help communities but oftentimes they don't have an inkling on how to go about it." Social Preparation

Twenty four homeowners associations (HOAs) or 6,347 households (109% of the targeted household) from Muntiplupa, Taguig, Pasig, Marikuna, Quezon City, Caloocan, Maiabon and Navotas were given preparation to take on bigger assignments. A series of workshops helped empower the HOAs, giving them a vision, a functional organizational structure, sound operating systems and basic skills in implemenning housing, livelihood and community infrastructure pro-

To maximize resources, minimize costs and give the beneficiaries a sense of ownership in the projects, "sweat equity" was provided by the beneficiaries themselves. Thus, men and women put in their share in the construction of 13 multi-purpose centers, 10 roads and drainage systems, 2 water systems, 2 school buildings, retaining walls, electrification and telephone instaliation for a total of 28 community infrastructure projects worth P26 million that were completed in record time.

For its part, Credit Suisse First Boston gave a scholarship grant to 20 students from Pasig STEP-UP while Deutsche Bank AG Manila financed the construction of a school building in Taguig which benefited some 1,500 Christian and Muslim students.

On health delivery, Medicard and Pfizer conducted their health outreach programs on separate occasions in the said communi-

Another 20 selected community members of HOAs in Pasig and Novaliches participated in a four-

course administered by Don

Bosco Technical Institute on ma-

must-skills training

sonry, electrical, plumbing and

carpentry. Also available are meat processing, vegetable production and fish culture coordinated with the Department of Science and Technology's Food and Nutrition Research Institute and PBSP's Center for Rural Technology Development; housing improvement with Boysen Paints; reflexology and basic cosmetology with Artliz Enterprise and Splash

Nestle Philippines, on the othet hand, conducted a credit management training to ensure the viability of uncroenterprises. Also Nestle's Disaster Response team provided fire prevention and preparedness exercise for STEP-UP communities in Mariluna, Malabon, Pasig and Navotas. An additional PO 47 million was put in place to ensure continuous drill.

Related to this, STEP-UP community members tapped the services of Meralco to fix electrical wiring and connections in their homes knowing that the outbreak of fire is common in the history of informal settlers.

Moreover, housing designs and loan packages with corresponding policies have been developed. The HOAs act as conduits and

managers of funds. Professional groups provide the technical advice. Bluprint, a glossy architecture and design magazine channeled the proceeds of its recent art and furniture auction to this

STEP-UP helped us build our capabilities as leaders, reinforcing our resolve to help ourselves and not rely on the rhetoric of politicians," shared Cipriano

Famoulme. pres dent Nabiglapo HOA of Novanches.

PBSP is optimistic it can sustain its operation in the years to come as the guideposts are encouraging.

By investing in the urban poor communities, the business sector is now reaping dividends more than it ever imagined. Indeed, compasston knows no social class.

__ Special PROJECT___

Big Business Helps Rebuild Mindanao

LIKE the mythical phoenix, Min-denao is now slowly rising from the asher of economic and social strife - gaining further momentum towards recovery. Such posttive developments were made possible through the collaboration of various private businesses that strive for the revitalization of the region long sourced by civil

conflict.

The Philippine Business for Social Progress, an organization of businesses dedicated to social development, set in motion programs which call for community empowerment through highly focased and responsive programs.

At least 221,000 poor Filipinos in 14 provinces of Mindanao reaped the benefits of the foundation's multi-sectoral initiatives. A total of P 34 million pesos have been disbursed to 55 projects implemented with support from 83 partner organizations.

In the face of these developments, PBSP is cognizant that there is still more room for growth. As cited by PBSP's Mindanco Regional Committee chairman Paul G. Dominguez, "PBSP's peace and development projects in Mindanao have scored a number of successes."

"Ukimately, bigger and sustained corporate initiatives are needed to improve education and Mindanao and create a favorable environment for guns to fall silent, * he added.

A history of discord History was not very kind to the natives of Mindanao. A volatile mixture of Christians, yarjous Muslim ethnic groups and

met, among then economic problems.

Civil conflict has already spanned five administrations with no concrete solutions at hand, Mindanao suffered the brunt of arm struggle and as a result, majority of les inhabitants are left disproportionately poor

and hengry.

Peat and present administrations have exerted efforts to restore this region to its former glory but lingering distruct of the

Maros in government's sincerky bipders a remarkable progress. Recognizing that the key to resolving civil conflict is to address the poverty problem, some foreign orgaaizations and members of the private sector stepped in to tend a hand.

Gaining ground on education.

September 2000, PBSP launched its Peace and Development Program and Area Resource Management Program (ARM) which seeks to bookfit 149,000 household in selected municipalities and borangays in the ARMM, Region IX and XII and CARAGA.

"It aims to encourage other business groups to redirect their programs towards creating an impact on the Human Development Index in Mindanao via Increaser and sustained investment in bu-

Philippine army ensued, execut-bated by failure to address real is-nourishment are also contributing factors to an niarming rate of ous-of-school youth.

> On top of these, indigence and continuous armed struggle had families put more emphasis on selety and day-to-day needs. Eduoutlon was relegated to the bottom line of priority bienurchy.

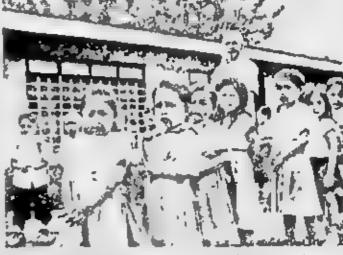

PBSP members each contributed to address these problem areas. SMART Philippines founded the PASA-Book Assistance Project, 8 collective book-gathering effort of its employees.

To reduce drop-out rutes fostered by lack of proper nutrition among school kids, Kraft Philippines engaged in a tenmonth feeding program for \$4 schools in Mindango. With healthy meals in the stomachs. children may alert and focused on their lessons.

Tardiness and absentectsm have also become less of a problem with a pump boni

(equipped with life vests) and bicycles donned by PBSP as transport support.

To date, PBSP's efforts include: construction of two additional school building, 2 science laboratories in Zambounga and 11 Bbraries in Zamboungs, Sulu and Bosilan; textbooks, reference books, desks and armebairs donations; supplemental feeding and de-worming projects for children; and basic computer and Internet training for teachers.

and infent immunization.

Some parts of Mindanao, particularly in the CARAGA region, had to endure a deplorable boulth system. In case of Illnesses, residents had to rely on hope and prayers rather than efficient health care

This is the development challenge that the Carryan Fleshin and Heekh Infractivenine Support Proarram aim to target. The Cullon Potraducion tennsed up with PBSP for this program. Funding was provided by the Pandacion ANESVAD of Spain and Agencia Paparioin Para Cooperacion Internacional While PRSP furnished technical assistance with emphasis on improving capacities of rural health workers.

Ten rural health units (RIIUs), menned by barangay heath workers and made available for daily consultation, were established. "Through the RIIU's, we are able to bring health service nearer to the poor," says Butuan city health officer Dr. Eitle Ca-

The RelUs skewise serve as venue for daily education session on health prevention and management. The lessons are conducted by the health workers and are open to everyone

As a result, more and more res-

Although many Muslims and lumada were relegated to small parcels of and after the influx of multinational companies and sertiers from Luzon and Vieuves. small landowners saw light in agri-enterprise projects viable for less than a half a hoctore farm-

PBSP also conducted sidik development and community escaprise management projects in Tawi-Dewi, Maguindaneo, Laneo, Baskan and Cotabato which include a community-based organic fertilizer plant, impositive figh-drying and anti-making skills, met-weeving and marketing, community-managed microlending, one uppend farming.

Meanwhile, incorporated funding from the United States Agency for International Development (USAID), Pord Foundation, Interchurch Organisation for Development Co-operation (JICO), Exton Mobil Ph. ppines, Hongkong and Shenghal Bank (HSBC), La Tondehe Poundation, and Angelo King Building were mobilized by PBSP for the implementation of several endeavors directed to Cagayan-Iligan Corridor and Island Gorden City of Samar, Projects Include support for coastal and marine protection, enterprise and aocial services projects.

'While many factors must be considered to make a positive impact, education and literacy will serve as the catalyst of economic and social development.'

dents are taking the offensive on beauth care and are now seeking treatment. "It used to be that people were completent. They lived with their diseases and ailments. forced and given vital grounding thinking these could not be prevented. Now they seek treatment," added Cabe, lero

Encouraging productivity and managing resources

Perhaps one of the significant PBSP endeavors is the introduction of sustainable liverihood pro-

interver-

Planting the seeds of hope While the road to complete recovery is long and Mindanso is barely halfway through, PBSP has already started the healing process, planted the settle of hope and m now calling for others to join in this very significant journey.

The call for private sector support and involvement in Mindanao is becoming louder and forceful," declared Domingues. "The mak may be daunting but it needs to be done without delay."

Like the mythical phoenix, Mindanao is now slowly rising from the ashes of economic and social strife.'

the highlanders (himsel), the country's second largest Island was predominantly populated by various Muslim groups by the turn of the century.

Berween 1913 to 1917, a law which meant to quell peasant unrest in Luzon and Visayas by offering hectares of properties in Mindanao, but masqueraded as an endeavor to promote harmonious relations between Christians and Muslims had the latter and the lumads become impoverished squarters in their own land. Viclent reactions from the Muslims were instantly suppressed by a preponderantly Christian Philippine Constabulary.

Oppression took its toll and by the 70's, several rebel Moro groups - all focused on resurrecting Islamic identity among Filpino Muslims - had emerged. Clashes between rebeis

man capital development," explained Dominguez.

The program zeroed in on critical areas that greatly need assistance: promoting functional literacy among children and health and nutrition in schools; teacher's rm ring; scholarships for indigent Muslims; construction of additional achoolibuildings; augmenting textbook supplier and providing well-equipped science labora-

While many factors must be considered to make a positive impact, education and literacy will serve as the catalyst of economic and social development," he said.

Many schools in ARMM have to turn away enrollers due to lack of classrooms. In most towns, the student-rentbook ra tio is depressing, at best with a minimum of three students sharing one book. Lack of school supplies, money to

Parents Teachers Community Associations (PTCA) were reinto implement and manage school-based projects.

Health intervention Complementing the education and literacy initiatives are provisions for health services and potable water systems, training of community health workers, grams for the residents.

Hope Empowers Visayas

PKILIPPINES Business for Social Progress (PBSP) Visayas Regional Operations (VRO) recognizes this but also believes that love is further manufested in action more than words and in giving particularly to those who cannot return the favor

PBSP continues as commitment of equipping and empowering merginelized communities - its gesture of love for the Visavus.

On the forefront of activities are PBSP's Area Resource Management (ARM) Programs that have been a conduit of change in Olango, Mactan, Bohol, Negros, Cebu Hillyland, and Seman

According to Miguel Juan del Gallego, Visayas Regional Commitree Chairman, despite threats of epidemic, peace and order, Visayas has been peaceful and spared from recession.

"Our programs and permerships forged in PBSP will continue to provide glienmer of hope in the region,

He noted that the annual contri-botions , of PBSP Virayas-based member-companies, have advanced PBSP's primary goal of poverty reduction and enabled it to attract more donors.

Meanwhile new portners including unternational donors namely the German Agro Action, Canadian In-ternational Development Agency, the Dutch NGO DISOP and Karl Kubel Stiftung of Germany paved the way for the amplementation of new projects which benefited 9,684 poor households. A

Environment is Everybody's

siness of over Known as a supermary of over 10,000 magratory birds, Olungo Ishard has guined the business secsor's support. Lexinark Philippines funded the Barangay Sabong Primacy Health Care Project, Lexmark, CHIP and Petron Corp. adopted mangrove plantations and provided employee volunteers during refor-

estation efforts. PBSP has also taken part in the formation of Ocean Care Advocates Foundation lac., an environmental continue among the major resert establishments in Mactan Island. The group's milestone was a successful Environmental Summit, which gave

participants a comprehensive review of existing laws and policies. The summit also served as a venue in the formulation of action agenda. to address the environmental issues they are facing.

Meanwhile, the ten-year AILM program has been successfully completed in Bahal. A growing number of farmers have refruited from weing chemical pesticides and have shifted to organic pesticides. Income sucreases have also been

remarkable. Prior to ARM project, 90% of the farmer-beneficiaries were earning only an average of PhP1,108 every month. Ten years into the program, it has been recorded that 75% of the beneficaries are earning an average monthly income of PhPB,500 while 8% earn as much as PhP16,500 per month.

Similarly, ARM program in Ne-**Unland Resource Management Pro**gram (BURMP) and the Promoting Participation in Sustainable Enterprises (PPSE) programs ensure the continuity of Negros ARM. PBSP has pursued a Watershed

Management Program in the hillylands of Cebu. The interventions in economic and stakeholder development, form productivity and enterprise development, as well as social services benefitett 1,135 marginal upland farming households.

As part of the 15 community based organizations assisted by PB-SE the Samer Resource Managemess Program helped 1,445 house-

het linkages between these cooperatives and major exporters in Metro Cebu. They have also encouraged product development and aggressive marketing through local exhibits in shopping mall and trade fairs, which have allowed cooperatives to have a better feel of the local and export markets.

Enhancing Education

PBSP banks on the education of the people. So with its corporate social responsibility partners Philip Morris Manufacturing and Coca-Cola Foundation Inc., it saw the construction of achool buildings and the trainings of parent-teacher community associations, which benefited 7,700 public elementary and high school students in layer

Students from the south have become more tech-savvy as well. Under the Cemex with a Heart program, 2,400 high school students in Naga National High School now enjoy a newly furnished computer labocatory, Moreover, three public high actionis and its 2,000 students in Metro Cebu became recipients of world computer laboratories through Globe Telecous's internet

connectivity program.
Through Coalition for Better Ednewton other reforms in education received the light of day including the Center for Teacher Excellence (CeffEx), a training facility for teachers which is the first of its kind is the country.

PBSP addresses the gap between the quality of worldorce available and the needs of the industry through its partnership with the Lapu-Lapu Scence and Technology Education Center (LISTEC), a pilot school that implements a demand-

driven curriculum. Through constant teacher train

ing, infrastructure support and scholarship assistance, PBSP equips the young people of Central Visayas with knowledge, stulis, and competencies required by the informationdriven companies. This project has even been adopted in Danso by its local government units and buttness groups because of the immediate improvements seen in the quality of instruction at the LLSTEC.

For its efforts, PBSP Visayus was chosen as an objerending institucity's social development by the Ce bu City Government and the Cebu Chamber of Commerce. In odd Jon, the Philippine Army also gave 👯 🗈 special recognition for initiating the meome-generating activities among the fisherfolk of Maqueda Bay in

Western Samar. Del Gallego acknowledges the partnerships of business, communities and local government in delivering much-needed assistance to the poor sectors of Visayus.

There is no challenge 20 great that cannot be overcome, especially by those who have less but supported by those who have more,

Thinking out of the box

boxes. Wherever port you may be, the chance for you to see a fellow Filipino lugging along a box is pretty high. In most foreign countries, port officials easily identify Philippine nationals just by looking at the luggage they carry, which will include at least one balikbayan' box (a big box of goods Filiptnos from abroad bring home to their loved ones). The box has now become part of Filipino culture

It's not surprising then that a dedicated team comprising mostly of Filipinos developed further DHIs new puckaging solution called the Express Pallet, a box designed with world-class packaging standards. The Express Pallet is not just any ordinary box. Made of sturdy reurforced cardboard material, it has perforated sides that can be folded to fit shipkg. Weather-resistant and palletized, it allows easier handling by forklift

The Express Pallet was actually an existing product in New Zealand a few years ago, used mostly for domestic in water for two hours, and won't tear shipments. When DHL Express decided

FILIPINOS seem to have an affinity to to focus more on heavier shipments, the Express Pallet was identified as the most effective peckaging solution that could be developed further.

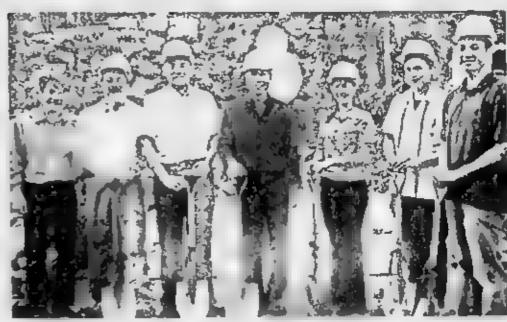

The DHL Team in the Philippines modified the original Express Pallet, developing a sturdier box ideal for longheul flights. One of the most significant enhancements made was creating a cardboard pallet to support the box instead of the usual wood pallet. This conversion was developed to avoid any problems of anconveniences in countries that have strict regulations concerning the entry of wood and wood products in their territory.

Consultations with representatives of the semi-conductor, electronics and automotive industries, were undertaken to take note of special requirements of stupments sent by these industries. ment volumes of 50 kg, 75 kg and 100. Thus, DHL developed a box sirtight enough to keep out moisture that could harm sensative electronic parts, made of sturdy cardboard material that wouldn't get soggy even if submerged

"We take pride in this impovation. We salute the team for their creativity and dedication to make the Express Pallet a one-of-a-kind packaging solution. This goes to show how much we at DHL. Philippines strive to effectively comply with and even anticipate customers' needs by providing quality products and services", said DHL Express country manager Alan Cassels.

Currently, the Express Pallet is offered in 14 countries across Southeast Asia. In the Philippines, it is one of the more popular products of Di-IL since it's launching this March, Surprisingly, despite being developed primarily as a business solution, Express Paller is also used by customers for sending personal effects to their loved ones abroad. This is most likely because the Express Pallet is bigger than the usual balikbayan' box, hence it can accommodate more

The Express Pallet is a testament of DHIL dedication to provide customized service to the dynamic Philippine marker. Better still, it is also a reflection of the Filipino's ingenuity.

HIMINERST! TOWER GROUWDUNEAKINT

University Tower Condominium, located at University Beft, Manila held its launching ceremony and groundbreaking last Nov. 20. The owner/developer is Damingo Reque Jr., president of Prince Jun Development Corp. Shown

Thinking out of the box

boxes. Wherever port you may be, the chance for you to see a fellow Flipino lugging along a box is pretty high, in most foreign countries, port officials easily identify Philippine nationals just by looking at the luggage they carry, which will include at least one balikbeyan' box (a big box of goods Filipines from abroad bring home to their loved ones). The box has now become part of Filipino culture.

It's not surprising then that a dedicated team comprising mostly of Fülipinos developed further DHTs new packaging solution called the Express Pallet, a box designed with world-class packaging standards. The Express Pallet is not just any ordinary box. Made of sturdy reinforced cardboard material, it has perforated sides that can be folded to fit shipment volumes of 50 kg, 75 kg and 100 kg. Weather-resistant and pollerized, it allows easier handling by forklift

The Express Pallet was acruany an existing product in New Zealand a few years ago, used mostly for domestic shipments. When DHL Express decided

FILIPINOS seem to have an affinity to to focus more on heavier shipments, the Express Pallet was identified as the most effective packaging solution that could be developed further.

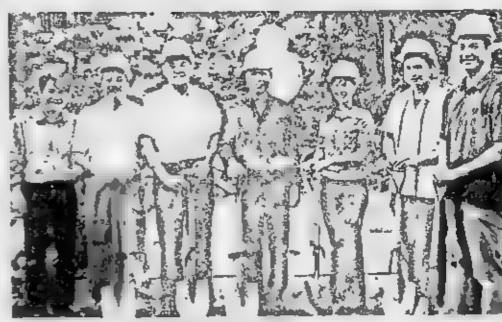

The DHL Team in the Philippines modified the original Express Pallet, developing a sturdier box ideal for longhaul flights. One of the most significant enhancements made was creating a cardboard pallet to support the box instead of the usual wood polici. This conversion was developed to avoid any problems or inconveniences in countries that have strict regulations concerning the entry of wood and wood products in their territory.

Consultations with representatives of the semi-conductor, electronics and automotive industries, were undertaken to take note of special requirements of shipments sent by these industries. Thus, DHL developed a box airtight enough to keep out moisture that could harm sensitive electronic perts, made of sturdy cardboard material that wouldn't get soggy even if submerged in water for two hours, and won't rear

"We take pride in this innovation. We salute the team for their creativity and dedication to make the Express Pallet a one-of-a-kind packaging solution. This goes to show how much we at DHL Philippines strive to effectively comply with and even anticipate customers' needs by providing quality products and services", said DHL Express country manager Alan Cassels.

Currently, the Express Pallet is offered in 14 countries across Southeast Asia. In the Philippines, it is one of the more popular products of DHL since it's launching this March. Surprisingly, despite being developed primarily as a business solution, Express Pallet is also used by customers for sending personal effects to their loved ones abroad. This is most likely because the Express Pallet is bigger than the usual balikbayan' box, hence it can accommodate more

The Express Pailet is a testament of DHE's dedication to provide customized service to the dynamic Philippine market. Better still, it is also a reflection of the Filipano's ingenuity.

UNIVERSITY TOWER GROUNDBREAKING

University Tower Condominium, located at University Belt, Manila held its launching ceremony and groundbreaking last Nov. 20. The awner/developer is Domingo Raque Jr., president of Prince Jun Dave opment Corp. Shown

are (from left): Jojo Alejar, marketing consultant, Naz Guitierrez, pres dent, Geostructures Construction: architect Albert Yu, Domingo Reque Jr. Doris Roque, director: David Que Pe, director, and Dennis Que Pe, director

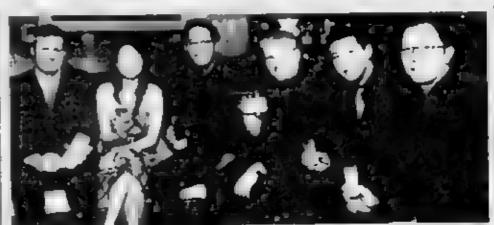

ANOTHER cellular phone enters the Philippine market, but with an added edge; superiority and user friendly features. The 02 communicators were launched at M Café, Greenbelt last Nov. 18

The "X Phone II" and the "Xda II" were naturally the highlight of the event, with Paolo Bediones demonstrating the features to the numerous media and guests. For anyone who puts a premium on style and substance these phones are a sure hir. They are effective mobile offices for businesses on the go to boot.

Mark Billington, CEO of 02 Asia also welcomed the guests and gave a brief overview of his products and the company. Drinks were flowing and a good time was had by all. Look out for the "X Phone II" and "Xda II" at authorized 02 dealers nationwide.

D2 with Media. Shown are: Nils Watnes. VP product and service, O2; Eller Suarez, marketing and communications manager, Haidane (exclusive distributor of O2 in the Philis); and Kenny Nuyda, assistant vice president for advertising, inquirer.

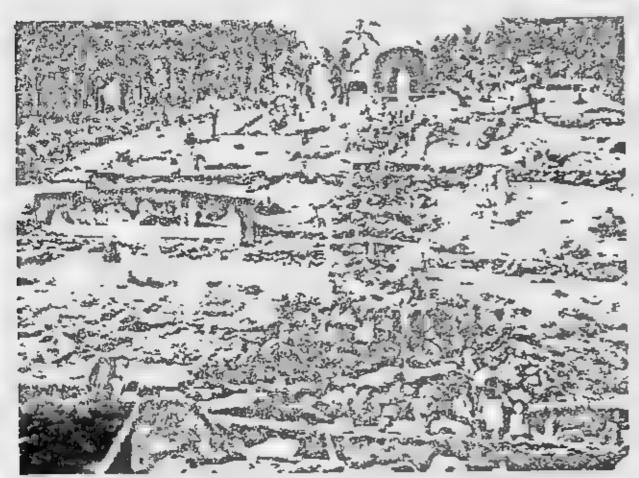

Q2 executives with TV host, Paolo Bediones during the G&A portion. Shown are: Mark Billington, 02 chief executive afficer, Chris Uy-

co, VP and general manager, Haidane (02 exclusive distributor in the Philippines), and Paoid Bediones, top celebrity TV host.

The AFP-RSBS, owner and developer of the Riviera Golf and Country Crub and Residential Estates in Silang, Cavite recently signed a contract with Belyn Holdings Corp, the holding company of the Gopez group of companies. Belyn bought from RS-BS a 2.4 hectare piece of land in Riviera, which will be the future site of a resort hotel complex with a minimum capacity of 120 rooms. Belyn envisions this to be the first of its kind in Cavite, which will boast of itrst class hotel amenit as including convention and seminar rooms and facilities. Seated (from

CLASSIFIEDS

HUMAN RIGHTS IN "IYO ANG KATARUNGAN" DEC. 5, IBC 13, SUNDAY, 10pm.

Human rights are those rights we deserve as human beings and are necessary to live as a human being. It is defined as the supreme, inherent, and inclienable rights to life, to dignity and to self-development. It is concerned with Issues in both areas of civil and political rights, economic, social and culture rights founded on internationally accepted human rights obligations to which the Philippine Government is a state party.

On December 5, 2004, in Iyo ang Katarungani with Justice Presbuero Velasco Jr., Sunday on IBC 13, 10pm, will feature Chairperson Purificacion Valera Quisumbing of the Ph hppine Commission on Human Rights

"Iyo ang Katarungan" brings justice closer to the people is the aim of Iyo ang Katarungan, It acquaints viewers on the general operations of the Philippine judiciary. Hosted by Justice Presbitero Velasco Jr., Court Administrator of the Supreme Court was a former associate justice of the Court of Appeals, he is also the Undersecretary of the Department of Justice from 1995-98, national president of the Integrated Bar of the Philippines (1987) and topnotcher in the 1971 bar exams with a grade of 89.85%, member of the Judicia, and Bar Council, 2000 outstanding Jurist awarded by the Consumers Union of the Philippines, Justice

Justice Pres Velasco, Jr.

Velasco finished his degree of AB Political Science from U.P. in only three (3) years (a) U.P. record), he is a member of the Editorial Board of the Philippine Law Journal and IBP Law Journal, past commissioner of the Committee on Bar Discipline, past board director of the Philippine Bar Association, a member of the Rotary Club of Manila. The show "Iyo ang Kalarungan" through Court Administrator Velasco has also been providing free legal opinion and advice to people from walks of life.

Snow White: A modern retelling of a classic tale

THIS wild cat is not wild at all... always smiling, Paulo can be very charming and affectionate, much like your pet car at home who likes being stroked and is very playful. Paulo is six years old and is diagnosed as PDD-NOS which is one of the Autistic Spectrum. Disorders. He plays the wild cat in Snow Whire, A Modern retelling of a classic tale, together with younger brother, Mark. The play is very unique in that it brings together the special children and the youth of the community to perform together in one stage. The stage play will be a modern version of Snow White, It will be held on Dec. 11. For sponsorships, tickets and reservations, please contact Honey Lee at 0919-387-1182 or Marite at 0920-913-0642 or Neda at the OLBL Praish Office 824-2688. Sponsorships of tickets for the benefit of children in the mission areas are also encouraged. Proceeds will go to the Apostolate for Persons with Disabilities and other projects of the Family Life Ministry. OLBL is located at 80 Washington St., Merville Park, Paranaque.

BUSINESS

PNCC seeks another 25¢ increase in SLEX toll fee

By Clarissa S. Batino

PHILIPPINE National Construction Corp. yesterday said it wanted an additional 25-centavo per kilometer increase in the South Luzon Expressway toll fee.

The state-run toll operator said it had asked the Toll Regulatory Board for an increase of 29 centavos per kilometer in the SLEX toll fee to 81 centavos per kilometer from the current 52 centavos per km.

But the TRB approved an increase of only 4 centavos per kilometer, allowing the PNCC to collect 56 centavos per kilometer along the SLEX starting January

ales!

The TRB also allowed PNCC

Skyway Corp. to increase its toll PNCC is taking over the operafee by P10 and the PEA Tollway Corp. to raise its rate by P3 effective Jan. 1.

"We are not happy with the increase the TRB gave us. It is insufficient. We will ask them (TRB) to reconsider," said PNCC chair Pastor Ramos in an interview.

PNCC spokesperson Cheche Chavez said the state-run toll operator had also asked the TRB to allow an increase in the North Luzon Expressway toll fee to 71 centavos per folometer. The TRB did not act on the request saying it would want for the petition of Manila North Tollways Corp. The Lopez-led joint venture with the

tions of the NLEX in early 2005.

MNTC said the toll fees along the NLEX might go up by about 380 percent once it had taken over the NLEX early next year to allow the private group to recover its \$371-million investment and to pay its creditors.

The agreement with the TRB was that we will reduce the toll increase this year provided they will allow us to recover (our cost) in 2005. We originally asked for 72 centavos but they asked us to bring it down to 52 centavos," noted Ramos.

The TRB said the Skyway toll fee would go up by P10 and by P3

for the use of the Coastal Road by cars and jeepneys. The rate of increases would be double for buses and trucks, and triple for large trucks and trailers.

For the 30-km SLEX, the toll fee per kilometer would go up 4 centavos to 56 centavos per kilometer for class 1 vehicles like cars and reeps; P1 12 per kilometer for class 2 vehicles such as light trucks and buses, and P1 68 per kilometer for class 3 or trailers and heavy trucks.

The SLEX is classified as a closed highway where the rates are determmed per kilometer traveled. The Skyway and the Coastal Road are open highways that impose a flat toli rate for each class of vehicle.

A FATHER and his daughter rest near a gasoline station in Gagalangin Tondo, Manila. The National Statistics Office reported that the sharp rise in the cost of electricity and fuel pushed inflation in November to its five-year high of 7.6 percent.

RP growth to slow down to 5.8% in '05

By Michelle V. Remo

THE EXPECTED slowdown in the global economy and domestic pressures are likely to slow down the country's economic growth next year to a high of 5.8 percent.

The government's GDP growth target for 2005 was placed at a range of 6 percent to 6.2 percent.

This was the prediction made by economists from the University of Asia and the Pacific who said that the growth in the gross domestic product next year would not be at the same pace as this year, due to the slow progress of economic programs.

According to Bernardo Villegas, UA&P economist and semor vice president, the slowdown in the global economy will pull down, although

not drastically, the country's electronics exports.

Electronics, which is targeted to grow

by 10 percent this year, is the biggest dollar earner among local industries and the main driver of export growth. Economist Roberto de Vera partly at-

unbuted the likely decline in global economic output next year to China's move to deliberately cool down its economic growth to temper high inflation.

De Vera said the decline in global demand would keep the Philippine from achieving the 6-6.2-percent GDP growth expected this year

Villegas also doubted the ability of the government to achieve its economic growth target under the Medium-Term Philippine Development Plan (MTPDP).

The plan targets a 7 percent GDP

growth in the medium term.

"It is too ambit ous. The target is good, but do we have the machinery to achieve them?" said Villegas during the briefing.

He said one proof that the government would not achieve higher growth in the medium term is its failure to undertake the key infrastructure projects that have long been promised.

These include the repair of the Ala-bang viaduct, the 5-kilometer extension of the South Luzon Expressway from Calambe to Batangas and the operation of the Ninny Aquino International Airport (Naia) 3.

The economists, thus, urged the Arroyo administration to show political will in pushing for its revenueraising measures to solve the fiscal problem.

Enjoy the Convenience of Living Beside the Mall

The 38-Storey Two Adriatico Place is strategically located along Adriatico and Pedro Gill Streets in the lively Malate, close to government offices, services, hospitals, churches and educational institutions. As well as being conveniently occessible through the Light Rail Transit (LRT) and the city's major roadways.

Forget about traffic and pollution. Forget about parking. Because nothing beats the comfort of living in a city within a city. Right beside Two Adriatico Place is a successful Robinsons Place mall where a complete line of products and services are available

So stroll leisurely at the mall. Relax and unwind. Let go of hurry. There's no need to rush home. At Two Adriatico Place, home is

The possible dream 3

FTER 33 years of working that brought him all over the world, Chef Ernie Babaran is home and sharing what he knows with those who dream of being on top of the Pastry and Bakery Arts.

At the Internationa, School for Culmary Arts & Hotel Management (ISCAHM), over dessert, he shared his tale-how he began and came to be one of the most respected pastry chefs in the country.

Is the dream of being a chef possible with limited funds?

What made you decide to be a chef? Nag-umpisa parang hobby. Tapos nag tu-

loy tuloy na How did you start?

I started in the province—gumagawa ako ng pilipit, fritters at donuts. When I came to Manila, I got a job at the Merced Bakeshop and started as steward (then) I became assistant baker Tapos sa Bake-In. Mula doon, lumipat ako sa Rustan's La Fontaneila, then Manila Garden, Phil.ppine Plaza, Intercon at noong 1979, I went to Dubai International Hotel kung saan ako ay pastry chef na Lumipat ako muli mula Duba, sa Macau Mandarin then so Fiji, then Shangri-La topos so Mandarin Oriental Manila.

At present, I am assistant director for Pastry and Bakery Arts at the ISCAHM, a school put up and run by chef Norbert Gandler.

What advice will you give to those who want to pursue this career?

Be patient. With pastry, dapat may pasensya ka. Recipes are important, too. They are the basis for everything, dapat laging eksakto. Kaunting mali, nagkaka-diperensya ang kinalalabasan Mag-aral kayo, kasi sobra nang competitive. Kung hindi naman, mag tiyagang mag-apprentice. Huwag mamili ng trabaha.

To whom do you owe your success? Kay Zollo Cabrera, ang ninong ko. Mula sa Merced Bakeshop sinubaybayan at in-alalayan niya ako. Kay chef Joseph Paier and, of course, chef Norbert Gandler. Nauba si Chef Gand, er. He is an arrist and he mou-Vares you

To what do you owe your success?

Patience, tiyaga Final words.

Pag may pinasok kayo, panindigan ninyo! A frequently requested recipe from Kitchen Rescue is fruit cake to sell during the holidays. Admittedly, I have a number of good ones but feel quite insecure about

To begin with, I am no fruit cake fan Yes, We haked them time and again since I was seven and they're quite good. But fruit cake, being the number one most recycled gift in the world, doesn't help much as a personal confidence booster. And for the life of me, I wouldn't like anything cooked or baked using my recipe to find its way to the third cousin of the friend of my tita's officemate who received it from the niece of her exboyfriend who got it from his mom's secretary who happened to be her kumure. And the fruit cake was originally given to his lola by her neighbor's fiancé, two years ago!!!

So I took the liberty of asking chef Babaran to share his recipe with us, hoping that somewhere along the gift-giving season, the tradition of recycling fruit cakes will come to a halt.

Fruit/Christmas Cake

- 375 g butter
- 125 g shortening
- 500 g dark brown sugar
- 180 g honey
- 590 g eggs 30 g glycerin
- 30 g caramel sugar or molasses 590 g cake flour
- 90 g slivered almonds, roasted 7 g baking powder
- 935 g currants, dried 875 g sultanas
- 375 g candied cherries
- 350 g mixed citrus pee. 100 ml rum or brandy for marinating
- 1 gr cloves 3 gr cinnamon powder
- 3 gr all-space
- 1 lemon juice and zest 1 orange juice and zest
- * Sources of ingredients are Santis Dell, Chocotate Lover's, Chef's Nook and/or Killion Please cail PLDT for contact address and contact numbers, oxayl
 - Grease the molds
- · Preheat the oven to 300F/149C. Marinare the dried fruits in rum or
- Cream the butter, shortening, honey and sugar until pale in cosor; add eggs one

Slow-acting bureaucracy puts consumers at risk

president of the organization called Coalition for Consumer Protection and Welfare, promptly to my complaint and, has one complaint about consumer welfare in the country that ne airs in his various speaking engagements here and abroad.

"The tong [bureaucratic] process is enough to breed consumers dry financially when they try to seek redress," he pointed

He filed a complaint with the Department of Trade and Industry (DTI) early in November about the staple wire inside a popular brand of sardines, and guess what? As of this writing, his

IC del Fierro Jr., in some office in the Department of Health.

Here's the letter of Del Fierro: "In fairness to DTI, the consumer affairs desk responded on the first week of November, endorsed the case to the Bureau of Food and Drug (BFAD), I have been following it up since then, tracing its path from DTI to BFAD. Pinally, I was informed on Nov. 30 that the case would have to be endorsed (again!) to the Department of Hea.th "

Del Fierro has lost track of his complaint after being told last week that the legal department of BFAD was still preparing the formai endorsement to DOH.

"It's a long and tedious process that discourages Filipino consumers from pressing on [with

stead of finding protection from the government, consumers here are being penalized for complaining," he said.

DOH assurance needed

Eighty-one-year-old Nenira U Socrates wants a published assurance from Health Secretary Manuel Dayrit that it is safe to take Amargozin, an ampalayabased food supplement.

A diabetic for 25 years now, she suffers as well from high blood pressure, cardiac prob-

lems and osteoarthritis. In her letter, she admitted that she did not consult her doctor when she started taking three pills of Amargozin a day in addition to the prescribed oral pills. When her doctor learned about it, she was advised to stop taking the ampalaya food supplement unmediately because he said it was loaded with vitamin K, which was not compatible with her medication. Her ductor also warned that the food supplement posed risk to those with a history of prostate problems in the family. Her husband died from this kind of cancer.

"Since many, like me, are buying Amargozin (over the counter)... thinking it is safe and only a vegetable, I pray Secretary Dayrit that you will enlighten [us] by having your answer

printed in the newspapers as a public service. Moreover, I believe manufacturers should indicare the complete list of ingredients on the label of this supplement."

While we're still waiting for the response of Secretary Dayrit, here's a reaction from Dr. Eliseo T. Banayna,, the medical director of Altermed Corp., distributor of Amargozin:

"Ampalaya is a wonder vegetable with widely known health benefits. Ongoing studies conducted by the National Integrat ed Research Program on Medicinal Plants, a research group commissioned by the Philippine Council of Health Research and Development [an agency of the Department of Science and Technology], confirmed that am palaya [the Maxiling variety

used in Amargozin] significantly and statistically lowered high blood sugar level among Type 2 diabetics.

The researchers also indicated the presence of substantial amounts of vitamin K n ampalaya. Normal levels of this vitamin hastens the healing of wound, but excessive amount in the blood tan cause abnormal bleeding (as well as aggravate the condition of malfunctioning livers]. There are three kinds of Vitamin K. Fortunately, Amargoz n contains the third kind that is destroyed when heated at 30°+ C. We hope this information bulletin will allay the fears of both health professionais and their patients."

For more information on the product, call Jerry Co of Altermed at 9258468 or 0917-5372094.

FOLD in the flaps and line the loaf pan, pressing gently on the side to adhere. Set aside.

TAKE a large bowl and combine the ground pork

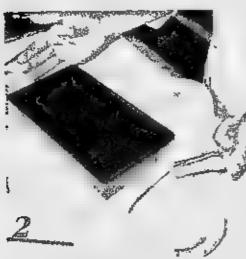

ADD the onions, garlic, soy sauce, eggs, Worcestershire sauce and breadcrumbs. Mix well. Season with salt and pepper. (Before cooking, test for proper seasoning: Heat some oil in a frying pan and cook a small amount of the meat mixture. Taste and re-season if needed.)

FILL the loaf pan with half of the meat mixture.

An easy recipe for a merry Christmas spread

a 2 A mch slit on the open end of the Glad Bake. The sheet makes the loaf easier to

remove from the pan and cut.

PREHEAT oven to 350°F. Using a pastry brush, brush about 1/2 tsp of vegetable oil all over the inner surface of a 9 x 41/2 x 21/3 inch loaf pan.

CHRISTMAS Hearty Meatloaf

Text by Vangie Baga-Reyes Photos by Roger Carpio

HRISTMAS is about families getting together for what many people consider the most important occasion of

Generally, a major concern for the host of the gathering is what to put on the holiday rable. Well, the aroma of a meatloaf cooking in the oven should help guests look forward with anticipation to the meal ahead.

But there are as many versions of meatloaf

STEP BY STEP

there are cooks. About all they have in common is the pan. Meatloaves

can be made from different ground meat, including game, poultry or shellfish.

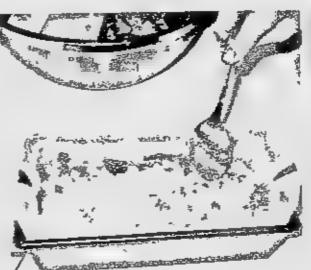

Here's one basic recipe for a moist, delicious meatical using part ground beef and part ground pork.

Although some part tomato sauce or ketchup on top, chef Pria Chiongbian Solon prefers a couple strips of bacon as topping.

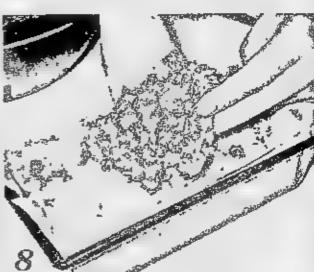

"The bacon gives added crispiness, flavor and elegance to your holiday meatloaf," says Solon, who runs, along with partner-chefs addition to the holiday Ana Parks and Melanie Cruz, Cooking Basics Culinary Studio, a cooking center that offers hands-on recreational cooking classes (tel. 7710082)

To give the dish a different texture and color. Solon also adds chopped hard-boiled eggs in between the two layers of meatloaf. Seasonings include Worcestershire sauce, soy sauce, tomato catsup, garlic, onions, salt and pepper. Eggs and breadcrumbs are usually used to hold or bind the piece together.

"Just throw all the ingredients into 0 big

SPREAD chapped eggs to form a layer on top.

SPREAD the remaining meat mixture on top of the eggs.

The meatloaf will not only be a happy table but leftovers make good sandwich filling

bowl and mix thoroughly. But this must be done by squishing the mixture with your clean fingers or it won't hold together proper-

Bake until the loaf is firm and the top is browned and crisp, about an bour. Prevent meatloaf from snicking by coating the pan lightly with vegetable oil. This also speeds up cleaning afterwards.

Once the meatloaf mixture has been placed in the pan, press down on it firmly with your bands or the back of a large spoon to level the surface and compress the mixture.

After removing the meadoaf from the oven, remember to let it stand on the counter for at least 10 minutes before shoing and serving. If you're planning to have leftovers for cold meadoal sandwiches, slice only the amount you will need for dinner.

For uniform sandwich slices that won't fall apart, refrigerate leftover meations and slice

Ingredients

Victomato catsup

2 rbsp chili paste

500 g ground beef 500 g ground pork

2 ontons, chopped 2 thsp garlie, minced

2 thsp soy sauce

3 thep Worcestershire sauce

1 c Japanese breadcrumbs

salt and pepper to taste 6 strips becon

2 hard boiled eggs, chopped 1/2 usp vegetable oil for greasing pan

For suggestions, e-mail the author at vba ga@inquirer.com.ph

ARRANGE and top with bacon strips.

PLACE in the preheated oven and bake for 45 minutes to one hour or

REMOVE from pan. Let cool and slice.

Magazine for baking enthusiasts launched

first and only baking, pastry and confectionery trade magazine, was officially launched recently at the Bizu Patisserie, Greenbelt 2, Makatı City.

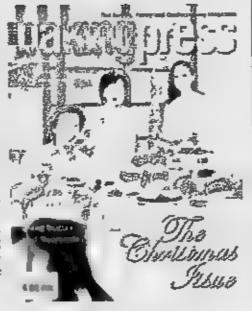

Guests were treated to wine and dessens. They included contributing writers Johnly Koa of French Baker, dessert expert Heny Sison, Pastry Bin's Penk Ching, and chef Dennis Hipolito of Joconde Cakes and Pastries.

With Anne Marie Ozneta as editor in chief, Baking Press

BAKING Press, the country's aims to provide managers and owners of bakeshop chains, stand-alone bakeshops, restaurants, hotels and resorts, pastry chefs, caterers, and baking and pastry students with relevant information, technical know-how, tips and latest trends in the baking industry.

Baking Press is published quarterly by Angels Publishing House Inc. It is available in leading bookstores and magazine stands.

Call telefax 7242688.

Read for some culinary inspiration

FOR SOME culinary inspiration for your holiday, get the latest issue of Flavors Magazine.

Chef Jill Sandique of the Heny Sison Cooking School whips up seven chocolate concoctions that you can serve as desserts for your Christmas parties: Molten Chocolate Cake with Orange Ricotta Cream, Chocolate Hazelnut Praline Tree, Chocolate Soufflé, Boston Creme Pie, Marbie Pound Cake, Agasojo and Mary Jo's Chocolate Macadamia Sans Rival.

Resident chef Eugene Raymundo, faspired by the pastries of Cafe Tyrol in Austria, has come up with his own Apple Walnut Pound

Pixie Sevilla-Santos, who prefers light and healthy meals, shares the recipes of her Banana Bread Pudding and Grilled Vegetable

Also featured is chef Giaochino Brambilia, guest chef of the exclusive Tower Club in Maksti, who whips up meals using olive oil.

Playors also carries celebration dishes from recent cooking demonstration by San Miguel-Tender Cuts Marinated Ribs Surf 'n Turf, Pasta Bechamel with Cordon Blet, and Monterey Sisig Rice.

Also in this issue are Singaporean dishes featured in a local food featival and a culinary tour of Singapore. Readers can also learn the step-by-step procedure for making honey out-

Other features are tropical interior designs a one-stop shop for home needs and the newest food products and food promos.

KAMAYAN Lechon de leche

Celebrate with the 'three kings' of buffet

SPARE yourself the hassle of cooking at home for holiday get-togethers

Have the three-m-one Dads Ultimate Buffet featuring Dads, Kamayan, and Saisaki.

At Dads, you can have, among others, Dads Ham, a cured leg of ham baked with caramelized sugar and pineapple; Roast Beef, a prime cut of rib-eye seasoned with crushed black pepper topped with slices of amon, carrots, celery leaves and garlic, then roasted to order; and Roast Turkey, an entire rossed holiday bird marinated in butter and white wine.

Side dishes include mixed seafood with shrimp, clams, squid, and mussels, among others, pasta dishes like macaroni and lasagna with a selection of sauces like Alfredo, Bechame., Bologna, and Pesto; salads from Caesar to Waldorf; and Dads Paella, rice stewed in tomato sauce and topped Bibingka. with sautéed chicken and seafood

For dessert, choose from a variety of fruits, cakes, and pastries, or try the Bouche de Noel, mermgue filled with chocolate.

Kamayan buffet's Menu De Gallo features Filipino tradition of the Christmas feast to our buffet rable with a spread of all-time Filipino favorites and special holiday treats.

Choose from three different kinds of lechon-the traditional Lechon de Leche, suckling pig roasted with aromatic spices till crisp; Lechon Liempo, pork belly marinated in a special sauce; and Lechon Poelta, roast suckling pig stuffed with rice, totino, tinopa, longganisa, and topa.

Other Pilipino delicacies at Kamayan are Kure-Kare, Crispy Chicken. Afritado, Laing, Pulutok, Pinakbet, and seafood. Desserts include Lethe Flon, Ube, and Buko Pandan. You can also make your own Halo-Halo or have Christmas staples, Puto Bumbong and

If you want something light, try

Sassaki's Best Dishes. Nabemono are one-pot cooking specialties like Sukiyaki, Romen, and Zeru Chasoba. You can have your fill of broiled Yukimono dishes such as Niku Chisu Maki, cheese rolled in beef, Kani Bacon Mala, crabsticks rolled in bacon; Butayaki, pork spareribs; Kanki, swordfish brushed with teriyaki sauce; Yakıtori, skewered chicken fillet; Shake, salmon belly and jaw; and broiled tu-

At the sushi bar, have a smorgasbord of make, temaki and other seafood. You can choose from mackerel, octopus, prawns, sea urchin, and shrimp roe, among others. Cap your meal with fresh tropical fruits or ice

With Dads' Ultimate Buffet, you get value for money. At P495, you can also enjoy Kamayan and Saisaki buffets, in addition to Dads. On promo days, you can have the three-m-one buffet for only P395.

Christmas with Mediterranean touch

MAKE your Noche Buena a little different with these recipes using the finest flavors from the Pietro Coricelli family of Umbria and Doña Maria's bounty from Seville

Pan Seared Pork Chops in Black Olive Tapenade Sauce

(serves 4-6)

1 kg pork chops (at least 1/2 inch thick)

3 tosp Pietro Coricelli Pure Olive

1/2 c of flour (for coating)

ROSEMARY and Garlic Chicken

PAN Seared Pork Chops in Black Olive Topenade Sauce

salt and pepper to taste

For the sauce

1 head garlic, minced

1/2 c Doña Maria Pitted Black

Olives, chopped fine

1 tbsp Doña María Capers, chopped fine

3 fillets Doña Elena Flat Anchovies 2 thsp Pietro Coricelli Pure Olive

Garmish

4% c basil, chopped

¼ c grated parmesan cheese

1. Hear pan to medium high then add 3 thsp olive oil. Season pork chops with salt and pepper.

2. Lightly cost the pork chops with pieces. flour and gently tap off excess. Fry in oil until golden brown.

3. For the sauce: In a separate pan, heat 2 tosp of olive oil then put minced gartic and anchovies. Cook until golden brown.

4. Add capers and black olives. 5. Add sauce to the cooked pork

6. Garnish with basil and parmesan cheese. Serve hot.

Rosemary and Garlic Chicken Confit

(serves 4-6)

1 whole chicken (around 1.2 kg). cut into 4-6 pieces

2 c Pierro Coricelli Pure Olive Oil, or enough to completely cover chick-

en preces Seasonungs:

1 tbsp salt

1 tsp pepper

1 thsp rosemary, chopped fine

1 bay leaf, crushed 1 head garlic, chopped

1. Mix all the seasonings. Rub seasonings into the chicken pieces. Add oil and marinate for 2 days in refrig-

2. Transfer chicken and oil marinade to a pot just big enough to immerse all the chicken pieces in the oil.

3. Gently heat the pot and simmer the chicken pieces for around 45 minutes or until meat is tender. Be careful not to heat the oil excessively to prevent deep-frying of chicken

4. To serve, broil the chicken-skin side up-until golden brown.

5. Serve with potato or rice dishes or as topping for pasta.

Tex-Mex with Asian touches

Chili's believes frequent changes in the menu will keep clients interested

By Vangle Baga-Reyes

AT LEAST twice a year, Chili's Grill and Bar changes us menu to please discriminating diners, who are always on the lookout for new, interesting dishes.

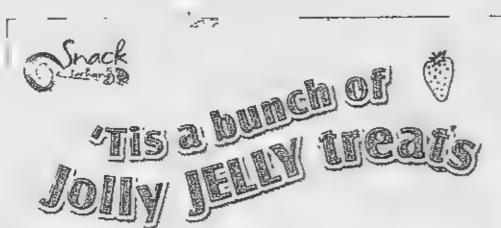

"We believe that changing the menti or offering new dishes on top of the popular items will make your citems come back often as they would be curious about the changes," says Laine de Jesus, Chill's Grill and Bar marketing head.

Chill's is a franchise of a United States-based restaurant that started in 1975. When Larry Levine put up the first restaurant in Dallas. Texas, he wanted a homey eating-place where neighbors could get together.

In 1996, three friends—Luis Vera, Richmond Yang and Winston Chan—got the franchise and brought Chili's to the Philippines. A fourth friend, Robert Eppes, eventually joined the group and put up Amphil Food Concepts Inc., the company that franchises Chili's in the Philippines.

The Tex-Mex restaurant is hard to

TULDOK

BY PAPU AND TATUM MILAMBILING

Courtship, marriage and 'Burong Talangka'

Editor's note: The second runner-up in the Dorsen Gamboa Pernandez Food Writing 2004 contest, this essay should have been published last week. We apologize for the mix-up.

By Didith Tan Rodrigo

FOR MANY young couples, the acid test of acceptance into each other's family is wealth, education or purity of bloodline. In my case, it was a trial by ordeal: eating burong talangka. My husband's family, Bulaqueños to the last, laid a spread of broiled fish, rice, fresh vegetables and cold, charcoal-colored crablets that were unmistakably uncooked. "Kain tayo," I was invited

Generally speaking, raw food does not faze me. I love sushi, sashimi, steak tarture and kindow. But raw crab? This

As per my husband's instructions, my burong talangka meal began with a pile of freshly steamed rice. Then, taking a crablet in hand, I removed its apron (its abdomen, folded under its body) and its shell. With upward strokes of my thumbnail, I scraped the sticky black fat from the underside of the shell and rubbed it onto my rice. Then I squeezed the body with both thumbs, yielding an orange, black, and off-white paste. Using the now-clean crab shell, I scooped a mix rure of vinegar and patts onto the pasteand-rice combination, gathered a ball up in my fingers, and nudged the morsel into my mouth.

initially, I could only taste the salt Soon, though, I was savoring the sticky fat, the tangy vinegar, and the rich flesh. Burong talangka has an aggressiveness that is absent from cooked taba ng ta-

Cured crablet paste is an acquired taste, quite addicting and a definite culinary high

langka. While the latter still has the talangka's essential flavors, the addition of other condiments plus the cooking mutes the talangka's boldness. Before long, I was addicted

Withdrawal symptoms

In the early years of our marriage, I had to rely on my mother-in-law to provide us with my burn fix, a seasonal treat. I suffered from withdrawal during the summer months and greeted the first rainfall with, "Is there talongko yet?" Finally, after some quick instructions from my mother-in-law, I decided it was time to make my own

As with many dishes, freshness is essential In Metro Manila markets, I pay up to P250 per kilo of live, preferably female talangka. Upon returning home, I dump the talangka into the kitchen sink where my daughter sprays them until the water runs clear. Using a pair of metal tongs, she then seizes the live talangka and transfers them into a clean container. She even chases after the escapees that fall to the Boor and threaten our

dogs with their pincers.

Practically any container, whether plastic, metal or glass, will do. Our favorite, though, is a two-layer plastic tub designed to store pasta or salad greens. The outer layer is a deep, covered bowl. The inner layer is colander-like, allowing the contents' fluids to drain.

I sprinkle a handful of rock salt over the talangka and seal the container. Upon another aunt's advice, I give the container a few vigorous shakes to distribute the salt. The container then goes into the refrigerator, where it cures for two days.

Worth the effort

After an agonizing 48 hours, we sit down to a feast of fried fish (preferably galunggong), diced tomatoes, arosep (seaweed), chopped green mangoes, steamed rice, and of course, burong talangka. My husband and I leave the breakfast table with blackened fingernails and chafed thumbs, but the flavors are well worth the effort.

My burong talangka addiction has had several interesting side effects. It has put me in touch with others of my kind; relatives, colleagues and family friends who also crave the delicacy.

My own father used to love burong talongke as a young man. As he grew up, though, he forfeited the habit because his aunt warned him that they would give him cholera. After years of abstinence, I persuaded him to give my burn a try, and an old habit was instantly re-

One of my petry frustrations now is that tolongka are not always available. I recently learned from our suki that tolangka are essentially a fishpond by-

they happen to be harvested along with longke are a passion. As children, my sugpo (prawns).

Afact or two

I have also picked up a factord or two about Filipino culinary tradition. Talongke are, apparently, a Tagalog delicacy. Buro, in particular, is a Northern Tagalog

My Batangueña mother loves talangka when they are halabos (steamed, with a little salt), but recoils at the idea of eating them raw. In the Visayas, according to our household helpers, talangka are

husband and his cousins would wait for the rainy season to fill the rice paddiest, Once flooded, the kids would dive in, recycled this and piastic jugs in hand, to scrounge pre-raid traps for talangka. Upon harvesting all their containers couldcarry, they would rush home, wet and filthy, to have their mothers process their

is a good choice for the holidays. The newly introduced Dooley's is a cream spirit that combines the richness of tolfee and the smoothness of vodka-with only half the fat compared to other cream-based liqueurs Dooley's Original Toffee Gream Liqueux is made in Germany from line toffee caramer, fresh cream and premium vodka. It can be enjoyed straight up. on the rocks, in martinis, mudslides, Boats and with coffee.

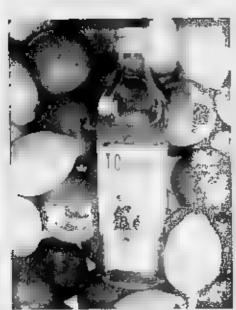

Bienvenue Beaulolais

Wine and coffee were the toast of the town at the Soiree Beautotals 2004 at the NBC Tent in Fort Bonifacto. In cooperation with Nescafe Gold, La Club French Chamber of Commerce in the Philippines sponsored the event, an annual altair to honor the year's new Beaujota's wine.

Toast to 150 years

Hardys Wine Company, Australia's largest wine producer, introduced in Manua recently the Comoo Shiraz 2001 and the Tintara Cabernet Sauvignon 1999. The ruby red Combo wine, released to commemorate Hardy's 150th anniver- * sary in 2003, is "a full bodied, generous wine from South Australia." Tintara Cabernel Sauvigrow 1999 from the Tintara Callars is a food wine with hints of aromas of ripe blackcurrants, plum, cherry, pepperment, chocolate and cedar

A taste of vodka this Christmas

Get ready for all the partying this holiday season. But whether you are celebrating at home or outside, open up a battle of one of the world's best vodkas—Toska Vodka. Drink it straight on the rocks, or mix it with some lime and soda for a Toska Kamikaze, or with other favorite mixers. Toska's neutral characteristics make it the perfect base for various cocktails. It is also smooth enough to drink straight. Toska Vodka is avaitable at fine liquor stores everywhere

Fruity character

Carlo Rossi California Red has all the favorable health benefits of grapes. Every bottle of this medium-bodied wine reyeals its true fruit character, from its rich aroma to its blueberry and plum flavors to its truity sweet aftertaste-a blend of tradition and innovation. Cade Rossi California Red is available in leading supermarkets and wine dealers nationwide and is exclusively distributed by The Andresons Group.

Top brandies

House at Domecq presents some of the best brandles in the world-Fundador, Fundador Gold Reserve and Fundador Exclusivo Fundador, the company's flagship brand, has been in the Philippines for more than a hundred years and is the country's No. 1 Imported spirit

Fine wines for outstanding men

WINNERS of The Outstanding Young Men Chino Toledo (Music Composition, 1997) (TOYM) awards were treated to a sumptuous dinner and fine wines sponsored by Ernest & Julio Gallo Særra Valley Wines.

The six-course menu was prepared by chef Gene Gonzales of Café Ysabel. Each course was complemented by one of the Sterra Valley Wines. Prior to the dinner itself, canapés were served complemented by Sierra Valley White Zanfandel 2003. During dinner, visually impaired piantst Raymond Gatdula played background music.

TOYM awardees present included John Lu Koa (Business Entrepreneurship, 1996), Eva Marie Curiongco de Lara (Medical Genetics, 2002), Reynaldo Gregorio (Economics and Public Administration, 1966). Antonio Arizabal (Iron and Steel, 1966), Josiah Go (Business Education, 2001), Lais Germaitan (Literature, 2003), Enrique filamor (Investment Banking, 1982), Renato Labadan (Agricultural Science, 1970) and

National Artist for Scuipture and 1959 TOYM award winner Napoleon Abueva was also there with his wife, Sergia.

Gonzales, a TOYM awardee himself, toasted his fellow award winners with Sierra Valley Sauvignon Blanc 2002. The white wine was served to complement the duck breast with wasabi crème and warm salad of baked apple, gooseliver and roasted tasso on the side. Soup, which was cappuccino of truffle, wild mushrooms and leek crème, was matched with Sierra Valley Chardottmay 2002. The main course of ventson filter with roasted onion mashed pomices was matched with Sierra Valley Merlor 2003 and Sierra Valley Cabernet Sauvignon

A flourless chocolate cake with five-spice. powder, lemon curd and a scoop of dried mango ire cream was paired with Bailatore Gran Spumante.

miss with the giant red chili on a central beam. Inside, there are hanging bicycles and tricycles, airplanes and biplanes.

Chili's is a casual-dinung place ideal for families and barkada, young urban professionals and the drinking crowd.

New dishes

The franchise came with a core menu to which the local group added, with the approval of the mother company. Chili's new offerings, served in portions big enough for sharing, basically play on Asian flavors with the addition of ginger-citrus sauces.

Appetizers include Chili's Shanghar Wings (P315), a pound of checken wings tossed in ginger-citrus sauce and topped with sesame seeds. The chicken is served on a bed of rice sticks and comes with wasabi-ranch dressing.

For salad lovers, Lettuce Wraps (P430) is grilled Asian-spiced chicken with carrors, water chestnuts and almonds, and served with crisp Bibb lettuce and sesame-ginger and peanut

sauces for dipping. Seafood eaters can try the Ginger-Citrus Glazed Salmon (P495), an eightoz salmon fillet seared and topped with a ginger-citrus giaze and sesame seeds. The Norwegian salmon is served with rice and fresh veggres.

Another option is the Blackened Tilapia Fillet (P275), spicy fresh tilopia filler dredged in peppercom spice and served with black beans and rice.

The pasta line has three new additions: Tomato Basil Chicken Pasta (P320), grilled chicken breast on penne pasta with marinara sauce, seacheese and garlic toast; Guiltless and the very popular Molten Chocolate

SHANGHAI Wings with wasabi-ranch dressing

Tomato Basil Pasta (P225), penne pasta with marinara sauce, seasoned tomatoes, fresh basil and Parmesan cheese; and Crispy Calaman Putanesca (P295), linguine putanesca tossed in alive oil with crispy calamari and steamed veggies on the side.

Meat lovers can have Braised Beef Shank (P330), generous portions of beef shanks smothered in rich brown sauce and topped with garlic flokes.

The Skillet Sandwich (P220), a double-decker of spacy ham, crispy bacon and Monterey Jack cheese in rich Marinara and Alfredo sauces, is for the "I'mnot-so-hungry" guests.

New dessens include Creamy Cheesecake, Chocolate Pecan Mousse, Strawberry Dreams and Jamochan Aimond Sans Rival

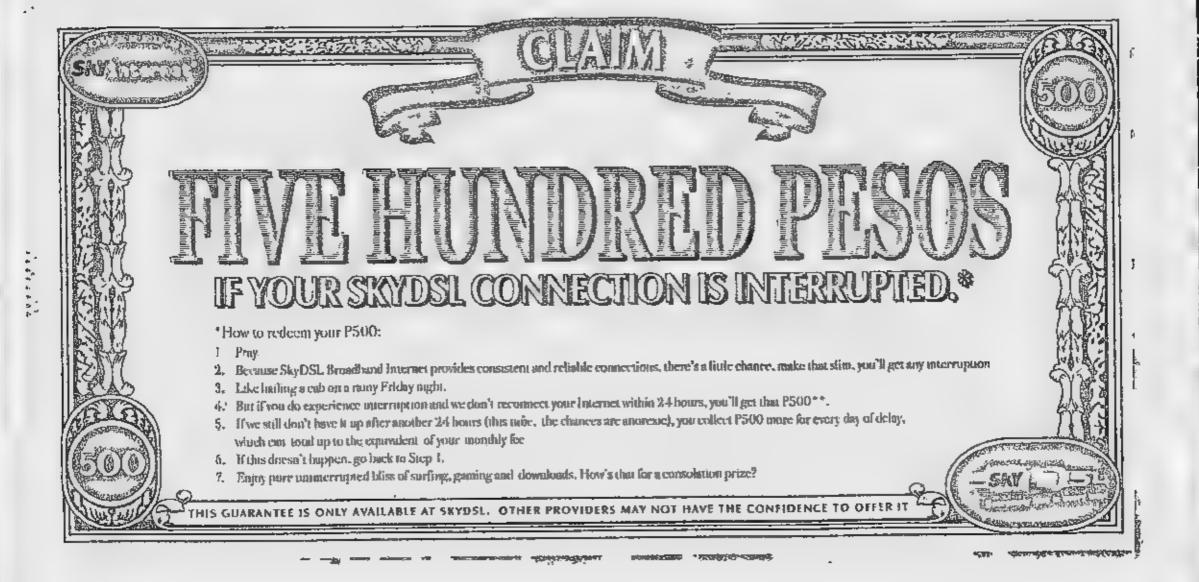

Of course, Chili's signature dishes remain: Wings over Buffalo, Gribed Baby soned tomatoes, fresh basil, Parmesan Back Rihs, massive hamburgers, Pajitas

STRAWBERRY Dreams

o 10 Dekada ng Reporma Milestone Event

Government Reform Initiative Underway

anticipation, the entire Filipino community welcomes the fruits of parenerships among government agencies, private sector and civil society organizations in the pursuit of good governance in the Photppines. "10 to 10 Dekada ng Reporma," is now underway through its culmination held yesterday at the Heroes' Hall, Malacanang with Her Excellency President Gioría Macapagal-Arroyo attending as Guest of Honor.

The ceremony held in com-memoration of Human Rights Consciousness Week was highlighted by the signing of the 10 to 10 covenant by the heads of various government, business and civil society groups. This is the culmination of the 10-week Govemanca Reforms Campaign, which seeks to unite sectors toward addressing challenges and maximizing opportunities for governance reforms and nation building, with special attention to the poor, disadvantaged and marginalized sectors of the country. The Reform initiatives took off from the first cycle of the Governance Portfoho of the Government of the Philippines and United Nations Development Program

covering the period 2002-2004 The event dubbed as "10 to 10 " Dekada ng Reporma, is a multisectoral campaign with the overall theme of " Engaging the People and Communities: Advancing Governance-Reforms toward the

AFTER all these months of eager Realization of the Millennium Development Goals ". This was launched last Oct. 12, during the opening of the Local Governance Expo by the Department of Interior and Local Government, the Philippine-Canada Local Government Support Program (LGSP) in cooperation with the United Nations Development Programme and 10 to 10 Secretariat, which is the kick off event of the 10 to 10 Dekada ng Reforma.

The commemoration event was organized by the Commission on Human Rights in cooperation with the 10 to 10 Secretariat with the theme; "Good Governance is Human Rights: People's Rights First in the Realization of the Millennum Development Goals. CHR Chair Purificacion Quisumbing, 10 to 10 chair Mary Ann Pernandez-Mendoza and vice chair Austere Panadero led the participation and involvement of the multi-sectoral groups for the Present were Vice President

'Good governance is human rights' 'People's rights first in the realization of the millennium development goals' -President

- President Gloria Macapagal Arroyo

royo is confident that the country is on the right track in meeting the Millennium Development Goals (MDGs) which is geared towards overcoming poverty, eradicating corruption, good governance and giving the highest priority to reduce social, economic, cultural and political inequalities.

Speaking before participants of the Human Rights Consciousness Week Commemoration: 10 to 10 Dekada ng Reporma Milestone Event held at the Heroes Hall of Malacañang yesterday, President Arroyo lauded the movers of the campaign. She emphasized that it is not just a celebration of culminating activities but formalizes the aspiration that "Good Governance

The President cited the efforts of the organizers and participants in the Multi-Sectoral Campaign Festival on Governance Reforms in the country, the public and private individuals, and the international development agencies in improving the quality of public service in the local government and the bureaucracy

"By engaging our people and the communities in a common road map, we are seeing a resurgence of a sense of community and mutual obligation that will form part of the administration's policies and programs", the President stated in her message.

The campaign festival will help empower the citizens and acin creating a greater sense of op-portunity in line with our 10-Point Legacy Agenda to beat the odds", President Arroyo further said.

The President commended the relentless efforts and initiatives of the Commission on Human Rights in mainstreaming human rights criteria and standards into governance through its investigation, legal, assistance, training, advocacy and monitoring operations for the protection and promotion of human rights across the country. These initiatives are continuously pursued by the CHR Chair Purifi-cacion C. Valera Quisumbing and the Commissioners, namely: Commussioner Eligio P Malllari; Commissioner Dominador N. Calamba

ano and Commissioner Quintin D. Cueto III

With human rights as the focus of the President's message, she emphasized the importance of the Rights-based Approach in legislation, planning and budgeting and programming of services and programs in order to be more responsive to the phenomenon of poverty in the country and in ensuring justice and compliance with human rights for all. As the President stressed, the cooperation of all government agencies, local government units, civil society and business is crucial to realizing the goal of peace, human rights and

During the affair, the President

took note that under the international human rights instruments, the government is called upon to strengthen its capacities in the programmatic application of human rights standards in the various governance processes through rights-based approach to facilitate convergence of human rights and

development. On the AFP and PNP, President Arroyo called on the men in uniform to remain steadfast in advocating human rights. She instructed the AFP and PNP leadership to integrate in their academic curricula the study of human rights concepts, principles, standards, instruments, and their application as regular subjects in military schools.

President Arroyo instructed the

AFP and PNP to create in all command units, and offices under the four services of the AFP and all PNP districts in all regions Human Rights Desk to ensure observance and compliance with human rights standards.

Recognizing the potential of the Barangay Human Rights Action Center in maintaining human rights community support program at the grassroots level especially in the poorest barangays and villages caught in armed con-flicts, the President instructed the Department of the Interior and Lo-Government (DILG) to strengthen BHRAC program and establish BHRACs giving priority to abour 5.000 villages in areas of armed conflict

MY WARMEST felicitations to the good men and women of the Governance Portfolio of the Government of the Philippines (GOP) and the United Nanons Development Programme (UNDP) on the occasion of your 10 to 10 Governance Reforms Cam-

commend the organizers and participants to the Multi-Sectoral Campaign Festival on Governance Re-forms in the Philippines involving public and private, as well as international development agencies. Your theme, "Tapat Palakad, Bayang Maunlad," aims to develop and improve the quality of public service of employees in the local government and government agencies in the munity.

By engaging our people and the communities

along a common road map towards a more prosperous and equitable society, we are seeing a resurgence of a sense of community and mutual obligation that

help us empower our citizens and accelerate us on our way toward creating a greater sense of opportunity and well-being in our country along with our 10-Point Legacy Agenda to beat the odds.

Mabuhay gayong lahat. Republic of the Philippines

should form the basis of our policies and programs.
I are confident that this campaign festival will

GLOR A HACAPAGAL ARROYO

CONGRATULATIONS to the movers behind the 10to-10 Campaign Festival on Governance Reforms in the Philippines, especially the men and women from the national and local governments, civil soci-ery groups, media and international development

agencies who worked together to make the campaign a success. The campaign's theme, "Engaging the People and Communities: Advancing Governance Reforms Towards the Realization of the Millennium Development Goals," truly captures the call of President Gloria Macapagal-Arroyo's Administration for collective action and increased commitment towards alleviating the lives of our poor countrymen. It is in-

deed important that, as we move ahead towards achieving the 10-point legacy agenda and our international commitment under the Millennium Development Goals adopted by the members of the Unit we must allow for greater participation in all processes that improve the lives of the basic sectors and their communities.

Let us unite and harness our resources for the greater good of the Filipino people, Mabulay kayong lahati

Engaging the people and communities: Advancing governance reforms towards the realization of the millennium development goals'

A multi-sectoral campaign-festival on governance reforms in the Philippines

HIGHLIGHTS

Dubbed as "10 to 10", the Governance Reform Campaign is designed to refocus public attention from the divisiveness of the May 10 National Elections towards addressing the challenges and maximizing opportunities for nation building. "10 to 10" is a multisectoral campaign to dramatize the urgent need for collective action for reforms with the overall theme of Engaging the People and Communities: Advancing Governance Reforms towards the Realization of the Millennum Development Goals. It gathers together national and local governments, civil society organizations, media, international development agencies, and the citizenry to advocate critical governance reforms within the context of the fresh 6-year mandate of President Arroyo and her administration until 2010. Specifically, it shall work within the administration's 10-Point Agenda and commitment to achieve the Millemuum Development Goals. "10-10" includes a festival to celebrate the breakthroughs of innovative approaches and good governance practices, providing a venue to share lessons learned and contributions to good governance and nation-building. The campaign revolves around 10 thematic areas on governance that lasts for about 10 weeks. It commenced on Oct. 10, the anniversary of the Local Government Code, and ends on Dec. 10, International Human Rights

These events will focus on governance reforms with the following thematic areas:

- Electoral and Political Reform: Institutionalizing Reforms in the Electoral and Polinical Systems

 Justice Reform: Ensuring Access to Justice by the poor through Reforms in the 5 Pillars of Justice · Anti-Corruption: "Graft-and Corruption-Free So-

cety: Making It Possible!" · Local Governance Reform: Scaling up the Gains in

Local Governance - Human Rights and Gender: People's Rights First in the Realization of MDGs

 Media Reforms: Engaging Media in Governance Public Administration Reforms: Enhancing the Administration of Service Delivery

· Environmental Governance: Strengthening Governance Towards Environmental Sustainability

Anti-Poverty: Empowering and Engaging the Basic Sectors and Communities in Governance Peace and Development Governance in Peace-

Building and Conflict Prevention.

EXPECTED OUTPUT

Each of the convergence events will produce a set of the following outputs:

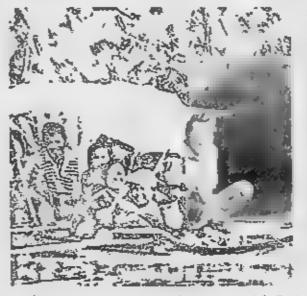

Legislative Priorities for the 13th Congress and Ex-

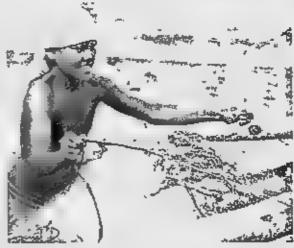

ecurive Reform Measures Blueprint of Action or Roadmap of Reforms

 Showcase of Good and Innovative Practices Covenants or Partnership Pacts among Stakehold-

· Codified Knowledge Products on Governance Re-

Models on Participatory Governance Mechanisms and Approaches

Political Reforms: Institutionalizing Reforms in Electoral and Politica. System

This initiative works towards the adoption of a legal and institutional framework that allows for a free, so fair, and transparent electoral process at all levels. It is 4 designed to generate lessons from the May 10 National Elections and from other electoral exercises recently conducted by other countries to serve as inputs to the Philippines Electoral and Political reform agenda for 2005-2010.

Justice Reforms: Ensuring Access to Justice by they poor through Reforms in the 5 Pillars of Justice

This immative promotes the development of justice system that is responsive and accessible to the poor and disadvantaged. It attempts to bring together for the first time the 5 major pillars of justice including those from the Judiciary, Executive and Legislative branches of government to collectively assess, plan and address gaps in the system. The five pillars include enforcement, prosecution, adjudication, correctional and community integration.

Anti-Corruption: "Graft-and Corruption-Free Soci-

ety: Making It Possible!" This initiative strives to transform the bureaucracy that promotes practices on ethical standards, transparency, accountability and integrity in public service. It attempts to bring together all anti-corruption government and non-government institutions to develop a comprehensive blueprint on anti-corruption in response to the PGMA's 10-point agends. The holding of forum will involve these thematic areas: a) detection; and vigilance, b) prosecution, c) information and ed-8 ucation, d) building coalition, and e) role of business

and professionals. Local Governance: Scaling up the Gains in Local's

Governance This initiative continues to support building local capacines and partnerships to effectively make policydecisions, manage resources, deliver services and engage the people to participate in community-building. It attempts to bring together practitioners, advocates and partners in local governance and decentralization to celebrate the 13 years of innovative work as well as assess the current state as bases in crafting a medium term agenda. The initiative will be conducted in various forms: Policy Dialogues, Multi-Sectoral Forum and a Nationwide Expo-Caravan. There are at least four (4) themes: a) Replicating / Institutionalizing innovations in Local Governance, b) Creating a more supportive policy environment, c) Strengthening the Multi-Stakeholders to include the National Government and Local Government Convergence, and d) institutionalizing community participation.

Human Rights and Gender: People's Rights First in the Realization of MDGs

This initiative attempts to mainstream human rights and gender link it with the MDGs thru the rights-based approach in local planning, budgering and legislation, it involves a) Exhibit of documented knowledge products, b) Cluster meetings and Consultations on HR-MDG Matrix and its finalization, c) Adoption of RBA in the three prioricy functional areas: national budgering, local planning and budgering and legislation, d) National Forum on HR MDG Thematic Areas, and the e) Institutionalization of RBA in identified priority governance processes.

Media Reforms: Engaging Media in Governance

This initiative attempts to bring together mediat practitioners to reflect on how they can effectively engage in governance and their roles and responsibilities in the pursuit of governance reforms. This is lun-PEOPLE: F3

MY CONCRATULATIONS to the movers of the 10 to 10 Multi-Sectoral Campa:gn-Festival on Governance Reforms. This effort has inspired the Department of the Interior and Local Government (DILG) to persistently advocate for good local governance by showcasing exemplary practices of Local Government Units (LGUs), particularly those amovative strategies and tested approaches that promote good governance and sustainable development. We are pursuing decentralization and local governance reform efforts that provide avenues for sharing lessons learned and strategic directions for LGUs over the next decade. In particular, we encourage local gover-

mance reforms that improve local policies, promote participatory mechanisms, facilitate institutional change, and increase allocation for basic services to achieve the local targets on the Millemuum Development Goals (MDGs). With all LGUs initiating and supporting our local governance reforms, we envision the sense of national community under the rule of law. I wish that the gains of local governance shall be scaled up, sustained, and replicated to other local

Public Administration Reforms: Enhancing the Administration of Service Delivery

This instative highlights the reforms needed to enhance the service delivery capacity of national government agencies and LGUs to realize the MDGs. A national conference among public administration schools and practitioners tackles the roles of schools in promoting PAR: and the best practices in extending capacity building interventions to local and national government agencies. A series of fora is undertaken to give particular focus on new approaches and lessons learned in improving service

Environmental Governance: Strengthening Governance towards Environmental Sustainability

This instiative seeks to promote an enabling environment for sustainable environmental interventions. This includes multi-sectoral consultations and campaign to advocate for the passage of an omnibus law on the environment. The proposed code rationalizes and sets the direction of managing our environment and natural resources.

Anti-Poverty: Empowering and Engaging the Basic Sectors in Governance

This initiative seeks to empower the basic sectors and engage them to actively take part in governance. It involves a series of planning workshops among specific groups of sectoral leaders to define their respective agenda for the next 5 years under the leadership of PGMA. It shall also provide a venue for the sectors to dialogue on development issues with key agencies in government including Congress, the Judiciary and the Executive departments. As one of its major highlights, basic sector leaders will sign partnership covenants with the government, LGUs, CSOs, private sector in October 17, or the Interna-

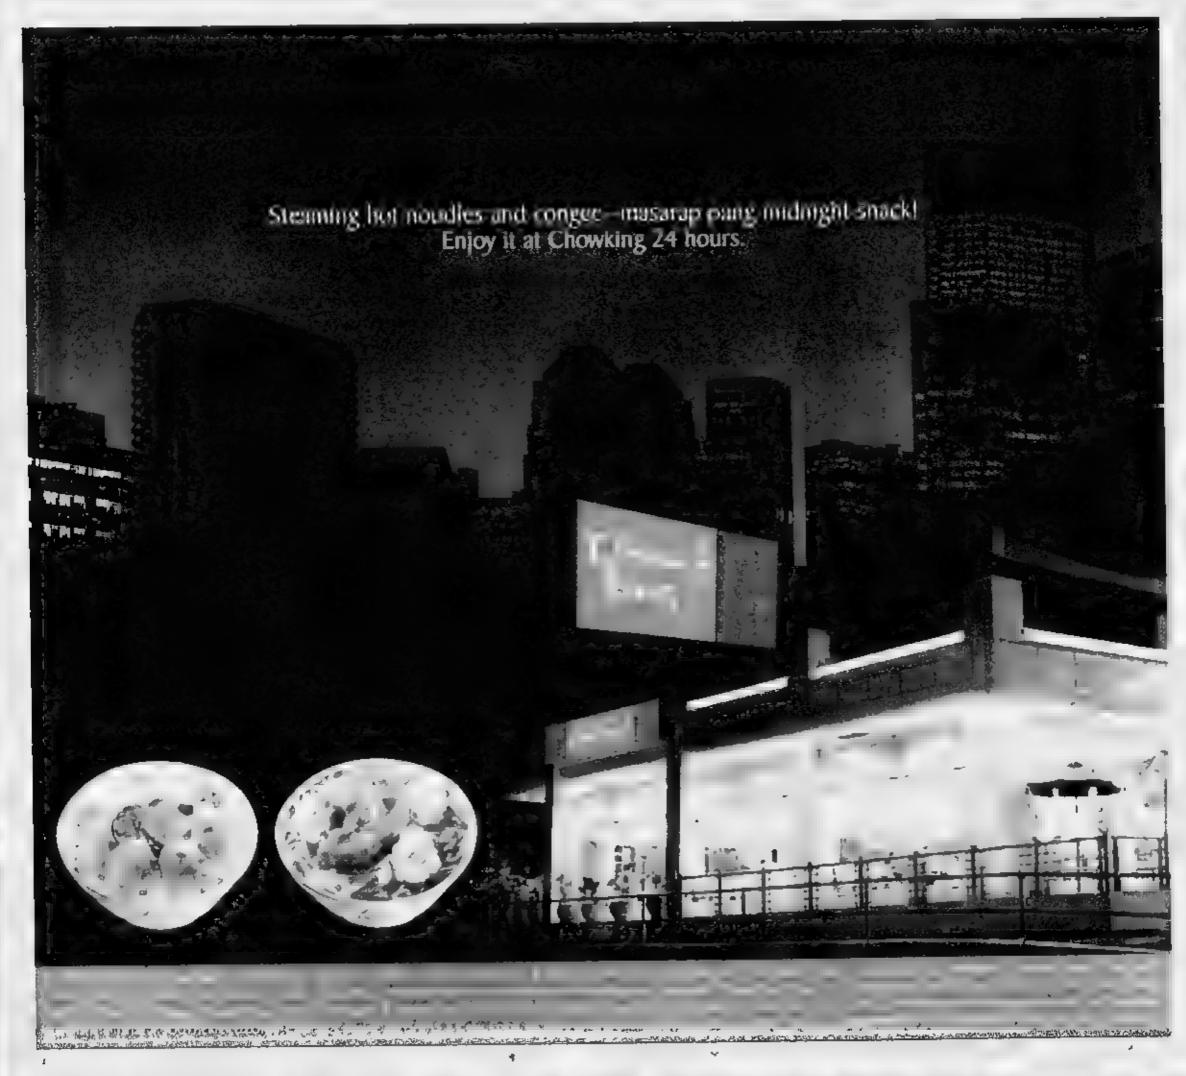

tional Day to Eradicate Poverty.

Peace & Development: Governance in Peace-Building and Conflict Prevention

This initiative gives emphasis on the role of each sector in society particularly the local communities in forging and sustaining peace. It takes cognizance of the rich lessons and varied tools that can be learned from community-level practices of peace-building and conflict prevention. This initiative involves series of forums and research studies to be conducted in the regions of Cordillerra and

Tanat-Palahad. 10 to 10 Balik Tanaw

'n response to chronic and massive poverty in the country, the Government of the Philippines and the United Nations Development Program established a Governance Portfolio aimed at creating an enabling environment and capacity building for good governance in the country. From 2002-2004, the Governance Portfolio embarked in different program and project initiatives that cut across all branches of government, media and civil

society organizations. The initiatives focused on enhancing the processes

and inter-institutional relationships among the government and civil society

stakeholders for a more improved performance of their mandates and mis-

sions in public services provision to the poor, marginalized and disadvan-

THE PHILIPPINES struggles everyday with the problem of poverty and corruption. Studies have shown that corruption directly and positively impacts on poverty. In the words of His Emmence Ricardo Cardinal Vidal: "corruption affects all of us, endangers our national life, and makes the poor poores"

We are, thus, besieged with the question: (i)s a graft-free soclety still possible? An affirmative answer is, of course, the correct and inevitable one, not because a negative answer is a selffulfilling prophecy that would cause us to do nothing, but because nothing can stand in the way of a combined public and private sector initiative bent on enducating corruption. This is based on the accounts of citizens and organizations that battled with, and triumphed over, graft and corruption like Concerned Citizens of Abra for Good Governance, Procurement Watch Inc.

Transparency and Accountability Network (TAN) Foundation, Inc. G-Watch, Boy Scouts and Girl Scouts of the Philippines and now Barug! Pilipino and the Coalition Against Correspond. Yes, a graft-free society is still possible. But only if the government will widen, to the greatest extent possible, private sector participation; and if the private sector; citizent, groups and organizations, will actively commit their talents and resources to concrete anti-corruption initiatives.

A word of caution: in this struggle against graft and curruption, it is easy to despair and, metaphorically, to see the glass as halfempty. We should realize that the glass is half-full. More importantly, we should see the water rising and the glass as filling-up.

SIMEON V MARCELO Tanodbayan

THE CIVIL Service Commission congratulates the 10 to 10 leaders, partners, supporters, and friends for the successful campaign-festival on governance reforms.

The participation of the CSC in this endeavor has been worthwhile. We have been able to advocare the value of meritocracy in the civil service. A de-politicized, non-parronage based and professional civil service is one of the best antidotes to corruption, which continues to be a major governance issue.

I am confident that the 10 to 10 movement has created a con-

stituency of committed and motivated individuals from the gov erament, civil society, and business sector who will push further the reforms towards the attainment of our national development goals.

KARINA DAVID

Civil Service Commission

MY WARMEST regards and felicitations to the women and men behind the success of the multi-sectoral campaign on governance reform, dubbed: "10 to 10: Governance Reform Campaign-Pestival." We in the Commission on Elections plunged headlong and wholeheartedly rato "10 to 10" with a series of three back-to-back-to-back conferences. The Asian Conference on Democracy and Electoral Reforms, from Nov. 12 to 14, allowed the Comelec to access the wealth of best practices and innovative election solutions from throughout the Asian region, while the UNDP Global Practice Meeting on Election Systems from Nov. 15 to 18, allowed the sharing of perspectives on election administration from all over the world. And finally, from the 18th to the 21st of November, the Summit on Electoral Modernization mapped out the legislative and institu-

tional reforms the Comelec will pursue in its modernization campaign. With the lessons learned from the 2004 National and Local Elections and the insights gained from the three conferences conducted under the aegis of "10 to 10," the Comelec now stands ready to deliver on its promise of contributing signuficantly to the realization of the Millennum Development Goals, through the full modernization of the Philippine electoral system by 2007

Mabuhay tayong lahat! BENJAMIN STABALOS, JR. Commission on Elections

CANADA SANDA CANADA SANDA SANDA

GREETINGS to alli

On behalf of the Commission on Human Rights of the Philippines I wish to congramulate all of the organizations and partners of the 10 to 10 Dekada ng Reporma. It is indeed fitting that the culminating event of the 10 to 10 Pestival coincides with the celebration of the National Human Rights Consciousness Week; from Dec. 4 to 10 as provided in Republic Act 9201 promulgated by President Gloria Macapagai-Arroyo on April 1, 2003.

We are also reminded that December 10 is International Hufinan Rights Day marking the auspicious adoption and produmation of the Universal Declaration of Human Rights.

"Good Governance is Human Rights." This year's theme is approprists and relevant to the important concerns of our country today.

On this occasion the Commission reminds everyone the basic principle that Human Rights are universal, indivisible, interdependent and inter-related. The Constitution also provides that the state values the dignity of every human person and guarantees full respect for human rights

It is in this context that the Rights-Based Approach (RBA) to development and governance is being implemented. It is a conceptual framework for the process of human development based in international human rights standards and directed to

promoting and protecting human rights. And

Governance is based on the following Human Rights stan-

1. Identifies the root causes of poverty by providing a holistic picture of development assues;

2. Brings gender to the forefront of development: 3. Sees development as an empowering process;

Provides a basis to objectively assess the contribution of a particular intervention in changing the lives of the poor;

5. Provides objective standards that can be used as a guide in a dynamic process because they include guidance for "immediare" and "progressive" realization; and

Strengthens accountability in the development process because human rights imply human duties.

Government agencies and the civil society should work together because at the end, corruption will only be eliminated if all partners are cooperating. If government agencies will work alongside human rights, that is good governance.

Avance. PURIFICACION C. VALERA QUISUMBING

Commission on Human Rights

A CONTRACTOR OF THE PROPERTY OF THE PARTY OF THE PARTY.

ON BEHALF of the National Anti-Poverty Commussion (NAPC), 1 would like to express my sincere appreciation and thanks to the international development community led by the United Nations Development Program (UNDP), the various government agencies, members of civil society, business groups and professionals, media and the academe for their meaningful and entituparticipation in the so-called 10 to 10 Multi-Sectoral Campaign-Festival on Governance Reforms in the Philippines, from Oct. 10 to Dec. 10.

The number ten likewise extends to the number of themes carried by the Campaign Festival, covering a whole range of refevant topics critical to governance and the Millennium Development Goals: from anti-corruption to anti-poverty programs, from service delivery by government to its multiple constituencies to the prevention of crimes of violence against women. The overall theme of the Postiva: expresses it all: "Engaging the Peo-

ple and Communicies: Advancing Governance Reforms Towards

the Realization of the Mittennium Development Goals" Por the anti-poverty theme, the National Anti-Poverty Commission (NAPC) was happy to serve as the lead convenor and coordinator for the topic focused on the wider and more significant participation of the basic sectors in the nation-wide battle against poverty. We are convinced that this participation must be felt and exercised not only in the national but more and more in the local events, using both current and still-to-be designed structures and mechanisms.

Mabuhay tayong lahati IMELDA M. NICOLAS Secretary General National Anti-Poverty Countsission

Dubbed as 10 to 10 Governance Reform Campaign-Festival, ten (10) thematic reform areas were priortrized to be showcased and demonstrated for the period October 10 (the anniversary of the Local Government Code) to December 10 (the commemoration of the International Human Rights Day) **Cross Thematic Concerns** With the overall theme of Engaging People and Communities: Advancing Governance Reforms towards the

From the lessons and gains of 2002-2004 opera-

tions of the Governance Portfolio, the nine Execut-

ing Agencies of the Governance Portfolio bonded themselves for the 10 to 10 Dekada ng Reporma.

Regizzation of the Millennium Development Goals, the multi-sectoral group was led by the Civil Service Commission (CSC), Department of Interior and Local Government-Local Government Academy (DLG-LGA), Supreme Court of the Philippines (SC), Office of the Ombudsman (OMB), Department of Budget and Management (DBM), the National Economic Development Authority (NEDA), National Anti-Poverty Commission (NAPC), Development Academy of the Philippines (DAP), Office of the President, National Commission on Role of the Filipino Women (NCRFW), and Commission on Human Rights (CHR) The Private Sector, Civil Society Groups, and other Multi-stakeholders engaged in this partnership are the Task Force Participatory Local Governance (TF-PLG), Transparency and Accountability Network (TAN), Consortium for Electoral Reforms

(CER), Center for Community Journalism and Development (CCID), and the Business for Integrity and Stability of Our Nation Inc (Bisyon 2020) together with other international donor agencies and the UNDP

Ten (10) thematic areas were prioritized to serve as the agenda for the national multi-sectoral call for governance reforms that are connected with the 10-point legacy agenda of the President Gloria Macapagal Arroyo. The themes are: Institutionalizing Reforms in the Electoral and Political Systems; Ensuring Access to Justice by the Poor through reforms in the 5 Pillars of Jusrice; Graft-and-Corruption Free Society: Making it Possible!; Scaling up the Gains in Local Governance; People's Rights First in the Realization of MDGs; Engaging Media in Governance; Enhancing the Administration of Services Delivery; Strengthening Governance towards Environmental Sustainability; Empowering and Engaging the Basic Sectors and Communicies at Governance and Governance in Peace Building and Confuct Preven-

The 10 to 10 Dekade ng Reporma launched the cattipaign on October 12 with a celebration of the efforts and minimizes as well as the breakthroughs of innovative approaches and good governance practices. The Governance Expo, which showcased the various initiatives supported by both LGSP and UNDP strengthened DILG's role and leadership in the local governance secron it also engaged and challenged the DILG, LGUs and the leagues to scale up and institutionalize the gains and processes in local governance. Similarly, the League of Municipalities and League of Cities Identified priority policy issues. The Local Government Performance Management System (LGPMS) was launched, which is an Internet-based self-assessment system that will check the performance of local chief executives in the deliver) of basic services and in management of the affairs in different Joealizies. Likewise, replicable practices were disseminated through the distribution of replication guidelines and brochures to target users, guidebooks and linkages and support under the Good Governance Pacility for Adaptation and Replication (Gofar)

Electoral and Political Reforms:

Insumationalizing Reforms in the Electoral and Political Systems

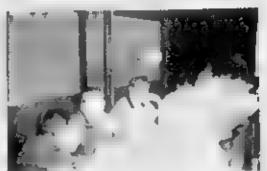

In our advocacy of Institutionalizing Reforms in Electoral and Political System, the Commission on Elections (Cosselec), Consortnum on Electoral Reforms (CER), and Representatives from Congress prioritized the electoral reform agenda for the 13th Congress and election reform action agenda for 2005-2010. Also resolved are the seed for amending the Omnahus Election Code, its-

plementation of the electoral modernization in time for the 2007 elections, strengthening of the political party system and the continuing conduct of citizen and voter education. Also, the Ledac Secretariat, Congressional Planning and Budget Department of the House of Representatives (CPBO), and the Senate Economic Planning Office (Sepo) gathered priority measures as a working document to formally set the House priority legislative agenda for the 13th Congress. The Consortium on Electoral Reforms (CER), Philippine Political Science Association (PPSA), and University of the Philippines-Asian Center carried out sharing of expertences among Asian countries, yielded to identification of best practices in the conduct of an election, design of an electoral system and in the advocacy of electoral reforms. This further led to the establishment of network among Asian countries to include Philippines, East Timor, Indonesia, Malaysia, Cambodia, Taiwan, Japan, South Korea, Thailand, India, and Sri Lanks. Also, interactions among UNDP practitioners from country. sub-regional, regional and global levels, as well as a number of senior practitioners, academics, and part ners with hands-on experience of electoral assistance, promoted understanding of the substance of UNDP's croral assistance entry points, strategy to address policy and practical needs, approach of global programme and electoral systems and processes, capacity building for long term assistance, and innovative partnerships and research.

Justice Reforms: Ensuring Access to Justice by the Poor through Reforms in the 5 Pillars of Justice

In our advocacy of Ensuring Access to Justice by the Poor through Reforms in the 5 Pillars of Justice, the Supreme Court and the composite agencies such as Department of Justice (DOJ), Sandiganbayan (Graft Court), Office of the Ombudsmen (OMB), Phi.ppine National Police (PNP), National Police Commission (Napoleom), Bureau of Jalls Management and Penology (BJMP), National Bureau of Investigation (NBI) Public Attorneys Office (PAO), Office of the Solicitor General, Alternative Law Groups (ALG), Bureau of Correction (BuCor), Development Academy of the Philippines (DAP), National Commission on Role of the Pilipmo Women (NCRFW) and others involved in the Five Pillars of Justice on law enforcement, prosecution, court system, correction and rehabilitation, and community integration focused their initiatives and perspectives on access to justice by the poor, disadvantaged, and marginalized while dispensing their mandates of administering justice for all. In order to pursue this direction, the Pive Pillars resolved to re-visit and rarionalize their structure, functional finkages, collaborative programs, and systems toward enhancing the delivery of mandated services that consist of best practices, policies, plan, and pact for 2005-2010 action plans and agenda, Other issues and concerns that this advocacy addressed were the development of a speedy, impartial, and accessible criminal justice system by enbancing the institutional capacity, efficiency and effectiveness of the DOJ and its attached agencies. Other measures initially identified are: to capacitate the internally displaced persons (IDPs) and communities to promote the culture of peace and the basic rights of .DPs, facilitate their easy access to justice, and strengthen the support mechanisms and institutions and emergency response and management; provide an overall framework to ensure the rights and justice for all through education for the poor, women, and children in particular.

The Law Enforcement Pillar consisting of the PNP NBI, PDEA, Bureau of Customs, Bureau of Internal Revemie, Bureau of Immigration and other specialized agencies resolved to undertake advocacy on the participation of the prosecutors and judges in the training and education of law enforcement officers, strengthening of the National Law Enforcement Coordinating Committee and the inclusion of other pillars of the Justice System, intensification of public information drives to boost community involvement in the peace and order campaign, strengthening of the DOJ's witness protec-

CSQ MESSAGE TO PROMOTE CIVILEOCIETY PARTICIPATIONIN

pants of the 10 to 10 Governance Reform Campargn-Pestiva.

We affirm the need to strengthen the partnership between government and civil society on key governance areas, including local participation, environmental protection, peace and conflict management, urban affairs, reproductive health, and information and communications technology planning. Furthermore, this strongly encourages euoperation between government and civil society in enforcing policies, programs, and projects for governance reform.

It is our firm belief that development problems, especially those affecting the vulnerable sectors,

CONGRATULATIONS to the multi-sectoral partici- have multiple causes and require the collaborative efforts of multiple stakeholders. Such efforts demand that policy making, monitoring, and implementation should be anchored on genuine participation and effective state-society partnerships.

> Truly, we declare our commitment to pursue and support programs and projects geared toward the realization of the Millennum Development Goals. We also recognize the need to conduct policy research and training activities to promote buman rights and good governance

> As representatives of organizations that support the rights-based approach to development, we signify our commitment to promote civil society participation in governance.

MY WARMEST greetings to the organizers and purticipants of the 10 to 10 Campaign Pestival on Gover-

The thematic areas underscored through the vacous activities in this campaign, including the area on "Media Reforms: Engaging Media in Governance Reforms" are noteworthy, indeed, your mitiative to mobilize media practitioners, in strengthening their role as sources of truth and guardians of social justice, comes at an opportune moment. The advancement of a free and responsible media is essential to the promotion of professionalism in the bureaucracy, transparency and accountability in government, and enlightenment in the citizency.

Let me therefore congratulate the men and worken from the various public and private sectors, nongovernment organizations, and international development agencies for spearheading a unified carapaign to advance governance reforms supportive of the administration's 10-point legacy program. Your efforts and sacrifices truly bespeak of your devotion to the nation, faith in our government, and confidence in our country's future

Mabuhay tayong lahat. profiles SEC. RENATO S. VELASCO Director-General Philippine Information Agency

AS PARTNER and participating lead organization in the 10 to 10 "Dekada ng Reporma", the Business for Integrity and Stability of Our Nation (Bisyon 2020) wishes to thank the United Nations Development Programme (UNDP) for sponsoring this much-needed multi-sectoral campaign festiva, on governance reform in the Philippines.

Good governance is the single driving force of business and government alike. Good governance is learned from within, a product of well-entrenched values hewn from various environments, principally those learned from family and home

In business and finance, particularly in undertaking key management decisions, we are taught not to take united the rewards are commensurate with the risks. This promotes rational behavior and efficient use of a company's valuable but limited resources.

In our country, corruption is unfortunately prevalent - but this is not a problem of the Philippines alone. Corruption is present in both developed and

developing economies alike, in varying degrees. What is key, however, is the political will of a country's leadership to curb corruption and undertake the

Multi-sectoral programs such as the 10 to 10 "Dekada ng Reporma" reinforces the need for the importance of translating the values handed down through generations into effective leadership and selfless service to our country.

reforms, however difficult and unpopular.

Again, we think the SNDP for its supportive role in bringing to the fore its goal to ignite the fire of charact and reform in the various sectors of Philippine society.

MY WARMEST greetings to the organizers and perticipants of the 10 to 10 Campaign Pestival on Governance Reforms

The thematic areas underscored through the various activities in this campaign, including the area on "Media Reforms: Engaging Media in Governance Reforms" are noteworthy. Indeed, your initiative to mobilize media practitioners, in strengthening their role as sources of truth and guardians of social justice, comes at an opportune moment. The advancement of a free and responsible media is essential to the promotion of professionalism in the bureaucracy. transparency and accountability in government, and enlightenment in the citizenry.

Let me therefore congratulate the men and wornen from the various public and private sectors, nongovernment organizations, and international development agencies for spearheading a unified compaign to advance governance reforms supportive of the administration's 10-point legacy program. Your efforts and sacrifices truly bespeak of your devotion to the nation, faith in our government, and confidence in our country's future.

Mabuhay rayong lahat profession SEC. RENATO S. VELASCO **Dwector-General** Philippine Information Agency

AS PARTNER and participating lead organization in the 10 to 10 "Dekada ng Reporma", the Business for Integrity and Stability of Our Nation (Bisyon 2020) wishes to thank the United Nations Development Programme (UNDP) for sponsoring this much-needed multi-sectoral campaign festiva, on governance reform in the Philippines.

Good governance is the single driving force of business and government alike. Good governance is learned from within, a product of weil-entrenched values hewn from various environments, principally those learned from family and home.

In business and finance, particularly in undertaking key management decisions, we are taught not to take risks. This promotes rational behavior and efficient use of

a company's valuable but lumited resources. In our country corruption is unfortunately prevalent . . but this is not a problem of the Philippines alone. Corruption is present in both developed and

developing economies alike, in varying degrees What is key, however, is the political will of a country's leadership to curb corruption and undertake the

reforms, however difficult and unpopular Multi-sectoral programs such as the 10 to 10 "Dekade ng Reporma" reinforces the need for the unportance of translating the values handed down through generations into effective leadership and seifless service to our country.

Again, we thank the UNDP for its supportive role in bringing to the fore its goal to ignite the fire of change and reform in the various senses of Philippine society.

GREETINGS of Hope, Peace and Love!

Thank you and congratulations to all who have actively participated and contributed to the success of the 10 to 10 Governance Reforms Campaign-Festival. Together we have made many things possible expansion of our circles of influence, recognition of new best practices, and creation of new approaches to partnership and collaboration towards governance reforms

We need not conduct a survey to know the fondest drawn of al. Pilipinos. We have more similarities than differences. We have common desires to attain our full potentials, make meaningful contribution to society, and have a great future for the country.

These dreams have brought us rogether in this 10 to 10 campaign-festival. Ever since we started working together, we have developed a deep sense of mutual respect and admiration for our respective ideas and actions and, most important, we are now clear on what we can and will do together in the next five

Let us continue to include, engage and inspire more people, organizations and communities to get involved in the realization of the Millennium Devel-

Covenant for the 10 to 10 Dekada ng Reporma

IN RESPONSE to the prevailing usues of governance tion, and conviction, initiating and engaging in a comwhich impede development of the country such as poverty, environmental degradation, graft and corruption, poor access to justice by the marginalized, inadequate participatory electoral and political mechanisms, underutilized local government capacity, insufficient bureaucratic policies, reforms, and systems to make government more responsive, we, the 10 to 10 Movers of Governance Reform Campaign Festival, dedicate and commit ourselves to a Rights-Based Governance Reforms from 2005 2010 that will institutionalize accountability, nondiscrimination, broad representation and participation of women and men in governance along the following thematic concerns:

1. On Institutionalizing Reforms in the Electoral and

Political Systems

To engage all sectors for the development of a unifying framework and institutional support measures and mechanisms geared towards the implementation of an honest, credible, transparent; modernized election system in 2005 - 2010 both at local and national levels;

To carry out immediate electoral reforms by carrying out electoral modernization, strengthening the political party system; and pursuing legislative amendments or actions in relation to the Omnibus Election Code and other election-related bills; and

To carry out a comprehensive citizen-voter education for the exercise of the people's right of suffrage and meaningful participation in various political processes, with special attention to the poor, vulnerable and disadvantaged towards achieving political legitimacy, acceptability and accountability in the country as imperative in attaining strong, stable and functioning democracy.

2. On Ensuring Access to Justice by the Poor through Reforms in the 5 Pillars of Justice

To strengthen collaboration and partnership among the five (5) Pillars of the Criminal Justice System covering enforcement, prosecution, adjudication, correctional, and community integration towards more responsive, rights based, and gender sensitive administration of jus-

For the Law Enforcement Pillar to undertake advocacy on the participation of the prosecutors and judges on the training and education of law enforcement officers, to strengthen the National Law Enforcement Coordinating Committee and the inclusion of other pillars of the Justice System, to intensify public information which drives to boost community involvement in the peace and order campaign, to strengthen the DOJ's witness protection program, integration and automation of nationwide estime reporting system, and to formulate legislative reforms affecting the criminal justice system by amending some provisions of the charters of the agencies concerned

For the Prosecution Pillar to resolve, among others, the enhancement of the prosecutors' knowledge on new laws specially for the vulnerable sectors, have a continuing dialogue between the pillar and the community, strengthening the task force on women and children, implement continuing legal education specifically on laws on women, human rights, gender sensitivity and the rights-based approach;

For the Court Pillar to further develop their ongoing judicial reform focused on establishing more effective, efficient, and inexpensive delivery of justice; to have more avenues and venues for knowledge and information sharing about best practices in the court pillar; and to reinvent and re-engineer their attitudes by taking a closer look at the needs of the public which they serve;

For the Correction Pillar to undertake nutrienves such as the institutional advocacy of rehabilitation as against the perception on punitive approach, formulation of correctional standards in the treatment of all prisoners from municipal, city, district, provincial and national correction facilities, improving cooperation programs and inkages with institutions involved in the correction pillar, advocacy of the agenda for rendering of community service in lieu of incarceration and, adoption of management information system among agencies,

For the Community Pillar to commit on the enhancement of the access to justice by the poor through the strengthening of nerwork among civil society organizations, private sector and the government, educating media on proper decorum in the handling of sensitive cases that is gender and rights-based, reactivation of the Nabonal Crime Information System and insutationalizanon of gender sensitivity training;

To end the climate of impunity and the chain of violence through reforms founded on the principles of restorative justice by abolishing the death penalty law and ratification of the 2nd Optional Protocol on Civil and political rights,

To establish a "truth commission" and prioritizing bills on torture, enforced/involuntary disappearance, undemnification to victims of human rights violation and proposals on anti-discrimination, and

To establish operational mechanisms for seeking justiceability of economic, social and cultural rights; and to improve access to justice by the poor, marginalized and disadvantaged arising from poverty, human rights abuses and exclusion or marginalization of these sectors in the whole gamut of governance towards realization of peace, human rights and development in the country.

3. On Graft and Corruption - Pree Society, Making it

To commit to the improvement of the plight of the poor, disadvantaged, and marginalized by making possibie a Graft-and Corruption-Free Society through, institunonalization of the Framework on Anti-Corruption and effective mechanisms for transparency on all government transactions; continuous effort on developing civil society's capacity to light graft and corruption; and, implementation of the Office of the Ombudsman's Medium-Term Anti-Corruption Plan (2004-2008), among others, to combat corruption and restore the integrity, transparency and accountability of various governance functions and processes, which have been eroded by corrupt practices resulting to staggering and alarming losses in terms of undelivered basic services and programs; and

To further strengthen the partnership between gov ernment, private sector, and local communities in combatting graft and corruption, the Bisyon 2020 committ the pursuit and advancing the 2020 agenda and commitments through resource mobilization and close collaboration with government and civil society in the following: marshalling resources to encourage, support, and protect anti-corruption crusaders, whisle-blowers, witnesses, and victims of corruption, strengthening government and private sector partnerships with local community organizations at the lowest grassroots level possible; ensuring proper compliance with Code of Ethics, laws, rules and regulations; eliminating bribery and extortion as "standard procedures" in business practices; committing resources to ensure judicial investigation, prosecu-

prehensive education campaign versus corruption; empowering the citizenry through intensive and extensive anti-corruption Information, Education, and Communication (IEC) program, enhancing corruption prevention programs; strongly endorsing presidential certification of anti-corruption bills as urgent; and lobbying for anti-corruption legislative agenda.

4. On Scaling up the Gains in Local Governance

To scale up and institutionalize the gains and propesses in local governance by engaging LGUs to adopt the rights-framework to sustainable development and excesience in local governance, disseminate and replicate exemplary practices;

To localize and mainstream Millennium Development Goals and Gender and Development initiatives, and, implement the Local Governance Performance Management System (LGPMS) towards fostering an enabling policy environment in enhancing good governance through local initiatives, resource generation and mobilization, and capacity development, and, instituting inter-governmental relations among the LGUs and between the LGU and national government; and

To engage individuals and communities in pursuing participatory local development and in building a culture of peace and transforming conflict

5. On People's Rights First in the Realization of MDGs

To institute the development of human rights' culture and gender sensitivity in government, private secfor and civil society through the implementation of the constitutional provisions on the establishment of a continuing human rights education in schools and implementation of Presidential directives on the mandatory human rights education for the police and military per-

To mainstream human rights and gender along with the Millenmum Development Goals through the adoption of Rights-Based Approach in planning, budgeting and implementation through legislation both at the lo-cal and national levels. And to work out with development agencies, people's organizations, non-governmental organizations, local development councils and local government units in the operationalization and application of human rights standards in the delivery and management of services and programs especially for the poor, disadvantaged and marginalized sectors

On Engaging Media in Governance

To develop strategies and mechanisms for the active and effective participation of media in governance reforms towards a more transparent, accountable, and particapatory governance in the country and implementation of measures for sustaining media participation network and developing mechanisms at the nanonal and loca, levels to include citizen engagement in governance.

7. On Enhancing the Administration of Service De-

To engage the system of government into a process of review, enhancement and insututionalization of reforms in policies, plans, programs and systems de-signed to strengthen the capacity and responsiveness of government, especially those in the front line, in deavering the much needed efficiency and effectiveness in the public service delivery improvement program of social and economic services, and

To ensure equity and improvement of people's quality of life that would allow more opportunities for the poor and marginalized for more access to productive resources and basic services of government for the realtration of the MDGs, improvement of level of enjoyment of peoples' human rights, enhancement of gender sensitivity in media and governance, and attainment of peace and development in the country.

8. On Strengthening Governance towards Environmental Sustainability

To develop loca, environmental and sound ecological programs in harmony with the local government's plans on pursuing the preservation of the quality of the environment though enactment of new laws and codes to ensure the conservation, development and exploration of natural resources based on the principles of sustainable development and respect for ancestral do-

To engage local communities in managing natural resources through the establishment of people's organizations and networks to undertake all possible unitionives and measures for the protection and enrichment of the environment for use of present and future generations.

9. On Empowering & Engaging the Basic Sectors in

To pursue and support the rights and gender based agenda for the basic sectors' agenda and further develop the poverty reduction strategies, policies, programs, and mechanisms designed for the realization of the Millennium Development Goals (MDG) targets on poverty, education, gender equality, child mortality, maternal health, HIV/AIDS and other diseases, environment, and global parmership for development; and to empower basic sectors for improved self-reliance and participation in democratic governance, to participatory governance, social equity, social capital formation, and greater access to productive assets particularly microfinance and livelihood technology for total unleashing of their potentials and contributions to achieving better quality of life and human development.

10. On Governance in Peace-Building and Conflict

Prevention To develop and implement strategies and mechanisms that will involve participation of and unify the local communities, civil society organizations and other stakeholders working for and sustaining a peaceful community by urilizing various instruments and interventions on peacebuilding and conflict prevention, and

To adopt an "all-out peace" policy in dealing with all armed political groups under the principles set in the International Humanitarian laws; push for the enactment of laws for the protection of internally dispinced persons and communities in accordance with the international standards

We, the movers of the 10 to 10 Dekada ng Reportna from government the civil society organizations, media, the private sector, and the international development community agree with the aforementioned covenant in advancing good governance, human rights, peace and human development in the country hereby affix our signature as a mamfestation of our commitment to the reform movement on the occasion of the Human Rights Festival on this 8th day of December, in the year of Our Lord, Two Thousand and Pour.

REPUBLIC OF THE PHILIPPINES DEPARTMENT OF THE INTERIOR AND LOCAL GOVERNMENT

MEMORANDUM CIRCULAR

NO: 2004 - 152

TO · ALL PROVINCIAL GOVERNORS, CITY AND MUNICIPAL MAYORS, DILG REGIONAL DIRECTORS AND OTHERS CONCERNED SUBJECT: GUIDE TO LOCAL GOVERNMENT UNITS IN THE LOCALIZATION OF THE MILLENNIUM DEVELOPENT GOALS

1. BACKGROUND

In September 2000, the United Nations General Assembly concluded the Millennium Summit with the adoption of the Millennium Declaration renewing global commitment to peace and human rights and serting specific goals and targets toward reducing poverty and the worst forms of human deprivation. The Millennium Development Goals (MDGs), set within 2015, affirm and reinforce the agreements on the goals and targets toward eliminating extreme poverty world-

Along with all other countries, the Philippines committed to pursue all efforts to attain certain benchmarks in improving human life. These communents are embodied in the eight key goals in the MDGs. Since 2000, the Philippines has sought to attain these goals through its medium-term development plans. The eight MDGs are:

- 1. Eradicate extreme poverty and hunger,
- 2. Achieve universal primary education, 3. Promote gender equality and empower women,
- 4. Reduce child mortality,
- 5. Improve maternal health,
- Combat HIVs/AIDs, malaria and other infectious deceases,
- 7 Ensure environmental sustainability, and 8. Develop a global partnership for development.

Meeting the requirements of the MDGs will entail collaborative efforts of major stakeholders - the national and local government units (LGUs) as well as the private sector through related interventions geared toward mainstreaming the MDGs in the local development agenda.

II LOCALIZING THE MDGs

Goals 1 to 7 are local government utur mandates, pursuant to Section 16 of the Local Government Code on the promotion of public health and safety, enhancement of people's right to a balanced ecology, enhancement of economic prosperity and social justice, promotion of full employment among the residents, maintenance of peace and order and preservation of the comfort and convenience of the inhabitants, among others. MDG 8 transcends the national borders and refers to global pertnerships for development.

A. A Poverty Pocused Plan and Budget

In view of these, LGUs are encouraged to intensify efforts in the unplementation of programs, projects and activities (PPAs) toward the achievement of the MDGs. LGUs are expected to increase their budgetary allocations for basic social services responsive to MDGs

Below are several options to guide LGUs in responding to MDGs MDGs and Targets LGU Options to Address MDGs Goal 1: Eradicate Extreme Poverty and Hunger

Targets:1. Reduce by 50% the number of people living in extreme poverty between 1990-20152. Reduce by 50% the number of population below the minimum level of dietary energy consumption and reduce by 50% the number of underweight children (under five years old)3. Reduce by 50% the number of people with no access to safe drinking water or those who cannot afford it by 2015 - Provision of livelihood and employment opportunities for marginalized group through community enterprise and skills training. Assist the poor farmers and small producers in the processing and marketing of their products. Provision of basic training on household food security such as home sardening, backyard livestock industry and inland fishing, and provision of support services, e.g. seeds, credit, etc.- Construction/installation of solar dyer, multi-purpose pavement, post harvest facilities, food processing, rice and com mills, warehouses- Construction/maintenance of public access such as roads, farm to market

roads, foot bridge/bridge- Provision of farm equipment, supplies and other farm inputs- Provision of safe drinking water by installing low cost water supply like hand-pumps, gravity fed systems, rain water collection, shallow/deep/artesian tube wells and constructing of infrastructures for potable water system- Development/construction of low cost sanitation facilities like ventilated improved pit privy (VIP) and other latrines · Provision of basic hygiene education and training for households Promotion and enforcement of food fortification law and ASIN Law · Sustemance of supplementary feeding and "Operation Timbang"

MDGs and Targets LGU Options to Address MDGs Goal 2: Achieve Universal Primary Education

Target:Achieve universal access to primary education by 2015 Construction/rehabilitation of school facilities such as school buildings with totlers and water supply, clinics, public libraries, basic science laboratory rooms . Construction and maintenance of access roads going to schools: Construction/maintenance of day care centers and pre-school institutions: Purchase of books, desks and other school equipments: implementation of school-based nutrition programs such as School Milk Project, National Feeding Program, Breakfast Feeding Program, and Dental Health Program- Provision of day care center teachers/workers and instructional materials (ECCD Law)- Promotion of Early Childhood Care Development (ECCD)/Bright Child Program in all day care centers. Provision of transport assistance for school chil-

dren in geographically hard to reach areas Goal 3, Promote Gender Equality and Empower Women

Target: Eliminate gender disparity in primary and secondary education, preferably by 2005, and all levels of education not later than 2015 Allocation of 5% LGU budget for gender and development programs/projects/activities (PPAs) addressing MDGs · Provisions of livelihood for marginalized women. Establishment of Women's Desk Conduct of livelihood and vocational training activities for women-Full implementation and enforcement of laws on violence against women and children. Promotion of equal access of women and men to training and employment opportunities. Ensure participation of women in local special bodies (LSBs)

Goal 4: Reduce Child Mortality

Target: Reduce children under-five mortality rate by 67% by 2015 -Immunization of all children against tuberculous, diphtheria pertussis, teranus, measles and Hepatitis B before reaching 1 year old- Provision of one dose Vitamin A o once a year to all children 6-11 months o at least twice a year to all children 1-5 years old- Promotion of exclusive Breast Feeding up to 6 months and continues breast feeding up to 2 years: Promotion of new-born screening for congenital metabolic disorders- Provision of from supplements for low-birth weight infants and anemic children.

MDGs and Targets LGU Options to Address MDGs

Goal 4: Reduce Child Mortality (continued ...)

· Mandatory weighing of children 0-71 months to monitor growth and nutritional status according to the following schedule:b all 0-24 months old children years old once a month) all 0-71 months children whose weights are below normal once a monthly all 25-71 months old children quarterlyh all 0-71 months old children twice a year-Sustenance of supplementary feeding programs and "Operation Timbang'/growth monitoring (i.e. weighing scales, weight-for-age table, ECCD card). Promotion of complementary feeding of lugaw and other nutratious food (GO, GROW and GLOW foods) for all children starting 6 mos, old · Provision of de-worming drugs among 2-5 years old chil-

dren twice a year-Implementation of integrated Management of Childhood Illness (IMCI) in all health facilities and provision of essential drugs for IMCl- Provision of training for parents on food production, food preparation, food fortification and basic nutrition, and proper care for children · Provision of infrastructure facilities such as health centers, day care centers, primary/secondary bealth care cen-

Goal 5: Improved Women's Reproductive Health

Targets: 1. Reduce maternal mortality rate by 75% by 20152. Increase access to reproductive health services to 60% by 2005, 80% by 2010 & 100% by 2015 - Conduct of advocacy and other related services on the following reproductive health (RH) elements: Ø Family Planning (FP)q All method including voluntary sterilization service (VSS) be made available to all men and women of reproductive ageq Establishment of functional Community Based Management Information System (CBMIS) for family planning and other RH servicesq Provision of family planning education, counseling, services including VSS and contraceptives for both men and women of reproductive age q Ensure adequate supply of contraceptive commodity for current users and new acceptorso Resolution on the adoption and implementation of Contraceptive Self Reliance (CSR) on Femily Planning Promotion of and education on shared parenting responsibilities@ Maternal Child Health and Nutritiona Provision of comprehensive pre-natal, natal and post-natal care for all pregnant womenq Provision of iron tablets and vitamin A capsules for pregnant and lactating mothers q Establishment/upgrading primary hospitals, maternal clinics and other health facilities to provide obstetric cared increase access to basic and comprehensive emergency obstetric cared Promotion of facility based delivery among pregnant womenq Supplemental feeding for malnourished pregnant women@ Violence Against Women and Children (VAWC)q Provision of medical, legal, psychological services to victim-survivorsq Protection and re-integration of victims-survivors of violence against women and childreng Ensure the participation of the community in preventing VAWC and protection of VAWC victim-survivorsq Provision of counseling services to perpetrators of VAWCØ Men's Reproductive Healthq Increase male involvement in reproductive health activities@ Adolescent Reproductive Health (ARH)q Massive education on fertility, responsible sexuality and healthy development including healthy lifestyle through formal education or outreath activity for young peopled Educate parents on fertility, sexuality and RH and mobilize them for the provision of information to young peopleq Provision of health services and counseling@ Education and Counselling on Sexuality and Sexual Educationq Conduct of fertility awareness campaign and responsible parenthood@ Prevention and Treatment of Reproductive Tract Infections (RTIs)/STD/HIV/AIDS@ Breast and Reproductive Tract Cancersq Provision of breast and cancer prevention and treatment services (e.g. scetic acid wash, papsmear, screening, referral) in selected RHU facilities@ Prevention and Management of Abortion and its Complicationsq Counseling services incorporated in Family Planning Development of capabilities of bealth workers in the areas of maternal care, childbirth, family planning PMAC, VAWC, ARH and other health care services

MDGs and Targets LGU Options to Address MDGs

Goal 6: Combat HIV/AIDs, Malaria and Other Diseases Targets: 1. Prevent the spread and halt HTV/AIDs by 20152. Reduce the incidence of malaria and other major infectious diseases and hait by 2015 - Massive information campaign/social mobilization on values-based sexuality education, AIDS/dangers of AIDS, how to prevent AIDS- Promotion and provision of AIDs prevention services such as counseling, and STI/HIV/AiDs management in health facilities - Establishment of behavioral surveillance system on STI/HIV/AiDs infected persons. Procurement of drugs and other logistic support for STI/HIV/AIDS, malaria, TB and other diseases Provide necessary health services and treatment for the vulnerable groups against STI/HIV/AIDs, majaria, TB and other diseases: Establishment and strengthening of "TB Network" Implementation of comprehensive cleanliness program such de-clogging and maintenance of canals, etc. Encourage full support of private sector especially owners of bars/nightclubs/hotels and other related establishments to perticipate in education and awareness of sex workers

MDGs and Targets LGU Options to Address MDGs Goel 7: Ensure environmental sustainability

Targets: 1. Implement national strategies for sustainable development by 2005 and to reverse loss of environmental resources by 20152. Achieve a significant improvement in the lives of at least 100 million slum dwellers - Rehabilitate, protect and maintain community watershed areas in collaboration with other agencies: Enforcement of forest laws, rules and regulations in community watershed communal forest and other devolved areas. Implementation of devolved commumry-based forestry management project which includes integrated social forestry in communal forest: Establishment of parks, greenbelt and other similar forest development projects. Protection of integrared Protected Area System - Formulation/implementation of 10-year Solid Waste Management Plan: Establishment of Material Recovery Pacilicies (MRF) in every barangay or cluster of barangays-Encourage private sector participation to: Ø initiate, participate, and invest in ecological solid waste management projects@ manufacture environment friendly products@ undertake community activities to promote effective solid waste management. Closure and/or conversion of open dumpsite into controlled dumpsite, and eventual establishment of sanitary land fill- Massive info campaign on solid waste management-Formulation/implementation of comprehensive land use plans (CLUPs) and enforcement of zoning ordinances (20s). Provision of sites for socialized housing purposes. Conduct of inventory for beneficiaries of socialized housing projects · Provide livelihood facilities and initiate community organizing activities in relocation sites - Implement "Gawad Kalings" type and other housing projects

B. LOCAL POVERTY DIAGNOSIS AND MONITORING

In order to determine the appropriate interventions and to focus turget beneficiary, it is important to know the nature and extent of powerty in a particular locality. Local government units may use existing information that can be generated from the following monitoring instruments such as:

1. Local Government Performance Measurement System (LGPMS),

2. Minimum Basic Needs-Community Based Poverty Indicator System (MBN-CBIS), and Community Based Poverty Indicator and Monitoring System (MBN-CBPIMS).

3. Integrated Rural Accessibility Planning (IRAP).

4. Community-Based Monitoring System (CBMS), and

5, other local monitoring tools

LGUs may also diagnose their situation using the Core Local Poverty Indicators Monitoring System (CLPIMS), These are the set of carefully selected human development and income-based indicators dedicated to diagnose and monitor poverty skuation which was adopted during the 7th En Banc Meeting of the National Anti-Poverty Commission through En Banc Resolution No. 7, and disseminated at the local levels through DILG Memorandum Circular 2003-92 on April 2003. An addi-

tional indicator on maternal health was included to harmonize the CLPI with the MDGs

Below are the (13 CLPI +1) indicators that may be used to assess LGU situation and gather baseline information to institute measures to help meet the country's MDGs by 2015:

MDG Core Local Poverty Indicators (CLPIs)

Goal 1: Eradicate extreme poverty and hunger · Proportion of households with income less than the poverty threshold

Proportion of households with income less than the food thresh-

Proportion of persons aged 15 years old and above who are not working but are actively seeking work Proportion of children 0-5 years old who are moderately and

severely underweight (below normal-low and below normal-very

Proportion of households who eat less than three full meals a day Proportion of household members victimized by crime

Goal 2: Achieve universal primary education · Proportion of 6-12 year-old children who are not in elementary school Proportion of 13-16 year-olds who are not in secondary school

Goal 3. Promote gender equality (can be generated from indicators Goal 2 since data are gender disaggregated)

Goal 4: Reduce child mortality Proportion of children under five

years old who died Goal 5: Improve maternal health · Proportion of women who died

due to pregnancy related causes Goal 6: Combat HIV/AIDS, malaris, and other infectious diseases Proportion of households without access to safe water

Proportion of households without sanitary toilets Goal 7: Ensure environmental sustainability - Proportion of house-

holds who are squatters Proportion of households with makeshift housing

C. IMPROVED SERVICE DELIVERY THROUGH REPLICATION OF GOOD PRACTICES RESPONSIVE TO MDGs

A number of LGUs have already demonstrated good local governance practices specifically in trying to address MDG concerns. These LGUs use their innovative and indigenous mechanisms to provide baand social services.

In view of this, LGUs are encouraged to replicate the exemplary practices of other LGUs with good practices in responding to the needs of the local communities and in response to the millennium develop-

II. RESPONSIBILITIES OF DILG

The Bureau of Local Government Development (BLGD) and DILG Regional Offices are directed to spearhead the advocacy of the localtration of the MDGs, and institute tools and mechanisms for the localization and monitoring of LGU responses.

The DILG Regional and Provincial Offices shall spearhead the advocacy on the MDG at the local government units within their respective jurisdictions, and provide the necessary assistance on the implementation of this Circular.

DEG Regional Offices are also directed to undate the Office of the SILG, through the BLGO on the status of the localization of MDG and LGU compliance to this Circulat.

For the guidance and compliance of all concerned ANGELOT: REYES

Secretary

REPUBLIC OF THE PHILIPPINES DEPARTMENT OF THE INTERIOR AND LOCAL GOVERNMENT

MEMORANDUM CIRCULAR

NO: 2004 - 152

TO: ALL PROVINCIAL GOVERNORS, CITY AND MUNICIPAL MAYORS, DILG REGIONAL DIRECTORS AND OTHERS CONCERNED SUBJECT: GUIDE TO LOCAL GOVERNMENT UNITS IN THE LOCALIZATION OF THE MILLENNIUM DEVELOPENT GOALS

I. BACKGROUND

In September 2000, the United Nations General Assembly concluded the Millennium Summit with the adoption of the Millennium Declaration renewing global commitment to peace and human rights and setting specific goals and targets toward reducing poverty and the worst forms of human deprivation. The Millennium Development Goals (MDGs), set within 2015, affirm and reinforce the agreements on the goals and targets toward eliminating extreme poverty world-

Along with all other countries, the Philippines committed to pursue all efforts to attain certain benchmarks in improving human life These commitments are embodied in the eight key goals in the MDGs Since 2000, the Philippines has sought to attain these goals through its medium-term development plans. The eight MDGs are:

- 1. Eradicate extreme poverty and hunger,
- 2. Achteve universal primary education.
- 3. Promote gender equality and empower women,
- 4. Reduce child mortality.
- 5. Improve maternal health,
- 6. Combat HIVs/AIDs, malaria and other infectious deceases,
- 7. Ensure environmental sustainability, and 8 Develop a global parmership for development.

Meeting the requirements of the MDGs will entail collaborative efforts of major stakeholders - the national and local government units (LGUs) as well as the private sector through related interventions geared toward mainstreaming the MDGs in the local development

II. LOCALIZING THE MIDGS

Goals I to 7 are local government unit mandates, pursuant to Section 16 of the Local Government Code on the promotion of public health and safety, enhancement of people's right to a balanced ecolo-By, enhancement of economic prosperity and social justice, promotion of full employment among the residents, maintenance of peace and order and preservation of the comfort and convenience of the inhabitants, among others. MDG 8 transcends the national borders and refers to global partnerships for development

A. A Poverty Focused Plan and Budget In view of these, LGUs are encouraged to intensify efforts in the implementation of programs, projects and activities (PPAs) toward the achievement of the MDGs. LGUs are expected to increase their budgetary allocations for basic social services responsive to MDGs

Below are several options to guide LGUs in responding to MDGs. MDGs and Targets LGU Options to Address MDGs

Goal 1: Eradicate Extreme Poverty and Hunger

Targets:1. Reduce by 50% the number of people living in extreme poverty between 1990-20152. Reduce by 50% the number of population below the minimum level of dietary energy consumption and reduce by 50% the number of underweight children (under five years old)3 Reduce by 50% the number of people with no access to safe drinking water or those who cannot afford it by 2015 - Provision of livelihood and employment opportunities for marginalized group through community enterprise and skills training. Assist the poor farmers and small producers in the processing and marketing of their products: Provision of basic training on household food security such as home gardening, backyard livestock industry and inland fishing, and provision of support services, e.g. seeds, credit, etc.- Construcrion/installation of solar dyer, multi-purpose pavement, post harvest facilities, food processing, rice and corn mills, warehouses. Construc tion/maintenance of public access such as roads, form to market roads, foot bridge/bridge Provision of farm equipment, supplies and other farm inputs. Provision of safe drinking water by installing low cost water supply like hand-pumps, gravity fed systems, rain water collection, shallow/deep/artesian tube wells and constructing of infrastructures for potable water system: Development/construction of low cost sanitation facilities like ventilated improved pit privy (VIP) and other atrines - Provision of basic hygiene education and training for households: Promotion and enforcement of food fortification law and ASIN Law - Sustenance of supplementary feeding and *Operation Timbang"

MDGs and Targets LGU Options to Address MDGs Goat 2: Achieve Universal Primary Education

Target:Achieve universal access to primary education by 2015 Construction/rehabilitation of school facilities such as school buildings with toilers and water supply, clinics, public libraries, basic stience laboratory rooms. Construction and maintenance of access roads going to schools. Construction/maintenance of day care centers and pre-school institutions. Purchase of books, desks and other school equipments: Implementation of school-based nutrition programs such as School Milk Project, National Feeding Program, Breakfast Feeding Program, and Dental Health Program: Provision of day care center teachers/workers and Instructional materials (ECCD Law) Promotion of Early Childhood Care Development (ECCD)/Bright Child Program in all day care centers: Provision of transport assistance for school chil-

dren in geographically hard to reach areas Goal 3. Promote Gender Equality and Empower Women

Target: Eliminate gender dispanty in primary and secondary education, preferably by 2005, and all levels of education not later than 2015 · Allocation of 5% LGU budget for gender and development programs/projects/activities (PPAs) addressing MDGs Provisions of livelihood for marginalized women. Establishment of Women's Desk-Conduct of livershood and vocational truining activities for women-Full implementation and enforcement of laws on violence against women and children: Promotion of equa, access of women and men to training and employment opportunities. Ensure participation of wom-

en in local special bodies (LSBs) Goal 4 Reduce Child Mortality

Target Reduce children under-five mortality rate by 67% by 2015 -Immunization of all children against tuberculosis, diphtheria pertussis, tetanus, measies and Hepatitis B before reaching I year old-Provision of one dose Vitamin A o once a year to all children 6-11 months o at least twice a year to all children 1-5 years old. Promotion of exclusive Breast Feeding up to 6 months and continues breast feeding up to 2 years: Promotion of new-born screening for congenital metabolic disorders: Provision of iron supplements for low-birth weight infants and anomic children.

MDGs and Targets LGU Options to Address MDGs

Goal 4: Reduce Child Mortality (continued . .)

· Mandatory weighing of children 0-71 months to monitor growth and nutritional status according to the following schedule; b all 0-24 months old chudren years old once a monthb all 0-71 months children whose weights are below normal once a monthly all 25-71 months old children quarterlyb all 0-71 months old children twice a year Sustanance of supplementary feeding programs and "Operation Timbeing"/growth monitoring (i.e. weighing scales, weight-for-age table, SCCD card). Promotion of complementary feeding of higaw and other mutritious food (GO, GROW and GLOW foods) for all children starting 6 mos, old · Provision of de-worming drugs among 2-5 years old chil-

dren twice a year- implementation of integrated Management of Childhood Iliness (IMCI) in all health facilities and provision of essenthat drugs for IMCI- Provision of training for parents on food production, food preparation, food fortification and basic nutrition, and proper care for children · Provision of infrastructure facilities such as health centers, day care centers, primary/secondary health care cen-

Goal 5: Improved Women's Reproductive Health

Targets: 1. Reduce maternal mortality rate by 75% by 20152. Increase access to reproductive health services to 60% by 2005, 80% by 2010 & 100% by 2015 . Conduct of advocacy and other related services on the following reproductive health (RH) elements: Ø Family Planning (FP)q All method including voluntary sterilization service (VSS) be made available to all men and women of reproductive ageq Establishment of functional Community Based Management Information System (CBMIS) for family planning and other RH servicesq Provision of family planning education, counseling, services including VSS and contraceptives for both men and women of reproductive age a Ensure adequate supply of contraceptive commodity for current users and new acceptorso Resolution on the adoption and implementation of Contraceptive Self Reliance (CSR) on Family Planningq Promotion of and education on shared parenting responsibilities@ Maternal Child Health and Mutritiong Provision of comprehensive pre-natal, natal and post-natal care for all pregnant womenq Provision of iron tablets and vitamin A capsules for pregnant and lactating mothers q Establishment/upgrading primary hospitals, maternal clinics and other health facilities to provide obstetric careq Increase access to basic and comprehensive emergency obstetric careq Promotion of facility based delivery among pregnant womenq Supplemental feeding for malnourished pregnant women@ Violence Against Women and Children (VAWC)q Provision of medical, legal, psychological services to victim-survivorsq Protection and re-integration of victims-survivors of violence against women and childreng Ensure the participation of the community in preventing VAWC and protection of VAWC victim-survivorsq Provision of counseling services to perpetrators of VAWCO Men : Reproductive Healthq Increase male involvement in reproductive realth activities@ Adolescent Reproductive Health (ARH)q Masrive education on fertility, responsible sexuality and healthy development including healthy lifestyle through formal education or outreach activity for young peopled Educate parents on fertility, sexuality and RH and mobilize them for the provision of information to young peopleg Provision of health services and counseling@ Education and Counselling on Sexuality and Sexual Educations Conduct of fertility awareness campaign and responsible parenthood@ Prevention and Treatment of Reproductive Tract Infections (RTIs)/STD/HIV/AIDSØ Breast and Reproductive Tract Cancersq Provision of breast and cancer prevention and treatment services (e.g. acetic acid wash, papsmear, screening, referral) in selected RHU facilities@ Prevention and Management of Abortion and its Complicationsq Counseling services incorporated in Family Planning- Development of capabilisies of health workers in the areas of maternal care, childbuth, family planning PMAC, VAWC, ARH and other health care services

MDGs and Targets LGU Oprions to Address MDGs Goal 6: Combat HIV/A3Ds, Malaria and Other Diseases

Targets: 1. Prevent the spread and halt HIV/AIDs by 20152. Reduce the incidence of malaria and other major infectious diseases and half by 2015 - Massive information campaign/social mobilization on values-based sexuality education, AIDS/dangers of AIDS, how to prevent AIDS: Promotion and provision of AIDs prevention services such as counseling, and STI/HIV/AIDs management in health facilities 🗻 tablishment of behavioral-surveillance system on STI/RfV/AIOs infected persons- Procurement of drugs and other logistic support for STI/HIV/AIDS, malaria, TB and other diseases. Provide necessary health services and treatment for the vulnerable groups against STI/HIV/AIDs, malaria, TB and other diseases. Establishment and strengthening of 'TB Network' Implementation of comprehensive cleanliness program such de-clogging and maintenance of canals, etc. Encourage full support of private sector especially owners of bars/nightclubs/hotels and other related establishments to participate in education and awareness of sex workers

MDGs and Targets LGU Options to Address MDGs Goal 7: Ensure environmental sustainability

Targets: 1. Implement national strategies for sustainable development by 2005 and to reverse loss of environmental resources by 20152. Achieve a significant improvement in the lives of at least 100 million slum dweilers Rehabilitate, protect and maintain community watershed areas in collaboration with other agencies. Enforcement of forest laws, rules and regulations in community watershed communal forest and other devolved areas: Implementation of devolved community-based forestry management project which includes integrated social forestry in communal forest- Establishment of parks, greenbelt and other similar forest development projects: Protection of Integrated Protected Area System - Formulation/implementation of 10-year Solid Waste Management Plan- Establishment of Material Recovery Pacilities (MRF) in every barangay or cluster of barangays. Encourage private sector participation to:0 instate, participate, and invest in ecological solid waste management projects@ manufacture environment friendly products@undertake community activities to promote effective solid waste management-Closure and/or conversion of open dismoste into controlled dumpsite, and eventual establishment of sanitary land fill. Massive info campaign on solid waste management Formulation/implementation of comprehensive land use plans (CLUPs) and enforcement of zoning ordinances (ZOs)- Provision of sites for socialized housing purposes. Conduct of inventory for beneficiaries of socialized housing projects · Provide livelihood facilities and mitiate community organizing activities in relocation sites - implement "Gawad Kalinga" type and other housing projects

B. LOCAL POVERTY DIAGNOSIS AND MONITORING

in order to determine the appropriate interventions and to focus target beneficiary, it is important to know the nature and extent of poverty in a particular locality. Local government units may use exist ing information that can be generated from the following monitoring instruments such as:

1. Local Government Performance Measurement System (LGPMS), 2. Minimum Basic Needs-Community Based Poverty Indicator System (MBN-CBIS), and Community Based Poverty Indicator and Monltoring System (MBN-CBPIMS)

3. Integrated Rural Accessibility Planning (IRAP),

4. Community-Based Monitoring System (CBMS), and

5. other local monitoring tools LGUs may also diagnose their situation using the Core Local Poverty Indicators Monitoring System (CLPIMS). These are the set of carefully selected human development and income-based indicators dedicated to diagnose and monitor poverty situation which was adopted during the 7th En Banc Meeting of the National Anti-Poverty Commission through En Bane Resolution No. 7, and disseminated at the local levels through Dill.G Memorandum Circular 2003-92 on April 2003. An addi-

tional indicator on maternal health was included to harmonize the CLPI with the MDGs

Below are the (13 CLPI +1) indicators that may be used to assess LGU situation and gather baseline information to institute measures to help meet the country's MDGs by 2015:

MDG Core Local Poverty Indicators (CLPIs)

Goal 1: Eradicate extreme poverty and hunger · Proportion of households with income less than the poverty threshold

Proportion of households with income less than the food thresh-

Proportion of persons aged 15 years old and above who are not working but are actively seeking work

Proportion of children 0-5 years old who are moderately and severely underweight (below normal-low and below normal-very

Proportion of households who eat less than three full meals a day Proportion of household members vict.mized by crime

Goal 2: Achieve universal primary education · Proportion of 6-12 year-old children who are not in elementary school Proportion of 13-16 year-olds who are not in secondary school

Goal 3 Promote gender equality (can be generated from indicators Goal 2 since data are gender disaggregated)

Goal 4: Reduce child mortality · Proportion of children under five years old who died

Goal 5, improve maternal health. Proportion of women who died due to pregnancy related causes

Goal 6: Combat HIV/AIDS, malaris, and other infectious diseases Proportion of households without access to safe water

Proportion of households without sanitary toilets Goal 7: Ensure environmental sustainability - Proportion of house-

holds who are squatters Proportion of households with makeshift housing

C. IMPROVED SERVICE DELIVERY THROUGH REPLICATION OF

GOOD PRACTICES RESPONSIVE TO MDGs

A number of LGUs have already demonstrated good local governance practices specifically in trying to address MDG concerns. These LGUs use their innovative and indigenous mechanisms to provide basic social services

in view of this, LGUs are encouraged to replicate the exemplary practices of other LGUs with good practices in responding to the needs of the local communities and in response to the millennium develop-

II RESPONSIBILITIES OF DILG

The Bureau of Local Government Development (BLGD) and DILG Regional Offices are directed to spearhead the advocacy of the localization of the MDGs, and institute tools and mechanisms for the localization and monitoring of LGU responses.

The DILG Regional and Provincial Offices shall spearhead the advoeacy on the MDG at the local government units within their respective jurisdictions, and provide the necessary assistance on the implementation of this Circular.

DILG Regional Offices are also directed to update the Office of the SILG, through the BLGD on the status of the localization of MDG and LGD compliance to this Circular.

For the guidance and compliance of all concerned ANGELOT, REYES

tion program, integration and automation of nationwide crime reporting system, formulation of legislative reforms affecting the criminal justice system by amending some provisions of the charters of the agencies concerned.

Specific to the Prosecution Pillar, the Department of Justice, National Procecution Service of DOJ, and the Office of the Ombudsman resolved, among others, the enhancement of the prosecutors' knowledge on new saws specially for the vulnerable sectors, have a continuing dialogue between the pillar and the community, strengthening the task force on women and children, implement continuing legal education specifically on laws on women, human rights, gender stusicivity and the rights-based ap-

The Court Pillar consisting of Supreme Court, Court of Appeals, Court of Tax Appeals, Sandiganbayan, 1st and 2nd Level Courts resolved to further develop their ongoing judicial reform focused on establishing more effective, efficient, and inexpensive delivery of justice; more avenues and venues for knowledge and information sharing about best practices in the court pillar, and reinvent and re-engineer their attitudes by raking a closer look at the needs of the public which they serve.

Also, the Correction Pillar composed of Bureau of Corrections, Bureau of Jail Management and Penolo-3% Local Provincial Government Units, Municipal Detention Centers, Parole and Probation Administration, and Board of Pardons and Parole Identified some initiatives such as the institutional advocacy of rehabilitation as against the perceptum on punitive approach, formulation of correctional standards in the treatment of all prisoners from municipal, city, district, provincial and national correction facilities, emproving cooperation programs and linkages with institutions involved in the correction pillar, advocacy of the agenda for rendering of community service in ben of incarceration and adoption of management Information system among agencies

On the part of the Community Pillar composed of Public Attorney's Office, Alternative Law Groups, Department of Social Welfare and Development, Commission on Human Rights, Academe, Religious and Civic Organizations, Legislative Agencies, and Basic Sectors proposed on the enhancement of the access to justice by the poor through the strengthening of network among civil society organizations, privace sector and the government, educating media on proper decorum in the handling of sensitive cases that is gender and rights-based, reactivation of the National Crime Information System and institutionailzation of gender sensitivity training.

Anti-Corruption: Graft - and Corruption - Free Soclety, Making it Possible!

In our advocacy of Graft-and-Corruption-Free Society: Making it Possiblet, the members of the Anti-Corruption Cluster consisting of the Office of the Ombudsman (OMB), Commission on Audic (COA), Civil Service Commission (CSC), Career Executive Service Board (CESB), Department of Budget and Management (DBM), Presidential Anti-Graft Commission (PAGC), Transparency and Accountability Nerwork (TAN), Business for Integrity and Stability of Our Nation Foundation Inc (Bisyon 2020), Philip-pine Business for Social Progress (PBSP), Development Academy of the Philippines (DAP) and other multi-sectors, groups instituted several moves to advance good governance practices within the bureaueracy. All sectors were engaged to win the fight against corruption along the three pillars of action on 1) detection, vigilance, investigation, and prosecution; 2) prevention, education and information; and 3) the role of professionals and business groups. To further combat graft and conruption, all multistakeholders pledged to institutionalize and implement the three pillars of action, together with the 2020 Agenda and 2020 Commitments that empowers the citizenry through strengthening the partnership between professionals, and business groups with government and anti-corruption bodies in en-

forcement of laws and regulations to eliminate discretion in bureaucratic decision-making, cut-down bureaucratic requirements in obtaining permits and approvals, and ensure transparency and accountability in all government-private sector transactions. This advocacy also had a comprehensive and indepth analysis of current anti-graft and corruption aws, and the government agencies enforcing such laws with the view of screngthening anti-corruption efforts of the government through the following: improve the system without requiring legislative actions, improve the system through optimizing use of government resources already available and propose necessary legislative measures.

Local Governance Referes: Scaling up the Goins in Local Governance

In our advocacy of Scaling up the Gains in Local Governance, the Local Governance Reform Cluster consisting of the Department of Interior and Local Government-Local Government Academy (DILG-LGA), Philippines-Canada Local Government Support Program (LGSP), League of Provinces of the Philippines (LPP), League of Cities of the Philippines (LCP), League of Municipalities of the Philippines (LMP), Lige ng mga Barangay (LnB), Union of Local Authorities of the Philippines (Ulup), Local Gover-nance Policy Forum (LGPF), Local Governance Citazens' Network (LGC Net), Task Force Participatory Local Governance (TF-PLG), Philippine Urban Porum (PUF), Logo Tri Phil-Net, Galing Pook Foundsnon, National Commission on Role of the Filipino Women (NCRFW), Haribon Foundation, UP National College of Public Administration and Governance (UP-NCPAG), la Selle Institute of Governance (LSIG), and Barangay Bayan Governance Consortium showcased exemplary practices of participating local government units (LGUs) and the innovative strategies and tested approaches that were unplemented in these communities in promoting good governance and pursuing sustainable development. In addition, this edvocacy promoted human rights and gender-responsive agenda and instlatives as valued elements of good governance such as utilizing the GeRL Ka BA Tool as the Gender responsive LGUs assessment tools, facilitating the re-affirmation of the women local officials' commitments in implementing the Manila Declaration on Gender-Responsive Governance, and assessing the Indigenous Knowledge Systems (IKSPs) and its relevance to the practices in local governance, Hence, in keeping

with the theme of the campaign, the DEG issued a circular on localization of the Millerminan Development Goals containing specific guidelines to the LGUs on how to implement the eight (8) MDGs in their respective localities.

Human Rights, Gender and MDGe: People's Rights First in the Realization of MDGs

The next retrospection will unfold the advocacies made by the Right to Development Cluster on People's Rights First in the Realization of MDGs. The Commission on Human Rights of the Philippines, together with the National Commission on the Role of Filipmo Women (NCRPW), Philippine Information Agency (PIA), Task Force Detamees of the Philippines (TFDP), Philippine Alliance of Human Rights Advocates (Pahra), Medical Action Group (MAG), Integrative Medicine for Alternative Healthcare Systems Philippines, Inc. (Inam), Center for Asia Pacific Women in Politics (Capwip), UP Third World Studies Center (UP-TWSC), Fair Trade Alliance (FTA), Global Working Compact Group (GC-WG), Center for Community Journalism and Development (CCJD), and La Salle Institute of Governance (LSIG) led the advocacies for the promotion and protection of human rights especially for children, women and internally displaced persons. Through good governance as a human right, MDGs connected the strong link be-

tween human rights and development; and advocat-

ed the rights-based approach in the planning, pro-

to achieve its targets on MDGs. This advocacy also aimed to increase the level of awareness among regrocal and local agencies and equip them with knowledge on how to mainstream human rights in their programs and plans at the local level through Memoranda of Agreement with GO and NGO Partners; increase the level of awareness around gender based violence and all other forms of discrimination against women perpetuated in the private or public sphere as a human rights abuse among the local communities; and addressed the lack of relevant information and data needed to formulate policies and programs that will tackle specific issues or problems of rural women. Further, food and bealth indicators were enhanced for the protection of right to health, taking into consideration the concept of rights-based approach and the normative content of rights.

Media Reforms: Engaging Media in Governance

In our advocacy of Engaging Media in Governance Reforms, the Cluster on Media in Governance led by the Center for Community Journalism and Development (CCJD) assessed how media practitioners can take part in governance and in the pursuit of governance reforms; develop a framework for media engagement in governance reforms and have a deeper understanding of the state of governance and the state of media in the local level and to redefine the participative media-multi-sector soles in governance. The media institutions that worked on this iniciatives include the Philippine Information Agency (PIA), Philippine Center for Investigative Journaltem (PCLI), Asian Institute of Journalism and Commumoration (AUC), Foundation for Media Alternatives (FMA), Friedrick Nausnams Foundation (FNF). Center for Media, Freedom and Responsibility (CM-FR), Kapisanan ng mga Broadkaster ng Pilipinas (KBP), Philippine Press Institute (PPI), Mindanao News and Information Cooperative Center, Ateneo de Davao, National Union of Journalists of the Philippines (NUJP), Mindanao Institute of Journalum, Forum of Reporters for Empowerment and Equality, The Visayas Examiner, University of San-Agustin, Bandillo ng Palawan, Palawan Community Media Council, PBN Broadcasting Network, OFW Journalism Consortium, Samar Island Public Journalists Group and the Partners in LEC and Advoacy for Development Inc., among others. During the national and local constitutions, other initiatives were identified such as examination of behavior, attitudes, and performance of media community in the last elections in relation with ethical and professional standards and how this affect the framing of electoral, political, and governance stories; and provided a local level perspective and integrated findings with previous studies done on astional media performance. This advocacy produced specific outputs on governance stories that would be used as reportage models for other journabits; targeted to be published or aired before December 10 and then later compiled into a book that will serve as marnal for journalists; produced one-hour TV documentary on journaists' killings using a governance and human rights frame; strengthened network of media in governance (through e-groups, regular fore, alliance building both local and regional), and crafted recommendations for the national forum on media governance, media in governance.

while Administration Reforms: Exhancing the Administration of Service Delivery In our advocacy of Enhancing the Administration of Service Delivery, the Public Administration Reform Cluster led by the Department of Budget and Management (DBM) engaged the system of government into a process of review, enhancement and institutionalization of reforms in policies, plans, programs and systems designed to strengthen the capacity and responsiveness of government, especially those in the front line, in delivering the much-needed efficiency and effectiveness in the public service delivery improvement program of social and economic services. The department pursued these inltiatives together with its cluster members such as the Civil Service Commussion (CSC), Development Academy of the Philippines (DAP), UP-National College of Public Administration (UP-NCPAG), and Association of Schools for Public Administration in the Philippines (Aspap), Ateneo School of Government (ASG), Caucus of Development NGOs (Code-NGO), Philippine Government Employees Association (PGEA), and Polytechnic University of the Philippines. Specific outputs of this advocacy are identification of issues and concerns about the role of schools teaching public administration in relation to poverty reduction and improving service delivery; identification of measures to address these concerns; and action plan on mainstreaming the MDGs and how it can contribute towards alleviating poverty

and improving service delivery at the regional and local level. The advocacy was also further supported by improving the quality of service through a customer-driven government organization; fostering effective and efficient use of Spatial Information Management and Geographic Information System (GIS)

in attaining the Millennium Development Goals in the country; setting a new direction in government purchasing using the Web technology as an alternative in curbing graft and corruption; improving operational efficiency, bolstering transparency, and encouraging competition; discussing policy and governance issues, problems, and concerns to aid better policy decisions in the Philippines; and midate crafting of the Rights-Based Review Pramework that will examine the roles of key actors in governance in the realization, promotion and fulfillment of human rights in the country. Also, the Philippine Marketing Association (PMA) trained and educated key information officials and staff of government in marketing and equipped them with theories, tools and techniques, which they can apply to their respective marketing program for communicating better their ser vices and programs to the public and specific clients.

Environmental Governance: Strengthening Go nance towards Environmental Sestainability

In our advocacy of Strengthening Governance to-

wards Environmental Sustamability, the Environment cluster utilized creative and effective means of promoting biodiversity conservation, climate change and environmental protection and strengthen imowiedge sharing and management at the local levei. These mutatives asmed to gather experiences on forest management and demonstrate the feasibility of integrating forest management with local governance as spearheaded by Haribon in partnership with other groups such as the DILG, LGUs, DENR, La Salle institute of Governance, UP-NCPAG, Ateneo School of Government and Jocal pareners. Specific

recommendations gathered by the environment cluster are the following: mandatory hiring of Environment and Natural Resources Officer in all Local Government Units: enactment or codification of Local Environmental Code in all LGUs; adoption of comanagement agreements or strategies (i.e. involvement and participation of all concerned sectors) in local forest management; strengthening of education and capacity-hulding among the LGUs, particularly of the Local Chief Executives in law enforcement and forest management; adoption of multi-sectoral community-based approaches in all phases of forest conservation; engagement of the youth sector in forest conservation; institutionalization of incentive system for stakeholders' participation in forest conservation and management; amendment of some provisions of the 1991 Local Government Code by granting full devolution of powers and authority in forest conservation and management to the LGU; mandating DENA to share power with the LGU; DENR to exercise prodence in usuing Mineral Permit Sharing Agreement (MPSA) and other tenurial instruments; important Biodiversity Areas must be spaced from mitung; integration of ecotourism program in the LGU development plan, possible adoption of Rainforestation (planting native/indigenous tree species) to support farmers and bring back biodiversity; establishment of guidelines that can help integrate plans and programs in the LGUs; capacity building to develop capital markets and proper valuation of forest resources; clarification by the government of its pational and local environmental policy directions and roles; replication and documentation of best practices in socal forest management and govemance; and provision of incessives to implement

in our advocacy of Empowering and Engaging the Sanc Sectors in Governance, the National Anti-Poverty Commission facilitated the holding of propoor initiatives that sought to empower the basic sectors and engage their active participation in governance. Sectoral agenda representing the current situation of the basic sectors have been drawn up resulting from local and area consultations. The sectoral agenda set out the premise for the provision of interventions for social capital formation and implementation of services and programs that will help uplift the conditions of poverty and powerlessness of the poor

forest issanagement

In our advocacy of Governance in Peace-Building and Conflict Prevention, we aimed to undertake initiatives that would give emphasis in forging and sustaining peace. One important initiative that was held toward this end was the Cordillera Peace-Conflict Study and Dialogue Se-

To all the 10 to 10 Movers - the members of the Themade Working Group Clusters, Steering Committee - those were the highlights of our accomplishments and the fruits of our cohective endeavor for good governance for the last 10 weeks with the full cooperation and support of the UNDP and the entire donor community. We are hopeful that these initiatives will be continued and expanded as we march and commit ourselves toward a decade of governance reform in the

Brights lights, DIG MONEY for film on Cenius in the dark LONDON-It took Taylor Hackford 15 years a documentary on rock and roll star Chuck to find financing for his film on Ray Charles, a no-holds-barred story about how a blind black boy from impoverished rural Georgia

became a rhythm and blues legend. The American filmmaker finally found one investor, a Ray Charles fan from Colorado, to put up the money for the film's entire budget of \$35 million.

It turned out a good bet as "Ray" raked in \$65 million in its first four weeks at the box office in the United States and its star Jamie Foxet was tipped for an Oscar for best actor.

The Hackford movie is scheduled to show in European cinemas over the next few weeks.

Fearless in showing its subject's character strengths and weaknesses, "Ray" charts the tragedies and triumphs of a great brack musician who turned a handicap into a strength.

Alone in the dark

"Ray Charles was even more able to get in touch with his feelings because he was blind," Hackford told AFP in an interview.

"He wasn't inhibited," said Hackford, who divides his time between London, New York and Los Angeles. "He was letting it come out. He didn't care about being cool, he was cool.

"Ray had anger... He was more concerned about whether a blind person could do something rather than a black person," Hackford said. "Ray Charles was constantly alone in the dark."

It was his handicap that forged his genius, said Hackford, who is fascinated by the history of African-American music and the under-

Beyond the box office success of "An Officer and a Gentieman," Hackford in 1987 directed

Berry which drew the attention of a son of Charles

Hackford met Charles for the first time in 1987, obtained the rights for the film, before spending a decade in the wilderness trying to convince Hollywood to put their bets on a film about a black man.

He found the man for the part in Forx, a seasoned comedian who has been a pianist since he was three years old and who resembled Charles to the point of being mistaken for him.

'Too sympathetic'

Charles had written an autobiography, "but it didn't have an emotional depth to it," said Hackford, who mer with Charles over 15 years. "He told all the facts. It doesn't tell you how he felt."

So, Hackford talked to 35 people who were close to Charles to find out more about him. Charles did not complain and readily con-

firmed details. The filmmaker also consulted a black southern American writer to make sure the

dialogue in the film was authentic. Though Hackford is an unabashed admirer of the bluesman, he said "the film depicts him

as not too sympathetic." It shows not only his tragic childhood in Georgia and his climb to stardom, but also his betrayals, his insatiable appetite for sex, his formidable business sense, and his 17-year

addiction to heroia. "He let me tell that story," during meetings in the last 15 years of his life. "He wasn't afraid of the truth. I told him I wouldn't tell the story unless it was the real story."

He said he did not know "if he would have

given me the same freedom in the mid-'80s."

the devil's music"

SHOW

TIME

Adept at gospel, rhythm and blues, country, rock, jazz, Charles constantly muxed musical genres while forging his own style.

Mixing black gospel and the blues, which caused a scandal in the 1950s, Hackford said, *he was the first to mix God's music with the devil's music."

on June 10 when he died after a battle with "Taylor, I'm very pleased."

liver disease. He was 73

However, he still had time to listen to a pre-screening of the film with Hackford sitting next to him to describe the se-

"He wanted to hear the voice of his mother," a key character in the film, said Hackford who then recalled the musician saying: "That's it, that's the truth."

After 20 minutes without budging in his Charles' legendary hourse voice went quiet seat, Charles turned to the director and said.

8 indie filmmakers make it to Cinema One Originals EIGHT independent filmmakers have been version Road," the story of a traveling couple; given the chance to create full-length films Lisa Cornejo's "Sitak" (or taxi), a story of a given the chance to create full-length films

UNCTIONAL BAND, "We're always on the fringe of something going wrong," says bassist Nikki Sbox

'We're still Motley Crue -and we still rock'

LOS ANGELES-The original members of the 1980s glam metal band Motiey Crue made hard living and wild sexcapades a centerpiece of their music and their lives, selling milions of albums along the way.

Now, after a five-year hiatus from performing mgether, the big-haired, leather-clad Crue members are eager to slip back lato the music, if not the lifestyle depicted in hit rockers like "Guls, Girls, Guls" and "Smokin' in the Boys' Room."

The band arrived Monday at the Hollywood Palladrum in a hearse, sporting eye makeup. About 1,000 people cheered as the group opened with "Dr. Reelgood" following a news conference.

World tour

With support from the cable music television network VHI, the band-vocalist Vince Neil, drummer Tommy Lee, guitarist Mick Mars and bass player Nikki Sixx-plan a world tour beginning in Pebruary in Port Lauderdale, Florida. The band will hit more than 60 cities in North America during two legs and play several festivals in Europe before wrapping up the ticular, tour in southeast Asia and Australia,

greatest hits compilation with three new songs titled "Red, White & Crue" in February.

"We're just ready to go out and rock," Neil said at the news conference. "We're still Motley. We still

The hand, which originally formed in 1981, regrouped a few months ago after Sixt wrote some songs and asked Neil if he would sing them.

worked out." Sixx said of the bad blood between his band mares,

"We got in and we were like, "Wow. Where's the problem here? Did we make a mountain our of a mole hill?" Sixx said in an interview before the reunion event, "We're a dysfunctional band that is driven by drama and we are always on the fringe of something going wrong."

Pamela's ex

Although Neil and Lee have dabbled in reality television, the band members have been known less in recent years for their music and more for their personal troubles. Lee in par-

He has been in and out of proba-

The band will release a double-CD tion for years stemming from charges in 1998 that he abused ex-wife actress Pamela Anderson, with whom he has two children. He also faced charges of child abuse and a firearms

In 1989, Sixx nearly died from a heroin overdose. Mars is recovering from hip replacement surgery to treat a degenerative illness.

People progress and they grow, Sixx said. "Each guy has individual "There were definitely issues to be ly his own demons that he's had too deal with ... a lot of pain and torture, personal torture, that they've either put themselves through or somehow has been inflicted upon

Sixot said Mars is ready to play, de spite the surgery.

"He's in rehearsal," Sixx said. "He's standing up. He's playing his guitar! He's shredding. He's been through hell. Here we stand together ready to wave the flag for rock 'n' roll."

Sixr said he hopes the band can match the success veteran acts like U2, Aerosmith and the Rolling Stones have had in gaining younger fans.

"We're making new music," Sixx said. "We're taking chances musically It's a really cool thing."

DECEMBER 15 - 2PM & 5PM x Activity Center

> read users for the first 200 shoppers with an ecompleted P300 perchase from Markett Nortest on December 15 -

The year almost Viva Saw Records releasing a bumper crop of aiburns by some of the country's artists and groups, including Regine Velasquez, Ogie Alcasid and singing champions Sarah Geronimo, Rachelle Ann Go, Mark Bautista and Raymond Manalo.

Also on the Viva Records list are the albums of Bituin Escalante, Rachel Alejandro, Roselie Nava, Noel Milan, K and the Boxers, Rivermaya,

U-Turn, 17:28, Ntwine, Freestyle, The Company, and The Mongols, the new band of former Eraserheads frontman Ely Buendia

Regine's album, "Covers," has the Songbird performing cover versions of popular hits such as "Porevermore" by the Side A band. Ogie's album, "I Am A Singer," was also the title of his concert at the Music Museum this year.

From the singing champs come Sarah's "Sweet Sixteen" album, a follow-up to her quintuple-platinum debut "Popstar;" Rachelle Ann's self-titled platinum album featuring the hits "Don't Cry Out

Loud" and "You and Me (We Wanted It All)," a duet with Christian Bautista: Mark Bautista's self-titled debut, recently honored with a gold record award and featuring his tatest single, "Lahat sa Buhay Ko" by Vehnee Saturno; and Raymond Manalo's upcoming album "Faithfully," set for release on Dec. 16.

THE FINEST of the Filipino talent is represented in Viva Records' "Music Force."

Still in the market are the self-titled album of Bitum Escalante; "Heart's Desire" by Rachel Alejandro; "Bare" by Roselle Nava, "Again and Again" by Noel Milan; "Sasakyan Kita" by K and the Boxers, "Between the Stars and the Waves" and the EP (Extended

Play) of "Liwanag sa Dihm" by Rivermaya; "Once in a Lifetime" by Freestyle; "Mahai Kong Radyo" by The Company; "Buddha's Pest" by The Mongols, and the self-titled albums of Ntwine and U-Turn.

Coming soon are the albums of promising newcomers Jennufer Ventura and Jayanne, and another one from the Viva Hot Babes, with the carner single "Basketball."

The Viva artists will be performing in mall shows to promote their alburns. Pans can catch them at SM North Edsa on Friday, Dec. 10, and Saturday, Dec. 18, at SM Pampanga.

Acrobats with humor at Boom na Boom

AFTER Winnie and Yoyong, another big event is taking Manila by storm during the whole

Christmas season. The China Youth Acrobatic Troupe is definitely one storm Filipinos will welcome any time. After just a week of performances at the Boom na Boom Carnival, the group from Wuqiao, China, has won the admiration and respect of Filipino audiences for their ingemous and breathtaking acts.

Founded in 1950 as the only professional literature and art organization in Wuqiao, the groupe is composed of the most famous acrobats from the province. It has built a name for its blend of highly skilled performances and humor. It has produced more than 50 exciting acts which have won awards in acrobatic competitions in China,

Crowd favorite acts include the Foot Tricks, where a woman tosses a young girl up in the air and catches the child using her feet; the Plate Spinning, where girls bend, toss and numble while keeping plates spinning at the end of sticks, the Contortionist, which leaves audiences wondering whether the performers have bones at all; and the Chair on Head where an acrobat balances her body upside down in the air atop a narrow stack of chairs. The group also performs Straw Hat Juggling, Lion Dance, Passing on Wooden Drums, Rope Spinning, and many more

Before coming to Manila, the group performed and was highly praised in the US, England, France, Germany, Australia, Holland, Beigtum, Sweden and Norway.

The China Youth Acrobatic Troupe performs at 7 p.m. and 9 p.m. daily at Boom na Boom It will tour Robinson's malls on Dec. 11 (Metro East), Dec. 12 (Imus), Dec. 15 (Manila), Dec. 16 (Pampanga), and Dec. 18 (Dasmariñas).

Boom na Boom 2004 is sponsored by Globe Handyphone, Touch Mobile and Purefoods Tender Juncy Hotdogs, It is located at the corner of Roxas Boulevard and Gr. Puyar Avenue, CCP Complex, and is open from 4 p.m. For more information call 832-9303 to 04.

MIND-BOGGLING, back-breaking feats by the China Youth Acrobatic Troupe

THEY FOUND each other, got separated, and are now on the verge of having meaningful relationships with other people. But at the end, are Lawrence (John Lloyd Cruz) and Cielo (Bea Alonzo) still be meant for each other? ABS-CBN's teleserye "It Might Be You," which began in December 2003, ends on Friday, Dec. 10. Cielo has spent several years in the US with Axel (Marco Alcaraz). Lawrence is now a pilot who may be starting a new relationship with Axei's sister Aretha. And yet, Lawrence and Cielo keep entering each other's lives. Don't miss the last few episodes of "It Might Be You" this week.

Prelude to party season at Spirits

But when he tried telling the Inquires. He turned out to be

Just minutes later, Balungay and others sent to search for possible survivors in the ruins of the from a survivor," he later told the two-story Repador building were

APPLAUSE and cheering greet the emergence of 3-year-old Estela Marie Sur from under the rubble of the Repador building.

lifting out 3-year-old Estela Marie Sur, as a thick crowd clapped and cheered wildly.

Not long after, at around 9:30 a.m., the rescuers were helping Ian Bungag, 14; Maria Tamares. 49, and Modesto Manuguid, 15, out of the small space they had been trapped in for 10 days. (See story below.)

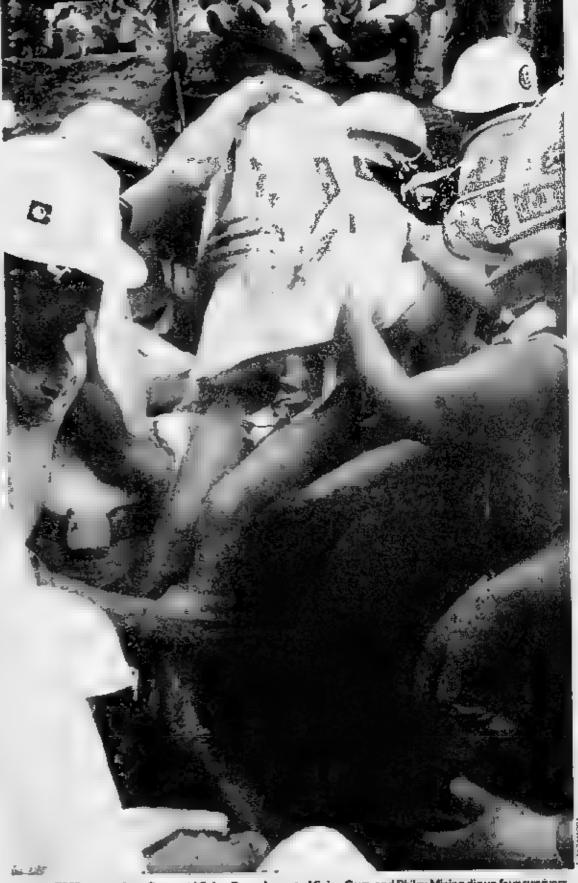

Forty-three veteran miners sent by the Philex Mining Corp., Lepanto Consolidated Mining Co., and Benguet Corp. were the first to break through the nibble.

The miners were later assisted by Army soldiers and a crew from the Department of Public Works and Highways.

The stench from rotting bodies grew stronger with every layer of earth removed and concrete stabs cracked. To bear with the smell, the rescuers sprinkled lime on the spot they were working on.

Rescue efforts went on without letup until last night, but the four were the only ones who made it out from among the 100-150 people who took refuge at the Galilee Prayer Beach Resort in Barangay Tignoan on Nov. 29, when Tropical Depression "Winnie" was

How Baguio quake victim survived 15-day ordeal under rubble

By Gobleth Moulic PDI Northern Luzon Bureau

BAGUIO CITY-When baker Pedriso Dy yesterday learned that miners had pulled four survivors from the rubble of a building that had collapsed in mudslides 11 days ago, he prayed that more victims buried in the resort in Real, Quezon, would make it out

Dy, 40, survived the killer earthquake that struck Baguio City in July 1990. He was rescued

after spending more than two weeks under the nubble of the collapsed Hyatt Terraces Hotel here.

For 15 days, Dy ate nothing and drank his own urine to survive until a hand held his head and pulled him out of the ruins.

He said he was hoping that the victims would hold on. "They should pray hard because God will make a way to save them." he told the Inquirer at the Swiss Baker here where he has been working for the past 11 years.

HOW BAGLIOJ AZO

Survivors need healing of raw, mental wounds

REAL, Quezon-When she closes worst storm season in 13 years. her eyes, Wendy Rose Evuenga can remember it vividly: her mother clinging to a tree with her 2-year-old sister when a sudden gush of water, mud and logs yanked the child from her arms.

"I saw my mother lose her grip on Mary Rose, She cried, but I saw her just for a split second, then she was gone," Evuenga, 17, recalled days after her town of Real was ravaged by Tropica. Depression "Winnie" and Typhoon Yoyong," capping the country's

Evuenge survived by spending the evening of Nov. 29 clinging to floaring logs and swallowing mud and water until help came the next morning.

Efforts to clear the walls of mud and timber and deliver aid to stricken villages have gathered pace, but those who lost loved ones are left to cope with the paychological trauma by themselves.

At least 740 people were killed and 754 others remain missing SURVIVORS/ A20

THAT GLANCE from Estela Marie Sur is worth a thousand words as she's rushed out of the rescue site in Barangay Tignoan to a waiting

chopper for airlifting to Camp Nakar in Lucena City. (More photos on Poge A20.)

GMA: Post gov't deals on the Web

PRESIDENT Macapagal-Arroyo yesterday ordered all government agencies to make all their contracts accessible on the Web to discourage under-the-table deals between private suppliers and contractors and corrupt government officials.

The move is part of the government's continuing campaign to eradicate corruption in the bureaucracy where, the President said, "many are still driven by the dark forces of greed, and worse, many have become indifferent to it."

In a speech before members of the Philippine Government Employees Association in Malacañang, President Arroyo said: "I am instructing the agency heads to make sure that all contracts are totally exposed to the scrutiny of the public by publishing them in the Internet."

By making the contracts open to the scrutiny of the public, the President is confident that government officials would think twice

about getting into cotton deals with unscrupulous businessmen. Also, by making all contracts transparent, the public could assess the compliance of the suppliers and contractors

Ande from opening up the contracts, the President told government executives to get ready for a series of top level seminars with government executives in Manila next week.

"We will have good practitioners from several countries including the founder of Hong Kong's renowned Independent Commission Against Corruption," said the President who had tapped the former British colony's top anticorruption cop Tony Kwok as an adviser.

She urged the government employees to "continue to close ranks in purging the system of corruption, eliminating government waste, increasing tax collection and investing in our nation through revenue increases,"

'A SOLDIER SHOT ME'

Luisita peasant leader shot dead

By Jo Clemente, PDI Central Luson Desk, and Norman Bordadora

TARLAC CITY—A peasant leader who was one of two witnesses set to testify in the congressional inquiry into the

violent dispersal of striking workers at Hacienda Luisita was gunned down in front of his house in Sta. Ignacia town here late Wednesday.

Marcelino "Marcing" Beltran, chair of the Alyansa ng Magbubukid sa Tarlak (AMT), suffered five bullet wounds and died while being taken to a hospital. He would have turned 53 today.

His son, Mark, 18, said his father had told him "a soldier shot me" and had described his attacker as wearing a military uniform.

According to Mark, the family was busy preparing food for a rally in Manila scheduled ater that night when a group of unidentified men called out to his father at about 9 p.m. He said his father went out of the house after he heard the dog barking.

Mark said he heard his father call out: "Who's there?" There was no answer A few seconds later, Mark said he heard bursts of

Beltran was scheduled to testify in Congress next week as an eyewitness to the Nov. 16 dispersal of striking workers at Hacienda Linsita. At least seven people died while more than 100 others were hurt in the dispersal.

While he was not a farmer in the hacienda, Beltran was an active participant in the farm, workers strike that crippled production at the Hacienda Luisita estate and the sugar mills of the Central Azucarera de Tarlac, both owned by the family of former President Corazon Aquino.

'Since day one'

A statement from the Central Azucarera de Tarlac Labor Union and the United Lusita. Workers Union said Beitran had participated "since day one" in the simultaneous strike staged by plantation and sugar mill workers, of Hacienda Luisita.

Beltran, a former Army sergeant who; served in Mindanao, had turned to farming and joined peasant organizations in the province. He was the vice chair of the Alyansa ng Magbubukid ng Grmang Luzon; an affiliate of the militant Kilusang Mag-bubukid ng Pilipinas. He was also the vice chair of the Anakpawis party in Tariac; province.

Another statement from Emil Paragas, spokesperson of Karapatan-Tariac, said Bearan's murder may have something do with his being a key witness to the violent dispersal; and to an ownership dispute involving his one-and-a-half hectare farm.

An agranan reform court had issued a deci-! sion favoring the landowner and ejecting Bel-tran, said Paragas.

in its Aug. 24 order, the agrarian reform department's Adjudication Board deputized the mintary to eject Beltran from the property.

His colleagues at the AMT said Beitran would have been a credible witness in the Luisita inquiry because he knew about gans and bullet trajectories.

Party-list representatives in Congress condemned Bestran's killing and said it was "a stark reminder of the state of human rights in the country."

Anakpawis Rep. Rafael Mariano delivered a privilege speech early yesterday, blaming members of the 69th Infantry Battalion of the Philippine Army for the killing.

69th IB to blame?

"Tomorrow (Dec. 10) is International Human Rights Day and yet here we have a peasant leader shot down in front of his house by military forces," said Anakpawis Rep. Crispin Polymp

Rep. Liza Maza (Gabriela) said that the Beltrap killing was related to the unresolved conflict in Hacienda Linsita

"We believe that the recent killing is at significant cause for alarm and an indication of the magnitude of the (Hactenda Luisita) dispute concerning the the farm workers' rightful claim on the land they work on," said a joint statement from the Anakpawis, Bayan Muna and Gabriela party-list groups."

it said the killing "appeared well-planned" and well-executed, stoking suspicions that the act was intended to silence ita Marcing, who was one of the main proponents of the fight of farm workers in the hacienda and a primary witness to the massacre."

Beltran was said to have told his family and colleagues in the peasant movement that members of the Phihppine National Police had been asking for his whereabouts after the Nov. 16 strike

"The perpetrators of the Nov. 16 massacre want people like Beltran silenced," said Retie Galang, the leader of the striking faction of the United Linsita Workers Union. With a report from Carifo Pablo

Where do great meals begin? Well, we'd like to think at practisely Sub-Zero. After all, it's the place where dual refrigeration was born. Unlike ordinary refrigerators, the Sub-Zero has two separate compressors for the refrigerator and freezer This technology ensures that temperature is independently controlled for each compartment and that there is no sharing of air between the refrigerator and the freezer. Only Sub-Zero can make your lettuce live longer, your ice cream stay creamer and keep your fresh fish and fice pretty much to themselves.

Artist Pacita Abad dies

ARTIST Pacita Abad ched on Tuesday coran School of Art in Washing-'th Singapore after a three-year battle with lung cancer and two months at the KK Women's and Children's Hospital. Pacita passed away in her sleep and was very comfortable when she thed, said her husband, Jack Garnty.

Abed, 58, was known for her tragunto paintings, colorful and sensory fabric collages using embroidery and paint, which have also won her praise in Europe, New York and Asia. Her works reflected very much her personalty. Priends remember her as a lively and energetic person.

Born in Basco, Batanes, Abad was traised in a politically active family. She received her bachelor's degree from the University of the Philippines in Diliman and originally wanted to be a lawyer. But that changed when she was sent to the United States a .yuar before martial law.

It was there that she discovered art. She studied at the Cor-

and the second of the second o

ton, DC, and The Art Students League in New York.

Together with Garrity, an American financial consultant, Abad has lived in over 100 countries, where she would always exhibit her works.

Abad was in Manila last September for her exhibit, "Circles In My Mind," at the Cultural Center of the Philippines. The works on paper were the result of a three month residency program at the Singapore Tyler Print Institute.

Her body will be cremated in Singapore and a Gathering of Friends" to celebrate Abad's life will be beid at the Alkfaff Bridge on Dec. 11 at 10:30 a.m.

A memorial will be held in Manila, after which she will be flown to Batanes for the funeral. The exact dates for the memorial in Manula and the funeral in Batanes have not been decided yet, says Garnty.

Palace to House on budget: Thanks, but . . .

By Gil C. Cabacungan Jr.

THE 2005 budget is good but we need cash (or new revenue mea-

This was Malacañang's message to legislators after the House of Representatives approved the P907.6-bilion national budget for 2005 but Congress as a whole had yet to pass the eight tax measures requested by President Macapagal-Arroyo to stem the fiscal cri-

"We thank the House for passing the budget. But everybody knows that what is more important now are our fiscal measures," said Press Secretary Ignacio Bunye in an interview over dzRB radio.

"We can live with a slightly delayed budget, but our priority is

Bunye added. "We all know we have very precious little time before Congress goes on their Christmas break."

Of the eight measures the President wanted passed by yearend, only the "sin tax" bill raising alcohol and tobacco levies, the lateral attrition bill and the tax amnesty bill have been passed by the House, while the other measures remain stuck in deliberations in the administration-dominated Con-

The President, however, was elated by the approval of the budget which included a 40percent cut in the pork barrel allocations of the congress-

anniversary of the Phaippine and prior years, wil. "enlarge

ation in Malacanang, Ms Arroyo said: "We acknowledge the determination of Congress to pass the national budget which will be the cutting edge of political and economic stability and social reform. We have struck upon the right formula of institutional teamwork and national solidarity to fight corruption, cur waste, save the environment and grow investments to create

The House approved on Wednesday night the tax amnesty bill, the third of the eight revenue measures proposed by the Presi-

Speaker Jose de Venecia Jr. said the bill, which provides for a one-time amnesty for delin-In her speech during the 57th quent taxpayers covering 2003

to pass the revenue measures," Government Employees Associ- the country's tax base, which is one of the lowest in Southeast

Asia." "It will give delinquent taxpayers an attractive opportunity to rejoin the fold of national taxa-

tion," De Venecia said. House Majority Leader Rep. Prospero Nograles (Lakas, Davao City) said the chamber is set to pass a fourth measure, the ratiohabitation of fiscal incentives, next week before Congress goes

"We're working overtime to pass these measures to arm the government with enough revenne laws to address the fiscal problem," Nograles said

De Venecia said that, once signed into law, the four revenue measures will generate at least P50 billion for the govern-With Carlito Pablo

RP seeks Saudi help on hostage

By TJ Burgonio

FOREIGN Secretary Alberto Romulo yesterday asked Saudi Arabian officials for help to win the release of a Filipino hostage in Iraq.

At the same time, Cebu Rep. Antonio Cuenco asked the 57-nation Organization of the Islamic Conference (OIC) to put in place security measures for Filipinos working in countries that abut Iraq

Romuso met with the Saudi officials ied by Sheikh Bin Abdollah Bin Humaid, president of Saudi Arabia's Consultative Council Majlis, to ask them to convince hostage Robert Tarongoy's Saudi employer to step up negoti-

ations for his release. "I stressed the need for their help. Through their good office, [they could] talk to Satco (Saudi Arabian Trading and Constructing Co.) to accelerate efforts to effect the release

of Tarongoy," he said. Tarongoy, 31, an accountant, was snatched at gunpoint from the Satco compound in Baghdad on Nov. 1 along with an American, a Nepalese and three Iraqis. Except for Tarongoy and the American, the other hostages had been freed. Yesterday, the two spent their 38th day in captivity without any hint of freedom soon.

Sacco is reportedly negotiating Tarongoy's release in coordination with Filipino officials led by Undersecretary Rafeel Seguis

The captors had demanded \$10 million for the hostage's freedom but the government ruled out paying any ransom, saying the demand should be addressed by Satco.

Romulo said he also asked the Iranian government for help in obtaining Tarongoy's release in a meeting with Iranian Commerce Minister Mohammad Shariatmadari on Wednesday.

"There are elements in Iraq who have contacts with those who have Robert Tarongoy. We're working through the governments," he said in a press briefing.

For his part, Cuenco yesterday asked the OIC to put in place security measures for Filipinos in their respective countries,

Cuenco, chair of the House committee on foreign relations, aired the appeal following the death of a Filipino telecommunications maintenance man employed by the US Consulate in Jeddah, Saudi Arabia. Saudi militants attacked the premises with explosives and machine guns on Monday.

Another Filipino, a carpenter at the same consulate, sustained gunahot wounds in the knee, elbow and pelvis but survived.

"If we do not come up soonest with a good plan designed to provide an effective security mantle for our countrymen working overseas, we better tell them to pack up and leave their job sites," Cuenco said. With Cynthia

Felix S. Golla; 80

FELIX'S. Golla, of Renton, Washington, and

Baras, Rizal, died on Dec. 7 at the age of 80. He is survived by his wife of 50 years, Leonor, children Gary, Frank and Kaye, Jun and Jenny, Cora, Glenn and Vicky, Eva and Man, Lorna and John, and Nixon; grandchildren Karen, Keith, April, Ryosuke, Asami, Ryu, Mika, Bing, Joseph, Noy, Jeorgia, Jeo, Miggy, Alex, EJ, Kym, Jon, Gabo, TJ, Geeta, Bea, Sam and Katrina; brothers and sisters in law and their children: Pacing, Nick and Betty, Doming, and Crison and Coring

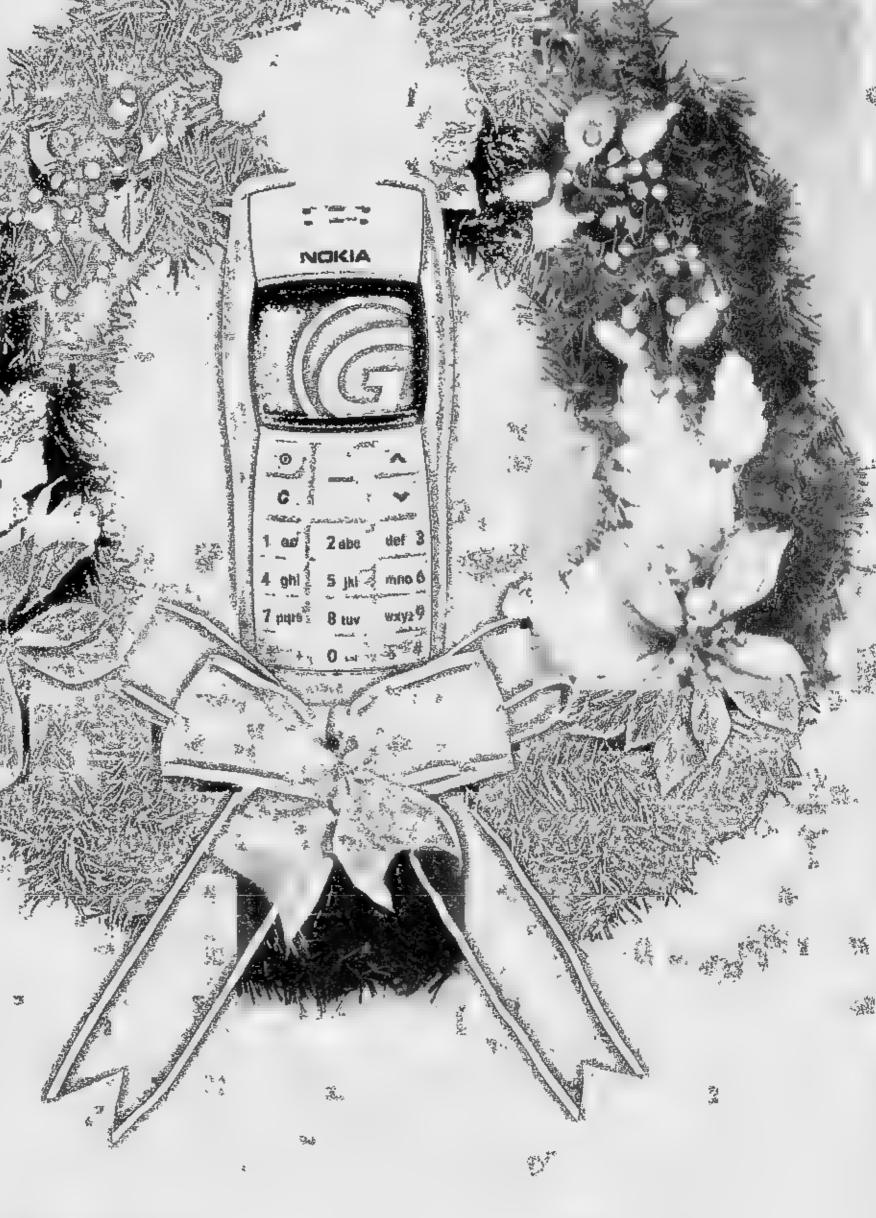

He was preceded in death by his fourth son,

Erwin, in 1998. A Philippine Scout with the United States Armed Forces in the Far East during World War II, he was later stationed in Okinawa, Japan. After his military stint, he obtained a civil engineering degree at the Mapua Institute of Technology and went into government

service until his retirement in 1984. He migrated to the US in 1987 where he worked in various capacities until 1997

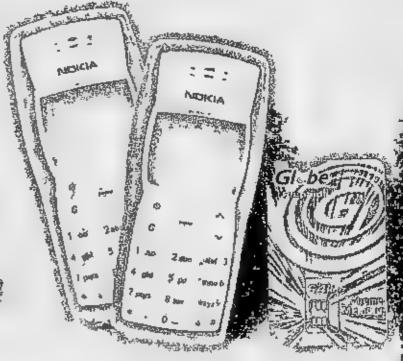

A memorial service will be held at Green-wood Memorial Park Chapel in Renton on Dec. 10 at 9 a.m. after which he will be laid to rest at the Tahoma National Cemetery in Kent, WA.

Defensor suspends DENR's top man in Calabarzon

By Norman Bordadora

ENVIRONMENT Secretary Michael Defensor yesterday sacked the highest environment official to be lanked thus far to illegal logging operations in the flash flood and landshide-affected areas in the Calabarzon (Cavite-Laguna-Batangas-R.zal-Quezon) region.

Defensor suspended Calabarzon regional environment chief Regidor Gali-

nato and four other officials for the ques- Salvosa, officer in charge of the Departtionable release of more than 3,500 board feet of timber products from Mauban, Quezon, soon after Typhoon "Yoyong" battered the province.

The tumber products were released on Dec. 3 just before President Macapagai-Arroyo ordered the suspension of logging operations.

Galmato was placed on preventive suspension for 90 days as were Herminio

ment of Environment and Natural Resources station in Mauban, Quezon; forest rangers Eduardo Patonzo and Manny Mercado, and scaler Geronimo Agpoon.

The timber products were released using recycled documents, Defensor said.

The secretary added that joint operations of the Anti-fliegal Logging Task Force headed by retired Gen. Victor Corpus and the DENR showed that timber products going

out of Quezon were not in the PNP records.

"The timber products going out of Quezon were not reflected in the checkpoint records," Defensor said.

Defensor said the timber products released from Mauban on Dec. 3 were covered by tampered documents.

The certification made by the Community Environment and Natural Resources Office in Mauban town showed that the timber products were released to a cer-

tam Joel Ayala of San Jose, Bulacan, presumably an owner of a ferniture business in the province.

While the timber was released on Dec. 3, it was bid for sale as early as August this year. It was covered by a deed of sale with the Natural Resources Development

Corp. dated Aug. 20, 2004. "If it was bid in August and was released only in December, it would have already rotted," Defensor said.

It's lights out at Marcos mausoleum

BARAC, flocos Norte-The local power company has again shut down the power supply to the Marcos compound and mausoleum, which houses the frozen remains of the late strongman Ferdinand Marcos, due to the Marcoses' failure to pay a two-year electric bill worth P420,000.

The Bocos Norte Electric Cooperative (Inec) cut off power at the mausoleum on Tuesday after it failed to collect the amount despite several notices of disconnection sent to the Marcos family.

But Inec restored the power supply on Wednesday after Mayor Jesus Nalupta guaranteed company officials that the bill would be paid "as soon as possible."

Reports here said former first lady Imelda Marcos called Naturea and asked that the mayor intercede on her behalf and reconnect the power supply.

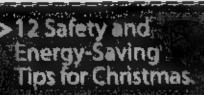

Edwin Pascua, Inec zone manager, said the disconnection was in response to consumers' call for the company to implement its disconnection policy uniformly regardless of the users' status in the community.

"It is high time to show consumers that we mean business. Our policy on disconnection due to unpaid accounts must be applied without fear or favor," Pascua told the Inquiren.

"It is always difficult to shut down the power to the Marcos compound because this would cause damage to the lare president's remains. But it is a difficult choice we have to make," he said.

The account, under the name of Mrs. Mar cos, represents bills beginning November 2002 until November this year

The bill was incurred for the power being supplied to the mausoleum, the family's mansion and a part of the museum, all within the Marcos compound here. Cristina Arzadon, PDI Northern Luzon Bureau

US soldiers assail conduct of Iraq war

questioned a policy that stops them from leaving the military when their voluntary term ends.

The unusually blunt public exchange came ar a town hall-style session with American soldiers at this camp 20 km south of the border with Iraq, where more than 1,200 US troops have died since the March 2003 invasion.

Hundreds of troops applauded a comrade who complained to Rumsfeld that US forces were being forced to dig up scrap metal to protect their vehicles in Iraq because of a shortage of armored ones-

"Now why do we soldiers have to dig through local landfills for pieces of scrap metal and conpromised ballistic glass to up-armor our vehicles? And why don't we have those resources readily available to us?" the soldier asked.

Rumsfeld asked the soldier to repeat the

The soldier said, "A lot of us are getting ready to move north (into Iraq) relatively soon. Our vehicles are not armored. We're digging pieces of rusted scrap metal and compromised ballistic glass that's already been shot up, dropped, busted-picking the best out of this scrap to put on our vehicles to take into combat."

"We do not have proper armament vehicles to carry with us north."

Rumsfeld conceded that "not every vehicle has the degree of armor that it would be desirable for it to have," and said the Army was harrying to provide more armored vehicles, adding 400 per month.

But Rumsfeld added, "As you know, you go to war with the Army you have, not the Army you might want or wish to have at a later time."

"If you think about it, you can have all the armor in the world on a tank and a tank can be blown up. And you can have an up-armored

Rumsfeld also faced other questions about equipment shortages and the US role in Iraq after elections scheduled for Jan. 30.

"Now settle down, settle down. Hell, I'm an old man, and it's early in the morning. I'm just gathering my thoughts here," the 72-year-old Rumsfeld said lightheartedly at one point.

In Washington, Democratic Sen. Christopher Dodd of Connecticut called Rumsfeld's comments about the armor "sturning," and said in a letter to the secretary, "Your response-You go to war with the Army you have'—is utterly unacceptable."

The Army has acknowledged problems in supplying sufficient numbers of the armored Humvee, a light vehicle that without extra armor can be especially vulnerable to attacks by insurgents using roadside bombs and rocketpropelled grenades.

At the Pentagon, chief spokesperson Lawrence Di Rita said US Central Command, responsible for military operations in Iraq and Afghanistan, had asked for 21,000 Humvees with extra armor, and about 19,000 had been provided.

Bush administration officials, in particular Rumsfeld, have repeatedly rejected charges that insufficient forces were sent to Itaq after last year's invasion to stabilize the country, which is now in the grip of a bloody insurrection.

Another soldier asked Rumsfeld what the Pentagon was doing "to address shortages and antiquated equipment that National Guard soldiers... are going to roll into Iraq with?" The soldier was referring to allegations that regular Army units have been given better equipment than reservists.

"No way I can prove it, but I'm told that the Army is breaking its neck to see that there is not a differentiation" in the quality of equipment, Rumsfeld said.

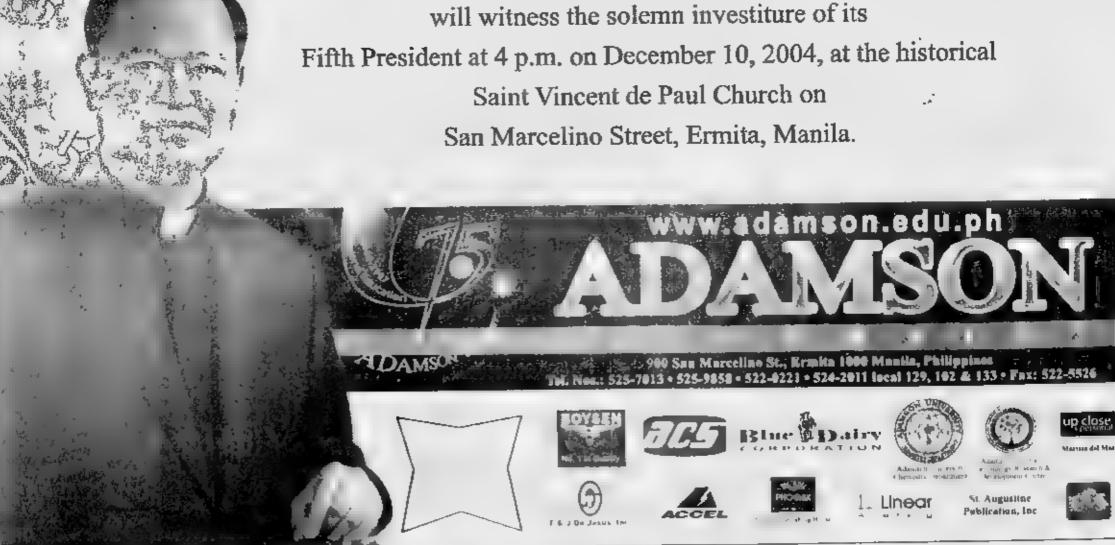

Another soldier asked Rumsfeid about the Army's "stop-loss" policy that has prevented thousands of troops serving in Iraq and Afghanistan from leaving the military when their volunteer service communitient ends.

The.WORLD Aib FRIDAY, DECEMBER 10, 2004 Sharon pledges to rein in Israel offensives

PHILIPPINE DAILY INQLERER -

JERUSALEM—Prime Minister Ariel Sharon bolstered mounting peace hopes Wednesday by saying israel would hold off offersive operations against the Palestinians in the absence of attacks by militant organizations.

Sharon ruled out a formal truce with radical groups such as Hamas but said Israel would only pursue what he called "ticking bombs," refearing to militants who are about to carry out attacks.

"The question of a truce would involve an agreement among the Palestinians and is not linked to us. But if calm reigns on the Palestiman side, we will maintain it on our side," Sharon told reporters.

P6,395***

His comments mark a significant change of policy by Israel, which has spent much of the past year hunting down leaders and fighters of the militant groups, assassinating two of Hamas' leaders in the Gaza Strip in air strikes,

Sharon is keen to encourage the emergence of a more moderate Palestinian leadership following last month's death of Yasser Arafat.

He is aware that offensive operations would undernane ongoing efforts by new PLO chair Mahmud Abbas to persuade armed factions to halt their campaign of anti-Israeli attacks.

Israel also officially regarded as an Internal Palestinian matter a uni-

lateral truce called in the summer of 2003 during Abbas' shortlived time as premier, but held back from launching attacks against all but ticking bombs.

Abbas, who is standing for election on Jan. 9 to reptace Arafat as Palestinian Authority president, has been lobbying hard for a new such

arrangement He heid talks Monday with Hames' Damascus-based

supremo Khaled Meshaal after several earher meetings with faction leaders in the occupied territories.

A poll published Wednesday showed a vast majority of lsraels are increasingly optimistic about the prospects for peace in the aftermath of Arafat's death on Nov.

Ukraine parliament breaks tense impasse divisible," parliament speaker Volodymyr

KIEV---Ukraine's parliament passed a controversial plan to weaken the presidency Wednesday, breaking a tense standoff between outgoing President Leonid Kuchma and the opposition and smoothing the way for a new presidential poll on Dec. 26.

The vote was hailed in Ukraine and abroad as a breakthrough in the political crisis that has split thus strategic nation in two polarized camps and fueled Cold War-like rhetoric between Russia and the West.

"After 17 days of peaceful protest, we have clasmed victory," opposition leader Viktor Yushchenko told tens of thousands of supporters in Kiev's central square whose roundthe-clock protests were key to the advance of in a trademark orange his "orange revolution."

By a crushing majority of 402 to 21, deputies in the Upper Rada approved a Kuchma-backed amendment, which transfers many of the president's powers to parliament, along with electoral law changes demanded by the opposition.

The chamber erupted in applause as the result appeared on a hoge electronic board on the wall and the 66-year-old Kuchma, who made a rare appearance in the chamber to urge support for his favored legislation, was among those clapping.

"Ukraine has gone through crisis several times and we always had the political will and understanding to make the right decisions," he told lawmakers minutes before the vote.

"This is an act of consolidation and reconciliation that proves Ukraine is united and in-

Litvin said afterward.

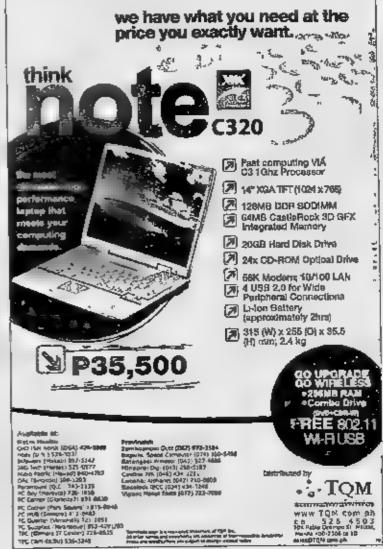

Yashchenko halled it as "a day of compromise that... opens the way for my victory" in the Dec. 26 rematch with Prime Minister Viktor Yamakovich.

Yanukovich by contrast slammed "a coup detat (that) is slowly taking place in the country today... Chaos reigns and decisions are only taken by force."

With tears in his eyes, hand on his heart and his neck wrapped Yushchenko hailed his supporters in a late night speech in Kiev's centra. Independence Square.

We are grateful to all those who helped make Ukraine's orange revolution a reality" he said, flanked by his allies and family, as the crowd erupted into chants of "Yushchen-kol" and "Way to gof" that have now become familiar in the

N. Ireland peace deal left undone, Blair, Ahern admit

BELFAST-The British and Irish leaders con- ic Unionist Party (DUP), to agree to share power ceded Wednesday that their plan to restore power-sharing government to Northern Ireland was 'incomplete' but stressed that a definitive peace deal hinged on the sole dispute over how to carry out IRA disarmament.

People injured by an explosion in a train wait for aid outside the

train station of Atocha in Madrid, Spain, in this March 11, 2004

photo. The toll from the bombings was 191 dead and more than

"What has been achieved is remarkable, but not yet complete," Prime Minister Tony Blair said in Belfast alongside his Insh counterpart Bertle Ahem, adding that he was determined to "finish the journey" and resolve the deadlock.

Blair's announcement followed efforts by Dublin and London to revive the peace process by getting the main Protestant group, the Democrat-

with the main Catholic party Sinn Fein, the political wing of the Irish Republican Army (IRA).

The main stumbling block remains the DUP demand for photographic documentation of the disarming of the IRA-a demand which Sinn Pein feels is intended by the DUP to "humiliate" the paramilitary group.

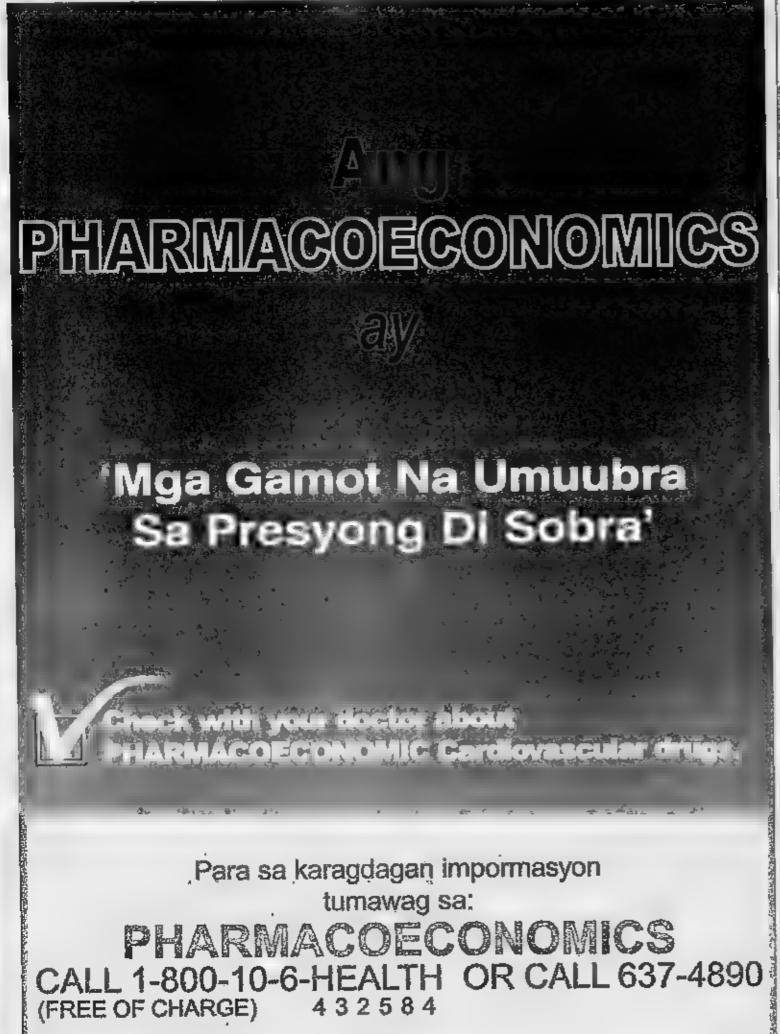

Blair refused to concede failure, saying there was "an inevitability in the process that is now locked in."

Ahern, Blair's partner in getting Protestants and Catholics together under the 1998 Good Friday peace accords, urged the two parties to

remain engaged, despite the hardline DUP's refusal up to now to even sit down at the same negotiating table with Sinn Fein.

'As we maintain our efforts on this instiative, everybody needs to play their part in creating a climate that is conducive to getting matters over the line," the Irish leader said, suggesting that agreement could still be found before Christmas.

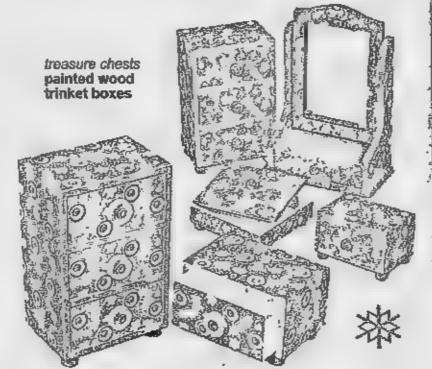

He rejected the idea that photo-documenting disarmament would humiliate the IRA, saying: "The forms of transparency that are proposed in the government's proposals... have nothing to do with surrender or humiliation. Certainty and clarity are two-way streets."

Year of infamy

N DEC. 10, 1948 the General Assembly of the United Nations adopted and proclaimed the Universal Declaration of Human Rights. Today, journalists in the Philippines have come together to remind their readers, viewers and listeners of Article 19 of the declaration, to which our country was among the original signatories: "Everyone has the right to freedom of opin-

ion and expression; this right includes EDITORIAL freedom to hold opinions without interference and to seek, receive and impart

information and ideas through any media and regardless of frontiers."

About 100 media organizations and individuals have signed a pooled statement drafted by the National Union of Journalists of the Philippines (NUJP). Timed for the observance of International Human Rights Day, the statement points out that while journalists in other countries are jailed, or are subject to harsh censorship and media laws, media practitioners in the Philippines are paying an even greater-indeed, the ultimate-price, they are being murdered with impunity.

The statement, drafted by the NUJP, says that "The Philippine press will remember 2004 as a year of infamy. We have lost 13 colleagues in what could be work-related murders, the highest number in history." The concern expressed by Filipmo media people is shared by their colleagues the world over Reporters Without Borders has expressed its deep concern. After Iraq, the Philippines is the world's most dangerous country for journalists, the group says, adding that the Philippine government must "urgently come up with some fresh approaches to halt this wave of violence against the press."

In condemning the killings, media practitioners point out that press freedom is both a universal and specifically Filipino right, "enshrined in the Constitution, not because a special sector demands special privilege, but because it helps ensure adherence to all other basic civil liberties." Indeed, the statement adds that "media groups are aware that our profession does not suffer alone. We also condemn the killings of judges, lawyers, anti-corruption advocates and human rights workers nationwide."

President Macapagal-Arroyo, in leading the government observance of "National Human Rights Consciousness Week," says the "worst violators of human rights" are from the New People's Army. That is her view. However, such a view ignores the fact that rebels of any stripe operate outside the law, while the government is duty-bound not just to enforce the law, but to live according to the law. And the most basic law of all is the Constitution. When a government fails to both protect its citizens, and punish the perpetrators of high crimes, it joins the ranks of those living beyond the pale of the law.

The President, speaking in Malacanang, praised the Commission on Human Rights and the Armed Porces of the Philippines for their "quiet but unremitting cooperation in the human rights education of our military personnel," She must have forgotten recent cases of callous treatment, if not outright intimidation, of media people by the military, and the remarkable ineptness of the police in investigating and apprehending the murders of media men. The President should have read Human Rights Commission Chair Purificacion Quisumbing's report saying that 33 percent of complaints about human rights violations filed with the CHR were allegedly committed by the police, while local officials and employees accounted for another 13 percent of cases. Of the 1,001 cases filed with the CHR from January to September this year, 812 were cases involving allegations of civil rights

What the Philippine media are calling for is what every Pilipino cipzen is entitled to: freedom from intimidation and harasament; the chance to practice one's livelihood undeterred by terrorism; the swift and effective prosecution of crimes; and the safety of witnesses and other people who can help in the the prosecution of cases. We insist on what everyone should expect and demand: a government whose officials, soldiers and policemen protect the people, instead of harassing them or proving powerless to render them aid and justice. The recourse of all decent people should be the courts, the ventilation of public opinion, never the assassin's gun.

Use pork barrel for rehab, forest protection

THERE were three significant stories the other day: (1) the Pulse Asia survey showing 84 percent of Pilipinos in favor of either cutting or abolishing the pork barrel; (2) the Department of Social Welfare and Development has run out of funds for relief operations; and (3) the con-tinuing debate on a logging ban and forest pro-

The survey also showed that "79 percent of respondents believe more than half or more of the budget of a project (funded by the pork barrel) goes to corruption." In short, you can't fool the people. They know where the money is going. Each congressmen will get P70 million in pork next year, and each senator will get

Malacañang had submitted a budget proposal with the pork funds cut by 40 percent (to only P40 million per congressman) to save P10 billion. because of the fiscal crisis, but the lawsmakers defied the President and restored the full P70 million, in contrast, the House appropriated only P69 million for forest protection for one year. Repeat: the annual budget to protect milhons of hectures of forests throughout the Philippines is even less than the pork of one congressman. Isn't that a crying shame? Meanwhile, the DSWD can no longer provide enough rebel goods to the storm victims because it has run out of funds.

The Incomes headline said: "Poil shames solons on pork." But Davao del Sur Rep. Douglas Cagas said the "pork burrel was nothing to be ashamed of."

Congressmen are already too thick-slunned to be ashamed of anything. But isn't it timely, because of the tragedy that the storms have wrought and the lack of funds to help and rehabilitate the victims, to totally abolish the pork barrel now and use the money for forest protection and for rehabilitation of the people and places hit hard by the floods and landslides?

Anyway, congressmen claim that the pork is for the people, so let's use the funds intended for the pork barrel to really help the people and protect the forests so the tragedy that befell Real, Nakar and Infanta won't happen again.

As I See IT Neal H. Cruz

The lawmakers can't object to that (unless they're selfish), and the people will applaud that. The Senate can still realign the appropriations, and if it doesn't, the President can veto

the allocation for the pork. That will show who

President Macapagal-Arroyo has ordered the suspension of all logging operations, but two of her Cabinet members are defying her. Environment Secretary Michael Defensor is defending the loggers and Trade Secretary Cesar Purisima is opposing a total log ban, saying it would be bad for the economy. If Cabinet members don't agree with the President and can't obey her orders, shouldn't they resign?

Come to think of it, who really is the boss?

Defensor even relaxed, on his own, the presidential ban by allowing the mass cutting and transport of timber from "private plantations." These are different from public lands: private firms planted the trees there and it seems only fair that they should be allowed to harvest them. But the trouble with this arrangement is that it leaves the door open for private plantation operators to peach on public forests and then claim

that the timber came from their own plantations. This was what the licensed loggers (whom Defensor is defending) have been doing. They hired poachers to cut timber from public forests and then claimed that these came from

For his part, Purisima said that with a total log ban, we would have to import lumber for our needs. But do you know that we still export logs and lumber even if we are already running out of forests to cut?

And what's wrong with importing? We are

importing almost everything else anyway. Other countries like Japan import most of their wood needs while preserving their own forests. Even the wood for their chopsticks is imported.

Besides, our construction industry is very wasteful in the use of wood. Builders should learn to use less wood. The wood used for scaffolding of any one project, for example, is enough to lay to waste one whole forest. After the construction is finished, this wood is not good for anything else but firewood. At this rate of wastage, even our coconut plantations, now that coco lumber is being used for scaffolding, will be gone soon.

Modern construction methods use steel for scaffolding. They can be used again and again. But many contractors still use wood because it is still relatively cheap. If wood is expensive because of scarcity, they will learn to use steel in-

In the United States, tropical hardwoods are so expensive that they are used only as accents in farniture. They are never used for flooring or walls or posts like we do here

In fact, our builders should study the new technology in construction in the United Stares. Instead of wood, they use substitutes made of plastics, vinyl and other petrochemi-

cal products. Homes with clapboard walls in the New England states use plastic. They look like wood, complete with grains and whorls, but they're not. Indoor walling can look like wood, marble, granite, brick, or riles, but they're really plastic. Whole bathrooms come in one piece, complete with toi lets, bathtubs, washbowl, floor and walls.

These construction materials would be ideal for the Philippines. They're cheap, light, don't rot like wood does, termite and fungus-proof, plus you don't have to paint them. They come in different colors.

What's more, they will help save our forests. And, Secretary Purisima, saving our forests is more important than our balance of payments. Once the forests are gone, they're gone. But the economy rises and falls regularly.

Soft state: Missing the forest and the trees

THE RECENT landslides have drowned the voice of sobriety in cries of indignation, and those who champion the morally compelling total log ban prevail over those who speak the wisdom of a policy-based selective ban.

indignation calls for a total ban. Anything less will create toopholes that will be pulled and stretched to elastic extremes until the exception eventually becomes the rule. Anything less will continue the supply of logs that feed the chain of corruption from the first police checkpoint, to the shipping ports, to the portals of high government. Anything less will stratain the "revolutionary taxation" by the people's purported liberators. Anything less will keep open (pardon the metaphor) the floodgates of indiscriminate logging in the country. And he who advocates anything less, they say, should be tarred and feath-

ered as an enemy of the people. "When the whole world is mad, 'tis folly to be same." The voice of sobriety proposes a selective ban that will enable the long-term cultivation of replemshable tree farms. Indeed, a total ban will hit the real "village people": subsistence farmers who forage for firewood and the other rudiments of life. Even today, they already bear the brunt of the enforcement of forestry laws. My younger sister, Judge Rowena P Socrates of Puerto Princesa, Palawan, sadly recounts to me how in the courts it is the poor lowly foragess. who typically stand accused but rately the bigtime loggers. Just look at the confiscated cuttings, mere "flitches" of wood. And it falls upon her as a judge, alas, merely to enforce the law upon the facts presented in the actual "case and controversy" before her while agonizing that the truly guilty have remained unindicted.

The fear is genuine that well meant regulations will merely require more permits, and each permit issuer along the way will merely ask for his share of the loot. Fine-tuned regulations begin with noble intentions but and up merely creating "rent-seeking" moments, or opportunities for graft and encruption by government officers, or for arm-twisting by the vanguards of the Philippine revolution,

The fear is genuine that if we have selective logging, irresponsible tree murderers will be selected over responsible tree cultivators. We know our country all too well. Hence the move to ben logging across-the-board to simplify enforcement and eliminate all rent-seeking op-

The fear therefore is that the Republic, a "soft state," is incapable of enforcing nuanced have and would best minimize discretion, indeed minimize any thinking done at ground level, because every thought is a step toward compromise and corruption. Enlightened edicts issued by imperial Manila are watered down, diluted and ignored out there in the field. (An AFP controller can keep a congressional hearing at bay, citing no better medical reason than sleep apnea, a limp excuse that bespeaks not just lack of creativity—even college students can concoct better alibis, e.g., "the printer file wouldn't upload"-but even worse, a lack of respect for the elected legislators.)

The "soft state" recalls the 1960s seminal work "Asian Drama" by Swedish author Gunnar Myrdal, referring to governments that "require extraordinarily little of their citizens" and "even those obligations that do exist are enforced inadequately, if at all." Elsewhere the soft stare is described as one "where breaking rules and flowing laws is a cultural norm." Whereas in Western states the sense of communal obligation began with the village and was organically perfected into the state, in colorual states that process was stunted, leading to the "decay of the ancient village organization without the creation of a substitute." Worse, the anti-colonial struggles romanti-

cized rebellion against authority, leading to an "anarchic attitude" that the newly independent natives then named against their own.

This is not to excuse ourselves and once again blame others, conveniently shifting fault to the colonial encounter. This is rather to understand the ongoing debate. We may sound like a "Strong Republic" when we purport to carry out a total ban on logging, much like the total ban on justeng which, last I heard, was famously successful. However, we instead confess to being a "soft state" and make our collective mea culps that we, as nation, are willing to sweep away the vulnerable and the responsible together with the greedy because we dread having to pick and choose one from the other, and worse, that we would rather play it safe with being thetorically correct than take a chance with being legally imperfect.

The zen masters say that the wise warnor will hone a blunt sword to make it sharp but not so sharp that the blade becomes brittle The debate that has raged since the storm compels us to choose between the bluntness of a total ban and the soft state's brittle enforcement

On a happier note, I draw strength from the outpouring of public giving for relief work, proof that the Pilipino cares and will put his money where his mouth is. It shows that the problem lies not in our hearts-we share the grief of the bereaved father, mother and child. The problem lies not in our capacity to work collectively; to those who say that Filipmos are people who excel as individuals but never as a team, let them see the fervor of civil society giving relief. The true mystery is why we falter the moment we act collectively through the state, and why the quintessential embodiment of the public good swiftly descends to wanton spoliation by private greed. In the short-term, ler's face it: We succeed best as a group when we mobilize the caring Filiplac without the

Comments to raul.pangalangan@up.edu.ph

mediation of the state.

Deflecting the issue

that the projects funded by public works are be-

ing used to buy electoral favor to legitimize the

One finding of the survey cannot be ignored. It

found that "79 percent of respondents believe

that half or more of the budget of a project or pro-

gram of a legislator goes to corruption." It's fair to

say that local constituencies expect their con-

gressmen to bring projects to their electorates, but that it would be in their interests that public

momes are spent exclusively on projects rather

than siphoned off to congressmen's pockets at

The administration has cut by 40 percent to P40

million the pork barrel of each congressman and to

F120 million that of each senator in the 2005 na-

tional budget, as a cost-cutting measure to avert a

fiscal crisis. The proposed cuts were estimated to

save abnost P10 billion. But the House of Repre-

sentatives last month decided to retain the full P70

administration nor the legislature was serious

about taking tough measures to curb the deficit.

According to the survey, President Macapagal-Ar-

royo had failed to convince the public that her

package of economic reforms was the answer to

the fiscal and debt problems. The survey said 63

percent of respondents believed that the Presi-

dent had "no adequate" response to the fiscal and

debt woes; 35 percent said the government did

not have effective programs; and 28 percent

could not say one way or the other. Only 37 per-

Doronila

kackbacks.

THE PULSE ASIA survey that found 84 percent of Pilipinos in favor of either reducing or abolishing the congressional pork barrel has struck a raw nerve among congressmen. Their reaction was to defend the pork, suggesting that there's nothing wrong with it while at the same time attacking the survey's methodology, thereby deflecting the issue away from its abuse.

One congressman said the survey "does not reflect the reality on the ground, which is that our constituents appreciate the projects we're bringing home through our pork barrel." Some suggested that rather than taking seriously findings of opinion poils, the issue should be submitted to

a national referendum

According to the survey, 54 percent said the pork barrel funds should be merely reduced and not totally eliminated, while a smaller percentage (35) wanted it abolished, and only 16 percent favored retaining the pork at its current level.

There's little doubt that if pork were submitted to a referendum, it would win hands down, simply because the infusion of pork-barrel funds into local projects brings visible results that are no less than vote buying. There's no question that roads, school houses, irrigation units, artesian wells, basketball courts, health centers will be "appreciated" by congressmen's constituents. But the conversion of pork barrel funds into local projects begs the question.

The issue is about abuse of the pork barrel funds and it is tied to corruption in that the pork represents leakage of and inefficient use of public funds. It is linked to kickbacks from contracts for the construction of projects. The Pulse Asia survey reflects public revulsion to the linkage between pork and corruption, not revulsion to the pork barrel per se. So, by proposing a referendum on the pork, congressmen are misrepresenting the issue, raising the wrong issue and are seeking to cloak abuse of the pork-barrel funds with the legitimacy derived from referendum results.

A referendum ought to be an argument against abuse of the pork burrel. It would demonstrate

has effective programs to address the facal and debt crisis."

Emmanuel de Dios, Pulse Asia research fellow, said, "These results suggested that if the government indeed has a plan of action for dealing with the crisis, then either this plan is still not generally known, or people doubt its effectiveness or the government's will to implement it."

These findings echo an observation by De Dios, during a Philippine Update workshop last October. In his paper, De Dios said the President "has thus far failed to exert the kind of leadership required to steer the economy out of danger and demand sacrifice and solidarity from both the population and the political class."

Most crucially, his paper said, "The administration has not elucidated a coherent roadmap out of the fiscal crisis, with discordant voices, mixed signals, and confused proposals emanating from the President, her Cabinet, and the administration's supporters in the legislature."

"Having half-heartedly pointed to the probiem," the paper said, "the administration now appears to be more concerned with putting some distance between itself and difficult (especially new tax) measures than with ensuring that the proper action is indeed taken."

The failure to take determined action to push unpopular fiscal reforms, including cutting the pork barrel, is undermining efforts of the admirstration to avert the downgrading of the country's credit rating. The paper issued last August by 11 UP School of Economics professors warned that the country faced financial collapse if it did not take drastic measures to curb the deficit. The paper delivered a shock, prompting the President to acknowledge that the deficit was the most urgent problem facing the country. Since then, there has been backsliding in the determination to undertake reforms in the form of cost-cutting and new taxes. The UP paper emphasized that new taxes and cost-cutting, including drastic slashes of the pork barrel were both necessary. Now the pork has been saved.

K

IT'S been 56 years since the Universal Declaration of Human Rights was adopted by the United Nationa; yet the term "human rights" continues to be the subject of many debates.

The most heated arguments revolve around claims that, "human rights" is "Western" and "individualistic" and that in many cultures, these "Western" ideas often run counter to the interests of the community or even of an entire nation. In

our part of the world
these debates use
terms like "Asian values" and "communalism," pitted
against Western "human rights" and
democracy.

We hear variations in the Philippines with references to our "demo-craxy"
and having "too much human rights" as the cause of our underdevelopment. What we need, we're told, are leaders willing to dispense with human rights and get the country go-

Rights, rights

After years of following these debates, I've come to feel that the debates will be futile if we continue to argue over abstractions. What we need to do is find out what popular perceptions are about rights, and how these perceptions affect our decisions in private and public life, from the household to national governance.

In relation to human rights, we can look at the terms people use locally: the English "human rights" for example, as well as the Tagalog "karapatan." But we don't stop with identifying the words. Even more importantly, we look at high these words are used.

"Human rights," for example, is still often invoked derisively, best exemplified by the way people spit out the words with sarcasm. I hear this quite often with our AM radio coffinentators, when they try to explain problems in terms of "too much human rights." To give one common example, we often hear sarcastic references to "rights" in the mass medap, with claim that government tolerates the informal settiess (the politically correct term) in deference to human rights, "Po rights rights pa hasi," people will mumble, the repetition of the term being a way, in local languages, of expressing distanceoval.

What should be

Note that while the English "rights" will often be used negatively, the Tagalog "karapatan" is almost always used positively, standing solidly as something that is desirable. The term's root word is "dapat", or what should be, which is inmany ways like the English "right" with its ethical connotations: "right" in the sense of "not wrong" is determined by a society's notions of what should be.

The problems come in the way we determine "what should be." Ideally, we should have certain guiding ethical principles in deciding "what should be." Certain ethical principles can be invoked here, dealing with issues of justice (Is it fair?), autonomy (Does it respect the individual?), maleficence (Does it avoid harm?) and beneficence (Does it do good?).

Unfortunately, out in the rea, world, we tend to be make rigid, defining "what should be" in terms of received traditions, some of which were not necessarily wise or just. In recent years, the term "reproductive rights" has been used to describe, among others, the right to decide how many children one should have, when to have them and in what intervals. That right would seem commonsensical, yet "reproductive rights" have been attacked by religious conservatives. A mural on Shaw Boulevard captures this view showing Jesus with a child and the caption: "This is a child, not a choice." Religious can be regressive in the way they promote this absolute view, often claiming that "what should be" is what has always been

In other cases, we believe we have the right to do something because everyone's doing it. We complain, for example, about buses and seeps blocking vehicular flow when they stop at road intersections to pick up passengers; yet, when we're the ones commuting, we stop these public utility vehicles at those crossings to get on. Here, irrational and mutually destructive behavior is transformed into the norm, shaping our ideas of what's "night" and "rights."

Entitlement

We get even more insights into local views of rights by looking at the wonderfully succinct word: K, I don't mean the "Ic" in texting (which means OK) but the k as in "May k ka ba?" (Do you have k?). The word "karapatan" is drastically abbreviated to one letter, yet this "k" is packed with means

Think of how "k" is used in different situations. I'll just give one example: In sing-along joints, you often hear very bad karaoke singers croaking away with people around him

whispering in exasperation that he has no "k" to sing.

"K" tells us that our notions of rights are tied to entitlement. Your bad karaoke singer thinks he sounds like Frank Sinatra and therefore that entitles him to hog the microphone and to do "My Way" over and over again until some-

one guns him down.

Mind you, these fatal shoot-outs do happen, which leads me to another example of "k" the gunman is probably someone who drives an SUV with a "ProGUN" sticker. He believes it's his right to carry a gun everywhere he goes and, worse, that the gun gives him the "k" to tid society of soun (defined, with time, to refer to anyone who disagrees with him, or who

won't yield the karaoke microphone).

I'm not being facetious here. So many of our problems do in fact emerge from these notions of entitlement, notions which are tied to status, whether ascribed as in class, or atquired through a diploma (real or fake), or having a gun.

The privileges are often tied to power with some rather paradoxical variations. The poor, for example, may seem disenfranchised but can, in many instances, play around with entitlements tied, precisely, to poverty. I'm poor, therefore I'm entitled to free services. I'm poor, and there's this empty lot, therefore I'm entitled to use it.

Dissecting concepts of rights and entitlements might help us to deal with all kinds of problems. Just look at corruption for example, with the rationalization: "I have to feed my family so. . ." Unless people understand that this corrupted entitlement means depriving many other families of what's due them, we will end up with perverted notions of "right," and "rights."

There's much more to karapatan and human rights, but I thought I'd just offer a few insights for today to stimulate more in-depth discussion of rights in Philippine settings so that we can move forward, away from self-centered privileged entitlement toward the original ethical connotations of "dapat," of what should be, for my own and for others'

A voice for VOICE

Cinema 4, SM Megamail. Proceeds go to the UP-based Volunteer Organizations Information Coordination and Exchange (VOICE), a national network of volunteer organizations Tickets available at TicketNet outlets, or call 928-8969 or 0918-9375075. The fund-raiser will also feature Hannahor

Morocco's 'revolution'

RABAT—Receiving the "Global Leaders Award" in the 2004 Global Media Awards, held in this capital city of Morocco last Sunday, was Noutha Skalli, a member of the Moroccan Parliament. A member of the House of Representatives since 2002, but a politician and public servant for over 30 years, starting with her initial exposure in campus politics, Skalli, according to the Wall Street Journal, has become "a major force behind major changes in the Moroccan Parliament, working all her life (on advocacy for) gender equality and human rights."

She is credited with leading the struggle for the successful passage of the New Pamily Code which, as she put it in her response, "grants women equality and co-responsibility and considers women at long last full-fiedged citizens, a truly revolutionary move." The focus on the links between democracy, human rights and gender equality, and Skalli, "are so vital, like air and water" for achieving sustainable development and

equality for all people

Skalli dedicated her award to "my country and my King," who she said "supports the rights of Moroccan women." A symbolic but nonetheless significant step forward for gender equality, she added, has been the public role given to the King's wife, Princess Selma, who has become a role mode, for young Moroccan women, an unprecedented development for the monarchy.

BUT revolutionary change doesn't only take place in parliaments or the royal family. For change to take root, it must be embraced by individuals and families, and if Skalli's family life is anything to go by, then it seems there is no turning back for Morocco's march toward modernization.

Mohammed Bennis, Skalli's husband of 26 years, has been solidly behind his wife's political career even if, he admits, "it's embarrassing at times, especially when people address me as Mr. Skalli." A professional simultaneous interpreter and language teacher, Bennis says that when he first told his parents about his marriage plans and they wanted to meet his fiancée, he told them, "You can see what she looks like in the posters on the streets since

she's running for office." They have two children, both of whom are young adults and studying abroad.

Apart from Skalli, the other Moroccan awardees recognized at the Awards Dinner graced by the Moroccan ministers of health, information and social services and some parliamentarians, were, as I mentioned in an earlier column, the Ennakhil Association for the "Gender Equity Award," and the Moroccan Pamily Planning Association which received the "Country Award."

THE OTHER winners of this year's Global Media Awards are no less accomplished. Awarded for "Best Individual Reporting Effort" was Zubeida Mustafa, assistant editor of Dawn, a daily newspaper in English published in Pakistan. An editorial writer on social issues and international affairs, Zubeida was recognized for her articles highlighting initiatives contained in the Program of Action of the International Conference on Population and Development which marks its 10th anniversary this year.

Recognized as "Most Conscientious News Service" was Inter Press Service (IPS), represented by Ramesh Jaura, Euro-Mediterranean coordinator for the agency. Asked by a Moroccan journalist what award "gives him the most pleasure," Werner Pornos, president of Population Institute, singled out IPS, which has made reporting on Issues confronting the developing world a priority. "Their work shows us that social development is a great investment," said Fornos, "cheaper than investing in wat."

Radio Tanzania was awarded "Best Radio Programming," particularly for two of its programs:
"Twende Na Wakati" (Let's Move with the Times),

a very popular radio soap opera, and "Mambo Bomba" (Cool Things), a show for young people. Both shows focus on family life, while addressing population issues, including sexual and reproductive health and HIV/AIDS. Martha Swal, the program coordinator and my roommate on this trip through Morocco, won the award previously in 2000, receiving her plaque from former President Joseph Estrada the day before he was forced

to vacate Malacañang.

The Worldwatch Institute's World Watch Magazine, a bi-monthly journal concerned with environmental issues, was awarded "Best Population Journal" for its special issue on reproductive health and population concerns, "Population: Beyond the Numbers." Danielle Nierenberg, who authored many of the articles in that publication, represented the magazine.

CITED for "Best Population/Environmental Reporting Effort" was Centro Centroamericano de Poblacion in Costa Rica, for its publication "Poblacion y Salud en Mesoamerica," which examines potential relations between fertility and the access to and use of natural resources in Peten, Guaternala.

Winning the award for best team reporting effort was "Salud Publica de Mexico," * bimonthly journal published by the National Institute of Public Health of Mexico.

The "Best Combined Media Effort" award went to the Bangladesh Center for Communication Programs, cited for "Know Yourself," an integrated communication campaign aimed at Bangladeshi youth.

This columnist was cited for "(writing) tirelessly of the Philippine society's unmet need for access to reproductive health services and information...and consistently (standing up) to reproductive health advocacy detractors...(being) at the frontlines of the continuous struggle to inform and educate people."

Much of the credit for this horor goes to my family—in the broadest sense of the word, to include my loved ones, my colleagues in the lequies, my sisters in the women's movement, my friends in sexual and reproductive health and rights advocacy, and all of you, faithful readers.

A sense of life in the past

WHEN tourists (both foreign and Filipino) walk near San Agustin Church and the Casa Manila complex, they will notice that this is one small spot of Intramuros that has cobblestone streets. The sound of calesa bells or the wooden wheels on the stone conjures many romantic notions about life in the Walled City. Often I hear people exclaim that it would have been wonderful to live in Spanish Manila, and I often feel like bursting the bubble and saying that then, as now, if one was not wealthy, life could be uncomfortable.

Travel accounts of the islands give us a real sense of life in the past. If you take one of those exorbitantly priced calesa rides around Intramuros today, you get a quaint ride because most streets are paved and the wooden wheels are lined with rubber creating less noise and a smooth ride. When Ethel Colquboun and her husband Andrew arrived in Manila at the turn of the last century, they did not have confirmed hotel bookings. They must have presumed that nobody would bother to visit Manila and so they could find a decent room in the best place in town, Hotel de Oriente, outside Intramuros whose imposing façade is often the subject of old photographs.

The hotel was full but for one room, and so the opportunistic clerk charged them \$7 per person for this small single room with a single bed. There were four people in the party who looked and "felt dusty, hot and badly dressed." They were told to take the room at that price or leave it.

Of course they left, with Ethel saying she would rather sleep in the street than be had. Now they had to find another hotel and couldn't do that on foot. Since they didn't know anyone of consequence in Manila, they had no ride and had to get the ancestor of roday's FX taxi.

"After some delay we got a little box on wheels and rattled away in search of other quarters. Carriages, be it here noted, are hard to hire in Manila, most people keeping their own. Everyone

LOOKING
BLC

Ambeth R

Ocampo

drives, so the demand is frequently larger than the supply." (It must have been a good day because there is no mention of traffic that then, as now, plagued Manila. Haven't you noticed the irony of the word "rush hour"? One cannot rush at this time because of traffic. Another example would be "salvage," which the dictionary defines as saving something but in the Philippines means disposing of someone bodily. That's material for another column, so to get back to Colquboun's taxi ride:)

"The carromatta is a two-wheeled cart, with a cover; there is room for two Filipines inside, or for one European and a balf. The driver sits on a little perch just in front, and the only way in is to climb over the wheel. The carromatta we hired on this occasion was not very sure of its wheels, and as we joggied and joited along over the bad mads and cobblestone-paved streets, the driver eyed them nervousiv. Every now and then came a sickening heave and wrench as we bumped into a hole, and our heads were banged first against the sides of the cover and then against each other Luckily the wheels held until we had pessed along some Spanish-looking streets—white and grey houses with the inevitable rajas—through a low arched opening in the thick wall, which looks much older than it is, and into the walled city. I was too much engaged with holding my head on and watching the wheels to notice much of the city..."

Climbing into this vehicle one had to grasp on the wheels for support, and knowing how dirty

the streets were at the time, this could be quite disagreeable. We have air pollution today, but in those days when the term "horsepower" was taken literally, you can imagine that there was a bit more than air pollution in Manila. One had to mind where one was walking not only because of potholes but horse droppings. Seating capacity as mentioned above was for two Fibpinos, the equivalent of one and a half European passenger. One wonders if an oversized lone Westerner was charged twice, because even on a jeepney today the driver always tries to pack the seats. He looks back through his mirror and banks "animan yan," meaning six people per row. Often this is a signal for everyone to compress, or for mothers to put # child (who rides free) on her lap and accommodate the sixth passenger. However, I was once seated with a far lady the size of two passengers and the driver kept telling us to squeeze together because "animan 'yan" instead of shaning the obese and charging her twice.

All postwar travel accounts of the Philippines marvel about the jeepney—its wild colors and the number of nurrors and horses on the acod—but do not pick up what to us is ordinary: Passing your fare up front. Witty signs like "God knows Hudas not pay." Or even the various ways to stop the jeep if it is not fitted with a wire or button that rings a bell or flashes a red light by the driver. Normally, the Pinoy often reframs from ordering the driver "Para" so the more polite "Sa table lang, po" is used. Non-verbal signals often differ according to sex: Men will knock on the ceiling, while women will demurely hiss "Passt!"

We see this but rarely notice the everyday de-

Friends say I should have been an ambropologist rather than a historian because I mine travel accounts for everyday detail, providing more body to a history that will otherwise be dult and dry.

Perils of marijuana

THIS is in reaction to the proposal say drugs kill (softly). to legalize marijuana in the Philippines.

I am a Filipino now living in the Netherlands, a country where marijuana has been sold legally in coffee shops since the 1960s.

If the legalization of marijuana has done the country good, I do not know how. Maybe in terms of tourism money, yes. Tourists cross the border just to get it. Bur I have seen how it has

The long-term use of drugs leads to behavioral problems and a form of psychosis (according to British research), leaving the victims in the calvary of the "walking dead." And the Netherlands, with its organized welfare system, leaves addicts always with money to spend on drugs which are expensive.

Still, there are illegal "planta-Hong" (grown inside caravans or there is a demand there will always be people who will provide the supply in order to make mou-

If there are violations in the Netherlands where the people are supposed to have more sense of maturity and independence, how much more in the Philippines?

On logging

THE REAL problem is a system that allows the violation of our forests to go unpunished for years and years. This problem should be addressed jointly and with real concern by the legislative, judicial and executive branches of government.-Rodolfo Kintanar, 67 A5 Matahimik St., Teachers Village, Ddiman, Quezon City, via e-

VOICES ON It is sad and ironic INQ7.NET that we have to wait for tragedies to hap- --

pen before we put up measures to prevent them. Illegal logging has been a problem in our country for decades, but we have yet to see

anyone punished or a solution being implemented to solve it. Whether we should impose a total or selective log ban was already a subject of debate some years ago, but nothing happened. It is up to the media to "sensationalize" this issue and

thus keep it in the public mind. If they have to do this for years, let that he so. We all know the

power of the media in moving government into action. The closer we look at our leaders, the more we see that our government itself is a tragedy. They are always bickering and playing politics instead of dealing with the real problems of

It is my sense that responsible media people should help in saving our country by promoting social awareness, especially of environmental issues .- Jojo Santos, 20 Malaya St., Taytay, Rizal, via e-mail

Instead of putting the blame completely on the New People's Army, President Macapagai-Arroyu should look into the participation of local government officials in illegal logging. The negligence of the officials of the Department of Environment and Natural Resources also contributed to the disaster. They must be held accountable for it.—Romeo Alcantara, Baliuag, Bulacan, via e-mail

The death and destruction caused by the storm "Winne" in Quezon, Nueva Vizcaya and Bicol bear eerie similarities to the flash flood that swept Ormoc City in Leyte some few years ago. I remember that back then the also logging.

Anyone who takes the short Philippine Airlines flight from Manila to Baguro would not he surprised that the horrible, recent tragedy happened. I myself have seen the extent of logging in the Sierra Madre mountain range.

How many more Ormocs, Quezons and Auroras will the country experience before our leaders act on this problem with genuine concern and sincerity? We all know there is only one cause for such disasters—the wanton disregard of public interest. When will we, Filipinos, learn?---Marcos Boado, Singapore, via e-mail

I believe that the solution should be a total, countrywide ban on logging, The DENR should have long ago defined which forest areas are to be exempt from logging activities and, in assume permits to logging operators, should have set boundaries and limitations on the logging activities. Unfortunately with the government's failure to take these measures, lives have been lost.

We should impose a total log ban and start reforestation before the next tragedy comes.-Jonathan Lacuesta, 01-143, Blk. 317, Bt. Batok St. 32, Singapore 650317, vla e-mail

Illegal logging is rampant in the provinces where local authorities connive with men in unlform, officials of front-line agencies and the loggers in abusing and destroying our forests. The civilians easily become the victims of their greed In future disasters. Unless this grand conspiracy is put to an end, we can expect worse scenarios in the future.—Hen Repol, Stavangergasse, 4-12-02, Vienna, Austria, via e-mail

Camarines town water sources contaminated

PILL Camarines Sur-Several sources of drinking water here were found positive of the salmonella typhi bacteria that causes typhoid fever

The contaminated water was blamed for a typhoid outbreak in 26 villages since November.

Contaminated water samples were taken from the upland village of Curry and were tested. They were found positive for the typhoid-causing bacteria.

Curry Village is where water from the Himaao River is filtered and pooled before it goes to a chlorination treatment plant.

The DOH has declared a typhoid epidemic in this town after the number of infected individuals dimbed to 166 on the third week of November.

It claimed the life of a 45-year-old woman from the village of Tagbong on Nov. 26. The

woman developed typhoid complications. Dr. Alejo Aralar of the provincial bealth office said even as the number of documented cases went down, the health office sees the

possibility of a resurgence of the disease. Aralar said it was too early to come to the conclusion that the epidemic was over because persons with suspected typhoid fever are still being brought to the health office.

Some of the symptoms of typhoid are fever and abdominal pains that last for five or more days.

Patients' stool or blood is tested to confirm the disease. He said there are instances when infected

persons would show no symptoms because of strong immune systems.

Aralar said he suspects that the contamination, which he said usually comes from fecal wastes, could have been caused by several farming families living within the watershed area.

He said that the watershed areas must be free from any human activity and encroachment to ensure the safety of drinking water that the local water utilities distribute to households.

Paulino Cunanan, manager of the Pili Local Water District (Piwad), confirmed that about six farming families are living within the watershed area in Curry but said they could not eject them.

Cunanan said he is appealing to the local government unit of this town, the Department of Environment and Natural Resources and the Department of Agrarian Reform to relocate the farming families out of the watershed area.

But the local government insisted that the Plwad is solely responsible for securing the perimeters of the watershed area and to make sure the water source is free from contamination.

Vice Mayor Ronald Boclot of this town, acting local chief executive during the interview on Tuesday, said that it is the local water utility that must initiate the clearing of the watershed area of human encroachment.

Boolot added that they would make the Piwad hable for the outbreak of typhoid if it was established that water from household faucets caused the typhoid epidemic.

The vice mayor quoted Piwad as saying it doubted whether the typhoid outbreak was caused by water it supplies to households in

Piwad, said the vice mayor, believes the outbreak could have been caused by factors other than contaminated water,

Cunanan said that they did not doubt the result of the DOH test on five water samples but explained that the samples came from the untreated filtered water drawn from the Himago River

NPA executes man wanted for rape

By Chito A. Fuentes PDI Visayas Bureau

TAGBILARAN CITY-The New People's Army (NPA) armounced that it executed the alleged public enemy no. 1 of Sevilla town in Bohol.

In a statement sent by 5-mail to the Inquir-ER, National Democratic Front (NDF) Central Visayas spokesperson Rio de la Montana said elements of the NPA's Chocolate Hills Command executed Victor Cutin, 24, last Dec. 3.

De la Montana said Cutin was responsible for the abduction and rape of a 16-year-old girl on Aug. 12 and the shooting of Sevilla Councilor Eleazar Digal on Nov. 6.

The NDF spokesperson said Curin was arrested by NPA fighters on Nov. 15 and was "put on trial" before he was found guilty by a nine-man jury of the "people's court."

Policemen in Savilla recovered Cutin's body in Barangay Bonbon, Loboc town on Saturday morning.

Cutin allegedly abducted at knife point the teenager in the presence of her friends at about 9 p.m. last Aug. 12 in Barangay Lico-Li-

He brought the victim to a forested area in Sitlo Ka-ojoy, Barangay Villa Aurora in neighboring Bilar town and raped her twice.

The victim was able to escape around noon the next day and was brought by Villa Autora residents to the Bilar police where Sevilla po- as a result of Typhoon "Winnie."

licemen fetched her.

Last Aug. 18, the victim filed charges of forcible abduction and rape at the office of the provincial prosecutor against Cutin who managed to elude a manhunt conducted by the police and Army soldiers.

De la Montana said that on Oct. 1, the NPA started conducting consultations with its local organizations in several barangays in Sevilla to address the "climate of fear" created in the area by the failure of government troops to arrest Cutin.

He said the rape victim signed a sworn affidavit before a rebel representative on Nov. 8 declaring her intention to pursue the abduction and rape charges against Cutin.

On Nov. 6, Curin tried to kill Digal in his house but he missed. The assassination failed as his second shot hit the councilor only in the left hand after his first shot misfired.

Cutin vented his ire on a stray carabao, which he stabbed dead as he fied after shooting the councilor.

De la Montana said Cutin himself admitted that Digal, who chairs the Sevilla council peace and order committee, had "persecuted" him for his suspected involvement in robbery.

The rebels have also announced they were forming a court to try criminal charges against environment official being held responsible for the deaths brought by flooding and landslides

Tubal ligation angers archbishop

DAGUPAN CITY—Lingayen-Dagupan Archbishop Oscar Cruz has rebuked local officials who, he said, enticed women to "mutilate their bodies" by giving them food if they undergo tubal ligation, a family planning procedure.

Cruz was reacting to reports about two Pangasinan mayors who asked the Voluntary Sterilization Itinerant Team (VSIT) of the provincial government to conduct tubal ligation among women who wanted to undergo the procedure in their towns.

San Manuel Mayor Salvador Perez gave each of the 29 women in his town a half sack of rice and a bag of groceries. He also promised to give them goats as part of his livelihood program for the town's poor.

Asingan Mayor Guillermo Piso asked the VSII to conduct tubal ligation among women in his town.

But their actions caught the ire of Cruz, a former president of the Catholic Bishops' Conference of the Philippines.

"For these officials, the poor have still to be exploited, shamed (and) degraded," he said in a statement

They entice (the women) to mutilate their bodies. They are told they have no right to multiply. They are entited with a bag of food if they cut their insides," Cruz said.

He lamented that some people are turning desperate to lessen population. He said these people consider human births "a big curse" and they look at babies "with great disgust."

"Instead of the poor being patiently and effectively taught about responsible parenthood, (these officials take) parenthood away from them. Instead of education, they are led to mutilation—shamefully, cruelly, irreversibly," he said.

"One can simply wonder where these individuals would be if their own mother or fathers cut or tie their tubes that would bring them into the world. If their fathers and mothers were still alive, would they cheer for them? Yolanda Sotelo-Fuertes, PDI Northern Lizzon Bureau

The biggest BLINS Christmas Sale ever

This Christmas, BLIMS gives you the hottest deal yet. In the coolest season of the year. Save up to 40% on your purchases of the best brands of fine lifestyle furniture. And on selected credit cards, get 0% interest up to 18 months on items at regular prices. It's the best Christmas Sale of all

Festival Supermall,

Miners pull out 4 survivors buried under ruins

From page Al

lashing Quezon and two provinces.

As of 6 p.m. yesterday, a rescue team composed of commercial miners and soldiers had pulled out 99 bodies, according to Army Col. Jame Buenaflor, commanding officer of the 202nd

He said rescue work at the site actually started on Dec. 1, and military relief operations in the village as early as Nov.

Horaclo Ramos, Mines and Geosciences Bureau (MGB) director, said rescue operations would continue in Quezon because miners believe there are still others waiting to be rescued under the rubble.

"We are doing it very carefully, yet we know we have to buy time because it has already been days since these people have been trapped," said Ramos, whose agency is coordinating the emergency response operation.

Through the Philippine Mine Safety and Environment Association (PMSEA), Benguet Corp., Lepanto Consolidated Mining Co. and Philex Mining Corp. sent 43 of their rescue experts to Quezon

"We have to give it to the miners, to the PMSEA and to the minerals industry for leading this operation," Ramos said.

Ramos, who is also the PMSEA vice president, went to Real on Thursday, together with PMSEA president Ernesto Rodriguez and other officers of the orga-

PMSEA currently has a team of doctors and medical workers in Sitio Umiray and Mahgaya in General Nakar, Quezon, while the rescuing miners have been in Tignoan for three days now," Rodriguez

"Cordilleran miners have been credited for countless rescue success stories because of their remarkable history. Indigenous Filipinos here belong to families with vast experiences in mining, and many have been engaged in expert tunneling," said Redempta Baluda, Philex spokesperson and environment manager

Hill collapsed on building

Ma. Elena Sur, who, along with her husband George, worked as the resort's custodians, said the Repador building served as an evacuation center for some of the villagers at the height of Winnie's

The structure, which sits on the beach front property facing the Pacific Ocean, practically had its second floor pushed forward when a chunk of the hill behind it collapsed during the storm, Sur said.

chief of the Army's 2nd Infantry Divi- Maria Tamares, were trapped on the

THE RESCUE of Estala Marie, looking none the worst despite the calamity that befell her and three others, has been described by President Arroyo as nothing short of "miraculous."

sion, said the four survivors were among the more than 100 residents of Purok 3 in Sitio Colangeo who had sought refuge in the building when waters from the sea and a creek swamped their area.

He said the space where they were found was part of the basement of the building that used to house a hardware store and a restaurant

Malou Bautista, leader of an association of fishermen in the area, said the building was owned by Quezon Rep. Raffy Nantes, who bought it last year.

10 others trapped

The survivors were weak, pale and appeared to be in a state of shock. They were administered first aid and given coconut water to sip.

A standby team of 2nd ID doctors led by Capt. Keene Gaditano quickly checked the survivors' vital signs.

Gaditano said while the four bore no abrasions and serious wounds, they were all suffering from dehydration. Sultan said that from the statements

of the survivors, there were 10 others still trapped in the basement.

He expressed the belief that more would be rescued.

Maj. Marvin Dagamon, operations chief of the 202nd Infantry Brigade, aired a similar optimism.

Dagamon said past experience had shown that persons trapped underground could survive for 14 days as long as there was a certain amount of air and fluids available.

'We will still live'

Ma. Elena Sur said her niece Estela Capt. Gerry Sultan, civil affairs Marie and the child's grandmother, buried is Noel Laurenciana, one of its

stairway between the first and second floors of the building.

Colonel Buenaslor said Bungag and Manuguid were able to find a "clearance" between the debris which consisted of soil and smashed concrete.

"They were able to crawl within that space, which is about two-three feet high. They managed to talk to each oth-

Sur said that during the ordeal, Estela Marie was often locked in embrace with Tamares, whom she calls "Nanay (moth-

She quoted Tamares as saying that the child once uttered in Filipino, with her arms wrapped around her grandmother's neck: "Nanay, we will still live, won't

But Sur was not exactly in a rejoicing mood because she is in danger of becoming a widow.

Among those believed still trapped under the rubble were her husband George and their two daughters-Marjorie Anne, 5, and Mariel, 17 months

Sur said she was stranded in nearby Barangay Kilolomon when the landslide

As the days passed and hope was getting dim, he banged his head on a cement post in an effort to end his life. He felt numb and was very weak.

Answered prayers

When he was about to give up,

around 3 a.m. on July 31, 1990 and slowly pulled him out. He knew then that his prayers

had been answered. Dy was taken to the Baguio

General Hospital but was later transferred to the Makati Medical Center where he was confined for Every July 16, Dy would tell his

story to his eldest son and show him pictures of the hotel before and after the earthquake.

"How did you survive, Papa?"

his son would ask him.

"It was a miracle. God saved me," Dy would tell his son.

Biggest test

The 1990 earthquake was the biggest test of the Cordilleran miners, Baluda recalled.

Benguet Corp miners were the first to enter the devastated Baguio City, zeroing in on the collapsed Hotel Nevada that used to stand outside the former Camp John Hay main gate.

"Philex was only able to send

our team a week after July 16, 1990, because we had to rebuild the road leading to Bagulo, Our miners hiked for hours to the Hyatt. It was a fly that led one of our

miners to (Dy)," Balada said. Since the successful Dy rescue, Benguer miners have been disparched to countless disaster sites.

"Philex miners were also asked to fly to Taiwan during an earthquake, but the rescue effort was canceled," Baluda said. With reports from Vincent Cabresa, PDI Northern Luson Bureau

Survivors need healing of raw, mental wounds

after the storms that swept across the region on Nov. 29 and Dec. 2-at least 240 of them in Real.

Among those missing and feared dead were 17 members of Evuenga's family, including a sister and brother who were hit by logs and swallowed up by the floods as they tried to hold on to

their father. "I can't sleep at night because I remember what happened to them, When I fall asleep I dream of them," Evnenga said in a muddy classroom of the Real Central Elementary School that had been turned into an evacua-

tion center. Jerome Caluyo, a clinical psy-

Huego's two children drowned in the rampaging waters, he said,

The disaster coordinating council in Dingalan initially reported 63 dead in Umiray. On Tuesday, Berty Soler, a Dumagat, reported 32 more of her relatives had died. Reports from AP and Tonette Orejas, PDI Central Luson Desk

Taguig Muslims give goods, pray for storm victims

By Christian V. Esguerra

A SACKFUL of used clothing and blankets, and a modest collection of P6,000.

This was all that residents of a Musam community in Taguig could manage to pool together to donate to the victims of the ser.es of typhoons that hit Quezon and neighboring provinces.

But Maharlika residents were happy to give, knowing better than most what the situation must be for the victims, said Prof. Taha Basman, a resident of

Philippine Islamic Council.

"Mushins fully empathize with the victims because we ourselves are perennial victims of calamities, both natural and manmade," he said in an inter-

Most of the donors were from the Maguindanao and Cotobato regions that are known strongholds of the separatist Moro Islamic Liberation Front, he said.

In 2000, President Joseph Estrada ordered an all-out war

Maharlika and president of the on the MILE driving the popula- Camp Aguinaldo on Monday. tion to flee their hometowns. make up some 5 percent of the 50,000 population.

Basman said the evacuees became "refugees," the recipients of old clothes, food and anything of value that their neighbors could spare.

Donations donated back

Some of these "relief goods" ended up in the ione sack that was brought to the National Disaster Coordinating Council office in

The collection was taken dur-They ended up in Maharlika and "ing a meeting of Maharlika leaders on Sunday, in which many of the Mindanao evacuees showed up and offered to help.

> But there was not even enough to fill up the sack, said Basman.

> "It's not that they were rejuctant to donate. It's just that they didn't have much to give," he said.

Too poor to give

The donors are too poor to even buy clothes for themselves,

the Muslim leader said. '

But they will more than make up for it through prayers, he said. Basman said the village's Blue Mosque had been packed with worshippers since Tropical Depression "Winnie" and Typhoon "Yoyong" struck and killed hun-

"She's asking for a slice of cake," Melvin told the INQUIRER, adding: "All along, I thought that I would never see her alive. God is really kind to my little an-

Red Cross needs help

From page Ai

National Red Cross (PNRC) has complained that donations were coming in in trickies.

The PNRC is appealing to good Samaritans, particularly wealthy Filipino businessmen, to lend some more help.

PNRC chair Sen. Richard Gordon received yesterday 40,000 euros from French Ambassador Renée Veyret' to help the Red Cross sustain its relief operations in the worst-hit towns of Quezon, Aurora and Nueva Ecija.

But Gordon said the relief organization needed more than P100 million to provide food, erators and clothes for the typhoon victims.

Hundreds of thousands of peoere displaced by the floods and landslides. Many villages around the towns of Infanta, Real and Nakar in Quezon were submerged in floodwaters and landslides in the aftermath of the

The Red Cross intends to stay in the affected areas until rehabilitation was underway, he said.

Top four local donors

So far, the Red Cross has solicited P44 million, with only P7 2 million coming from local

The top four donors were Smart (P1 million), Phillip Morris (P2 million), Caltex Philippines, Inc. (P1 million) and Mirant Philippines Poundation Inc. (P1.5 million).

The rest came from international groups such as the Austrahan Embassy (P8.7 million), International Federation of Red Cross (P6.6 million), USAID (P5.5 million), Agencia Espanola Cooperacion Internacional with the Spanish government (P4.4 million) and USA Embassy Club (P75,000).

The Red Cross is still awaiting pledges from international donors amounting to P12.35 milhon (Spanish Red Cross, 12,000 euros, Malaysian Red Cross, \$10,000, and Spanish Red Cross-Madrid, 160,000 euros).

Nick Bridger of the European Commission Humanitarian Office has pledged between 800,000 and one million euros to finance relief efforts.

The money, which will be available this week, "represents the solidarity of the EU member states and community for the sufferings of people at the brunt of natural disasters," said

Bridger. He said a major portion would go to the Red Cross through the Spanish Red Cross and other nongovernment agencles.

Top foreign donors

Poreign countries, agencies and nongovernment organizations have granted a total of \$3.1 million in emergency aid for the Filipinos who had been displaced by the series of storms the past three weeks, according to offi-

Topping the list were the European Commission (\$1,326,260), Australia (\$392,772), New Zealand (\$275,862), Japan (\$269,489), and the international Federation of Red Cross and Crescent Societies (\$130,000), the officials said.

The list also includes Belgium (\$40,134), Canada (\$1,095), Canadian International Development Agency (\$82,747), Germany (\$66,312), Office for the Coordination of Human Affairs (\$50,000), Singapore (\$50,000), Switzerland (\$87,719), UN Children's Fund (\$95,000), UN Development Program (\$100,000) medicines, blankets, power gen- . and World Health Organization (\$20,000).

The funds were coursed through international organiza-

Saudi prince

The DFA said it also received funds from Prince Talal Bin Abdulaziz of Saudi Arabia (\$100,000), Cyprus (\$30,000) and Korea (\$50,000). All the donations amounted to \$3,167,570.

Foreign Secretary Alberto Romulo expressed "deepest appreciation and heartfelt gratitude" to the countries and agencies that extended "much-needed humanitarian assistance" to those who jost their homes and proper-

They have proven to the Filipino people their humanitarian concern, especially in our hour of need for the victims of the series of natural calamities," he said, referring to Typhoons "Unding," "Violeta," Tropical Depression "Winnie" and Typhoon "Yoyong" that battered the country one after the

Responding to appeals for help, foreign countries and agencies immediately sent monetary assistance, emergency aid materials and teams to help the government in its search and rescue operations.

"The human compassion expressed by these governments, international organizations and NGOs through their donations in cash or in kind, so that relief and rescue operations would be facilitated, highlights the common concerns shared by humanity for the victims of natural disasters," Romulo said.

"It is true that in times of peril and ensis that the best instincts of human nature rise to the core,"

he added. Poreign countries rushed to help the country following an earthquake in 1990, the eruption of Mt. Pinatubo in Central Luzon In 1991 and the "mega-typhoon" that struck the country in 1995, officials said.

US ship, helicopters

On Sunday, Bridger was with Gordon when the latter led a small contingent of international humanitarian donors in a six-hour swing through three towns of Quezon, Baler in Aurora cials at the Department of Foreign and Pasayan City in Nueva Ecija

to assess the situation on the

ground. US Ambassador Francis Ric-

ciardone, who joined the group, said he was "struck by the degree of isolation still several days after the storms had

Ricciardone said that the US government was sending a ship with a couple of helicopters to provide US engineers who would help restore roads, hridges and relecommunication

facilities.

Appalled

Even Gordon was appalled by the suffering, which was aggravated by the inadequate relief goods that had so far reached the power generators to these rowns.

Estrada, Singson camps accuse each other of murder

both camps in the Estrada plunder case not to speculate on the killing of a vital witness against the former President.

The motive is yet to be established so we appeal to the public to refrain from quickly resolve the killing of Marilyn

port of the investigation," Press Secretary Ignacio Bunye said in a statement.

Bunye said Malacafiang expected the Philippine National Police to

Sur Gov. Luis "Chavit" Singson. The governor's exposé led to the impeachment and ouster of President Joseph Estrada in 2001.

Perez, who was shot Tuesday in Er-

MALACANANG yesterday appealed to speculations and awalt the official re- Perez, longtime secretary of Ilocos mits, Manila, was a key state witness but the defense also claimed that she was set to testify for Estrada.

Bunye's appeal came as the prosecution and defense panels, the Estrada and Singson camps stepped up their attacks on each other.

Special Prosecutor Dennis Villa-Ignacio has asked protagonists in the trial of Estrada to let the lawyers "do the battle" in the Sandiganbayan, the anti-graft court, and not to let the violence spill into the streets.

But Estrada, speaking through his spokesperson, said that only Singson had the motive" and "homicidal impulse" to order the killing of Perez. Singson denied the allegation.

The situation is getting to be messy. I hope it will not get out of control," said Villa-Ignacio, who "manifested" in court on Wednesday that the prosecution was preparing Perez to be a "rebuttal witness."

He earlier said it was not far-fetched that the killing could be related to the ongoing hearing on the plunder and perjuty charges against Estrada and his son Jinggoy Estrada, former San Juan mayor and now a senator.

Falling out with Singson

But Estrada spokesperson Didagen Dilangalen blamed Singson for the killing.

"What's the motive of President Estrada? He is winning the lawsuit. He has no motive, no criminal tendencies, no homicidal impulse like Chavit Singson," Dilangalen told the b-QUIRER in a telephone interview.

He said Estrada was known to be a nonviolent man, unlike Singson who had confessed to the killing several people.

Earlier, Dilangalen said Perez had been sending the defense panel "feelers" to testify in Estrada's favor. This matter is no longer a secret. It's been talked about," he said of the supposed falling out between Perez and the Singson family.

Sought for comment, Singson said he would never hurt Perez, whom he considered part of his family. I love her so much to do this to her. She was very loyal ever since," he said, "Will I kill my own relative?"

He said Perez was killed because she knew too much about the alleged jueteng money collected by then President Estrada through then San Juan Mayor Jinggoy Estrada.

"She knew Jinggoy's driver. She knew how they went to the LCS building to deliver justeing money. She knew so much about their involvement in jueteng operations," he said. The LCS is a building owned by Singson in San Andres, Manila.

He noted that it was Perez who had seen a personal check with the picture of Jinggoy on It and which the mayor had used to pay Singson as part of the jueteng collection.

Estrada's 'goon mentality'

As for his alleged criminal tendencies, Singson said Estrada was more prone to violence.

"The killing shows Estrada to be living his Asyong Salonga role in real life," he said of the Estrada movie about a local goon. "He has a goon mentality."

Told about Sines nied that Perez knew his drivers. "Singson is a liar. My drivers never went to his office because we are not even close in the first place. So, there was no reason for me to be sending my drivers to him," he said.

Like Dilangalen, the senator said Singson had a motive for killing his secretary.

At a news conference, Jinggoy denied Singson's accusations that the Estrada family was involved in the killing of Perez.

Police looking for leads in victim's phone

By Leila B. Salaverria

THE POLICE in Manila will be studying the messages and logged calls in the cellphone of Marilyn Perez, long-time secretary of flocos Sur Gow Luis "Chavit" Singson, to gain information. that could reveal the reason behind her killing.

The Western Police District on Wednesday night recovered Perez's cell phone with its SIM card intact after it questioned the three men who had brought her to the Philippine General Hospital. The cell phone went missing after she was shot on Tuesday.

WPD homicide chief Sr. Insp. Dominador Arevalo said investigators would begin studying the cell phone yesterday.

But so far, he added, the police had not found any evidence that would link Perez's shooting to the plunder case against former President Joseph Estrada.

Arevalo said investigators decided to track down the men who had brought Perez to the hospital after they suspected them of taking her cell

The police identified the men as Wally Monis, 40, a barangay tanod; Reynante Alano, 32, a vendor, and Nemie Maniega, 60, a dishwasher.

After the three were invited for questioning at the WPD, they eventually admitted that they had taken Perez's cell phone and watch, saying they had been tempted to do so. They then pawned the items and divided the cash among themselves.

The three also apologized for what they did. Police were able to trace the person to whom the items were sold.

Arevalo said the police were still thinking about whether to file charges against the three men or not.

The senator said the Estradas had no track record of killing people, unlike Singson. He noted that Singson was the suspect in the murder of people like the father of Rep. Bingbong Crisologo and Ilocos Sur auditor Agustin Chan.

"Definitely, we don't have a criminal mind," he said. "He's (Singson) the only one with a motive," the senator later told reporters.

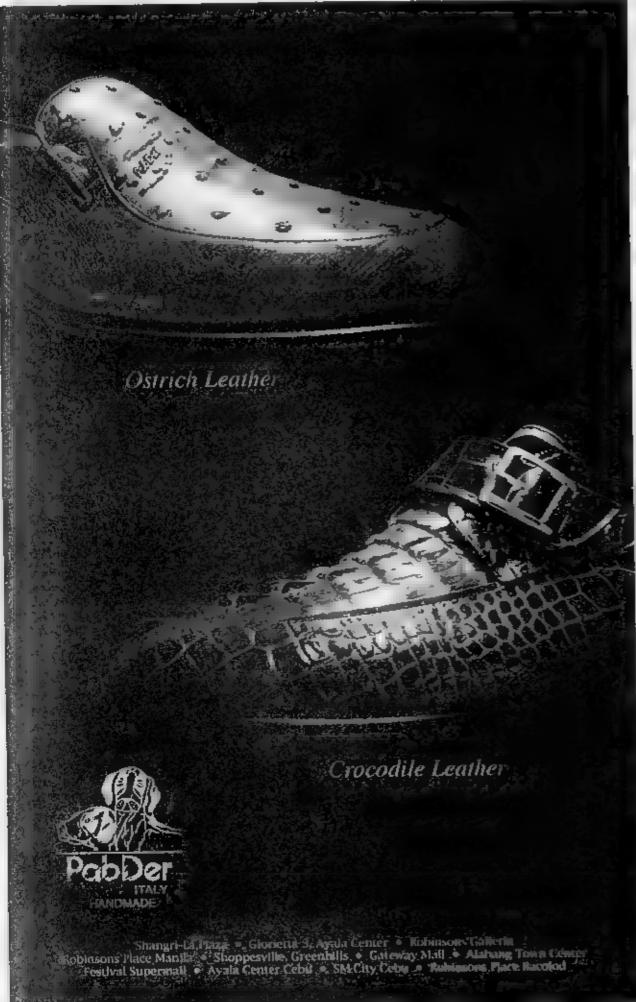

Jinggoy and his mother, Sen. Luisa "Loi" Ejercito, said in separate interviews that Parez had sent feelers to their lawyers that she would testify against Singson.

The young Estrada said that there were "some disgruntled employees of Singson who approached our camp and want to testify."

Stop insinuations

Jinggoy asked Singson to stop instructing that the Estradas had something to do with Perez's murder. He and his mother also asked Villa-Ignacio to stop making the same insinuation.

Told that Singson had said that Perez could have been mistaken for Lim, who testified in Estrada's impeachment trial in 2000, the young Estrada said: "First of all, Emma Lim had already testified. Ano pa ang habol namin sa kanya (What else is our issue against her)? If we are after her, eh di dapar before she testified may nangyari na (something should have happened before she had testified)." With reports from Juliet Labog-Javellana, Armand N. Nocum and Christine O. Avendaño

Garbage slide kills 9-year-old scavenger

By Leila B. Salaverria

AT THE age of 9, Lester Cortez wanted to help his family earn a living, and it killed him.

school as a fourth grade stu-Manila dump at Pier 18 of the Manila North Harbor.

The boy was sifting through mounds of trash, looking for plastic bags and other reusable materials which he hoped to sell at a neighborhood junkshop in

Vitas, Tondo. His find could have earned him a few pesos to add to the income of his family of nine, of which he was the third of seven siblings.

POR THE Manila City government, a lingering issue on the legality of oil firm operations inside the Pandacan Oil Depor has been resolved.

The Office of the Ombuds-

man has dismissed for lack of antigraft body by a group that merit a complaint against Mayor Lito Atienza for allowing the continued operation of Pilipinas Shell at the depot despite an ordinance ordering

the shutdown of the facility. The issue was carned to the

SUPERLOTTO 6/49 24 18, 24, 28, 47, 49,

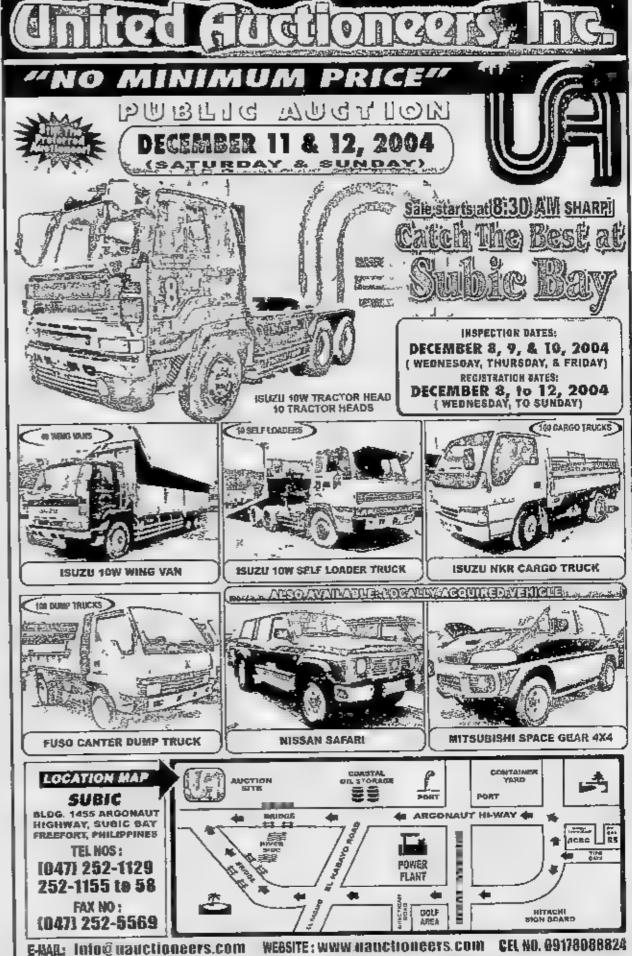

SUERTRES (2) (0) (7) SIX DIGIT (In exact order) 3 2 3 3 3 4 6 had been calling for the total phaseout of the oil depot.

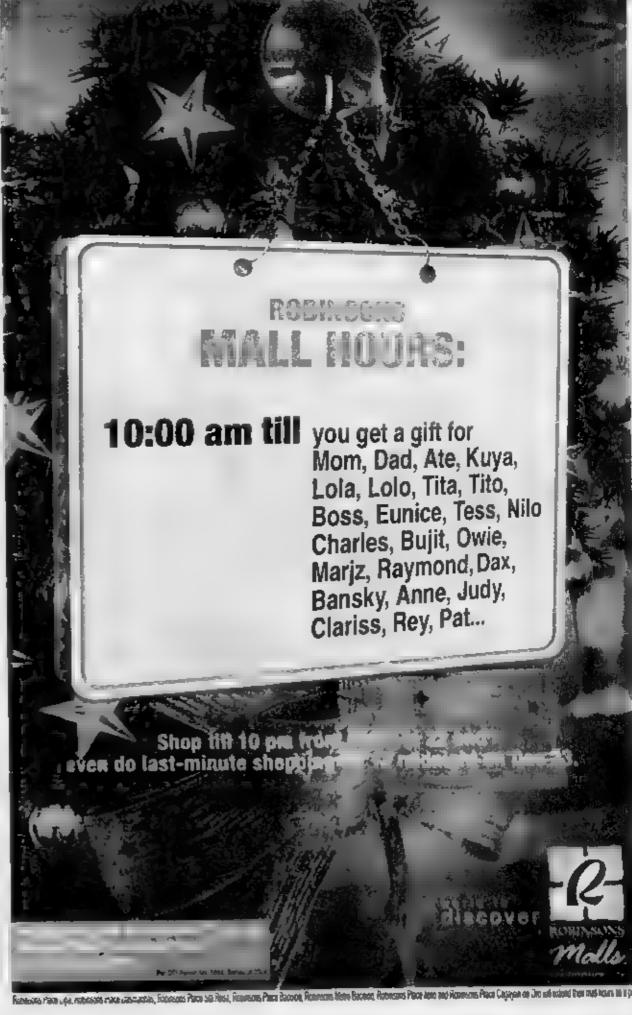

The group argued that the depot puts the entire Pandacan district at risk in the event of a terrorist attack.

Lawyer Vladimir Cabigao, convenor of the United Front to Oust the Oil Depot, filed the joint criminal and administrative case against the mayor in May last year.

But the Office of the Ombudsman found the charges

While Atienza lauded the decision, Cabigao called it erroneous, saying the Ombudsman was "weak on big fish but strong on small fish."

YANIG SA TAGUIG

Thai to rip Pacquiao 'weakness'

IN PACQUIAO'S corner will be (from left) Buboy Fernandez, Roach and cut man Lenny De Jesus.

By Recah Trinidad

THERE were fears Manny Pacquiao's smaller That foe could be crushed and taken out of the ring on a stretcher.

But yesterday, Fahsan 3K Battery, a 2-1 underdog, strained the fight pressoon at the exquisite Discovery Suites in Ortigas when he announced he would knock out Pacquiao in their 12-round encounter in Taguig tomorrow night.

That's incredible, considering the disparity in power, build, caliber and total worth of the two

Promoters, in fact, have been hit for staging what had loomed to be a tasteless mismatch.

Not to worry, Fahsan, in stylish blue jacket and work pants, told the Inquirer, because, he said, only he knows how to stop Pactulao.

only he knows how to stop Pacquiao.

He claimed, very confidently, that he knows of a well-guarded Paquiao weakness.

Fahsan vowed to jump in early, dig hard and tear at the secret soft spot to upset Pacquiao, an overwhelming favorite, in their "Yang sa Taguig" duel

But what could be that weakness being kept by Pacquiao who had been floored a few times in his career before he rose to be a world celebrity under Freddie Roach?

"Alam korin 'yon (I know what that secret is)"
Pacquiao exclaimed.

Featherweight champ

But the Ring Magazine featherweight champ said he has long turn that hidden weakness into a strength and, in fact, plans to use it against Fahsan.

"Yun ang gagamidh ko sa kanya (I'll use it against him)," Pacquiao, who said he was only a measly pound over the 126-lb limit yesterday, amounced as he walked past a parade of adorant for the borel lathy.

ong fans at the hotel lobby.

The two fighters are expected to breeze through the scales in the official 10:30 a.m. weigh-in today at the 2nd floor of the Forbes Town Center at the Bonifacio Global City.

The name of the referee and the composition of the judges in the much-awaited main event will also be announced today.

Known devourer

Fahsan, 30, a known devourer of RP lighters with over 20 Pinoy scalps in his collection, had earlier insisted Pacquiao is not in perfect condi-

non for their bout.

As could only be expected, the peppery Fahsan refused to divulge the alleged Pacquiao Achilles heel, which the That claimed he had known and observed quietly even before he came over to Manila for the first time last

"He would not even tell what that weakness, that secret is," Jimmy Chachotochuang, Fahsan's manager, told the Inquirer.

The manager however said he sincerely believes what Fahsan has been telling, adding that his fighter could indeed stop Pacquiao and turn RP boxing on its head.

He said his fighter has been excited at the great coverage the fight has generated and plans to make an earth-shaking headline with a stoppage of Pacquiao.

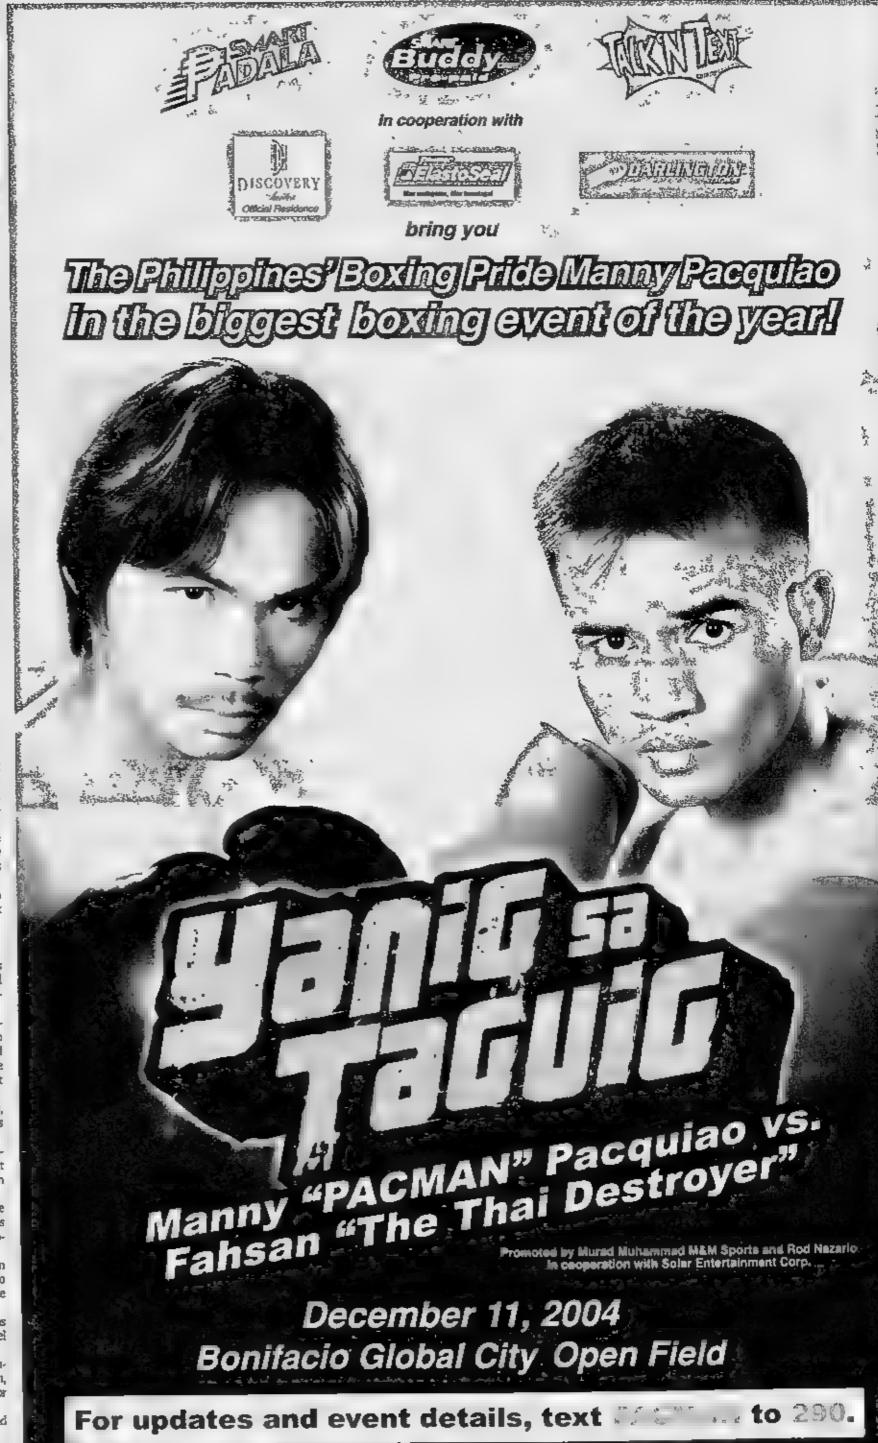

The Thai camp said Pahsan is bound to return to a hero's welcome to Bangkok where Pacquiao is also celebrated as the best featherweight in the world today.

Pacquiao, 25, plans to use the Fahsan fight as a tune-up for his rematch against Juan Manuel Marquez in February.

He refused to make any prediction and instead vowed to do his best for his countrymen, mainly the victims of the recent floodings for whom he donated an initial P200,000.

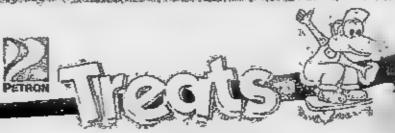

He said he pians to visit the ravaged areas and console the victims later.

Also being lined-up for Pacquiao by his promoter, Murad Muhammad, who turned the pressoon at the Discovery Suites into a personal road show, are multi-mulion dollar fights against Erik Morales and Marco Antonio Barrera.

By June Navarro

COACH Joel Banal once feared that without Asi Taulava, teams would, sooner or later, overwhelm the Talk 'N Text Phone Pals.

"It's just a matter of time before they'd catch up," Banal said back then when the Phone Pals were in the midst of a win streak that installed them at the top of the heap.

True to his prediction, the Phone Pals, although still on top, now need to win badly when they clash with the San Miguel Beermen today in the Gran Matador PBA Philippine Cup at the Araneta Coliseum.

The Phone Pals are hoping to snap out of a three-game losing spell when they collide at 4:30 p.m. against the struggling Beermen, who recovered from back-to-back setbacks by beating Purefoods the other night.

The TJ Hotdogs try to regroup against Sta. Lucia's basement-dwelling Realtors in the 7:20

With four assignments left in the 18-game eliminations, the Phone Pals are bidding to win at least two and pray that the Barangay Ginebra Kings lose two of their last five games to get a clear shot at the top two spots.

The No. 1 team and the second-ranked squad

ride to the semifinals while Nos. 3 and 4 earn a twice-to-beat incentive over their quarterfinal foes.

Banal and the Phone Pals are still on top with a 10-4 record but the Shell Turbochargers (10-5) and the Gin Kings (9-4) are fast closing in on the leader.

The Beermen, on the hand, have stopped training their sights on one of the two luxury seats and are just hoping to get the right chemistry in time for the playoffs.

The Beermen (7-7) are in the hunt for the twice-to-beat advantage along with the TJ Hotdogs (7-7), Red Bull Barako (6-7) and Co-

Meanwhile, the Alaska Aces blew a 22-point cushion but recovered their rhythm in time to upend the FedEx Express, 114-102, and make the night doubly special for Bong Hawkins at the Urdaneta Sports and Cultural Center in Urdaneta City.

Hawkins reached another milestone by becoming only the fourth player in league history to compile 500 stears, 2,000 defensive rebounds and 1,000 offensive boards after Ramon Fernandez, Robert Jaworski and Philip Cezaz.

Barangay Ginebra trounced Shell in the secand game to improve to 10-4 and share the lead with Talk 'N Text.

Encore clamor for Roach

GERRY Peñalosa swore he could have been an even greater fighter if he had already known what Freddie Roach taught at the end of his

boxing clinic yesterday. A select horde of boxing people, trainers, managers, boxers, devotees of the sport, gave Roach, the 2003 trainer of the year, an ovation and clamored for his return to Manila to

continue helping improve RP boxing. "I sure will be back," Roach told his admirers, who later formed a long line to get his signature and also have their picture taken with the man who molded Manny Pacquian into

one of the world's hortest boxing celebrities. Peñalosa who, together with top super flyweight Z Gorres, helped Roach demonstrate various techniques, said he's now doubly sure of beaung world super bantamweight king Rafael

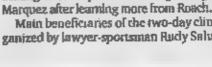

Main beneficiaries of the two-day clinic, organized by lawyer-sportsman Rudy Salud and

sponsored by the Philippine Sportswriters Association with support from the Philippine Sports Commission, were the members of the RP national amateur boxing stable whose coaches and fighters attended the two-day chine at the Ninoy Aquino Stadium.

Of great help in the demonstration was PBL commissioner Chino Trinidad, himself a boxing student, who interpreted Roach's bruitant pointers for the benefit of the participants who later got their certificates of attendance.

The two-day clinic, a dream of Salud, the founding secretary general of the WBC, could be expanded because there are plans to have Roach stay in the country longer in his next visit.

Ronnie Nathanielsz, who helped organize the clinic together with Rhea Navarro and Queenie Evangelista, said he would look for sponsors and project directors to have Roach hold a langer, more expansive clinic in the fu-Recall Trinudad

The fight will speak for itself

I WILL not dignify tomorrow's non-title light between Manny Pacquiao and Thailand's Fahsan 3K Battery with any further comment. I betieve what the boxing fans will see live at the Fort in Taguig and on TV will speak for uself. As far as I'm concerned, I have done my duty to act as a watchdog for pro boxing by alerting the people as to what to expect from the ongoing and dangerous travesty of frequent mismatches and protecting the fans against the gross improprieties committed by sleazy promoters who are robbing the public blind.

Veteran basketball player Nelson Asaytono was the biggest revelation of last Wednesday's nerve-frazzling PBA encounter at the Big Dome where never-say-die Red Bull outclassed league-leading Talk 'N Text, 105-96.

A two-time MVP candidate in the late 1980s, the 37-year-old Asaytono provided the spark that enabled coach Yeng Guiao's Barako to beat the TNT Phone Pals, who led, 53-49, at halftime and 78-69 at the end of the third quarter.

Playing inspired baskerball, Asaytono teamed up brilliantly with peppery Janwell Torion, much-improved Rico Villanueva and 2004 stam **CLEAN LIVING**

Manolo R. Iñigo

dunk king Cyrus Baguio. In the last 1:12 of the nail-biting game, Asaytono took the stellar role when he pieced together six points in a row to seal the match for the Photokina franchise, 101 94, time down to just 31.7 seconds.

Asayrono was named "Player of the Game" for his sterling performance.

With the victory, Red Bull moved up to 6-7 in the team standings, while slumping TNT dropped to 10-4.

Known as "The Bull" in the pro league, Assyrono enjoyed his finest years with the Swift Hordogs and San Miguel Beer during the late 1980s. The 6-foot-3 power forward from Oriental Mindoro had a single high of 48 points with Swift then under coach Yeng Guiao and a careerhigh average of 23.1 ppg for San Miguel under

coach Ron Jacobs.

Guiao said Asaytono will be a big asset to the team which has been badly crippled by the voluntary departure of Davonn Harp and Mick Pennisi and the injury suffered by Junthy Valenzuela, Vergel Meneses and Omanzie Rodriguez. "Asaytono's vast experience will surely help our team a lot," said the 42-year-old Guiao.

ROBERTO REVERENTE CUE in a fitting tribute to the late Roberto Reverente, who served as executive vice president and chief operating officer of the Manila Jockey Chib, officials of the MJC headed by president Alfonso "Boy" Reyno, director Mart Cepeda and marketing boss Henri Kalin assured the wife and son of the late lawyer-sportsman that the Roberto Reverente Cup held last Sunday will now be an annual affair at the San Lazaro Leisure Park in Carmona, Cavite.

Being There, a 4-year-old chestnut mare sired by Distorted Humor out of Panfare Bubbles, won Sunday's initial staging of the Reverente Cup, beating former Presidential Cup winner Pres Wind by two lengths in the 1,600-meter classic. Being There, expertly ridden by jockey Eldy Salvador, covered the distance in 1:40 flat.

Snipers, Jewelers begin URBL finals

GAME TODAY
(Sante Dombigo People's Center)
5 p.m.—Bocos Sur Snipers

(Santo Demingo Paople's Centur)
5 p.m.—M. Literiffer-Cebu City
vs.liocos Sur Solivers

vs M. Lhuiffler-Cabu City

SANTO Domingo, Ilocos Sur— The flocos Sur Supers and M. Lhuillier-Cebu City begin their best-of-five championship series today in the United Regional Baskethall League at the Santo Domingo People's Center here.

At stake is the distinction to be the first ever champion of URBL and the 5 p.m. encounter is expected to be tough to the very

The Snipers claimed the No. 1 spot after the double-round semi-finals and playing the first two games before their hometown crowd will be a big boost in their bid for a 2-0 start in the best-of-five championship series of this tournament sponsored by Lactovitale and adidas.

However, the Jewelers hold a 3-1 edge over the Snipers in their four meetings this conference. Moreover, the Snipers only loss at home came from the hands of M. Lhuillier, 83-85, last Oct. 24.

Cebu City Councilor and Jew-

elens coach Raul "Yayoy" Alcoseba toud his wards to steal at least one of the two back-to-back games and hopefully wrap up the series in front of their home fans.

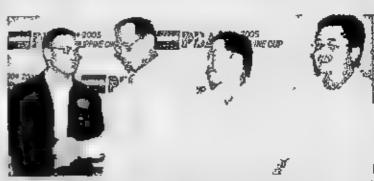

"This will be our humble Christmas gift to the Cebuanos," "
said coact Alcoseba.

Boosting the Jewelers' chances is the full recovery of spitfire Bong Marata from injury. Marata, who averages 12.5 points per game, returned in time to steer the team to victory in their last two semifinal games, including one over the Snipers, 74-68, in the elimination round finale last Dec. 3.

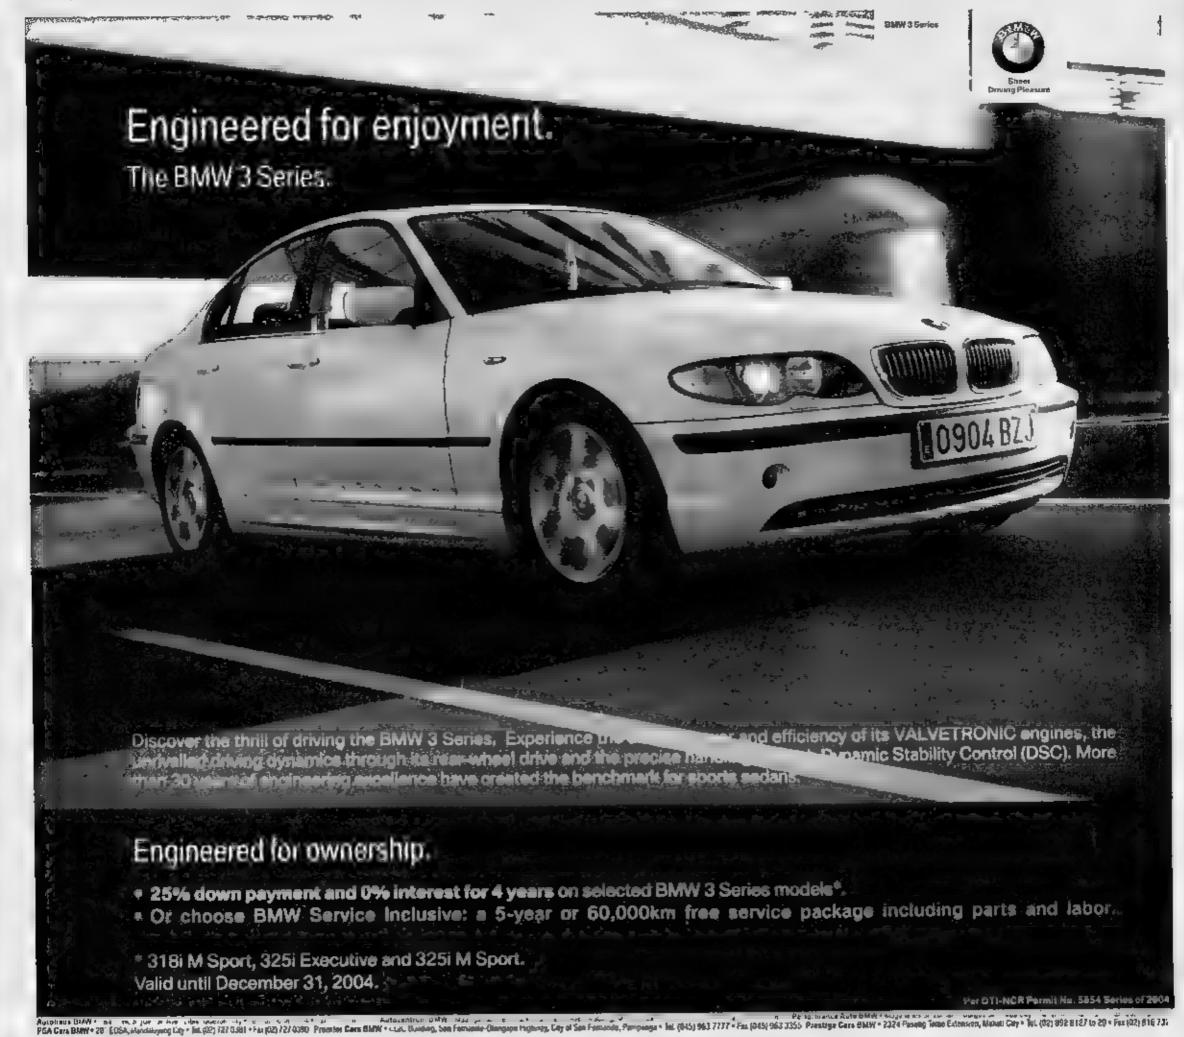

Backing him up are three of the Jeweiers' more consistent scorers—Bruce Dacia (13.3 ppg), James Laygo (13.2 ppg) and Woodraw Enriquez (11.2 ppg) along with Leo Bat-og and Aktrin Ocañada.

Coach Mario Quitoriano fears the absence of starting point guard Oriy Torrente, who's nursing a knee injury, could affect the

Mike Manigo, Mico Quitoriano and Richard Hardin wili have to step up in place of Torrente and alternately set up plays for Snipers top guns Jeff Sanders (13.3 ppg), Alian Yu (11.0 ppg), Jerome Barbosa (10.5 ppg) and Dondon Mendoza (10.4 ppg).

MOA SIGNING: PBA commissioner Noll Eala (left) shakes hands with Basketball Association of the Philippines president Tiny Literal after | the signing of the Memorandum of Agreement between the PBA and the BAP Wednesday. Mendoza

replaced."

I WAS about to call it a day on Wednesday when someone called out my name. It was Maru Sotto, the youngest of the golfing Sotto brothers: the others are Tito, Vic. and Val. Maru was with Nelson Cheng and Noel Plana at the verandah of the Baguio Country Club. All three were having beer-their way of capping the night. All three, together with Tito and Vic, compose the lineup of Eat Bulaga-Macabud currently competing in the ongoing 55th Fil-Am Golf Invitational in the City of Pines.

"Long time no see," said Maru, extending his hand for a handshake. "May I offer you a drink?"

I have known the Sottos for years so that even if my eyelids had become heavy as lead, I couldn't say no to the only Sotto who loves avoiding TV cameras. "A glass of wine, please?" I

said to the waiter. Des Bautista and Jake Ayson, who were with me on our way to hit the sack, were also invited by Maru to a nightcap and they also ordered wine.

After the usual kumustahan, howdy and all, talk mevitably shifted to-you guessed it right-golf.

"Today, the caddle of my lellow competitor lifted my ball sitting beside a tree and then told me to hit it with the tree not in play," Maru said. "I got back my ball, replaced it to its original position behind the tree and, from a stymied position, I bit it. Somebody said afterwards that the caddie's player ought to be penalized for hfting my ball."

Jake and I pulled out the Rules book from our pocket. Rule 18-4 in stroke play says, "if a fellow competitor, his caddle or his equipment moves the player's ball, touches it or caus-

Fil's Flight B (it was 6th), came SPECTATOR ... out in the INQUIRER on Wednes-

"We got heckled left and right by our friends and fans alike," said Maru. "One said, 'gumastos pa kayo sa bonggang anibersarya ng Eat Bulaga! Pero nagkalat neman kayo sa golf."

Turned out that 56 was the total output of Maru, Nelson and Noel, which means the scores of Tito and Vic, who finished late in the day, had been left out.

But what really hurt was the item in the story that Tito and Vic played badly so that their scores were not registered," said Maru. "The truth is, Tito was the team's top scorer that day and Vic was third best. Today, Tito is our top scorer again and Vic third best anew."

The correct scores were printed in yesterday's issue of the In-QUIRER but even before the erratum came out, I had to apologize to Maru in this night of nearwantry chill at the BCC veranspot that Nelson deemed was

"When Tito learned about the error in the news report, he advised us to just stay cool," said Maru of his brother, the former senator of the republic.

From his hotel room, Vic also relayed his dismay to me through the cell phone while I was at the verandah. But otherwise, he also took things in

"Nabukulan kami sa kantiyaw but after talking to you, I felt better," Vic said. "A recufication player to do a thing against his would solve everything."

Bottom line is, the Sotto brothers really played it cool amid the hecking and booing. Tuesday when the truth was, the No fuss. No hysteria.

I have known them for years to be that way, even when anythat Eat Bulaga-Macabud was one of them was under the most 12th among 13 teams entered in trying of times.

Horsemen demand Dilag's resignation

A BIG group of disgruntled horsemen, some with their horses in tow, picketed the Philippine Racing Commission office yesterday to demand the resignation of Philippoon chair Jaime Dilag and his five commissioners over the mandatory Equine Infectious Anemia (EIA) testing issue.

Bearing placards denouncing the Philracom's alleged unlawful order on the EIA testing, the protesting owners and their supporters marched from the Santa Ana Park to the Electra House to dramatize their disgust over Dilag and Co.' for their reprehensible indifference to the plight of industry players like owners, jockey, trainers and grooms they should be protecting above all."

Some 300 owners, trainers, grooms and supporters joined respected businessmen-sportsmen William Dag, lawyer Narciso

BAGUIO City-With lineups that could easily pass for national squads, Nike Golf flexed its might in both divisions at the start of champlonship play in the 55th Fil-Am Golf Invitational Thursday, opening up huge leads to set itself up for a twin-kill this early.

Jay Bayron and Jun Bernis both signed for three-under 66s at John Hay for 39 points each, as Nike pooled a 149 total to zoom ahead by 14 over Southwoods in the Fil category despite getting a quiet 36-level 69—from ace Juvic Pagunsan.

Boyer Saragoza turned in a 35 and Abe Ros-

at the par-61 Baguno Country Club got an even 36 points from Tommy Manotoc and 32s from Ronme Torrecampo, JR Tanpanco and Dave Hernandez for a 132 total and a 13point cushion also on Southwoods.

Matthew Manotoc's 30, which could have spearheaded any other team's output, did not a 31 and Francisco Lopez a 28 to round out count for the Nike Am team.

Gene Bondoc and Jun Jun Plana both carded 70s worth 35 points for Southwoods, which only got a 33 from former RP Amateur champ Artemio Murakami and a disappointing 31 from national team rookle Michael Bibat that was thrown away.

Junior standout Tonlits Asistio was the al's 32 did not count for Nike, whose Am team fourth-best scorer for Southwoods with a 32.

Defending Pil champlon Mizuno got the day's highest score, a medal 65 for 40 points, from Marvin Dumandan, but not the support from the rest of its lineup as it struggled with a 131 for third place.

Laurence Negrido had a 32, Brwin Vinluan the Mizuno score. Raymund Sangif's 21 did

Del Monte, the reigning PAL InterClub champion, was a farther four points behind at fourth after Louie Dacudao churned out a 70

"The boys are determined, and that's nice." said Manotoc, returning to the event after several years because of a ruling dispute.

GIRL MOM EXPECTS A BOY IN JANUARY

made Osang's daughter oregnant but they're

THE 16-YEAR-OLD father-to-be

By Nin! Valera

OLO Revilla, 16, son of Sen. Bong Revilia actress Lam Mercado, has made Rosanna Roces' daughter, Grace Adriano, 15, pregnant, according to the boy's mother.

Grace is already eight months pregnant and is due to give birth on Jan. 15, according to Lani, despite Osang's consistent and angry denial earlier.

"But the two will not get married," Lani told Inqueses Entertainment last Wednesday. "They are both underage. They can decide later if they want to get married."

Grace is expecting a boy, Lam said, ching the results of ultrasound tests the girl took last Mon-

In a phone conversation with Rosanna, the former talk show

host said she had wanted to break the news of her daughter's pregnancy to the public on her birth-

day last May. "Actually, I am so happy about the baby," she said in Filipino. "I wanted to announce the coming of the baby myself. But what happened was the news became an ugly rumor even before I could announce it."

Osang is referring to her battle with former manager Lobt Solis and former friend Dr. Vicki Belo, both of whom Osang had accused of starting the rumor about Grace's pregnancy. The skirmish has led to a court battle among the carties.

The actress had also consistently denied that Grace is pregnant. She apologized to Inquirer Entertainment for keeping the truth

"I'm sorry I did not admit it then," said Osang. "The incident was blown up into a vicious issue. I just wanted to protect my daugh-

would have been best if there anybody when the rumor about were no rumors, just my announcement. But things got out of hand when people started talking

Osang and her husband, Tito Molina, who had been together for 10 years, separated last Monday. Osang said the separation is for good. Sordid details of the split were published in a tabloid last Wednesday.

Lam said it took her this long to admit that she and Bong would soon he grandparents because they were respecting Grace's wish that the pregnancy be kept a secret because she wanted to go to school. Lam also claimed that they denied the pregnancy at the time they were interviewed about it on TV because Jolo had not yet ad-

mitted it to them. "We found out (the truth about the pregnancy] only after we talked on TV" Bong also told in-OURER Entertainment over the

Lani said Jolo had told them about the pregnancy after that TV interview. She said her son had also requested that they keep the pregnancy to themselves because Grace was not yet ready to admit it

From the start, I was worned about Grace and the baby," Landivulged. "She was just locked up

ter from the repercussions. It in her room and refused to see her pregnancy spread. Through Jolo, I was trying to open doors for her. I told them, Grace could still go to school even if she's pregnant. She could take up borne study courses or take classes through the computer. Everything was really up to her."

Lani said she and Bong would stand by the children even if they had decided that it was not the right time for them to get married. Jolo and Grace, being minors, still need parental consent to get mar-

"I had a serious talk with Jolo when I found out about the pregnancy" Lani confided, "I told him he has to be responsible for their child. He would be the one supporting the baby. But Bong and I would help if he needs it."

Jolo has a two-year contract with ABS CBN, Lant said Jolo has a decent income from show biz and would be capable of supporting the child. But she said she still has to discuss her son's case with Maion Santos, SVP for Drama Production and Star Cinema.

Lami said she and Bong have maintained contact with Osang. She said they agreed to talk again about announcing the pregnancy last Monday. They were supposed to have talked again last Thursday. Eighteen years ago, Lant and

ROSANNA claims she almost told the truth earlier.

Bong had found themselves in the same situation. Lant was 18 and Bong 19 when they got married in the US because Lam was pregnant with their eldest son Bryan. Jolo is the couple's second child.

"Our situation is different," Lani said. "We were more mature then. We wanted to get married, and we. had to get our parents' consent. We couldn't have gotten married if we did not have their permission."

Osang herself went through the same experience as Grace. She was an unwed mother to Grace and Onyok before she started a relationship with Tito.

The actress also told INOURER Entertainment that she and Tito

I packed his clothes myself and told him to go," said Osang. "Unfortunately, he took two pairs of

LAN! says she's concerned about Grace.

pants that belonged to Onyok. My son cried, not because Tito left, but because he took with him his pants."

She said Tito was hooked on drugs and had spent some of her money and had mismanaged her businesses, including an auto detailing shop on Katipunan Avenue in Quezon City. Tito was also in charge of Osang's farm in Antipolo, which is now the subject of a rightof-way dispute between Osang and local government officials.

"He even touched the trust fund for Grace," said Osang of Tito.

INQUIRER Entertainment could not contact Tito, whose cell phone number has apparently been

Asked where Tito could be found, the feisty actress said: "Sa kanglangan [In the trash] "

ter of Miguel (Ryan Agoncillo). A

Yuletide Season at The Waterfront Cebu City Hotel

DECK the halls with boughs of holly, 'tis the season to be jolly! It's Christmas once again, doesn't time go by in a blink of an eye. To start of the glorious season's events, Waterfront Cebu City Hotel and Casino (WCCHC) held their Ceremonial Lighting of the Tree last Nov. 30. This ceremonial tradition commemorates the start of a jeweled Yuletide season at WCCHC with events that are sure to guarantee happy holidays. Visit Santa's Cos-

ner at the hotel's patisserie and boulangerie, Madeleine, and whisper your wish list to Santa 'cause he'l) be waiting for you every Saturday from Dec. 4 to 18. Wish Upon A Christmas Tree, still at to 25, where you can make a wish and hang it on the Christmas Tree. In return, you get a yummy Yuletide cookie! Complete the Misa de Gallo at WC-CHC's Mezzanine Poyer every 5 a.m. Afterwards, get a bite at the Lobby Lounge's Bibingka and Puto Bumbong Corner which opens at 4 a.m. on Dec. 16, on the first day of the Misa de Gallo. Bask in the Christmas spirit as you enjoy 9 Days of Christmas Carols which starts at 6.30 p.m. at the Lobby Lounge from Dec. 16 to 24. Celebrate Christmas with the Misa de Agumaldo on Christmas Eye at 10p.m. at the Arctic Room and enjoy a Puppet Show on Christmas Day at 3 p.m. at the Lobby Lounge. But waitl Have a post-Christmas indulgence with Madeleine's Yuletide Bake Sale on the Dec. 26.

Only half a minute to shine

THERE'S a new show on the AXN cratic but self-destructive com-Channel that could be worth the idle channel surfer's while: Titled "30 Seconds of Fame," the "talent" show gives its contestants ter (or worse), and gives its conjust that-at most 30 seconds to get on the good side of the bitchy studio audience, and thus romp stage. off with the P25,000 top prize for each show.

that everybody was entitled to his 15 minutes of fame. That was his way of observing that the world had become so obsessed with media, and media used up people's lives so quickly, that "fame" had become an exceedingly demo-

modity in modern life.

Well, "30 Seconds of Fame" has taken Warhol's concept one bettestants only half a minute to shine-or be hooted off the

The key is the studio audience's power to applaud or pul-Decades ago, Andy Warhol said verize any and all of the "talents" who subject themselves to its completely subjective verdict.

The audience's decisions are so whimsical that contestants shouldn't take them personally, and viewers shouldn't take them seriously! We should simply re-

VIEWFINDER Nestor U. Torre

gard the competition as frivolous and bitchy "entertainment," and let it go at that.

To be sure, the show does unearth the occasional genuine talent, like the man who practiced for 10 years so that he could play tunes on a portable electronic keyboard-not with his fingers, but by hitting the right keys with

Now, that takes not just talent, but also incredible discipline and concentration. Instructively, however, while the innovative musician did get into the finals, he didn't win the top prize.

That dubious honor went to a hippo in heat—which just goes to show that the studio "jurors" aren't exactly big on subtlety.

That being the case, most of the contestants choose to unveil, not real talent, but weird acts like the grandma who does rap, the gymnast who drapes his legs

around his shoulders and walks on his hands, and the man with an amazingly malleable nose.

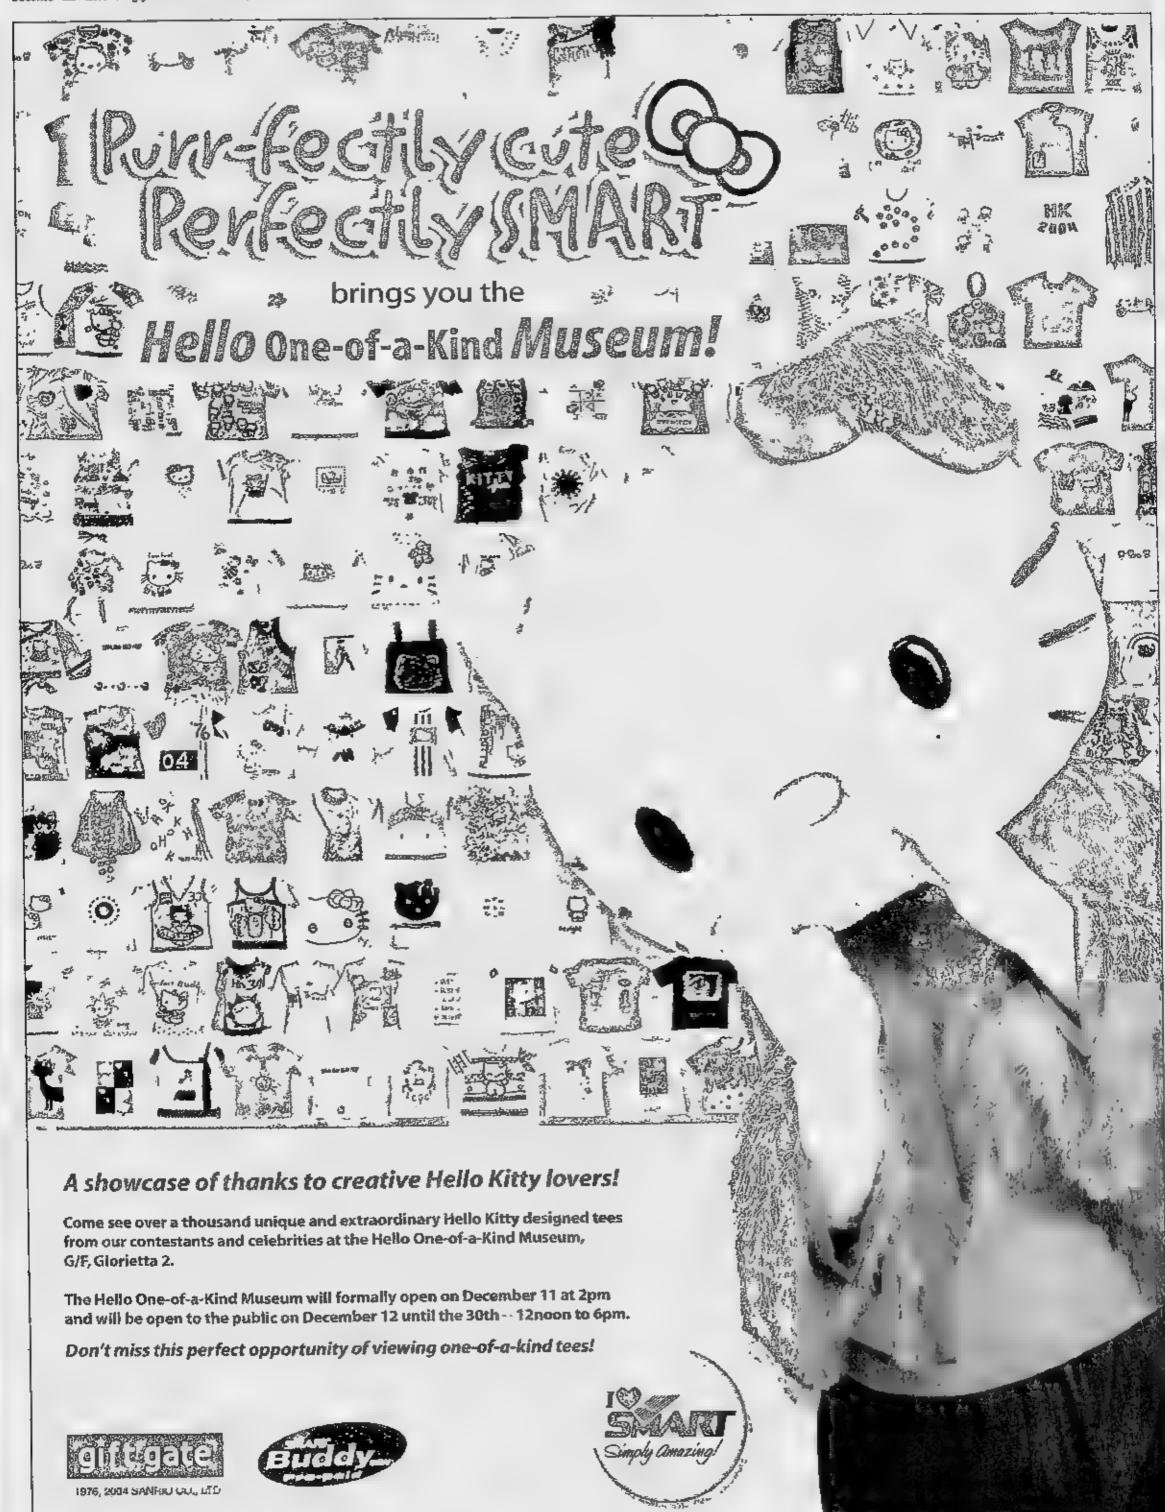

That sort of goony "entertainment" brings out the worst, not just in the performers, but in the studio audience as well. After a while, the show's set begins to huge woman who belted out a look and sound like today's versong with the lung-power of a sion of the Roman Coliseum in ancent times, when early Christians were ripped limb from hmb by vicious lions, to the even more vi-

cious crowd's screeching delight. So, except for the genuine talents it occasionally showcases, "30 Seconds of Fame" is generally weird viewing experience-which is ok for viewers who want a little weirdness in' their lives, but eventually a turnoff for other others who find it ultimately demeaning for everyone concerned. To which group would you belong?

'Peter Pan'

TRUMPETS announces that prices of tickets for its Christmas musical offering, "Peter Pan and the Time Machine," have been reduced. The musical show will be staged at SM Megamall Cinema 10 on Dec. 11, 12, 18 and 19

The musical tells the whimsical ONLY/A30

Big wedding in Lubao for John Lloyd and Bea

By Army Mosura Contributor

SURPRISING but true-December, not June, is statistically the biggest wedding season for Pilipinos. It is no surprise, then, that fiction follows fact with the romantic ABS-CBN teleserve "It Might Be You" ending with a big wedding. This has taken the all-ster cast, led by John Lloyd Cruz and Ben Aionzo, all the way to 402-year-old Lubao Church in Pampanga for the final day of shooting

Atthough the producers are keeping under wraps the entire sequence of events leading to, and from this climactic wedding scene, the staff and crew have no problem discussing their feehings about the show's conclusion. Maybe it's because they are on day 3 of a merathon taping, and everyone's feeling a strange mix of melancholy and giddiness.

They are making preparations for the wedding scene just past midnight on Wednesday, Dec. 8—the exact date that "It Might Be You" made its prime time debut a year ago.

Twice 'married'

"I'm only 17, and I've worn a wedding dress twice already!" says Bea Alonzo, whose high spirits, she notes, hide her real feelings about the teleserye's conclusion. "I'm feeling a lot of sadness, now that it's finally sunk in that we are on our last taping day. We were all at dinner break just a couple of hours ago, and for some reason, we had a little nosta gra festival -we were talking about all we've gone through over the past year. Remember when this happened? And when Tiro Pip did this or that?"

Bea, who's currently working on a film that teams her up with another ABS-CBN heartthrob, Pioto Pascual, admits that her closeness with costar John Lloyd Cruz may be a great factor in her wistfulness over the show's end.

"I've matured a lot in the past year, and my relationship with Lloydy reflects that," she says. "We've been working together for three years, and iba talaga yung kakulitan niya (his playfulness is something else). I have to say i'll miss that, now that we're no longer going to see each other on a near-daily basis. But I'm confident that we'll again be working together very soon. I just know it."

He's upbeat

John Lloyd, on the other hand, is taking a characteristically upbeat attitude toward his separation from the "It Might Be You" family, and his "hopefully temporary" separation from Bea. "I'm actually very happy for Bea, because it's a step toward maturity for her, and for me as well," he says. "While over this year, Bea and I have had a successful series, and completed a movie that fans really supported, I honestly think this move by Star Cinema is brilliant, because it avoided creating any unrealistic expectations about any project that would team up Bea and me again. It was a good time for a break, and even if I'll ready miss Bea, I have no complaints."

Gilbert Perez, director of the acciaimed film "Jologs" who co-directs "It Might Be You"along with Don Cuaresma and Retchse del Carmen-has been given the unenviable task of megging this P2-million sequence, which anyolves thousands of white roses, 800 extras in formal wear driven in from Manila, and complete wedding outfits for all members of the main cast.

"What I'm proudest of is the fact that we ended the series on our own terms, with the ratings still high and the story still strong," Perez nores. "What we're aiming for is to reach the exact note of romance and destiny that we wanted to but when we began."

Seven drafts

Not that it came easily, reveals Josel Garlitos, one of the senes writers. "We went through seven drafts, and a whole lot of really wild endings. We were trying to go back to the original BIG WEDDING/ AJ4

BIRTH

her music and life as a performer. A compilation of remakes from several eras, it presents the woman that Pops has become.

The first single;
You / Take my Breatke Away," originally/fione by Rex Smith, is the most outstanding. Other endearing tracks indude "Fallen," "Be-

soned producers and

AT 17, she has worm two wedding gowns.

Big wedding...

From page A33

peg as a fusion of the teleserye and the newer, more eccentric chinovela genre. In trying to avoid all the soap clichés, we presented out-of-the box ideas." These include ending that harkens back to the Cie.o (Bea Alonzo) character's love of movies, where it's revealed that the past few months were just part of a film that Cielo and Lawrence (John Lloyd Cruz) are watching. A downbeat option has Cielo and Lawrence meeting up in heaven. And there is one where Lawrence becomes a stone statue. Finalty, ABS-CBN mauagement and the series' creative team decided that a wedding would be the most satisfying filmsh, And so 8 church was found, and a final story line was polished.

The stars and staff take a lot of pride in saying that the show made them a family, and it's easy to see the proof in their actions. Jean Garcia, who plays Cielo's long-lost mother Orlanda, fusses over Bea's gown as she prepares to walk down the aisle, and finally helps arrange Bea's veil herself. On the other end of the aisie, Tirso Cruz III, who plays Ciero's father, the repentant politico former Trinidad, Emesto cracks lokes to keep the cast members' spirits up at 3 a.m. And Lani Mercado, who plays Farrab, Lawrence's burth mother, maintains easy rapport with friend Jean Garcia from across the makeup table as they both get their game faces on

Eye opener

"Tve been here such a short while compared to the other members of the cast, but it's been a very reievant two months for me," notes Lani. "Personally, I love the people I work with. Professionally, it's my first time working in an ABS-CBN show, and ler's just say I've never gotten this much reaction for my work. I even get text messages from Canada now, from people who see the show on TFC, I never knew people could be so affected

Grammy goes real-life

LOS ANGELES—The Grammys have gone autobiographical.

Kanye West raps about religion, his fears and his own greatness. Usher steamed up the charts with songs about sex, affairs and breakups. Alicia Keys sang about aching for love, confiding secrets and imagining a different future for herself.

Their reward for the tell-all music—a collection of Grammy nominations Thesday, 10 for West and eight each for Keys and Usher.

After last year's glossy pop, rap and rock led by OutKast's Grammy-winning "Hey Ya!," all three of these artists energized the charts this year by exposing deeply per-

sonal emotions, ideas, desires, flaws and in-

securities.

"I think we all put a piece of ourselves, if not all of ourselves.

—I know I put every single inch—into my music, my songs, my production and everything. I think that's something that can be said for all three of us," Keys told The Associated Press.

Top contender

Producer-turnedrapper West led all Grammy nominees and scored a bid for album of the year for his debut "The College Dropout," which stood out in the rap .andscape because of its atypical prose. It avoided the usual piotlines about sex, money and violence and touched on everything from his faith to his fears of failure and other cases from his afe

He also had a nomination for best new artist and shared a songwriting bid for song of the year with his religious hit "Jesus Walks."

The performer is known for bragging. In the press room at the recent American Music Awards, he claimed he was "definitely robbed" when he picked up no trophies.

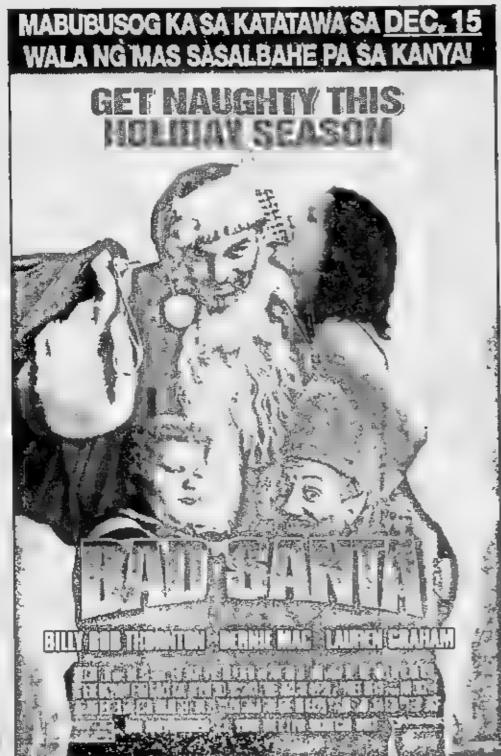

Even his braggadocio style may mask his insecurities. "I'm scared of getting 10 nominations and losing, it's happened before," he said after helping announce the Grammy nominees at the Music Box Thearre in Hodywood,

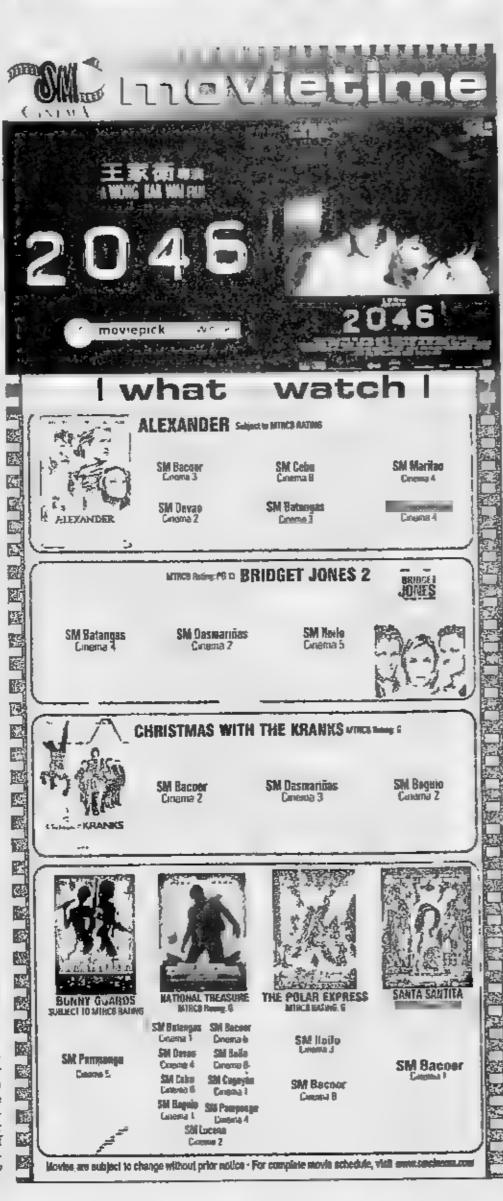

Ray in the race

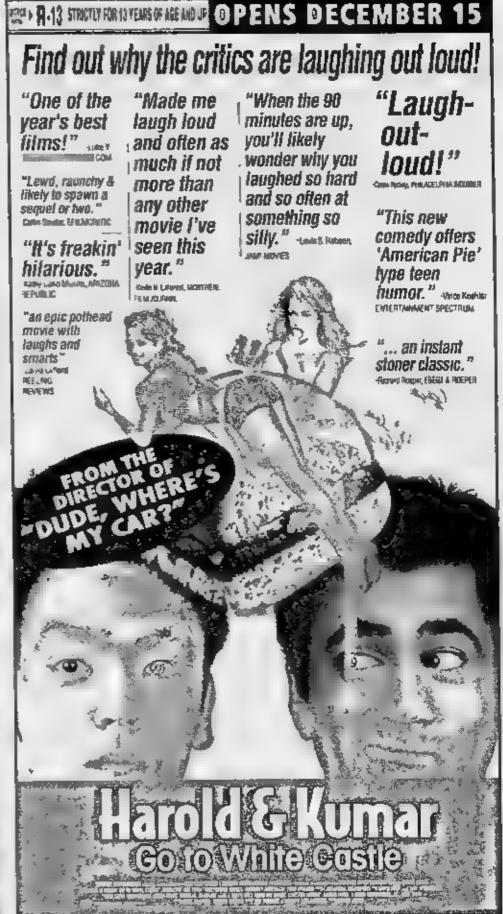

West also was appropriate and regretful over the way he reacted at the AMAs tast month "I should have accepted that more gracefully, i'm really ashamed of the way I reacted to that situation."

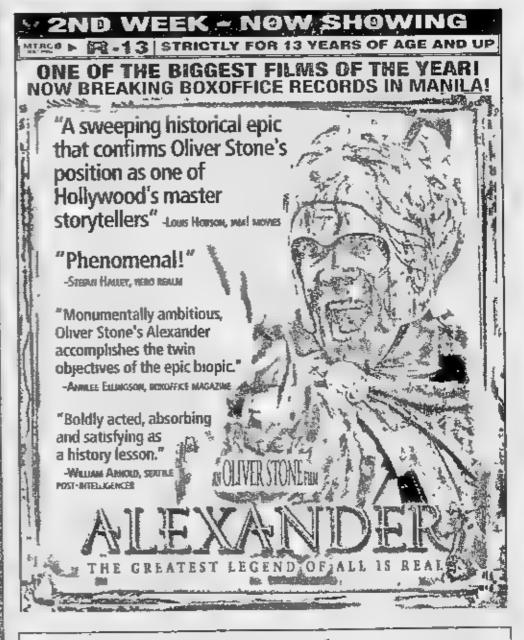

Haif of West's 10 nominations were in the rap field, including best rap album. He competes against himself in the best rapcollaboration with the songs "Slow performed Januz," along with Twista and actor-singer Jamie Foxx, and "All falls Down," which he performed with Syleena Johnson.

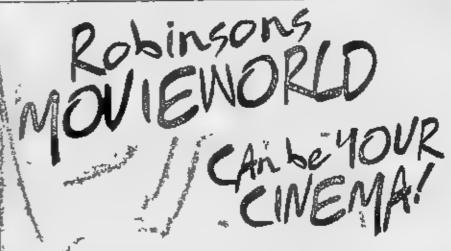

The eight respective nominations for Usher and Keys, who collaborated on the hit "My Boo," included album of the year for Keys' "The Diary of Aricia Keys" and Usher's "Confessions." AP

ENTERTAINM H'wood's most powerful and highest paid women

LOS ANGELES-Walt Disney' Company's Anne Sweeney was named Hollywood's most powerful woman on Tuesday, thanks in part to a few "Desperate House-WIVES."

Sweeney surged to No. 1 from 17 last year on the Hollywood Reporter's "Women in Entertainment Power 100° list due mainly to herpromotion in April to co-chair of Disney Media Networks and president of Disney-ABC Television Group, which is staging a come-back with hits like Desperate Housewives" and "Lost."

"Anne Sweeney has a bigger job than any other woman work ing in television today. She's raken the broadcast world by storm, supervising an almost unbelievable turnsround for the ABC network in a mere eight months," said Christy Grosz, executive editor of the Hollywood Reporter's specia: Power 100 issue

Sweeney did not develop or approve the two shows, but analysts said her team's aggressive marketing efforts had made them

Following Sweeney on the list was last year's top-ranked female executive, Arny Pascal, vice chair and Motion Picture Group chair for Sony Corp.'s Sony Pictures Entertainment.

Ranking third was Nancy Tellem, president of Viscom inc 's CBS Paramount Network Television Entertainment Group, fol-

SHARES yester-

day st pped ied by number two phone firm Globe Telecom after a newspaper reported that Moody's ratings agency was considering cutting the country's rating by two notches in Febru-

The JS-based ratings agency last month put Philip-

pine sovereign debt-elready two notches below investment grade—on notice for a ratings out.

it also put Globe, top phone firm PLDT and 11 of the country's major banks on review for a downgrade.

Globs, which is jointly owned by conglomerate Ayea Corp. and Singapora Telecommunications, fell 2.07 percent or P20 to P945, dragging the main index 7.5 points or 0.42 percent lower to 1,793.68 points.

its chief rival Philippine Long Distance Telephone Co. (PLDT), which is a quarter-owned by Hong Kong's First Pacific Co. Ltd., dropped P5 to

"Since Globe and PLDT was specifically mentioned as those that would be adversely affected by Moody's cut, they were sold down,"

said AB Capital Jose Vistah Moody's out the Philippines' long-term currency rating to Ba2 from

Bet in January and maintained its negative outlook. On Tuesday, London-based ratings agency Fitch out its outlook on Philippine sovereign debt to negative from stable, bringing it into line Reuters with Moody's rating.

By Michelle V. Remo

THE WORLD Bank has urged the Arroyo administration to concentrate on pushing for "quality" fiscal reform measures, saying that rushing the passage of cheaper but less contentious measures would not help the country get out of its fiscal mess.

Country Director Joachim von Amsberg, the government's economic team should not allow threats of a credit-rating downgrade compromise the Arroyo administration's revenue-raising

Economic officials are moving to hasten the passage of the Arroyo administration's proposed

According to World Bank fiscal reform bills, at times by drafting less debatable versions, following warnings that the country's credit rating would be downgraded if none of the measures would be passed within the

> Ratings firm Moody's International Service eartier warned that the Philippines could have its credit rating downgraded if no

measure was passed within the year. Visiting representatives of Moody's finished this week their review of the Philippines' fiscal situation and economic policies, and are expected to issue a decision on the country's credit rating by February.

The government should focus on the big picture. It should look beyond warnings by rating agencies, and concentrate on what needs to be done to bring back investor confidence," Amsberg said in an interview after Tuesday night's signing of the World Bankadministered \$200,000 grant for SARS prevention at the Department of Finance.

Earlier, the DOF revised Its original proposa, of the sin taxes bill and is now pushing for a watered-down version, after realizing that the original plan will have a difficult time breezing through Congress because of intense lobbying against it by cigarette makers.

The economic team was initially looking at P14 billion in additional annual revenue from the original sin tax proposal, which seeks a 30.1-percent increase in tax rates in the first year of the law's implementation. But the latest DOF proposal seeks only a 12-percent and 40-centavo in-

Vehicle sales dip 5%; Toyota keeps lead

By Ronnel W. Domingo

VEHICLE sales dipped for the first time this year by 5 percent in the first 11 months mainly due to a delay in shipments of stock, particularly of passenger cars

industry sales from January to November reached 79,869 units compared to 84,290 in the same period last year.

In a joint report, the Chamber of Automotive Manufacturers of the Philippines (Campi) and the Truck Manufacturers Association (TMA) said a 12-percent decline in car sales for November as against that for October pushed down total sales.

A total of 2,756 cars were sold last month against 3,133 units in October.

So far, all units sold accounted for 91 percent of the 87,600 sales forecast for 2004. Local assemblers need to sell a total of 7,741 units in December to meet the target

Campi and TMA originally hoped to sel. 100,000 units this year but revised the number, cating the unfavorable economic situation

Ombudsman Simeon Marcelo (left) asks leaders of the American Chamber of Commerce of the Philippines, sed by executive director Robert Sears (right), to help the government fight corruption by making their members serve as monitors and volunteers who will help entrap and expose corrupt officials. Marcelo was the chamber's guest in its monthly regular meeting. With Marcelo and Sears is Baron Buck of American Security Systems International.

'Botika' program kicks off

is starting next week an aggressive program meant to provide the public basic essential drugs, according to the Philip-International р∠де Trading Corp.

PITC chair and executive officer Roberto Pagdanganan said la a briefing yesterday that the medicines would be sold at five to six times lower than prevailing market rates through the "Botika ng Bayan" program.

Pagdanganan said the program was aimed at reducing the cost of medicines commonly bought by the poor by half of their 2004 prices within six years.

Through the Botika project, a network of privately-run drug stores would be set up to provide products guaranteed by the Department of Health and the Bureau of Food and Drugs.

"Each outlet must be accredited by the DOH/BFAD," the offi-cial said. "Supplies would be bought from drug firms operating here and abroad."

The first Botika outlet will be maugurated next week at the PITC head office Tordesillas along Street in Salcedo Village, Makatı City.

More outlets will be opened initially in other parts of Metro Manila

"Around 300 outlets would be established in nearby key cities and towns,

Pagdanganan said. As for the pricing scheme, he explained

By Clarissa S. Batino

PHILIPPINE Airlines, the flag carrier once notorious for its flight delays, now claims that its flights are on schedule 90 to 95 percent

of the time. "We are hitting our target of flying on schedule 90 percent of the time for international flights, and 95 percent on domestic flights," PAL president Jame For most part of the year, PAL's Bautista said. "Our numbers have on-time performance had been been improving in the last three

Cebu Air Pacific of the Gokongwei Group was the first local airline to claim a 95 percent on-time performance, Cebu Pacific officials said the company had sustained its record.

PAL reported a net profit of P1.44 billion in the first half of

against a net loss of P1.09 billion tween 30 and 45 minutes so the a year ago. Of the amount, P204.13 million came during the July to September period against a net loss of P383.79 million last

The flag carrier had started forging new fleet leases. A 156seater Airbus A-320 arrived on Dec. 1 and another one is expected in the middle of the month.

For most part of the year, PAL's slightly below the standard of 85 percent on overseas flights and 90 percent on local flights. Bautista admitted that PAL used to rate poorly in this area compared to its closest rival Cebu Pa-

schedule, PAL started reducing the turnaround time in the

planes could come back earlier to Manila for the service checks and maintenance.

PAL also reviewed flight schedules to improve the utilization of its planes. The PAL chief said the company wanted to use each aircraft for more than seven hours a day.

Bautista focused on improving the schedule as soon as he was appointed to head PAL in late August.

He said that, in the past, PAL would always start the day with on-time flights. A delayed flight in the middle of the day would create a domino effect on later

He said PAL was now focusing on improving service to cus-To help improve its flight tomers, increasing productivity and enhancing efficiency.

"We owe it to our customers to

Bautista, "Customer service is now the priority of PAL and we are talking about end-to-end, from ticketing to delivering the passengers

and cargo to their destination." But to Improve efficiency, Bautista said PAL must first get out of rehabilitation so it would have more flexibility to improve

operations PAL had said creditors must allow it to get out of rehabilitation ahead of schedule so it could consider borrowing funds for expansion. The company's 10-year rehabilitation started in 1999

Asia's oldest airline, was forced to go into rehabilitation in 1999 following crippling labor problems and failure to settle debts totaling \$2.2 billion. The rehabilitation called for the infusion of \$200 million in fresh equity which its owner Lucio Tan provided.

Automatic Centre Makes Christmas Shopping **Easier On** Your Budget

It's already December, and Christmas is just around the corner. Have you afready prepared your Christmas list? Do you know what gifts to give your loved ones this Holiday Season? And would these fit your budget?

Finding the best gifts is tricky, and buying the coolest gifts at a really affordable price may even be trickser, but Christmas shopping can be made easier with Automatic Centrel

Automatic Centre understands the needs of the Filipmo people, and for this Season, you can now have the best appliances at guaranteed low prices through the Automatically Yours This Christmas! Shop for the best deals in appliances without the worries through our different schemes.

If you're working on a tight budget, Automatic Centre has home appliances and gadgets that are available for only P299 or less, or purchase bigger appliances for P299 for up to 18 months. Get kitchenware and electric fans for either P799 or less, or P1399 or less. Washing machines, gas ranges and flat screen TVs are also available at installment, for either P799 or P1399 for up to 18 months.

What's more, you can have the most amazing home entertainment products and more at 0% interest super installment! Major credit cards are accepted.

Now isn't this a great deal? You can now shop for the perfect Christmas gift for dad, mom and the kids without burning a hole in your pocket. For more practical Christmas shopping ideas, visit Automatic Centre until Jan. 30, 2005 and see what can be Automatically Yours This Christmas!

Automatic Centre now at Market! Market!

Automatic Centre, the country's pioneer one-stop shop appliance chain, recently opened a new store at the latest shopper's destination in Metro Manila - Ayala Market! Market!

Present during the opening ceremonies were Ms. Claire Ann Yap, SVP for Operations and Head Cards of HSBC; Mr. Francis Roxas, General Manager of Ayala Market! Marketl; Ms. Jocelyn Tan. Sales and Marketing Manager of Columbia Photo Sales Corp.; and officers from various appliance suppliers and manufacturers, credit card companies and different retail businesses.

Per DTI-NCR Permit# 5788, Series of 2004

PNOC-EDC sells shares to buy Napocor assets

By Abigad L. Ho

THE PHILIPPINE National Oil Company Energy Development Corp. (PNOC-EDC) will be floating 6 billion shares for private placement to help it raise enough cash to bid for the National Power Corp.'s geothermal assets to be placed on the auction block in August next

PNOC-EDC president Paul Aquino explained that the government-owned firm would follow the privatization model of Petron Corp., where the government retained a 40-percent stake in the oil firm, while giving up 40 percent to Saudi Aramco and 20 percent to the public

The government, through PNOC-EDC parent firm PNOC, held 10 bullon shares in PNOC-EDC. The PNOC board recently granted PNOC-EDC the authority to boost the existing shares to 15 billion through the assuance of S billion new shares. PNOC would also be selling 4 billion of its existing

Combining the 5 billion new shares with the 4 billion old shares to be sold, Aquino said there would be 9 ballon shares that would be made available to private entities and to the public

Of the 9 billion, 6 billion, or 40 percent of the total 15 balion PNOC-EDC shares, would be sold via private pracement.

According to PNOC-EDC estimates, the net value of the company's existing contract is around P3 50 per share, using a discount rate of 19 percent. At a discount rate of 11 percent, the shares' net present value would go up to

P6,60 per share, Aquino said a committee would focus on the private placement first as this would raise the needed cash to enable the firm to bid for Napocor's 150-megawatt (MW) Bacon-Manito (BecMan) geothermal asset in August.

Banco de Oro raises loan exposure in Meralco

By Dorls C. Dumizo

BANCO de Oro Universal Bank, the banking arm of mall magnate Henry Sy, bought from other creditor banks at least P200 mil-Hon worth of Manila Electric Co.'s

Banking sources said BDO was bullish on the long-term prospects of Meralco, which recently finalized a \$286-million debt restructuring deal with its creditors.

At least four creditor banks, that did not want to participate in the deal, sold out their exposure to BDO.

BDO, Bank of the Philippine Islands and Equitable PCI Bank are

Meralco's biggest local creditors. The utility firm earlier signed an agreement with 30 domestic and foreign commercial banks for

the refinancing of its \$288 milhon worth of obligations fallingdue in the next 24 months

The seven-year, dual-tranche facility is denominated in both the US dollar and peso. It will mature in 2011.

A banker said the restructuring would improve Meralco's cash flow. As such, the banker said the unity firm was now in better posttion to address about P17 billion worth of refunds to consumers ordered by the Supreme Court.

The foreign bank with the biggest loan exposure to Meralco was Cimbank, which was tapped to arrange the debt restructuring deal along with BPI

Under the restructuring deal, Meralco creditors will share in the mortgage trust indenture. For peso loans, the rate was 4 percentage points over the "passed on" rate by the state-owned Land Bank of the Philippines and Development Bank of the Philippines. DBP provided the wholesale lending facility to Meralco's

creditors. Earlier, Standard & Poor's Rat-

ings Services said it had given its "CC" long-term corporate credit rating on Meracco with positive implications, after the company finalized an agreement to extend the maturities of its debis. It said the rating might be raised by several notches if the company succeeded in restructuring its debt maturity profile.

Meralco delivers electricity to more than four million customers in Metro Manna and nearby provinces. The firm is 23percent owned by a venture of Spain's Union Penosa and the Lopez family's First Philippine Holdings Corp.

Bacnotan buys out partners in Atlas

By Elizabeth L. Sanchez

BACNOTAN Consolidated Industries Inc., the flagship company of the Phinma Group, is set to acquire the 37 percent share of a Danish group in subsidiary Atlas Cement Corp., raising its interest in the company to 90 percent

BCII yesterday said in a disclosure to the Philippine Stock Exchange that its board approved the purchase of ACC shares held FLS Industries, Denmark's largest cement equipment maker (27 percent) and Denmark's de-

ization Fund for Developing Countries (9.8 percent)

BCH said it would buy the additional equity in ACC for roughly P260 million, which would increase its stake from 53 percent to 90 percent. The rest is held by Trans-Asia Oil and Energy Development Corp.

The BCII board also approved the change in ACC's primary purpose from a cement manufacturing company into a holding company. The corporate name will be

changed to Atlas Holdings Corp BCII treasurer Roberto Lavinia

ed to sell their shares in ACC since BCII was getting out of the cement industry.

BCII earher sold its 27.3 percent stake in Union Cement Holdings Corp. to Cemeo Hordings inc. of the Holderfin Group. The sale brought in \$214 million in proceeds.

BCII instead decided to concentrate on the services sector, primarily on education, power, housing and financial services.

BCII has acquired 80 percent of Arroyo University in Cabanatuan City, Nueva Ecija, and is in

velopment fund, The Industrial- said BCII's Danish partners decid- talks to acquire a substantial stake in a medium-rise, low-cost housing company.

It may also study going into the healthcare business, the company official said.

BCII was founded by a group of industrialists led by the Escorer family in 1957 and was involved in the production, distribution and sale of clinker, cement and concrete products.

It also has an interest in the paper and packaging industry and has ventured into property development and the manufacturing of reinforced steel bars.

"This [the agreement] is, indeed, a resounding vote of confidence and staunch support on the strength, competence and integrity of ATI. More importantly, it is your affirmation ness and the capital markets,"

By Michelle V. Remo ECONOMIC officials are consid-

ering consolidating into one bill two proposals that aim to raise the government's value-added tax collections—increasing the VAT rate to 12 percent and the lifting of VAT exemptions.

An official of the Department of Finance said the country's economic managers were studyong whether it would be more practical to adopt a consolidated bill than push for two VAT related bills, considering the slow progress of the fiscal reform bals in Congress.

With only one consolidated bill, Congress will need less time to denance official who requested

There will be bigger and better perspective in efforts to rethe proposals are consolidated," the official said.

The executive branch is pushing for a reform in the country's VAT system, in the belief that the move will raise substantial additional revenue for the government.

show that increasing the VAT rate from 10 percent to 12 percent will result in P34 bidion in additional revenue a year The proposal to lift VAT exemptions enjoyed by cer-

liberate on the proposal, said the fi- tain sectors was estimated to yield another P10 billion a year.

However, the VAT proposals of-President Macapagal-Arroyo's economic officials are expected to face form the country's VAT system if rough saling in Congress because of strong lobbying against them by affected taxpayers.

Oil companies for instance warned that the lifting of their VAT exemption would force them to pass on the tax to consumers, who are already burdened by aclinitial government estimates celerating commodities' prices. The companies said gasoline prices would soar to over P30 per liter if the VAT exemption was lifted Pilipinas Shell said imposing a 10-percent VAT on fuel would

raise its price by P3.60 per liter

"Aside from oil companies, cooperatives are also making some noise against the plan to impose VAT on them," the DOF official said.

Cooperatives, which are citrently exempted from VAT, have submitted a position paper in Congress criticizing the plan to lift their VAT exemption.

But the finance department said the planned lifting VAT exemptions was one of the government's priorities in addressing the problem of poor revenue collection. The DOF said exemptions distort the VAT system which should have a wide base of taxpayers to efficiently check the tax chain.

Fiscal

From page B1

crease in the first year.

Amsberg said the DOP should stick to its plan of raising P80 billion in additional revenue a year from all of its revenue-raising measures, which include higher taxes and fewer fiscal incentives. He said compromising the amount because of opposition from affected sectors would negatively impact on the already strained perception of the Philippines by foreign investors.

"P80 billion is a good yardstick. The government should follow up on the implementation of programs that were laid out earlier," he said.

The Arroyo administration earlier came out with eight revenue-raising measures intended to solve the country's fiscal problem, characterized by the government's huge bud get deficit and burgeoning debt.

The measures include the rationalization of fiscal incentives, an increase in petroleum taxes, a higher value-added tax rate, lateral attrition for revenue-collecting agencies, a tax amnesty, a simplified net income tax, an increase in sin taxes, and a franchise tax on telecommunication companies.

Amsberg suggested that the executive aggressively push for a higher VAT rate because it was one of the measures that could generate substantial revenue for the government. He said a VAT increase was an ideal fiscal reform measure because the tax was equitable as it was not imposed only on a single industry.

'Botika'

that the PITC would enforce a maximum retail price policy for all Botika outlets.

At the same time, he said the facade of outlets would bear the "Botika ng Bayan" seal as well as the "Gamot na Mabisa at Abot Kaya" mark as a trade mark of guaranteed quality and affordable prices

In an earlier interview, Trade Secretary Cesar V. Purisima said the trade department would keep on importing cheaper medicines from India but that it was taking further steps to screen against counterfeits.

Purisima said the government has been successful in its efforts to bring in cheaper branded medicine and provide healthy competition to private drug companies.

The official said the government would likely stop buying drugs from India only if local manufacturers could offer the same quality and low price for the drugs.

Purther, the PITC last September signed with China's Biomedical Engineering Center of the Heber Medical University a memorandum of understanding on a \$25-million revolving credit facility for medicine and hospital supplies.

Under the MOU, state-owned Heibei Medical committed to supply PITC with quality drugs from China.

Vehicle sales . . .

and the influx of imported used vehicles.

Last month, the groups said they were optimistic of reaching the target considering the intensive sales, rallies, fleet sales and seasonal demand for the remainder of the year.

In the first 11 months, sales of passenger cars went up 45 percent to 30,129 units from 20,780 in the year-ago period.

Sales of commercial vehicles—Asian utility vehicles, light commercial vehicles, light trucks, and trucks and buses-went down 22 percent to 49,740 units from 63,434 units. From January to November, sales of AUVs

went down by 45 percent and of light trucks by 43 percent. Sales of LCVs grew by 18 percent and of trucks and buses by 4 percent In terms of total sales, Toyota Motor Philippines Corp. kept the lead with 33.6 percent of

the market. It sold 26,802 units in the first 11 months, up by 6 percent from a year ago. M.tsubishi Motors Phil.ppines Corp. main tained second place with 14.5 percent of the market, selling 11,575 units. But this repre-

sented a 16.9-percent decline in sales in the same period in 2003. Honda Cars Philippines Inc. came in third with 12 percent of the market. It sold 9,657 units from January to November, a decline of

31 percent from the year-ago period. In the passenger car segment, Toyota grabbed 46.4 percent of the market; Honda had 22.3 percent and Nissan Motors Philippines inc. had 7.8 percent.

Nomore.

Nilda, an incoming freshman at Araullo University in Cabanatuan, feels that her dream is now within reach. This year, the harvest has been good and this means that Nilda's parents are able to set aside more money for her college tuition fee. They know very well how much she wants to finish college and be a teacher or an accountant someday. Neither of her parents, both farmers, reached high school. "Ngayon dapat may diploma ka," Nikla says, "kung gusto mong mas maganda ang buhay mo."

By buying existing schools in the country's major cittes---from college down to elementary levels—the PHINMA Education Network aims to make quality education affordable and accessible to students like Nilda. By efficiently managing school systems, PHINMA seeks to upgrade the standards of education to levels comparable to Manila's colleges and universities. Now, whether Nikla will be Cabanatuan's pride, Is another story.

PHINMA Life Can Be Better

DOE inks contracts for development of 6 wind power plants in RP

By Abigall L. Ho

THE DEPARTMENT of Energy yesterday signed contracts with three firms for the development of six potential wind power sites with an estimated combined generating capacity of 140 megawatts (MW).

mit, the DOE signed contracts with group, will explore, assess, harness and Trans-Asia Renewable Energy Corp. and San Carlos Wind Power Corp. for one site gasman. The site has the potential to each, and with Philippine Hybrid Energy generate 25 MW of power. Systems Inc. (Phesi) for four sites.

Trans-Asia, a unit of the Philippine In- unit San Carlos, on the other hand, will

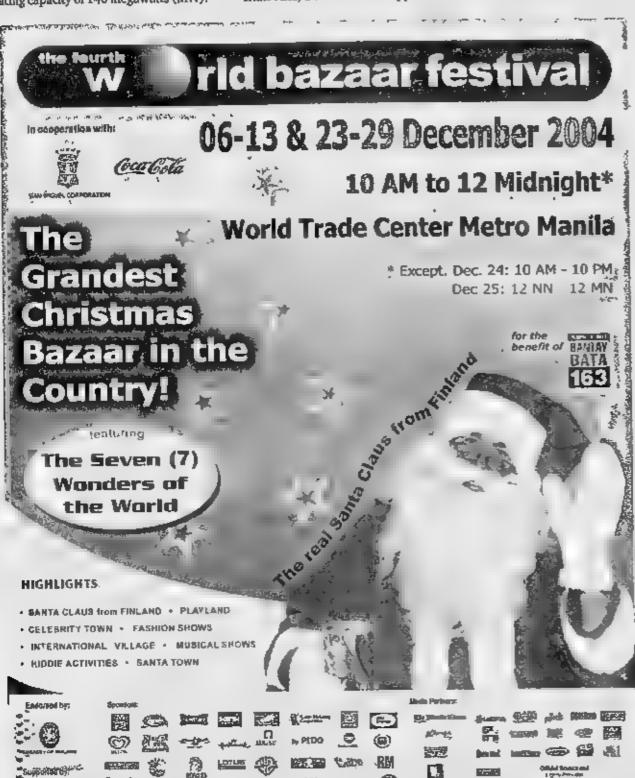

develop the wind potential in Sual, Pan-

Smith Bell Renewable Energy Corp.

During yesterday's Wind Power Sum- vestment Management Inc. (Phinma) be in charge of tapping and developing at, the DOE signed contracts with group, will explore, assess, harness and 30 MW of wind potential in San Carios, Negros Oriental.

This should come on stream by late 2006 to early 2007, with financial closure expected by end-2005, said Ruth Yn-Owen of San Carios.

Phesi was able to secure four sites for development: Marindaque, Baleno in Masbate and Tablas in Rombion, with a potential generating capacity of 1.2 MW to 5 MW each, wind in tandem with a diesel plant, and Abra de Ilog in Occidental Mindoro with a potential of 10 MW.

BROADBAND

In reforestation, lives hang in the balance

COMMENTARY

By Ernesto M. Ordoñez

prosecute the big-time ille-

LAST Dec. 8, President Macapaga,-Arroyo created a government task force to combat illegal logging.

"This morning, I gave (Environment) Secretary Michael Defensor, (Natural Resources Development Corp.) Chair Victor Corpus and (Justice) Secretary Raul Gonzalez one month to identify, investigate and

gal loggers, starting from the hardest hit disaster areas," the President

This is certainly a welcome move. Forest denudation and the absence of reforestation have resulted in hundreds of tragic deaths and shattered the lives of countiess others. This was what happened when Typhoons "Winme" and "Yoyong" recently struck the country.

According to the latest information we obtained from the National Disaster Coordinating Council yesterday morning, the toll of Winnie stood at 775 dead and 700 missing. With Yoyong, it was pegged at 67 dead and 38 missing. Many more dead and missing are expected to be reported in the coming days.

Impact on agriculture

What is not highlighted is the typhoons' devastating impact on agriculture and the farmers. As of yesterday, P2.4 billion in agriculture value was reported lost, affecting more than 200,000 farmers.

The less obvious reality is that the continuing destruction of our forests over the past decades has created havor on Philippine agnculture and our farmers. Soil erosion, siltation, flooding and the cascading of harmful materials into lowland agricultural areas have severely affected not only the current crop, but have also damaged overall soil fertility with its long term consequences.

In addition to the creation of a government task force to apprehend illegal loggers, it is imperative that another task force composed of government, business, farmers and fisherfolk be created to formulate an aggressive multi-sectoral reforestation plan.

Magnitude of the problem

The Philippines has a total of 30 million hectares, 14 million of which are alienable and disposable. Of these, approximately 10 million are developed for agriculture, while the rest need further development. The remaining 16 million hectares are classified as forested, although 12 million are already heavily depuded Each year, 200,000 hectares of forest are sampped and lost. Today, only 15 percent of the original forest cover in the 1900s remain.

If we are to progress, we not only have to stop forest denudation, we must also embark on an aggressive reforestation program. Instead of pinning the blame on private logging companies, small kningeros, the military, government environment officials, and even the New People's Army, we need to establish a multi-sectoral citizen's movement to take the positive action of reforestation. The govern- ronment and our future ment cannot do it alone.

Some computations

To reforest the heavily denuded 12 million hectares, we need to plant 6 billion trees. This is calculated at 500 trees per hectare. It is estimated that it costs P15 per seedling. Annual hoo.com or telefax 02-8516635)

planting and maintenance costs are P35 per tree per year Assuming the whole project would take 10 years, this would cost approximately P500 per tree, or P25,000 per hectare for 10 years. The entire project to reforest 12 mi lion hectares would cost P300 billion, or P30 bill.on a year

This is why the government needs private secfor involvement. But this kind of involvement

will not spontaneously occur. Government and private sector leaders need to come up with a

plan, for example, to convince 20 million out of our 85 million population to plant one tree per month for the next 10 years. By then, we would have planted 2.4 billion trees. This would cover 4.8 million hectares—e significant achievement

A promising option

A promising option was forwarded to Alyansa Agrikultura by farmer leader Butch Umengan of Philmaize and Kasanyangan Foundation.

There is a window of opportunity that was opened up by the 1997 Kyoto Protocols, This addresses the problem of globa, warming brought about by the excessive emission of greenhouse gases (GHG) such as carbon dioxsie (CO2). This legally binding international agreement to reduce GHG levels in the atmosphere will be enforced in and-February 2005.

In this agreement, developed countries will buy "certificates of emission reduction" (CERs) from the developing countries that conduct reforestation. If the Philippines does not register for this mechanism, we will lose the ability to avail of the funds. According to Umengan, we have neither registered nor prepared the project documents for registration. If we do not start this preparation by January of next year, we might miss the final registration deadline of Dec. 31, 2005.

Here is how the CER works: If we conduct a muxed tree plantation, this will capture about 36.7 tons of CO2 annually per hectare. At the current market price, the developed countries are legally bound to buy the CER equivalent of this at P10,000 per hectare per year.

Though the amount may start coming within three to five years after planting, it can provide the incentive necessary for more aggressive reforestation. This is especially so since the annual P10,000 per hectare will be on top of any additions, revenue to be obtained from the possible sale of the forest products and by-products. For more information on this, call 0917-7104811

Just as there is an urgent need to catch illegai loggers, so is there an equal need to plant trees. Reforestation affects the lives of the smal, farmers and fisherfolk.

CER registration and innovative private sector schemes should just be some of the matters to be considered for a multi-sectoral

Without this pro-active component, we will be forever on the defensive. We will then lose the life and death battle to preserve our envi-

(The author is chair of Agriwatch, a private sector unitiative, former undersecretary of agriculture and trade and industry, and former chair and Cabinet secretary for Presidential Flagship Programs and Projects. For inquiries or suggestions, e-mail agriwatchphil@ya-

CAP seeks SEC nod to draw P100M from trust fund

By Elizabeth L. Sanchez

COLLEGE Assurance Plan Philippines Inc. is seeking the Securities and Exchange Commission's permission to withdraw around P100 million from its trust fund to be able to pay the tuition fees of its scholars, said Bobby Café, CAP first vice president.

CAP came up with the proposal to settle its claims by using its trust fund after the SEC barred the pre-need firm from selling additional education and pension plans.

In order to preserve its trust fund, Café said, CAP would have to replace the amount to be withdrawn or substitute it with a portion of its Metro Rail Transit bonds.

To date, the trust fund is worth around P3.1 billion, down from P3.4 billion after the SEC earlier allowed the pre-need firm to use some of its MRT bond assets to settle nution claims of plan holders some months back.

Before the SEC would allow CAP to again draw from its trust fund, the pre-need firm should show that the funds were used to settle ruition fees.

Café said CAP would submit a list of bank checks issued to students and schools paid out with earlier funds drawn from its trust fund.

Café also said that the pre-need firm was still in the process of removing unclean titles in its proposed property-for-share swap with two firms, Green Circle Properties & Resources Inc. and Green Square Properties Corp.

The SEC earlier questioned the propertywhich expired last Sept.30. thare swap deal, saying that the titles to be

transferred are "encumbered" or aiready owned by the government to be distributed to farmers under a land reform program, an official of the commission said

Under that deal, Green Circle Properties & Resources Inc., Green Square Properties Corp. would subscribe to shares of CAP, and pay for these by assigning to CAP 3,000 hectares of property in Dingalan, Aurora

The two firms estimated the total fair market value of the property at P6 billion based on the evaluation of its external appraises, Cuervo Appraisers Inc. Through the property swap, Green Circle and Green Square would pwti 51 percent of CAR

The SEC has so far disallowed CAP from selling education and pension plans. SEC chair Fe Barin had said that CAP still

needed to address its twin problems-constraints on its solvency or capital and liquidity. Both are measures of how a company is able to convert assets into cush at a price close

to fair market values which can be used to meet short-term investments or liabilities. "We do not want to be a party to enabling them to sell more plans when they are stid

having problems meeting the requirements of existing plans," Burin said. CAP has yet to complete its proposal to raise its capital to P8 billion from the present

P300 million. The capital increase is a key requirement in its application to renew its dealer's license Allega Med Flow of a loid Collaboration of the Coll

BUSINESSFriday

The bare minimum (corporate income tax) - I

By Romulo S. Danao and Michael Dana N. Montero SGV & Co.

UNDER the 1997 Tax Code, a 2 or warehouse percent minimum corporate income tax or MCIT is imposed on a company when its taxable ncome is zero or negative or The 2 percent MCIT

is based on the "gross income" and fourth taxable year from the time when the company start-

ed its business operations. Like the other provisions of the Tax Code, the imposition of the MCIT requires certain clarifigations. In most cases, the BIR supplements the Tax Code provisions by issuing clarificatory implementing regulations. For MCII, the BIR .ssued Revenue Regulations 09-98 and Revenue Memorandum Circular 04-03 to implement the provisions of the Tax Code on MCIT

Since the MCIT is based on "gross income," one big issue is how to determine the gross income of a company subject to 2 percent MCIT. In Revenue Regulations 09-98, the BIR defined the following important

gross sales less sales returns, discounts and allowances and cost of goods sold Second, "gross sales" was clarified to include only sales contributory to moome taxable under Secnon 27(A) of the Code. Third, "cost of goods sold" was inter-rules for specific types of busipreted to include all business expenses directly incurred to produce the merchandise to bring them to their present lo-

cation and use On the interpretation of cost of goods soid, the regulations ceipts from interests, commiswent on to state that the composition of the same will de- ing activities. As already statpend on the type of business of

ng concern, cost of goods sold will mean the invoice cost of the goods sold, prus import dunes, and freight in transporting the goods to the place where the goods are actually sold, including insurance while the

goods are in transit. For a manufacturing concern, the cost of goods manufactured and sold means all costs of production of finished goods, such as raw materials used, direct labor and manu-

facturing overhead, freight cost, insurance premiums and other costs incurred to bring the raw materials to the factory

Finally, in the case of sales of services, the term gross income means gross receipts less sales returns, allowances, discounts when the MCIT is greater than and cost of services, "Cost of the normal income tax due, services" means all direct costs and expenses nec-

essarily incurred to provide the services is imposed beginning on the required by the customers and chents including (a) salaries and employee benefits of personnel, consultants and specialists directly rendering the service, and (b) cost of facilities directly utilized in providing the service such as depreciation or rental of equipment

used and cost of supplies.

While the efforts to clarify the general provisions related to MCIT proved helpful to taxpayers, there were still some issues left unanswered. Most of the issues centered around a more specific definition of cost of services for those engaged in the sale of services. For this reason, the BIR has once again. come up with a new issuance, Revenue Memorandum Circular (RMC) 04-03.

At the onset, it should be clanfied that RMC 04-03 "Gross income" is defined as dwells substantially on the area of cost of services and not so much on the gross receipts portion. To avoid confusion on whether a certain income item is included for purposes of computing the MCIT, RMC 04-03 has provided the following

First, for banks and nonbank financial intermediaries performing quasi-banking activities, gross receipts refer to the actual or constructive reaions, and discounts from lended, all other items treated as gross Income under Section 32 For a trading or merchandis- of the Tax Code that are not subject to final withholding income tax, are considered as gross receipts.

> The term "cost of services" refers to those that were directly and exclusively incurred for the following activities: (1) lending/investment of funds; (2) obtaining of funds from the public through the receipt of deposits; and (3) trading of foreign exchange and other financial instruments. (To be

Retailers set gold standard

By Tina Arceo-Dumlao

THE UNRELENTING pursuit of excellence, intimate knowledge of fickle customer tastes. Parahota over competition.

These are just some of the key ingredients that made the latest retail excellence awardees of the Philippine Retailers Association grow their businesses, from mustard seeds into mighty trees.

Video City

Despite the proliferation of cheap, pirated digital video discs in the market, Video City still managed to expand its network by 500 percent.

This could be partly attributed to Video City's affiliation with Viva Films, making it the only video chain that is fully supported by the local entertainment industry.

The company, thus, managed to grow its library into one of the most extensive and diverse in the industry, which it made available to the public at an affordable price.

This library and relationship with its customers won for it the outstanding retailer award for the services category.

Memo

Named the most promising retailer in the fashion category was

Penshoppe fashion family. It is one of the fastest growing in the industry and tries to differentiare reself from the market by designing clothes for men and women that can be worn in and out of the office.

Memo is guided by the same principles behind the success of Penshoppe—an eye for design and quality while keeping prices within reach of the ordinary Filipino.

The winner to the specialty caregory was HBC Inc., dubbed "The Home of Beauty Exclusives."

Following the long tradition of the Hortaleza family in the beau-

BAYO showcasta world-class Filipino design

ty business, HBC was again developed with the ordinary Filipinos in mind.

HBC believes that every Filipino wants to look good, not just those who can afford the cosmetics peddled by multinational companies.

Thus, it came up with a full line of affordable products, from Memo, the newest member of the growing to the growing to cosmetics.

And new product lines are constantly added to the portfolio, as demanded by its fast-growing

Folded and Hung

For the small scale fashion cat egory, Folded and Hung was adjudged the winner.

it won by a nose over other equalby successful fashion names that included leather products producer Fino and wumen's fashion firms Freeway, Her Bench and Pink Soda.

The way Folded and Hung expanded from its humble beginnings as a hangge stall in Greenhills still amazes founder Ronald Pineda, but it comes as no surprise to those who patronize his line of trendy clothes.

Regalong Pambahay

its vision to sell the best in local design and craftsmanship won for Regalong Pambahay the outstanding retailer award in the small scale, non-fashion more cury drug security one location.

It has become a byword among Filipinos who want to give their foreigner friends something of the Philippines to bring back home.

But it is not limited to the tourist market. Far from it.

It is also a maist-go-to place for locals who either want to add some life into their homes by putting in new accent pieces, or those looking for gifts.

Whatever their needs, Regalong Pambahay always strives to meet it, making it sipe for an even more rapid expansion in the next years.

Bayo

Chosen the winner in the medium-scale fashion category was Bayo, over compentors Celine, Kamiseta and Rusty Lopez.

Fair labor practices, worldclass services standards and eye catching window displays were among the factors cited by the IN IIS CATEGORY.

These are on top of its wideranking line of clothes that could show the world why Filipinos can give foreigners a run for their money in the race for design.

Sportshouse

Sportshouse was put up years ago, at a time when most Fil-

lpinos' sports vocabulary was largely limited to basketball.

Sportshouse helped contribute to the growing health consciousness of Filipinos, and it wants to be on top of people's minds when they go out looking for the latest in fitness equipment.

For its efforts, it became the unanimous choice for the award as outstanding retailer in the medium-scale specialty category.

Mercury Drug

Those who never bought medicine at a Mercury Drug store must either be someone who never got sick or has not been to the Philippines.

That is because after almost 60 years in the business, Mercury Drug has grown its branch network into one of the most extensive in the country.

It is by far the biggest drugstore in the country, and it grew because it has always been a step ahead of the compention.

From just simply selling medicine, Mercury Drug's services expanded to include providing health information, a frequent user card and even selling

grocery items. It is considered a "category killer" because it "kills" off the competition, especially if placed side by side in a mall or in

Mercury Drug is expected to continue its killing spree as it has no plans of keeping its eye off competition, despite its dominant presence.

National Bookstore

The same values are shared by Mercury Drug's fellow category killer, Nanonal Bookstore.

National Bookstore is the Philippines' largest bookstore chain and has been in operation for more than 50 years with over 40 branches.

k has cemented its place in the retail industry by offering the widest selection of books and school/office supplies under one

PRA president Bienvenido Tantoco III said these retail stores stood out from the rest because they have always sought excellence in everything that they do. They will not accept any less

"These retain firms are winners judges for naming Bayo the best because they are not in the market , to just get by. They are out there to win, not by destroying competition but by keeping customers in mind." Tantoco says in an interview.

He adds that these retail firms made a name for themselves because they found a niche where they are good at, and focused their time and energy into making their firms the best in that niche.

Going up against the giants in service marketing

Q: For our marketing paper, we (a group You're not in product marketing; you're in of marketing students) were able to get the cooperation of an SME drugstore with four branches in two cities of northern Metro Manila. The consolidated monthly sales of the four drugstores averaged about P1 million to P1.5 million The major marketing concern of the drugstore management is how "to maintain and grow its market share in a cluttered drugstore market that includes drugstore giants like Mercury." For our analysis, we are thinking of following your diagnosis of the Unitrade case that you discussed in one of your previous columns. That was about Unitrade's EQ Diapers and how it successfully competed against glants in its category and their brands like P&G's Pampers and Kimberly Clark's Huggies and Kimbies.

A: This was a marketing paper that was submitted to and evaluated by the senior

A drugstore is in service marketing. So avoid confusing product marketing with service marketing. Unitrade and its EQ Diaper brand is in product marketing. The practice of product marketing is very different from service marketing practice.

We know that you've heard that "the baalc principles remain the same." That is true but the trouble is it's one of the many halftruths in our discipline. A half-truth is misleading. If you do the half that is true in it, then you're okay. But if you happen to do the other half that is its imtruth, then you're In trouble. The effectiveness of your marketing practice is in its details of implementation, not in its proxiples. The real truth and the true marketing reality are in those details. The saying, "the devil is in the details," is a whole truth, not a helf-truth.

Categorize your business correctly

service assisteding. Remember: wrong categorizing of the business, wrong diagnosis.

Market share in service marketing

Let's start by considering your question regarding "market share." In product marketing, this refers to total market share. In service marketing where your sales are a function of your locations, market share is reckoned by location. So when you say you're concerned about growing "market share in a cluttered drugstore market that includes drugstore giants like Mercury," this applies only to those four stores where 'there is a nearby Mercury branch.

in service marketing, market share changes by location. That's where they are competing especially with the drugstore giants. They are not competing with Mercury in locations where they don't have a store.

Next, they have to be clear about the category of service marketing where they belong. Among the four categories that Chris Lovelock (the leading authority in service marketing), their drugstores belong to the "hybrid category combining more or less equal pairs of goods and services." A restaurant, a bookstore or a supermarket belongs to this category and so does your drugstore. Lovelock's three other service categories

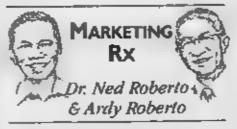

are as follows: "langible with accompanying services." category." Here's where computers and cars

 "Major service with accompanying minor goods category." Examples are airline

flight service and house cleaning service.

 "Pure service category" Here is where our own businesses belong: training service: and consultancy service.

We anticipate that you would probably argue that they are more like a car dealer

and therefore belong more to the tangiblewith accompanying services category more than the hybrid category. But they are already talking about the drugstore owners' concern for its drugstore "brand equity:" This is because they claim that their "drug line measures up to Mercury."

Positioning—Mercury example

Notice how Mercury's brand equity is pomisoning Mercury as the drugstore where "garantisadong gamut ay kagung bago" (medicine are guaranteed to be always new). This is a positioning of its drug retailing service; not the medication products and brands its stores are carrying. It is a service positioning that satisfies the two necessary conditions for a positioning statement.

First is the satisfaction of drugstore customers' priority drugstore service value of finding medications that are newly delivered or produced. Second is satisfaction by Mercury of that priority value better than any other compering drugstore.

If you're planning to do something about their drugstore's brand equity you must do something similar. You may want to start by finding out the drugstore priority values of their customers in each of the four locations. For this, you may want to apply the PDA question that we discussed in our Marketing Rx cohunn last Dec. 3. That should serve well and correctly your purpose here. Then, your next step is to diagnore the

drugstore's distinctiveness in satisfying their identified target drugstore customers' priorities in EACH of the four locations or

When you proposed to position their drugstore brand as providing a service that's giving "Alagang pang pamilya" (2 family-like care), this is confusing the "what" of a positioning with its "how." Giving "Alagang pang pamilya" is more about the "how" than the "what" of a posttioning. It's also about priority customer service value only without touching on positioning's second necessary condition:

Why are we encouraging you to diagnose for EACH of your four stores? Thar's because unlike Mercury who is positioning its sold drugs' for their "newness" value, you are more into the service value of family-like care. And the drivers of a satisfying customer service experience are very different from the drivers for a satisfying product experience, Let's refer again to Claris Lovelock. He says: "A satisfying service performance is like a good play in a theater: good actors (or service personnel), good stage set (or service venue, physical facilities, equipment, etc.), and good staging (or service processing)."

Now, here's what's key about these three drivers. You must satisfy all three together This is because they are multiplicatively, not additively, related. For example, let us say that the drugstore service staff gives familylike care (whatever that is), and their service venue has a family-like caring ambiance (again whatever that is). Both score a 10 on a 0-10 scale. However, your service processing is flawed (for whatever reason) and so scores a G. Your total score then comes our as: (10 in service personnel) x (10 in service venue) x (0 in service pro-

cessing) = 0. A dissatisfaction in one means a dissatisfaction in all.

Do you overpromise and under deliver?

Now ler's go back to the question: why do this diagnosis in EACH of the four stores? Let's take the case of our own service experience with two Honda dealership. When we used to have a Honda Civic, we had this car serviced at the Honda Alabang Dealer Shop. This Honda service center succeeded in maintaining the superior quality service that made Honda the envy of competing brands when it first opened its first dealership in Magallanes. Its service staff, the service venue and service processing were outstanding. Then, a year ago, we changed to a Honda CRV. We bought two CRVs and had them serviced at the Honda Libis Dealer Shop, In post sales servicing, it was the exact opposite of Honda Alabang. We've never mer a bunch of post-sales servicing staff (from counter clerks to sales reps and managers to its top management) who were as discourteous and arrogant as this bunch. The service processing was just as borrible. It overpromised but very disappointingly under denvered. Only the service venue scored well. So If you plug these scores into our total satisfaction equation, you will get: (0 in service personnel) x (10 in service venue) x (0 in service processing) = 0. We decided that we would have our two CRVs serviced at the Honda Alabang. Result? We got back to a delightful service

So check this out with each of the four stores. You may have a Honda Libis among them. And if they have, retrain and reform

the set-up and people there. Questions or comments? E-mail them to MarketingRx@pidtdsi.nut

Worries over Japan economy growing

TOKYO-Japan's core machinery or- last year, core orders, which exclude earthquake and typhoons disrupted ders, a key gauge of future business investment, fell in October, data showed on Thursday, against expectations and farming concerns about the capital spending that has bolstered a slowing economic recovery.

The machinery orders figures cause a day after revised data showed the economy barely grew in July-September, suggesting Japan's recovery was weaker than many had thought.

Thursday's Cabinet Office figures showed core private-sector machinery orders fell 3.1 percent in October from September.

Economists had on average predicted a 2-percent rise, though forecasts for the highly volatile figure ranged from a rise of 8 percent to a fall of 2 percent.

The government downgraded its assessment of machinery orders for the second month in a row, saying they were becoming weak.

Compared with the same month

those for ships and equipment at electric power firms, fell 9.9 percent against a median forecast of a 5-per-

The data spurred further selling of Tokyo shares and caused the dollar to firm against the yen.

Other economists were more upbeat about the outlook for machinery

"It's slightly weaker than expected but I see no reason to turn pes-

simistic," said Mamoru Yamazaki, chief economist at Barclays Capital in "October was a month when oil

prices were rising and the outlook for the US and Chinese economies appeared a bit uncertain, so companies may have taken a very cautious stance in malong orders."

Data last week showed industria. output fell 1.6 percent in October from a month earlier as weak demand in the electronics sector, a major

production.

On Wednesday, revised government data showed the world's second-largest economy grew 0.1 per cent in July-September from the previous quarter, or an annualized 0.2 percent, following a slight contraction in the preceding three

The figures come amid growing concerns about a slowdown in Japan's economic recovery, mainly due to weaker overseas demand.

Details showed weaker global demand reduced net exports, which became a negative contributor to growth. It was the first negative contribution from external demand in eight quarters.

Separate data earlier on Thursday showed Japan's current account surplus rose in October from a year earlier for the 16th month in a row as trade surplus continued to gain.

WORLD-CLASS BUSINESS **DOCUMENTS IN A FLASH!**

Made fast and easy by the Canon imageRUNNER C3220 with imageWARE Publishing Manager software.

Your business' success lies largely in part in the way you handle your communications-the strength through which you deliver your message across to compel action.

For this reason, the color Canon imageRUNNER C3220 was created

The mageRUNNER C3220 is designed to seamlessly integrate toto your existing environment as a dynamic central hub for total resources-critical business information, ideas, and knowledge

It has the power to handle copy, print, seen and email efficiently in both black and white, and color, with no compromise in speed. Offering the full capabilities of Canon's imagePlatform architecture, the imageRUNNER C3220 revolutionizes the way undividuals manage and communicate information, ideas and knowledge regardless of the form, content or the location from which it originates.

Multifunction Has Never Done So Much For So Many

The only thing more impressive than the technology that Canon puts into the imageRUNNER C3220 is the productivity you get out of it. Never asking you to sacrifice ease for high performance, the imageRUNNER C3220 delivers features that far exceed the capabilities of most stand-alone devices on the market today.

For instance, its optional Color Universal Send technology allows workgroup users to distribute information to multiple destinations, including individual or groups of e-mail and luternet fax addresses, internal mailbox, network or host folders and files, and document applications.

Your Central Communications Hub

With a 40GB Hard Disk Drive and a 768MB of RAM, the mageRUNNER C3220 offers 32 pages per minute speed for both black and white, and color to meet the needs of busy corporate workgroups and departments.

Superior Image Quality Is Always Standard

Capturing images at true 600x600dpr resolution, the device delivers superior output quality at 600x600dpi interpolated resolution for copy and an astounding 2400x600dpi in print mode, offering the most faithful reproduction of documents on the market today.

imageWARE Publishing Manager means in-house publishing on-demand

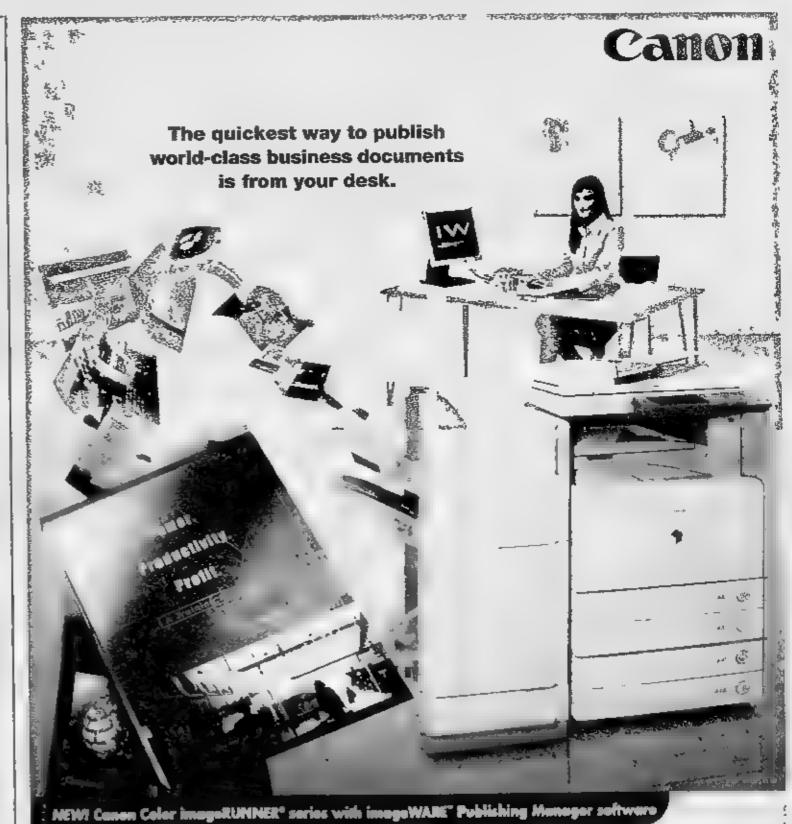

The imageRIJNNER C3220 is built with imageWARE Pubushing Manager, Canon's new office Print-On-Demand software.

Designed to simplify the production for documents requiring multiple inserts and content types such as manuals, brochures, catalogs, proposals, reports, books and presentation. With variable printing, imageWARE Publishing Manager delivers the most cost-effective and powerful one-to-one marketing with its

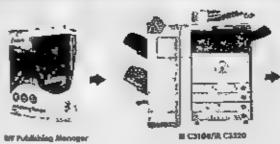

For instance, documents made by multiple applications such as Microsoft Word, Excel and PowerPoint can be combined and imported to the imageWARE document file format. These can then be merged for a variety of page layout and finishing settings, including complex booklet binding.

Its variable printing editor also allows users to extract data from a database and place it on any page required, while the Annotation Editor lets you make changes on the document directly without having to open the original application. Plus, as Export function lets you export imageWARE Publishing Manager files as PDF files.

Visit your nearest Capon dealer today and learn more how the imageRUNNER C3220 can help boost your company's productivity and communication.

There'll sever be a slow day in the office. Supercharge your workspace with Conoc's John! Color image(5)(4)(5)² C3100/C3220 and Image/WAIE" Publishing Manager. You care create top quality dures, proposels or in-house proclating conterfols, straight from your desistop. UAP leads National Architecture Week

THE UNITED Architects of the Philippines-the integrated and professional organization of architects-led the nation-wide celebration of the National Architecture Week (NAW) from Dec. 5 to 11.

UAP national president Enrique O. Olonan opened the NAW celebration with a message to the different chapter and district officers in a flag-raising ceremony at the UAP national headquarters in Quezon City Sunday morning. Afterwards, the UAP Metro Marila chapters conducted a long and colorful motorcade from Quezon City up to Caloocan City Hall to lock off and drumbeat the occasion.

architectural exhibit of the UAP Bulacan Chapter at SM Marilao, Bulacan, induction ceremonies of the new national officers of the UAP Graduate Auxiliary (UAPGA) at Libis, Quezon City, gift giving program at Damas De Filipinas, Paco, Manila, and tree planting program at the Polytechnic University of the Philippines, Quezon City, among other events.

Members of the UAP national board of directors will also pay a courtesy call on MMDA chair Bayan. Fernando today, Dec. 10, to express their support to MMDA's management policies and urban development projects. The board awarded a plaque to Fernando for his sterling performance in pub-

The weeklong celebration ends with an awarding, recognition and culmmation night back-to-back with a musical concert at Moomba Restaurant in Quezon City on Dec. 11. Shown from left are architects Abelardo Miraflor, Enrique Olonan, Jean Cornejo, Janne Silva, Rodolfo Vidallon, Virgillo Andres Jr, Amado Tandoc and Edric Marco Florentino.

Capturing EK moments with Sony

ONE MAGICAL place comes to mind when talking about Christmas fur:

Enchanted Kingdom. Family and friends troop to Stz. Rosa Laguna to get their dose of Holiday laughter and adventure as they frolic around the county's premier theme park. Since nothing spells "fun" better than awe-

Since nothing spells "him" better than awesome rides such as Space Shuttle, Log Jam or
Anchors Away, Sony ingeniously brings its
now-famous "We Got Ya! Roadshow" to Enchanted Kingdom to showcase the exciting features and chic styles of all Handycam, Cybershot and accessories.

Groups of family and friends are invited to join the Game Park Challenge wherein participants are asked to complete a number of tasks within the park. Of course, this activity and all other theme park memories are captured with the latest Sony Handycam and Cybershot products. Plus, get the chance to create your own music videos and slide show presentations with the Picture Package, a video editing software of Sony, and take home your edited videos and photos of these precious moments for free. With the advanced and developed technologies of Mega Pixel Engine for Handycam and Real Imaging Processor for Cybershot, bundled with the power and expertise of Carl Zeiss iens, Sony allows us to capture images as close to real life as possible.

Catch the Sony Handycam and Cybershot We Got Yal Roadshow as it takes Enchanted Kingdom by storm on Dec. 11 and 12.

'33 Laws of Success and Property'

THE "33 Amazing Laws of Success and Prosperity" will be the topic of a new seminar to be held from 1 to 5 p.m. on Dec. 10 at the Ateneo de Manila University Professional Schools located at 20 Rockwell Drive, Rockwell Center, Makati.

"Many are like fish in an aquarium, always swimming but getting nowhere because they are violating many of these laws," said Rodol to Torres, author of over 20 self-help books here and in the United States, who will conduct the seminar.

These laws are as real as the law of gravityviolate them at your own risk, he said.

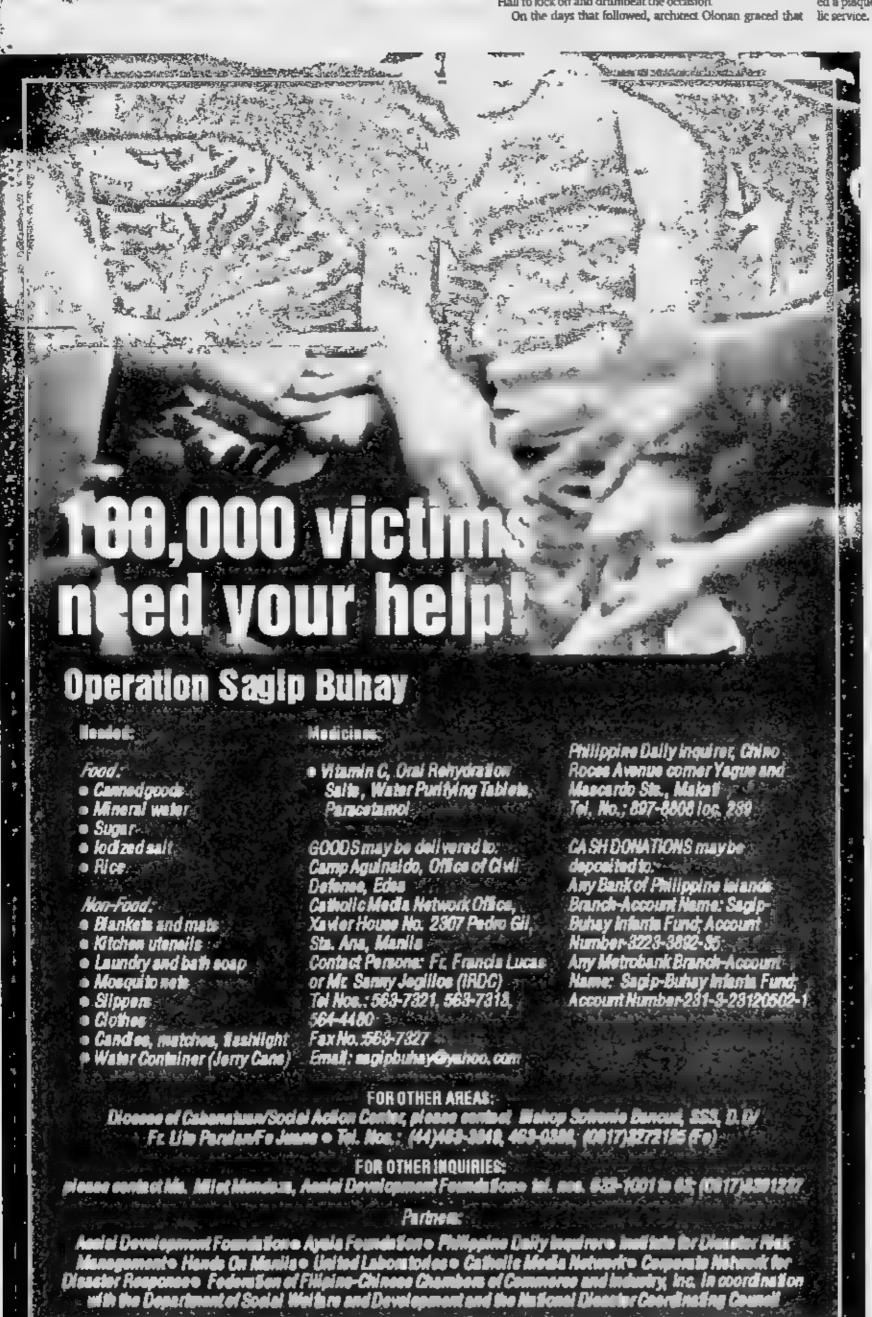

"This seminar will help you develop a more positive outlook in life," Torres said.

It will help you build and develop a team of positive thinkers. An organization of positive thinkers will oursmart, outperform, and out-think one composed of negative thinkers, he explained.

To get more details about the seminar, call Listen-N-Learn at 912-2309 or text 0917-2582477.

BUSINESSMEN walk past Tokyo brokerage's electric board indicating the day's stock average slipping down 173 points. The Nikkei Stock Average of 225 issues closed at 10,776.63 points on the Tokyo Stock Exchange Thursday, down 164.74 points, or 1.51 percent, from

Asia stocks hit highs

SINGAPORE—The biggest one-day on price fall try of US consumers to absorb Asia's exports in three years and strong US economic data sent Asian stocks to multi-year highs on Thursday, following Wall Street, sweeping aside export worries even as the dollar but a new low.

US crude prices, which dropped 7.5 percent overnight on a larger-than-expected increase in US fuel stocks, steadied above \$45 a barrel in early Asian trade.

The dollar slipped to \$1.3370 against the euro, a record low; as concerns about the United States' twin deficits piled on the selling pressure. The lower dollar helped push gold to a new 16 year high.

Stocks were supported by US Institute for Supply Management data which showed the outlook for US manufacturing improved in

US consumer spending also showed a sharper-than-expected 0.7 percent rise in October, while the Federal Reserve said the US economy continued its expansion over the past month, with labor market conditions improving and business lending on the rise.

Tokyo's benchmark Nikkei average climbed 1.62 percent to 10,959.0, with Toyota Motor bouncing up 1.05 percent from Wednesday's seven-month closing low.

Hong Kong's Hang Seng added 1.1 percent for a three-and-a-half-year high, and an MSCI index of non-Japan shares climbed 1.27 percent to 257.55 after touching a near five-year high. Concerns early in the week about the abili-

were allayed by the US data.

Asian investors moved into sectors that were hard hit in recent days.

"Their targets are high-tech and other exporters which have been a bit oversold," said Koichi Seki, equity manager at Chuo Securities," ... a fall in oil prices is a plus for the global economy."

But the crude price fall took its toll on energy stocks.

Gold topped \$456 an ounce for the first time in 16-14 years on the dollar's slide.

Singapore's Straits Times added 1.02 percent, and Taiwan's benchmark index climbed 0.85 percent.

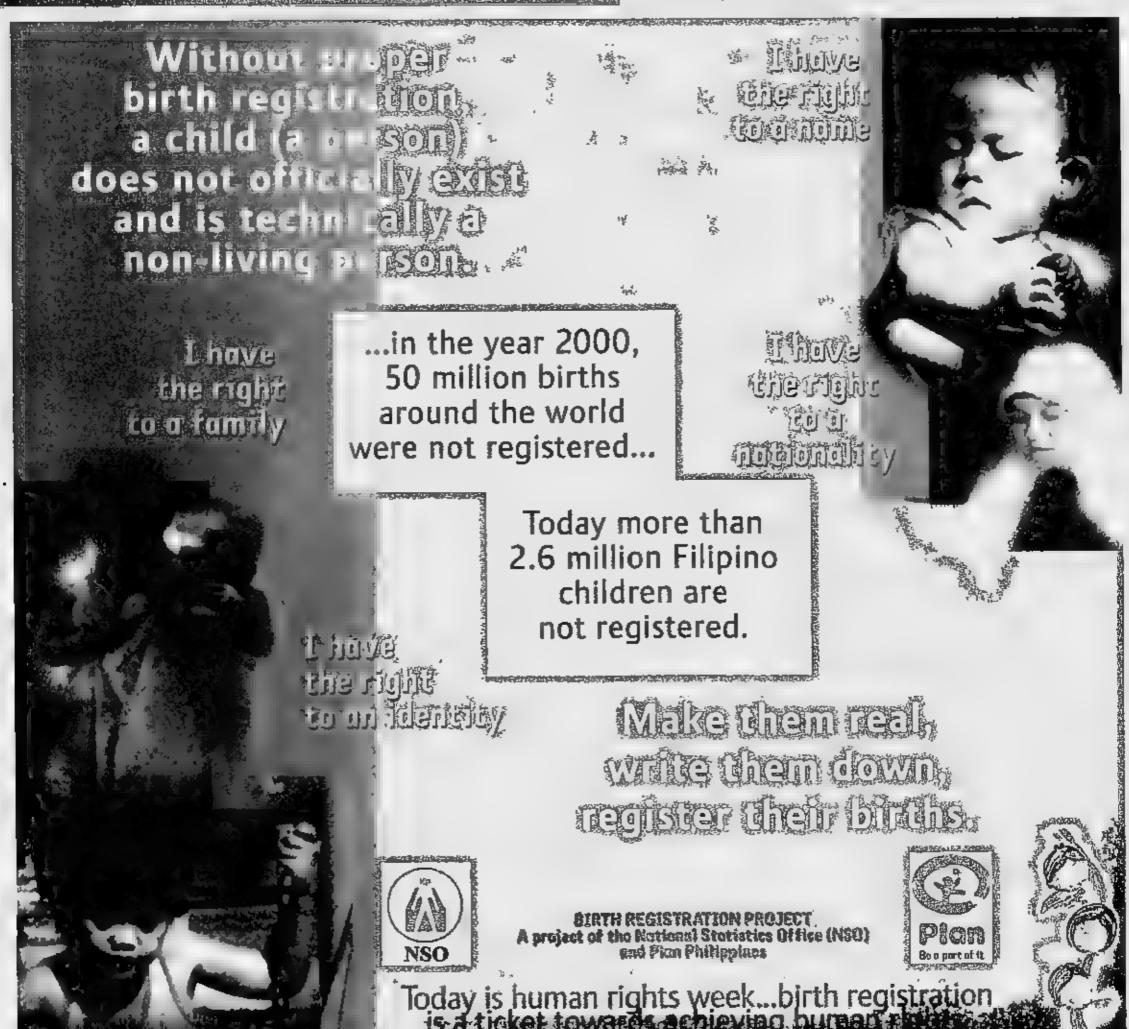

Australia's S&P ASX 200 hit a record and stood 1.05 percent higher, while South Korea's KOSPI rose 1.25 percent. Malaysian shares hit a four-and-a-half-year high

World stocks as measured by the MSCI added 0.37 percent to 278 01-its highest since mid 2001

In Tokyo, 10-year JGB futures fell 0.01 point to 138.72 ahead of an auction of 1.9 trillion yen of government bonds later on Thursday. US stocks closed higher. The Dow Jones in-

dustrial average finished up 1.56 percent at 10,590.22.

The Nasdaq Composite Index climbed 1 98 percent to 2,138.23, and the S&P 500 gained 1.5 percent to 1,119.37 for its highest close in nearly three and a half years.

Pasko Na! Christmas concert

THE Jesuit Music Ministry in cooperation with the University of the Philippanes Catholic Students Community (UP-CSC) presents Pasko Nal, a Christmas Concert featuring the Bukas Palad Music Ministry on Dec. 11, at the UP Theater Diliman, Quezon City, with a Mutinee show at 3 in the afternoon and a Gala performance at 8 in the evening.

The Bukas Palad Music Ministry is well known for sheir hit Eturgical

Songs such as Hindi Kita Malilimutan, Humayo'ı Ihayag, I Will Sing Forever, Sa

Yo Lamang, and Tanging Yaman. The choir has already produced more than ten albums to date and performed in concerts

all over the Philippines and in the United States. The concert which will feature songs taken from the group's album Pasko Na, aims to bring hope to our wounded hearts and to enliven our souls, preparing us all for the coming of Christ. Himig ng Hangin, A Christmas Praise, Pasko Na, Gloria and Noong Paskong Una are just some of the songs which the group will be performing accompanied by a 16 piece orchestra under the musi-

cal direction of Mel Villena. Proceeds of the Pasko Nai Concert will be used to fund the spiritual and leadership programs of the UP-CSC, thus, benefiting the student activities of

all the religious organizations in the UP Campus Ministry. This will also provide for the needs of the scholars and students supported by the different organizations. Tickets (P500, 200, 100) will be available soon at the UP Parish Office and all Jesuit Communication outlets in Sonolux Bidg. and the Loyola House of Studies, Ateneo. SM North EDSA (Main Building, Lower Ground Floor), SM Megamall (Fifth Level, Bridgeway), Robinson's Manila (Level 2), Robinson's Galleria (Level 2). For ticket reservations, email (nfo@bukaspalad.com, ca.l Jesuit Music Ministry at 4261023, or text 0917-8274454/0917-7939006

Pamilyang OFW-SME Network Foundation, Inc.

ACCOMPANY MARKET 20988

INTRODUCTION

Pres. Gioria Macapagal-Arroyo has continuously lauded the 8 million plus Overseas Filipino Workers (OFWs), who contributed more than \$7.5 billion annually through remittances, for their invaluable contribution to the country's economic growth and sustainable develop-

On the other hand, the more than 475,000 Small and Medium Entrepreneurs (SMEs) continue to provide the much-needed boost to the Philippine economy. Despite the prevailing economic slowdown worldwide, SMEs continue to provide jobs and create wealth.

Recent data from the National Statistics Office revealed that remittances from OFWs are not only the driving force behind consumer spending but it also spurred the development of aucrobusinesses that now account for over 90 percent of all businesses in the Philippines.

The government has expressed concern for the welfare and benefit of the country's OFWs or "modern-day heroes" as well as in helping and supporting the development of the SMEs which are also called the "en gines of Philippine economy."

Thus, the Pamilyang OFW-SME Network Foundation, Inc. was established in response to the government's concern to the OFW and SME families.

What is the POFW-SMENFI?

The Pamilyang OFW-SME Network Poundation, Inc. (POFW-SMENFI) is a non-stock, non-profit organization founded by former OFWs and OFW and SME welfare advocates which was registered with the Securities and Exchange Commission (SEC Reg. No. A200202450) on February 14.

What is the vision of POFW-SMENFI?

To be the most productive center of OFW and SME families in the Philippines by providing job, livelihood, investment and business opportunities; and be recognized as a role model for public service

What are the main objectives of POFW-SMENF!?

- 1. To help protect the rights and promote the welfare of the OFW and SME families; 2. To conceptualize and launch viable
- reintegration projects for OFWs; 3. To organize, sponsor and conduct expositions, seminars, workshops, trainings, and study and research programs to help upgrade the knowledge of the OFW and SME families;

4. To make the OFW families productive members or entrepreneurs of the community;

5. To help improve the economic condition of the OFW and SME famihes whose living condition are below standard,

6. To initiate and organize fundrassing activities to finance the various projects of the foundation,

7. To receive financial contributions, donations and grants from local and foreign sources for the implementation of the foundation's

8. To organize and strengthen linkages, both local and international. for OFW and SME families' concern;

9. To provide legal, medical and dental, welfare, technical, financial and other assistance to OFW and SME families in cooperation with local and foreign government agencies, private corporations and non-government organizations,

10. To publish any form of publica-

tion and produce a television/radio program for the purpose of effectively disseminating information regarding the foundation's various projects and opportunities as well as the latest government policies that will affect the OFW and SME families:

11. To coordinate and cooperate closely with the local and foreign government agencies in carrying out the objectives of the foundation,

12. To purchase, acquire, sell, lease, mortgage or otherwise deal in real and personal property as may be necessary or useful to carry out the objectives of the foundation;

13. To acquire or obtain from any local or foreign government agency or authority, national, provincial, municipal or otherwise, or any corporation, company or partnership or person, such charter, contacts, franchise, privileges, exemption, licenses and concessions as may be conducive to any of the objectives of the founda-

14. To establish and operate of- with the OFW and SME families. fices nationwide and abroad to carry out the foundation's objectives.

Who can become members of the POFW-SMENFI?

- * Overseas Filipino workers (Migrant workers who are engaged in remunerated activities in a state and are considered to be temporary residents thereof; the immigrants who have assumed or are in the process of assuming legal permanent residency status; and the undocumented overseas Filipinos);
- * Future, vacationing and former
- * Husband or wife and children of an OFW;
- * Small and medium entrepre-
- * Husband or wife and children of an SME; and

 Officers and members of nongovernment organizations concerned

What are the benefits and types of assistance that the POFW-SMENFI can provide?

- * Local job placement;
- * FREE and subsidized seminars on home-based business, agriculture business and aqua-business;
- * FREE legal, medical and dental
- * Investment and business management consultancy; and
- * Research, marketing, advertising and promotion consultancy

How can one become a member of the POFW-SMENFI?

If qualified, a member must pay an annual membership fee of P50 only He will be given an ID card and an updated list of service partners of the foundation as well as the POFW-SMENFI Monthly News Update

BUSINESS

Sun Cellular seen to break even in '05

SUN CELLULAR of the Gokongweiowned Digitel Mobile Philippines Inc. sees improved finances starting 2005 when earnings before interest, taxes, depreciation and amortization, or Ebitda, are expected to break even.

According to Lance Gokongwei, president of Digitel Mobile, the company is scheduled to break even in terms of Ebitda in early 2005. In 2006, the company is expected to break even on earnings before interest and taxes are paid, he said.

The wireless unit of listed Digital Telecommunications Phils. Inc. should

be out of the red by 2007, he added.

According to analysts, a positive Ebitda is as important an indicator as net income because it reflects a company's capacity to pay its debt. Ebitda represents the amount of cash generated by the business and those funds are used to pay obligations.

Gokongwei said Digitel, the parent firm, had always been Ebitda positive.

"As you gain more subscribers, the assets grow in value also," said Gokongwel. Sun Cellular, Digitel's wireless brand launched in March 2003, had breached the 1-milhon subscriber mark in November.

should end the year with about 1.2 million customers. Company officials expect subscribers to increase to at least 2 million by the end of 2005.

Gokongwei said the wireless subsidiary was targeting an annual growth of 10 to 15 percent, a modest level compared to its competitors.

Smart Communications Inc., a whollyowned unit of Philippine Long Distance Telephone Co., had been growing at about 40 percent, Second-rank Globe Telecom Inc. grew about 20 percent in the third quarter.

"A 10 to 15 percent growth a year is a billion against P722.8 million a year ago

The top official said Sun Cellular sustainable business model for us," could end the year with about 1.2 mil-Globe. They are huge companies."

> Contrary to perception that the Gokongwei mobile brand had been moving too slow, Gokongwei said that Sun Cellular was growing as fast, if not faster, than the other players when they started out.

> Ten years ago, this industry was nothing ... It had since grown into a P120-billion industry," said the Digitel Mobile executive. "We believe there is room for players like us to grow."

As of the third quarter, listed Digitel reported that net loss swelled to P1.08

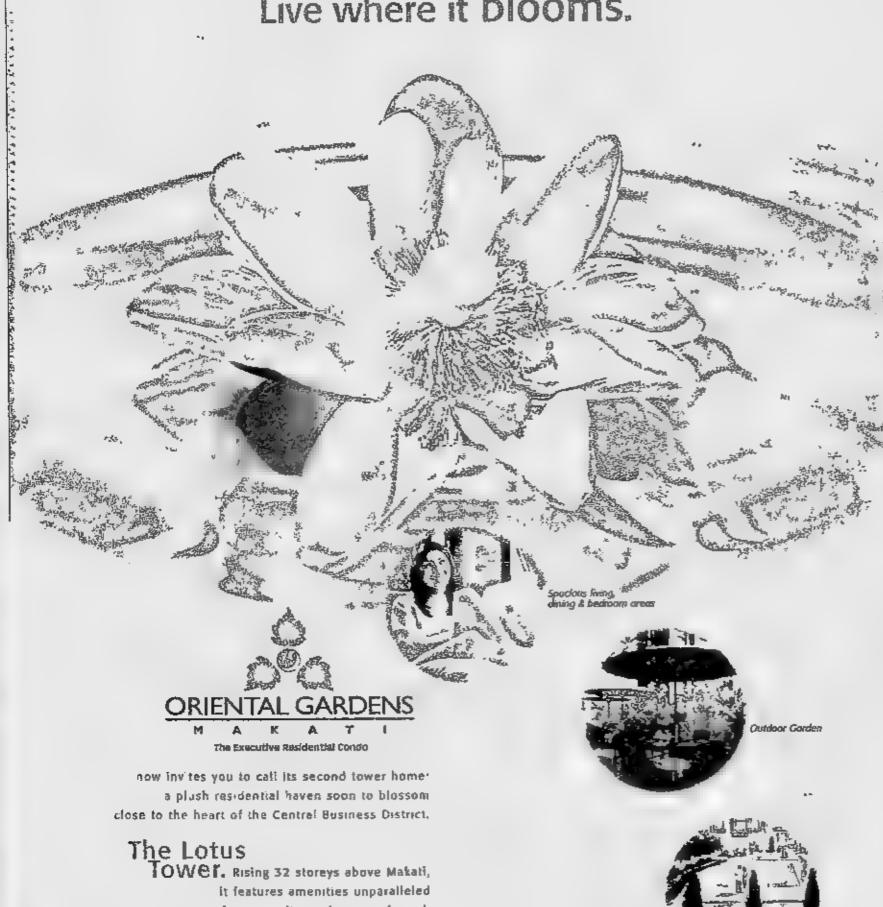

due to financing costs incurred by the wireless business.

From January to September, operating loss actually narrowed to P117.2 million against P209 9 million a year ago. Financing charges this year, however, increased to P1.03 billion from P836.5 milhon in the first three quarters of 2003.

The outstanding balance of Digitel's financing for its mobile operations atood at P12.68 billion at the end of September, up from P10.08 billion at the end of

Digite, would spend \$100 million in the coming year to expand the coverage

in comfort, security, and peace of mind.

Taking Life Higher

\$35-M RP wind farm is 1st of its kind in Asean

By Doris C. Dumlao

THE PHILIPPINES has taken another step in promoting renewable energy with the signing of a greenhouse gas emission reductions purchase agreement involving a \$35-million wind farm project in Bangui Bay, flocos Norte-the first of its kind in the Philippines and in Asean.

The Danish International Development Agency (Daruda) shouldered 90 percent of the project cost.

In a statement yesterday, the World Bank lauded the project as the first in Asean under the Clean Development Mechanism (CDM) of the Kyoto Protocol.

Joachum von Amsberg, WB Country Director for the Philippines, said: "This is a very special mitiative, and a good example of how global partnerships on environment really come to life. It is also an exciting example of how the Philippines can be part of and benefit from a new dimension of new global opportunities."

Amsberg said he hoped this would only be the first of a series of emission reductions purchase agreements in the country.

Under the program, the certified emission reductions (CERs) generated by the project will be purchased by the Prototype Carbon Fund (PCF), a public/private partnership made up of six governments and 17 private companies.

The partnership authorizes the World Bank, as trustee, to purchase CERs from projects on behalf of the participants of the fund.

The Philippines is hard pressed to look for avs to improve all quality after the World Bank published the Air Quanty Monitor in 2002, which said that air pollution in the Philippines was causing serious health problems and lower productivity, severely affecting the Filipinos' quality of life.

Aboitiz to raise anew P367M for debt payment

By Elizabeth L. Sanchez

ABOITIZ Equity Ventures (AEV), the public holding firm of the Aboitiz family, said yesterday it will raise another P367 million from the issuance of redeemable preferred shares to refinance marting debt and fund future power projects

With the second issuance, AEV's total preferred share offering this month will amount to P1.87 billion, raising enough to refinance its P1 billion manufing preferred shares and fund other projects

AEV earlier raised P1.5 billion from its first preferred share offering last Monday. Banking sources said the second assuance was to accommodate excess demand from the first pre-

ferred share offering.

In a disclosure, AEV said it signed a second underwriting agreement with First Metro Investment Corp. as issue manager and BPI Capital, PCI Capital, BDO Capital, Multinational Investment Bancorporation and RCBC Capital as underwriters for the additional issuance of 36.7 million non-voting, non-participating, non-convertible, cumulative, reissuable and redeemable preferred shares at P10 apiece. The shares, like the first issuance, will be redeemable over a period of five years.

These shares will be denominated as series C which has a fixed dividend rate and series D which has a floating dividend rate. The rates for the floating series will be determined quarterly.

AEV said proceeds of the issuance will be used for refinancing and will also finance various power projects and its subsidiaries.

It aims to issue the shares on Dec. 13. AEV earlier said it is earmarking P500 million for possible investments in power projects, an official of the company said.

AEV vice president Luis Miguel Aboitiz declined to name however the planned power

AEV has an existing P1 billion preferred share issue which will expire early next year. It will use the bulk of the proceeds from the preferred share offering to refinance this maturing debt.

The pieces integrate high-grade, high-impact resin in faux ivory, coral, tortoise shell, antique stoneware, snakeskin, crocodile, gnarled wood and lacquer finishes with gold, silver, copper and other metals to form organic shapes that celebrate the gems that are the centerpieces of each work.

Her trademark, of course, remains: an ex-

"AUTUMN in Osaka" cuff of natural black coral with carved agate and vermeil blossoms, baroque freshwater pearls and smoky quartz drops

Her trademark, of course, remains: an extremely limited number of one-off pieces per collection, the use of rare or newly discovered gems, a preference for uncommon cuts, and an unusual combination of textures, colors and elements.

In one piece, a kamagong cuff is the foundation for which a large toutmakine cylinder is tethered with rose-colored gold. In another, a collar of cobalt blue Yunnan glass beads becomes the base from which a slender circle of old tvory and, below it, a five-inch long antique agate piece, hangs.

In yet another, the tips of delicate black indonesian coral branches drip with faceted clirines that flash with fire and light.

A favorite piece is an 18k gold brooch in the shape of a blazing comet. In it, a large Australian baroque pearl is traited by a hand-sculpted tail studded with yellow sapplures. A carved coral monkey is perched on it. When one looks closely one can actually see its tentative smile. Wynn Wynn fittingly named it "When Monkeys Dream."

Jazz spirit

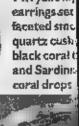

International orders have also been coming for the bags of Valdes, who has engaging stories inspired by the boherman spirit of Jazz great Josephine Baker

Miss Baker adopted 12 children of various races which she called her "Rainbow Tribe."

"ZOU Zou Mardigras," rendered in jewel tones with a tail of crystals and mini chandelier drops, is made of over 50 different components to render its unique gradation.

HIGH-GRADE resin cuffs with gemstones: Snakeskin-finished cuffs with onyx, pearls, smoky quartz and turquoise; Sung dynasty bronzeware-finished cuffs with aquamarine and sky-blue topaz; faux tortoiseshell cuffs with faceted "harlequin" Russian amber and smoky topaz

Bez has taken up the same theme of "chasing the rainbow" for her exquisitely handcrafted bags, each of which takes from three to eight weeks to finish, as beading is carefully done a multimeter at a time.

"Petite Chou Chou" is a little pouch of copper sequins and beads, finished off with a flirty ombre ribbon. "Chocolate Dandie," inspired by the 1924 Broadway play of the same name, is a delicious concoction of dark and milk chocotare beads with a three-ring handle.

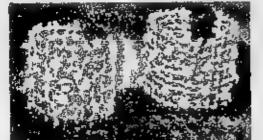

"Peacock Kiss" is a stunner with its multitiered peacock feather patterns carefully layered with crystals. Another bird to join the flock is "Cockatoo" in tangerine and electric blue versions. One has a coll er with subtle shades of orange and pale blue crystals while the other is festooned with lustrous grey pearls. Both share a pedigree of vintage feath-ers with an undercost of fine beading

which will show when their feathers are ruffled.

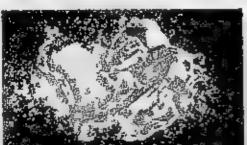

"Zou Zou Mardigras," rendered in jewel tones with a tail of crystals and chandelier drops, is the most complex creature of all, using over 50 different

components to render its unique gradation and four weeks of careful study to bring it to life.

The 2005 Dreamstyle Collections of Wynn Wynn Ong and Bea Valdes are available exclusively at Firma, G/F Greenbelt 3, Ayala Center Makati City. Call 7574009 or e-mail firma2@vasta.com

DIAPHANE Navigator "Take

THIS Christmas, Swatch presents the Diaphane. It is Swiss made with quality designation protected by law and applied only to watches that contain mechanisms assembled, installed, started, regulated and controlled in Switzerland.

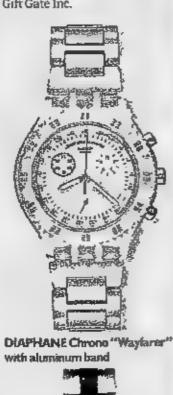

A Swatch Diaphane Chrono(graph) is a watch with a stopwatch function. This additional mechanism makes it possible to measure and record short times. By chicking on the push buttons, the hands of the chronograph (seconds, minutes, hours) can be started, stopped, or reset to zero. The tachometer dial on the face of a chronograph is used to measure speed in kilometers/miles per hour.

The Swatch Diaphane Automatic is a mechanical watch that does not need a battery: the movement of your arms powers the main springs of the mechanism.

Swatch Diaphane watches are water-resistant to 30 meters/100 feet and are shockproof as well. Their prices range from P4,500 to P6,500.

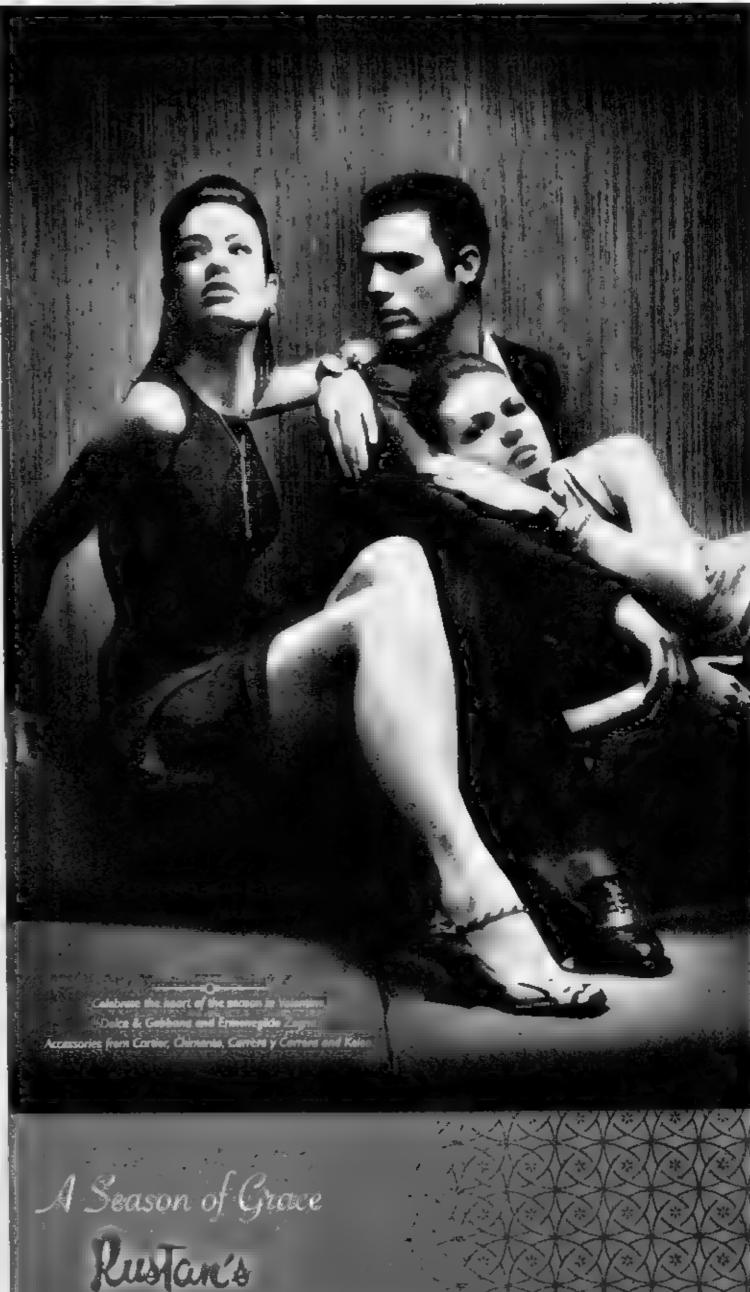

Swatch Diaphane watches are available at Swatch Studios, Swatch Kiosks and Gift Gate stores.

Swatch is exclusively distributed by Gift Gate Inc.

Timing is everything

best gifts to give this festive season. They come well appreciated by both men and women, and with the proliferation nowadays of varied styles, they allow the watch wearer to customize a piece to suit his or her personality and lifestyle.

Because of the varied selections at watch specialty stores like Time Depot, the odds are slim of two customers buying exactly the same model.

At Time Depot, the Philippines' foremost retailer of technologically profitimepieces, internationally renowned brands of sports-specific, techno watches alt side by side with supremely fashionable finds at attractive prices. Here are some of them.

Imbued with understated elegance, Alfex is the perfect watch for women who dare to be different or live life by their own rules. NafNaf, featuring multiple options with its selection of colorful dials and stainless steel bands or dainty leather bracelets, is likewise a worthy choice. The Nautica Pink Clipper that's simple yet unique and elegant or any of the sexy new cK watches would also make a flattening statement.

cK Endless features precise ETA Swiss quartz movement, tempered mineral crystal, silver-tone hand, poushed stainless steel case and bracelet, cK Clasp is a highly-original watch which does up ake a belt, while the cK Dress XL embodles techno-precision.

Those with funkier tastes will be delighted with the Marc Ecko "Sexy Cording," a classic analog with poushed sil-

Timepieces are some of the ver case, leather laced cuff and small round dia..

> For casual teens, Baby G in pastel hues and pearl finish bands is a perfect option. Check out the Baby G 10th-anniversary models featuring drawings of hibiscus flowers in their rivets and band

The serious outdoor enthusiasts will appreciate a Casio Edifice Chronograph, The color accent of the second hand and the techymeter marking on the bezel give the Edifice Choronograph a distinctively sporty look.

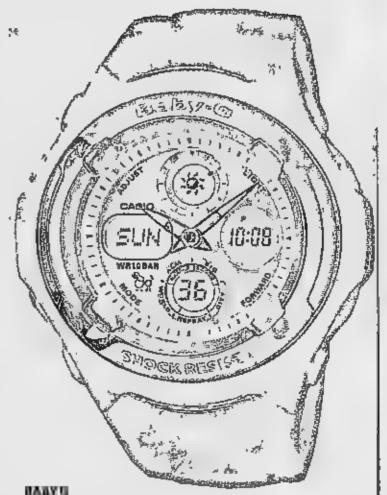

Whether one is racing for time while engaging in sports or rushing to the office, one can find the miles per hour by simply rotating the tachymeter to target the exact speed, then set the elapsed timer to pinpoint the distance covered.

Function and fashion combine in the Casto Puttrist, which features useful digital functions like dual time, alarm, and stopwatch and comes with EL backlight for easy reading in the dark

Another good sports watch choice is Suunto, one of the most desired sports instrument brands in the world. Go for the Suunto X9, the flagship model in the cross sports range which packs a GPS, compass, chronograph, altimeter and barometer in one configuration.

For the mariner, there's Suunto Regatta or M9 to deliver useful navigational information. Diving buffs are advised to look for screw-down crowns and casebacks and extreme water resisrance. For golf buffs, a handy companion would be the Suunto G3, which lets them concentrate on improving their

Naurica watches are likewise sporty in dimensions, ruggedly sleek and ideal

for the great outdoors. They come in staintess steel bracelet or black leather strap styles, big steel case, large crown and chronograph displays

Racers, on the other hand, may rely on the Casio G-Shock Cockpit Series to measure time. The new G-Shock Cockpit models resemble a high-quality dashboard kit.

Nautica "Titanium" Watches with chrono alarm, or the regular mode, with five-hour alarm, brushed stainless steel case and bracelet, matte black dial with blue accents, are great choices any

Fur-filled show likely to ruffle feathers

FW YORK—Expect fur to fly at the newest exhibit at The Metropolitan Museum of Art. Museum officials are braced for controversy over "Wild: Fash-ion Untamed," an exhibit of fash-ion's use of fur and feathers that opens this week with such graphic items as a jaguar's head purse and a hat adorned with stuffed para-

The exhibit looks at animalism and concepts of femininity, sexual fetishes, seduction, excess, coquetry and class standing, curator Andrew Bolton said.

"It's been with us since the beginning of courture," he said.

Despite all the show's skins and skulls, the activist group People for the Ethical Treatment of Animals (Peta) opted against its wellknown protest tactics like throwing animal blood and instead worked with the museum to help promote its message.

"It very much signals a change in the way we trying to change fashion from within the industry rather than from the outside," said Peta spokesman Michael McGraw.

Organized opposition to the use of animals dates as far back as 14th century sumptuary laws that restricted forms of dress to curb ex-

Boston said. Tust by the emotive nature of the use of these materials, it's always been controver-

The last decade has seen an upsurge in part due to the hip-hop movement that broadened fur's appeal among younger wearers, he said.

Pelts and plumage

Among the show's most arresting items are a crocodile head piece and jaguar coat by design house Christian Dior, knotted leather skins by Jean Paul Gaultier, a pank ostrich dress by Roberto Cavalli, who sponsored the exhibit, and a Prada dress for next spring made of peacock feathers.

The pelts and plumage are bound to stir reaction, Peta said.

"We're hoping that by presenting both sides of the issue people will come away from the exhibit realizing sensibilities have changed in modern times and there's no reason to continue wearing fur and other animal skins," he

The exhibit runs until March 13, 2005. Reuters

THE PROBLEM

Today, we are surrounded by vast amounts of low energy electromagnetic fields (EMF) emitted by cellular phone systems, computers, overhead lights, and electronic devices of all kinds. The fact is the human body was not built to withstand the effects of these potentially tegranh é fieldis.

HOW IS EMF HARMFUL?

The calls in our bodies communicate using billions of tiny electrical impulses. The electromagnetic energy coming from these manmade devices stands in the way of our cells' ability to communicate effectively and uffimately. performance.

HOW DOES THE TESLAR® CHIP

The TESLAR® Chip is engineered to interest with the components of the Philip Stein TESLAR® watch and is designed to help the body strengthen its energy lield and reduce the negative effects of exposure to alectronic pollution by creating a special signal that mimics the earth's natural healing frequency.

The Tester chips are clearly visible through small windows on the back

THE HEALING EFFECTS OF THE PHILIP STEM TESLAR® WATCH

- · Deeper, more restilal sleep An overall improvement in well-being
- Improved concentration & ability to focus Increased levels of energy Calminess and reduced familian.

For discounts, freebies, perks and fun.

Sweet flavors with no calories

N THE PHILIPPINES where citrus fra-grances are the norm, the cooler months from October to February give license to wear stronger, sweeter and sexies scents.

Confectionery-based perfumes are an inscant hit. Here, I have listed some choice products for your delectation.

Kinny Salas

Chocolate: Comp-toir de Sud Pacifique in Cacao with Star choc-bar soap in coffee flavor (P195) from Essenses will drive chocoholies mad with

More sophisticated chocolate scents are that of Thierry Mugler's Angel, both in parfum and the beautiful star candle, Lolita

Lempicka's sweet licorice base, and EOccitane's Candied Fruits home and body line, which has been mistaken for TM's Angel (though it comes at a fraction of the price, but with the same intensity).

The biggest news is that Bulgari has come up with a limited-edition item called Blu Notte that combines chocolate and vodka. This is my current Bulgari favorite!

Milk: Johnson's baby milk bath, Star choco bar vanilla scented soap, The Body Shop's soy

EOccitane's honey home and body line, which includes cleansing fluid, gelee, mick bath, massage necrat, candles, incense and alcohol-free spray, brings back happy childhood memories. Amande's body line range with its scent of sugary almonds has led my friends to smiff me all day long It's truly addicting.

For matching scents, try Nina Ricci's Jour

de Fête.

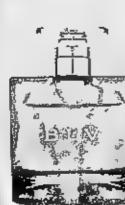

Fruity vanilla: Nina Ricci's Love in Paris with Bergamot, Apricot, Jasmine Cedarwood and of course, vanilla, is tops in my list. The shower ge, and body lotton smells even better when it mixes with the body chemistry. This is the only other N.na Ricci I like aside from Almond Amour.

Benetton's B-United Woman's vanilla and tart berries combination reminds me of a yummy raspberry smoothie.

Féraud by Louis Féraud blends with mouthwatering pears, while Comptoir de SWEET/F4

Right 'do for the party season

GLAMOUR is definitely required this holiday season.

Basement Salon's managing director and stylist Stefan Wilczynski says the right cut and precise hair styles will create the confidence-honsing look needed to make

merry this Christmas.
Using TIGI Bed Head's range of styling wonders and working with stylist Angelo Villanueva and designers Nono Palmos, Adrian Bolivar, and Filep Motwary, Wilczynski presenta 'dos to make waves this season.

The hair expert says bangs and curls are in-short, medium, or long, straight or curly. It is best to combine textures in one style. He adds that volume is very important, anything away from the "rebonded" look. Color means base hues with high-

Long flowing hair is a sure hit. For a nat-ural finish, Wilczynski uses his Bed Head favorites Shine Junkie, Mastermind, and Health Goddess. Though big is in, today's version is more smoothened and less pro-

nounced, but glitzy.

The effortless look never goes out of style. Adding touches of color to the free style gives a spunky twist. To achieve this look, Wilczynski applies Manipulator, Hard Head Hairspray, Headbanger, and Hard To Get from the Bed Head line.

TIGI Bed Head is available at Basement Salon and other leading salons. Basement Salon is at the Powerplant Mall, Rockwell.

THERAPY Massage Bar

Hollywood women's beauty secret

SOME of the world's most beautiful women have made it a habit to stock up on Lush Fresh Handmade Cosmetics.

And why not? Lush makes every effort to avoid synthetics. Fifty-nine percent of its products are completely free of preservatives, and packaging is kept to a minimum.

Lush does not test on animals, nor does it buy from suppliers who test on animals. Still, just like the rest of us mere mortals, even the most beautiful women in the world have their problems. Given their list of faproduct creator, reviews these women's beauty regimen and advises:

Angelina Jolie: Bought Ocean Salt facial cleanser (P495), Utrabland facial cleanser (£4.35, Skin Drink face moisturizer (P395) and Helping Hands hand cream (P445).

"Angelina is very beautiful and her skin always looks good. Ocean's Salt may be a bit strong for her face, although it's a great scrub.

Since an actress's skin is her stock in trade, I would have recommended Angels on Bare Skin, vorite purchases, Helen Ambrosen, Lush's which has lavender and rose oils, kaolin and ground almonds, and is a little more gentle.

"She got Ultrabland, and there's nothing better for removing makeup. The beeswax and peanut oil in this product have a like-forlike action and are excellent at gently dissolving all traces of dirt and grime, so it's good for regular use if she is filming. And, of course her hands are treated to a rich cream, which is excellent as they do show age so easily.

"These products work for women who really want to protect their skin and have a preventative approach to beauty."

HELPHAO HAVIO

hand cream

Daryl Hannah: Bought Skin's Shangri-La facial moisturizer (P1,950), Ultralight suncream (P745), Ultimate Shine shampoo (P345) and Veganese conditioner (from

"Daryl looks as if she has really fine skin, and she has a prominent bone structure so a moisturizer like Skin's Shangri-La is an excellent choice to help plump up the skin. Its formulation is excellent to comfort and retain: moisturizer. Ultralight moisturizer, with its repair properties and UV protection, is ideal for someone like Daryl who is outdoorsy.

"Ever since she swam into the big screen, Daryl's hair has helped define her It's still long and will need lots of treatment to keep it in good condition. Ultimate Shine and Veganese Conditioner, which contains moisturizing seaweed, are ideal to boost volume without weighing the hair down too much.

"Her products are perfectly suited for more mature skins, or those exposed to the elements."

Halle Berry: Bought Buffy The Backside Slayer (P795), Dream Cream (P595), Therapy massage bar (P375).

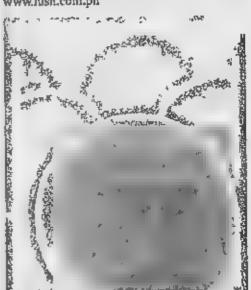

"Halle is credited with having the best body in Hollywood and it shows All of the products she has purchased reflect the care she takes in maintaining what is, after all, her career.

Buffy, formulated with Pair Trade cocoa butter and shea butter, is richly emothent and moisturizing, helping to improve skin's elas-ticity. But the combination of ground rice, aduki beans and almonds really help pummel

cellulite. "Therapy massage bar, a beautiful blend of neroli and lavender, is one of our most relaxing massage bars. The Fair Trade cocoa butter formulation allows for a really deep and sensual massage. Dream Cream is Lush's bestseiling product the world over, and is the benchmark for all our moisturizers. Made with rose water, out milk, olive oil, glycerine, chamomile and lavender, it is very calming and healing so it is excellent for every skin type and most skin conditions.

These products suit sporty types and those who want to tone and firm their bodies."

All the products listed above are available at Lush shops nationwide. Lush is exclusively distributed by Stores Specialists, Inc. Stores are located at Glorietta 4, The Power Plant Mall, Shangri-La Mall and Greenbelt 3. Visit www.lush.com.ph

Sud's Vanille Abricot is less cloying than pure vanilla.

Cranberries. There are two main lines that offer great cranberry scents. The Body Shop is the handsdown winner with its entire body line of shower gel, body scrub, body butter, and shimmer rotion.

The cranberry home fragrance oil is also the most potent, and a few drops mixed with water on a burner will fill a huge room. You won't even need cologne if you layer everything.

Complete the home range with Wood of Windsor's spiced cranberry candles and incense sticks. They make great affordable ETERNITY Moments Christmas presents.

For those who don't want vanilla or confectionery scents, the holidays have two options in store for you.

A line so potent it does not require perfume is Laura Mercier. True patisserie lovers will glory in her Crème Brûlee line, Au Lait, and Vanilla Éclair. The brand now has these yummy scents in candle form as well.

For those yearning to spritz on fragrance, there are no better

brands to turn to than Comptoir de Sud's Vanille scents and L'Occitane's vanilla.

Woods of Windsor's orange spice shower gel or exfoliating soap topped with Lacoste's Touch of Pink or Comptoir O'Pomeio are made for each oth er and can actually be worn all-year round.

The citrus scents of Blood Orange on Touch of Pink and the tart grapefruit in O'Pomelo smells fresh, clean and energizing. Lacoste T.O.P. smells very similar to Victoria's Secret Pink EDP

Those with more sophisticated tastes who are looking for limited-edition fragrances can opt for Calvin Klein's Eternity Moments, it appeals to a large age group as the fruty floral scent is a mix of pink peony,

mux of pink peony, raspberry cashmere, rosewood,

lychee and guava.

Perfect for our tropical weather, and has enough sexy zing to make it memorable and lasting.

Woods of Windsor, Star Choco soap, L'Occitane, Comptoir de Sud Pacifique fragrances, Laura Mercier are available at Essenses Rustans. Lacoste, Bulgari, Benetton B. United, Eternity Moments are available at leading department stores

Class and style in masculine form

By Gibbs Casils

ETER Cincotti is a 21-year-old American planist-singersongwriter who has released two acclaimed jazz-tinged albums and has been described as

"prodigiously talented" by the Times:

Diego Lane is a 23year-old Mexican actor best known for having starred with childhood friend Gael Garcia Bernal in the hit arthouse firm "Y Tu Mama Tambien" He was last seen in "The Termina," with Tom Hanks

Alberto Gilardino, at 22, is considered one of world soccer's brightest young players. The lta, an athsete plays forward for Club Parma, and has seen action in both the World Cup and the Athena Olympica

These three men have something in common aside from burgeoning celebrity Ermeneg.ldo Zeg-(pronounced "Zen-ya")

They are the new faces of the famed fashion brand's advertising campaigns for next replacing Adrien Brody, the Oicar-winning actor (for Roman Polanski's "The Planist") who is set to end his contract with the fashion house by the end of 2004.

Brody "Adrien brought the brand international recogninon," says lisuro Higuchi, Ermenegildo Zegna's managing director for Atia Pacific

So why is he on the way out? Because Brody has become a big name-much too big for Zegna, that is The brand that stitched its name on classically understated sartorial dressing would rather go back to its more sedate roots, without the complications of Hoilywood hype.

Emerging name

ironically, it was his darkhorse Oscar triumph (against such big guns as Jack Nicholson, Daniei Day-Lewis, Michael Caine and Nicolas Cage) that brought Brody—and brand that dressed him for the red-carpet event-world-

wide filme. Before "The Piaput," he was a respected but not very weil-known actor. "He was an emerging name," says Higuch... Which was exactly what Zegne had in for spokesmodel; someone soud, talented, reputable—but not too famous as to take the shine off the

clothes themselves. Zegna's three new image models fit the bill perfectly at this point. Their good looks, maturing sk lis and semi-fame groove quite nicely with the four-pular

fushion mantra that defines tweaked, refined and upgraded Ermenegoldo Zegna, timelessly here and there to match specific contemporary designs that showcase masculinity, a proud Italian heritage and an obsession with

"Zegna's fashion statement w classic understatement," says Higuchi, Its three lines—Sartorias. Z Zegna and Zegna Sport-ere variations on the same theme,

segments of the upecale men a market

"Perer Cincorti, for example, carries the Sartorial Line, which is the classic and formal Zegna look," explains Higuchi. "Diego Lune as the face for Z Zegna, which at for younger people for

Zegna is the only fashion ... brand that manufactures its own textiles as well as designs its own collections

metrosexuals. It has a sharper, hipper edge. Alberto Gilardino is for Zegna Sport, which is active, more colorful."

Venerable tradition

The Sartorial line, says Higuchi, whether bought off the rack or made to measure (a process by which, without acrual fitting, a customer can have a Zegna ensemble made to his specifications in four weeks or so), still makes up the bulk of sales worldwide.

No surprise there, as the line's spare designs, impeccable tailoring and top-quality fabrics remain the prototype of the venerable Italian textile and haberdashery tradition that the Zegna house (one of the few remaining family-owned luxury brands worldwide) has built since 1910.

The retail business itself was launched only in 1985 Before this, Zegna was known for churning out fine fabrics and, later, becoming the last word in elegant custom tailoring. It's the only fashion brand that manufactures its own textiles as well as designs its own codec-

Today, Zegna's design team is led by image and creative director Stefano Miglio, with 85 percent of sales coming from pret-a-porter and accessories and 15 percent from textile manufacturing.

Zegna has also branched out to accessories, coming up with leather products and shoes in partnership with other Italian marquee names like Ferragamo and Versace.

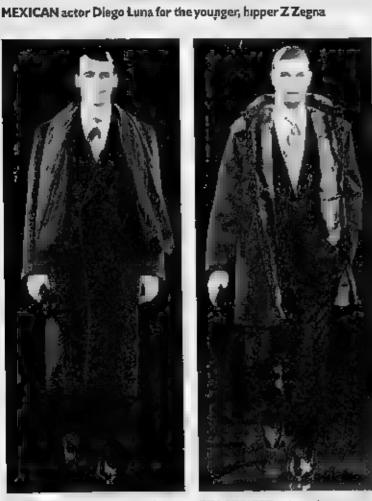

Bigger outlet

In the Philippines, Zegna is exclusively carried by Rustan's, which has recently opened a bigger Zegna outlet at the main floor of Rusran's Maxati.

"It's an expanded store with an updated look," says Higuchi, who came to town to in-augurate the 180-sqm outlet. "There are couches to make our customers feel warm

and comfy when they're in the store."

The Philippines, notes Higuchi, is not so much a clothes market as an accessories market; shoes, belts, bags and wallets among oth-

"Our forecast for next year is 50-percent growth," he says. Asia's booming shopping scene has given the company 30- to 35-percent annual growth rates over the past years compared to 15-16 percent in other parts of the world.

But while women are the bigger hixury spenders everywhere, Zegna is unlikely to venture into women's dothing. Instead, it has acquired Agnona ("Anyo-pa"), a high-end European women's line, to complement its men's offerings.

So for now, Zegna remains the domain of the more fuss-free—but no less disceming-side of the species.

E-mail the author at gcadis@inquirer

ASIDE from clothes, Zegna now produces accessories such as shoes, bags, belts and wallets, in partnership with other Italian fashion houses such as Ferragamo and Versace.

■ IS the season to be jolly, and Colour Eighteen fashion is here to spice up your holiday getups.

Sporty, trendy, youthful, the fall/holiday collection of Colour Eighteen has all the elements of the fun '80s. Groove to distressed print striped trousers, techno cotton trenches

with polka dot lining and multi-colored bags.

The retro-inspired collection comes in an array of bold colors to complement the holi-days such as electric pink, vibrant orange, in-tense purple, bright red and rich brown.

So this season, as you enjoy the festivities, have a brile '80s pop culture color and fun mi-

DEDADIMENT STORE

BOPERMORISE

LIFESTYLE MALE MALE Share and enjoy instant card benefits

PRINCIPAL Citibank cardholders share the benefits of their credit card with their loved ones this Christmas and enjoy loads of exciting freebies.

By applying now for a Citibank supplementary card or cards, cardho.ders will not have to pay the first year fees for up to seven supplementary cards. That means savings of up to P4,200 for Silver and Clear cardholders and P8,750 for Gold cardholders. The Citibank supplementary card also comes in a free special gift packaging if application is submitted on or before Dec.

With a Citibank supplementary credit card, principal cardho.ders can have better control of their finances since they can assign spending hmits starting at P5,000 depending on the spending needs of loved ones.

Principal cardholders receive a consolidated bill that summarizes and monitors purchases made by each supplementary card member. Moreover, even if one of the cards gets tost or damaged, the other cardholders can still use theirs.

Offer is valid until Dec. 31 only.

To apply for a supplementary card, call 4233000 today, or log on to www.clubank. com.ph.

All you need to do is write a name. Now, exquisitely-tasting Magnelia Gold Edam Cheese Ball comes in elegant gold boxes. Definitely an excellent gift this Christmas.

All you need to think about are the names of the people who are special enough to receive one from your

loads of valuable items were up for grabs in a raffle beautifully hosted by eye-catching fun gais Leah Navarro, Pinky Amador and vivacious Tessa Prieto-Valdes.

The prize catch of the night was a cool round-trip ticket to-Paris, courtesy of Air France and KLM, and the free use of a brandnew Peugeot for 17 days. Among other fab prizes were round-trip ticket to Boracay from Asian Spirit; a gorgeous pearl necklace worth \$2,000, plus other jewelry courtesy of Jewelmer; Citizen watches; and a to-die-for Chinese antique furniture set worth a cool P110,000.

Giving away the tickets were two hotshots of the airtine world-Air France's super popular general manager Louis Vergeon and KLM's mega secret weapon, brilliant country manager Joey Laurente.

Needless to say, dahlings, the most popular booth, and voted "The Best" by the tons of trueblue party animals who packed the venue, was Nescafe Gold's-a super eye-catching sidewalk café dispensing cups of piping-hot cof-

This year, palonggas, Le Club members and invitees came together in what was to be the largest Beaujolais event in Asia, to celebrate not just the exquisite taste of one of France's bestknown products but also that of what is widely regarded as "the best coffee in the world."

For your information, mes cheris, Le Club is a non-profit organization created to promote French business in the Philippmes and to promote the Philippines in France. Its president is the hardworking, popular businessman Philippe Gauthier

Glorious food, tons of cheese, an endless flow of cool Beaujolais Nouveau, topped with the hot new Premium Nescafe Gold Coffee-everyone went home happy, with many going home boozed up. Well, that's what a great party is all about.

This super bash showed everyone how the French really did things, n'est-ce pas?

Induction ball and dinner

There is one big bang all over the world this year as the Rotary Club celebrates—take note, palanggas-100 years of service and fellowship this 2004-2005. Plus-size fashion store in Cubao

USCIOUS, the brand exclusively designed for the plus-size yet sophisticated women of today, is set to open a second outlet at the 2/L Gateway Mall in Cubao, Araneta Center this December.

One of the pioneers in serving the fashion requirements of plus-size women, Luscious features a whole range of clothing and accessories that are distinctly chic and flatters the figure for that sexy look every plus-size woman desires.

The store offers sizes 10 to 28 with a wide selection of tops, pants, skirts, knits, and evening wear in various styles.

The soon-to-open Gateway branch will complement the first Luscious store at the Goldcrest Building in Ayala Center.

Panasonic Viera shows its true beauty at Western Marketing

The new Panasonic Viera is now the star of the show at Western Marketing in SM Megamall. The newest Viera Plasma and LCD TVs from Panasonic are showcased at the front window display of the store. Customers were visibly awed by the stylish design and technologically-advanced features of the new Panasonic Viera.

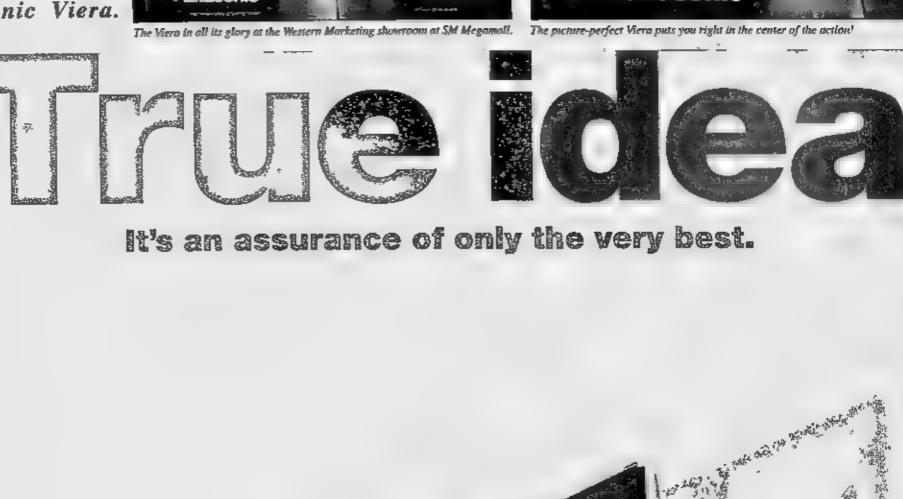

The elegant flowing design of the Viera Flat Panel Display is truly a scene-stealer with its pearl-silver finish and slim panel — a statement of elegance that adds class to any room decor. It can be hung on any flat surface for superb performance and versatility. The crystal-black panel makes the images seem to float in mid-air, so the pictures stand out clear.

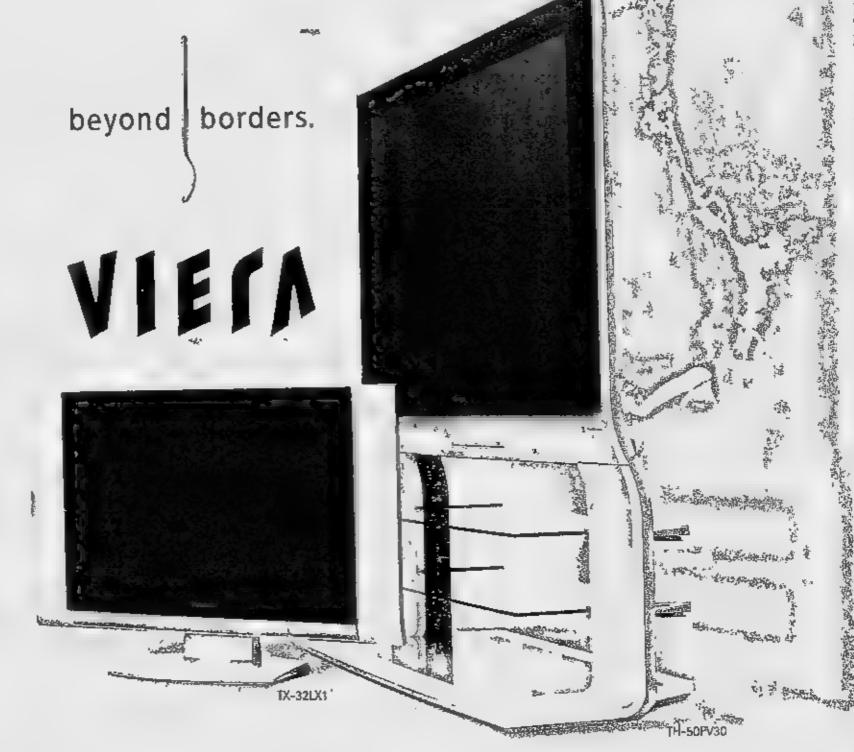

Another highlight of the Viera is its superb picture technology. It boasts of a new Real Black Drive System for richer blacks, finest details and impressive depth, Its Full-Digital Processor makes ultraprecise processing of all video signals possible to minimize generation loss. The Viera also has an HD Panel with Bounded Cell Structure that vividly reproduces the timest details of images.

Its sound technology has a futuristic Smart Sound Speaker System — a specially-developed speaker system for sound that matches the flowing form. The Viera lets you enjoy a rich, life-like ambience and clear, powerful sound with its ultra-slim speaker design — each unit is only 16mm wide. The new speaker units also blend so well with the cabinet's styling so it's hardly noticeable.

The Viera's networking capability is likewise expansive. It has dual slots for SD or other memory cards so you can enjoy pictures from a digital camera. Other memory card-equipped devices could also be viewed on the Viera with its PCMCIA card slot. Connect it also to a computer to surf the net and view streaming videos.

With all these outstanding features plus its stunning looks, the new Panasonic Viera will surely capture one's heart and eyes too. The Viera is one of Panasonic's true ideas that is truly beyond borders, Check out the new Panasonic Viera at Western Marketing located at the Lower Ground Level of Building A in SM Megamall.

• New Real Black Drive System and High-Definition Panel • Smart Sound Speaker System • Multimedia Networking Capability with SD / PC Card Slots • Elegant Flowing Design

Panasomic ideas for life

FRIDAY,

A View from the Hill at 145

It all started in 1859 when Pather Cuevas, the Jesuit Mission Superior, could not resist the pleas of the burghers of Manila. The Jesuits, expelled from the Philippines a century earlier, had just returned. Their marching order from Father General was, to go to Mindanao. Mindanao would remain a target, but other opportunities opened. Thus, by an ordinance of the Ayuntanmento, the Ateneo Municipal de Manila was established - with three priests, one brother, thirty-three young boys.

The school was new, the tradition oid, reaching back to Coumbin in Portugal, LaFloche in France, Stonyhurst in England, all built on the pilkus of the Raño Studiornes The Ratio had produced Francis de Saies, Bossner, Galileo, Moliere, and would later produce Jose Rizza.

That was the beginning of the Spanish eraof the Ateneo. It was an era of intense dedication to Latin and Greek classics. What came out were Filipinos sceeped in the faith and espable of producing literature. Liberation from the Japanese finally came,

In 1921, a new era began. Twenty American Jesuits of the Maryland - New York Province, sent by their Poilsk General in Rome, arrived in Manila. The American Jesuits, like their Spanish predecessors, were also products of the Ratio Studiorum. The Ratio was to stay. But the new situation called for new devices - English gradually replaced Spanish, the exact sciences came in, regether with aductics, debating (often involving public defense of Catholic ideals), and military training.

Tragedy struck in 1932, when fire consumed the Ateneo of Intimuturus. The product of seventy memorable years went up in thanes. But fire did not exonguish the flame that had been fit by Spanish and American Jesuits.

Three distinctive qualities took root during. The times clearly chamored for snother the years of the American Jesuits: flerce loyalty to the school (in and out of the system would not be the answer, but basketball contests!), the habit of radical adaptation was called for

independent thought, and the ability to express one's thoughts with ease in

World War II and Japanese occupation closed the Ateneo. The American Jesuns were thrown into Japanese concentration camps. Ateneo ROTC cadets died in Bataan and Corregidor. Those who survived suffered the ordeal of the Death.

but once more the ensuing confingration reduced Ateneo facilities to rubble. But the same Ateneo spirit of the pre-war years lived on and continued to be transmitted in quonset hurs in Padre Faura until the move to Loyola Beights in the

Loyola Heights would also see narbulent years. The Filipinization movement engulfed the nation and students chimored for an Ateneo with a more Filipino face.

The sharp division between the few rich and the multirudes of poor, often victims of exploration, fanned the flames of revolt and ushered at a virtual dictatorship in 1972. In 1986, People Power pur an end to dictatorship. But people power did not solve the problem of poverty and

look at the Ratio Studiorum. Rejection of

A defining moment for all Jesuit schools was an address of Father General Pedro Arrupe to Jesuit alumni gathered in Valencia, Spain, in 1973 Arrupe shocked his heavers with a bombsheli-"Have we Jesuits educated you for justice? You and 1-know what many Jesuit teachers will answer to that question. They will answer, in all sincerity and homility. No, we have not. If the term 'aisuce' and 'education for pisuce' carry all the depth of metring which the Church gives them today, we have not educated you for justice."

The Valencia address went around the Jesuit educational world under the trile "Men for Others." It evolved into the inclusive title "Men and Women for Others." Since then, "Men and Women for Others" has become a guiding principle for the Ateneo and all Jesuit

The Arrupe em has not yet ended; nor has it been completed. But it has been complicated by the onset of globalization, new scientific discoveries, the end of the Cold War, and the intensifying threat of terrorism.

145 years of Ateneo education from Intramoros, to Padre Faura, and now Loyola Heights, with satellites in de la Costa Street and Rockwell, both in Makau City. Is there a unifying thread that ties the years together?

Yes, there is. The unifying thread and at the same time the vivifying force is ignatian spirituality.

"Spirituality is about the experience at the core of our being of something - a power, a presence, a drive, a that is beyond the ordinary." It is at the heart of bushan life. Spirituality, understood in this sense, is something that every person

When you define spirituality as Ignarian, you refer to the driving force that was at the core of the life of Ignatius of Loyola. Its distinctive features are what make Jesuits and lesuit insurutions behave the way they do. St. Ignatius calls it anestro modo de proceeding, our way of proceeding.

One leading distinctive feature is the constant striving for excellence, the ides of doing "more" (magir) for the "greater glory of God" (ad aujurum Der gloriam). Excellence in scademics, excellence in athletics, excellence in service. There may, indeed, be shifts in emphasis, but the drive for "more" is always there. Now, in the Pedro Acrupe Era, the emphasis is on service of the faith that does justice.

- because Christ was this-worldly. He brushed shoulders with the best and the worst of the world.

Ignatian spirituality sees God as active in everything that is in nature, in people, in structures, and even in most tragic disasters. Hence, Atenes education seeks to instill in the minds of students an insatiable hunger for knowledge because knowledge can lead to an appreciation of mystery and to a sense of wonder that finds ultimate fulfillment in worship and service of the Lord and of the universe.

Ignasian education also sacks to be rooted in culture. The Ignatian Christ was born into a culture and grew and aved and immersed himself in a culture.

Ateneo was born in the Manila of 1859, where there was nothing like the uniquely Chinese culture into which Ricci brought Christ or the uniquely Indian culture in which de Nobili preached. The Ateneo was born into an enclave that was Catholic European Ignatian spirituality, however, is dynamic, It can undergo change. Thus,

TATE THE ARM DESTROY OF THE LAND. 一方式的影響的電影的過去的學自由已經過過過過 and the commence of the commen · received and the confidence of the confidence हिन्द्र निवस्य के त्रेषान स्थान है । वह स्थान कि स्थान है medical field applied the confidence of the 的电影性 经通过连续股票上。

Another distinctive feature is Atenco changed in the ern of the Ignarius centered his life on Christ, a Christ unmersed in the hurly-burly of history, often out there where the battlelines are drawn.

There has always been an element of this-worldliness in the various phases of the Ateneo - the Spanish, the American, the contemporary Atened

centeredness on Christ the way American Jesuits, changed further in the "Pedro Arrupe Era", and will continue to change in the 21" centucy world of globalization, scientific discovery, and intensifying threat of terrorism. For, in the words of Cardinal Newman, "In a higher world it is otherwise, but here below to live is to change, and to be perfect is to have changed often."

HISTORY AND THE ATENEO

from the Atenea.

1 2 5 of Atened years

Ateneo, so it is in today's Ateneo: the fundamental values of excellence and service remain at the core of the Ateneo spirit. As a Jesuit University, the Ateneo pursues the goals of Jesuit education through the harmonious development of moral and intellectual virtues:

Lux in Domino: Light in the Lord. The Ateneo aims to lead its students to see God in all things and to use their talents for the greater glory of God and the greater service of humanity.

Magis: ever striving for the more. The Ateneo seeks to instill in its students a passion for disciplined excellence and a constant desire to be better, to do better.

Cura personalis: care and concern for the whole person. The Ateneo sees each student's totality and nurtures each one holistically.

Men and women for others. The Ateneo strives to imbue its students with love for and service to others.

Transforming Society

In the last few years, the Ateneo has moved to address in an institutional way what Nobel Laureate Amartya Sen has called the "poverty of capability."

The Atener Professions, Schools in Makan are truly at the "Crossroads of Church and World." They engage key insistutions of national life, particularly in the worlds of Law, Business, Heath, Technology and Government. Through us Juris Doctor program and the Ateners Human Rights Center, the Law School develops in its students a legal schularship that engages key challenges of national life, with a particular concernfor the poor and for children's rights. The Ateneo Graduate School of Business (AGSB) is a leader in developing annovative programs for adult working professionals, and is reaching out to other colleges of business through its faculty development programs. It is also a leader in programs for the management of health care, and has developed the

Leaders for Health Program (LHP) together with the Department of Health (DOH) and Pfizer, to improve public health in fifty fourth-and fifth-class municipalities in the country.

The Ateneo School of Government is at the forefront of Ateneo's efforts to contribute to better public governance. Its hiasters in Public Alanagement (AiPM) and its executive programs address its principal mission of public leadership reform and capability building, with a special focus and concern for local government. As LGUs emerge as key points of integration for addressing development, the School of Government has also become a focal point for Ateneo's efforts to address poverty through haste education, public health, and community and house-building with Gawad Kalinga.

Keeping a Tradition of Excellence

The award of Level IV Accreditation Status to the Ateneo by the Philippine Accrediting Association of Schools, Colleges and Universities (PAASCU) and the Federation of Accrediting Agencies of the Philippines (FAAP) is a recognition of the excellence of its departments and programs. Ateneo has nine CHED Centers of Excellence — Biology, Chemistry, Mathematics, Physics, Literature, Philosophy, English, Psychology, Sociology, and two CHED Centers of Development for Excellence — Information Technology Education and Business Management.

The Aigneo Graduate School of Business was ranked first in the 2004 CHLD-FAPE evaluation of Graduate Schools of Business. The Ateneri Law School has consistently had the highest passing rate in the Bar exams over the bar ten years.

Faculty and Student Awards 1

The Ateneo's eight Metrobank Quistanding Teacher awardees in the college (more than any other tertary level institution) and the four Metrobank Quistanding Teacher awardees in the Ateneo High School andy one other high school

has as many), further highlights this excellence Ateneo faculty have received many other awards over the wars. For instance, since 2000, Ateneo faculty members have won seven 1º Prizes, seven 1º Prizes, and five 1º Prizes in the Carlos Palanca Memorial Awards for Literatuse, fifteen Nanonal Book Awards from the Manila Critics Circle, and four Outstanding Young Sciencis Awards from the National Academy of Science and Technology.

Every year, Attney students consistently earn honors and awards in a wide variety of presugious national and international competitions. In the year 2004 alone, Ateneo students received the following swards:

Bar Topmotchers (1", 2", 5% and 6" places) Recognition as one of the Ten Outstanding Students of the Philippines

 World Champion, JESSUP International Law Moot Court Compession in Washington, D.C.
 First Perry First HSRC Young IT.

First Prize, First HSBC Young IT Entreprendur Awards First Prize, Short Story in English, Carlos

Palanca Memoral Awards for Laterance Champion, Meo's Fuotball, 66th UAAP Champion, Women's Bachmaton, 66th UAAP Back to back Champion (2003-2004).

Back to back Champion (2003-2004), Juniors Basketball, 66th UAAP

Second Place (next to the University of Tokyo) and Phiappine Champion in the Asian Regional Contest of the Association of Computer Machinery International Collegue Programming Compension (the world's most prestigious computer programming contest for university students)

Overall Champion, 6th National Debate Championship (the fifth year in a row that the Ateneo Debate Society has won the national title)

Grand Champion, 11th All-Asian Intervarsity Debating Championship (the fronth time it has win this compension). The Ateneo Debate Society has retained its number 4 punking in the World Debating Championships after Sydney, Oxford, and Alonash.

II orld Class Innovation

Atenco's world-class faculty and facilities provide students with a rich covernment in which to explore.

master, and contribute to research, development, and applications in their fields. An example of this can be seen in the area of information and communication technologies TCTs. Among the many laboratories at the Ateneo that actively engage students in academics and research are the Ateneo. Java. Wireless Competency Center (AJWCC),

the Microelectronics Student Laboratory, and the Ateneo-PaDT Advanced Network Testhed.

At the forefrom of SMS, MMS, and Java applications development, the A WCC distributes content over wireless networks, building community among the wireless device users by helping them communicate in new and annovative ways. The Microelectronics Student Laboratory of the Ateneo is equipped with the state-of-the art "Synopsis" suite of tools which enables students to design, verify, and analyze integrated circuits as complex as the Pentium 4. These facilities provide our students superior training for the needs of industry.

The Atener-Pi DT Advanced Nerwork Testbed is a facility for research and development in current marker deployment concerns, pre-deployment testing, as well as more accounced topics for graduate research. It he ps develop focused training modules with integrated hands-on components on topics that cover leading-edge market and technological fronts such as radio frequency (RF) on-fiber and advanced DSL (digital sussenher time) services.

Attener students have garnered numerous prestigious national and internations. AT awards, a testament to the world-class quality to their education. These include the 2002 Worldwide Alicrosoft NET Best twards. XML Web Services Contest in Recanond, Washington, the 2003 European. Theorytec Center Wireless Challenge, the 2004 Association of Computer Machinery. International Collegiate Programming Competition Asian Regional Contest.

Another fine example of how the Ateneo provides us students with introvative learning environments in which to pursue academic and professions excellence is the Ateneo's John Gokongwei School of Management Business Accelerator (5OMBA) Program that enables students to set up actual hosnesses while still in school under the guidance of experiences entrepreneurs. When they graduated from the Ateneo last March 2004, many of the SOMBA student entrepreneurs did not apply for jobs, instead, they interviewed job applicants for their companies, indeed, one of the successful student-owned companies emerging from the SOMBA will soon be exporting its products to China.

service and excellence

ngaging the World

the Ateneo, students are provided h many opportunities for I move them to contribute to ional development and social nsformation within their own ere of competence and expertise.

Ateneo Grade School has had the Atenengyan Program for Understanding and elopment (AMPUD) for the last fourteen years. also work with Carrwheel Foundation for er formation in Busidaon, and with the parishes anta Maria Della Strada and Our Lady of ecost to help two hundred public schoolchs drea

e Ateneo High School, each second year student ds 2 hours a week for 10 weeks in an orphanage, . for the elderly, or center for the physically or ially handicapped under the Christian Service involvement Program. In junior year, they are the opportunity to participate in Banlaw, a mary immersion program, where they spend a end with a poor family.

hriching Culture

e Ateneo strives to develop students articulate, creative, and productive sons who are tooted in their own ture, interdisciplinary in their proach, and global in their spective.

emphasis on cultural rootedness and global rective cuts nowas all levels in the educational mum at the Atenen. In the Grade School and h School, Arabng Panlipunan is the main actional vehicle for inculcating lave of country. mught using creative experiential processes igh which the young students draw on the richness beauty of Philippine culture and history in the ess of developing the desire to respond to the inges the country confronts.

e college level, through a wide variety of courses o-curricular acuvines, faculty and students work her in understanding and enriching Philippine re while engaging in naniyucal and exentive aree on the major ideas and methods of inquiry e globa, intenectual heritage. The work of Atenco issor and National Artist Salvador Berna, at halang Ateneo exemplifies thus.

Tulong Dunong, a tutorial program for elementary public school children, was started by Fr James O'Brien, S.J., therty years ago. It has been traciumonolized in the sentor curriculum and has been a defining experience for many generations of Ateneo high school students. While the young kids from public schools learn a lot from the tutoring, their Arenean Agus learn in a much deeper way. The process of reflection that the boys undergo after their action-oriented tutoring helps them to understand what it means to be engaged in the world and to respond to a deeper spiritual call.

The formation program in Ateneo College begtas with INTACT (Introduction to Ateneo Culture and Traditions) as the first semester of freshman year. in the second semester of freshman and sophomore years, the students enter public school students, build houses for Gawad Kalinga and Habitat, care for the cloping social responsibility that environment with Banny Kalikasan, or take care of the animals at the Manila Zoo.

> In the "labor trial" program, junior students work with manual laborers once or twice a week for three weeks, arrend reput and processing sessions, and write and submit reflections on the experience. In senior year, graduating students undergo a reo and a halfday namersion program among the poor

> Student organizations in the Ateneo servely render community service to a wide runge of beneficianes such as the Loyola Mountaineers' work with Dumagats in Gabaldon, Nueva Ecija, the Ateneo Lex's Batik-Lava Project with prisoners, and the work of the Ateneo SCA, ACIL, Musmos, Kangin, ACLC and Tugon with many poor communities.

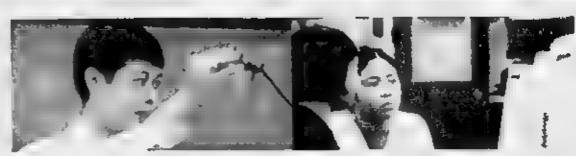

> The Arenco Graduate School of Business has started a program called Mulat Diwa, bringing to the forefrom of the consciousness of students and (aculty the challenges of powerty in our country and encoursing participation in programs to address them. The Ateneo Law School is strengthening its Human Rights Center and its Legal Aid program.

National Artist and Atener alumnus Salvador Bernal has been designing sets and costumes for the Cultural Center of the Phuppines, Tanghalang Atenen, and other prestigants theater groups. Bernal expering its agentous,) with space and material, making persolpieces book authentic and even lay ish white using outordinary and native materials; hambon, burlap, ration. chain links, gauze, cacha; even empir water bomks and ballpen cases become claborate set pieces. As the mission for the National Artist award duly notes, "he exemplified the versatility of Filipius materials for design and proved that the priverty of a presourcion need not imply a preverty of the imagination."

While a text may be foreign, Bernal masterfully incagenizes it, allowing it to speak more forcetash to a Filipeno audience. Shakespeare's Ilyna in Tartub Night becomes an indefinite but identifiable Southeast Asian sland, and Padus in Tanna of the Shreets turn-of-thecentury Philippines.

Sociologist Ricardo Abad, the moderator/director of Tanghelang Atoneo, likewise carefully draws connections between the plays and aspects of local culture and contemporary events. The synergy perween Abad's culturally-moted directorial vision and Bernal's designs is what has made Tanghatang Aceneo. productions powerful and memorable, communing the illustrates tradition of dramatics in the Ateneo begunin the early 1920s by Fr. Henry Lee Irwin, S.J., and spans the Grade School's Children's Theater and the High School's Dulanng Sibol.

Providing Opportunities

and the Ateneo has taken this to heart by providing educational opportunities to financially needy students and working to improve public education in our country.

Every year, the Ateneo aflocates fully fifteen percent of its gross tuition revenue as acholarships for students who are in need of financial assistance to pursue a college degree at the Atenen. This is in addition to funded scholarships from the Ateneo Scholarship Foundation and individual donors. At the graduate level, teachers and staff of any educational institution pursuing graduate studies at the Ateneo's Lorola Schools receive an automatic fifty percent tuition scholarship.

At the 2004 Metrobank Foundation's Search for Outstanding Teachers, representatives from the Atoneo beamed with pride: Manuel Dy, Jr., Ph.D., professor of philosophy, had won at the Ternary Level. But another source of pade was the fact that two other awardees, General Monton of Fort Bonifacio High School (Makati City) and Allan Canonigo of New Ormoc City National High School (Ormor City) were both graduates of Ateneo's teacher education programs.

Education is key to nation-building, The Ateneo Center for Educational Development (ACI:D) is on its seventh year of training elementary and high school teachers from Merro Man in public schools in English, Math, and Science, Faculty members of the Loyola Schools also assist the fledging Pemantusan ng Lungsod ng Marikina to pursue its dreams of becoming a good city univers) v.

> The Areneo has had a long history of serving public school students. The Turong Dunong Program started in the High School in 1975 is one excellent example. The Pathways for Higher Education program is another. Started in April 2002 with the support of Synergeia and the Ford Foundation, the Pathways program obtains scholarships for financially needy but deserving students and assists in the development of their communities. It has grown beyond the confines of the Ateneo de Manila and now involves pastner institutions around the country from as far away as General Santos City in

Whether it is Tulong Dunong, Pathways, or ACED, these experiences help students and faculty to reflect in the values and structures of our society, and on their love for God and fellowmen, and invite them to a personal conversion, It is only then that service and excellence will have purpose and meaning

Becoming God's Light in the World

The Atenco believes in the total development of its students. It is with this conviction that the Ateneo education has three major components: very strong programs of study, in the professional fields providing the best preparation for their chosen careers, a very strong liberal humanistic education through the Core Curriculum, and a holistic and integrated non-academic formation program focusing on leadership, character, spirituality, and service. There is a strong emphasis on studentcentered learning: the formation of students into resourceful, creative, and motivated lifelong learners who are reflective, analytical, and strategic in their thinking.

This well-rounded education aimed at the total formation of students is the reason why student life at the Ateneo is a very enriching and fulfilling experience. All students partake of this, even the athletes who have to practice daily to compete to

very demanding sports. Thus, a good number of Ateneo athletes are also Deans Listers, academic achievers and student leaders.

The Jesun tradition of educating the whole person is the major theme that runs through the academic and non-academic programs and formation activities of the Ateneu, then as now. The total development of students in professional excellence, leadership, character, sprituality and service is at the heart of an Areneo education, it is what shines brightest and what means the most

The Atenen endures because its children never forget For life at the Areneo is a journey of discovery; of one's self, of others in the world, of God. Ulumately, it is a southey into God's light, and a discovery of how this light can be shared uniquely with the world. What one gains in his or her unique journey at the Ateneo becomes an integral part of one's person forever. The journey ends in a realization that the mussion to be Lio. In Domno, God's light in the world, to keep the light burning brightly through generations, is the Ateneo way.

Ateneo de Manila by Bienvenido F. Nebres, S.J. Deyond

Ateneo in Ever Greater Service to the Nation

n the tradition of Ignatius' Contemplation on the Incarnation, our vision of the Ateneo of the future begins with looking at the Philippines and the world of our time. We see signs of a threatened future, of a nation at risk of breakdown. We also see signs of hope: a growing number of individuals and organizations reaching out and creating hope. Our vision then is for the Ateneo of the future to commit itself firmly on the side of hope, to be an Ateneo focused on our mission of greater service to the nation, forming strong leaders committed to the public good and creating institutions that build communities and the nation.

Leaders for the Future

The Ateneo has always seen itself as a school for leaders. In the face of a more competitive world and the growing needs of our country, the need for more and better leaders has become even more

There is already a more intense focus on leadership formation in the University

Our Office for Aussian and Identity and Organizational Development (OMIOD) is now focused on programs to prepare future teaders, Jesuit and lay, for the Ateneo de Manila and other Jesuit institutions.

With the Ninoy and Cory Aquano Center for Leadership and with the help of Gonzaga University's program in Leadership Studies we will do research on

the best in the world in internstional debate, in the Jessup moot court competition, in computer programming, and in choral contests. They have shown that with training and hard work we can run with the best-

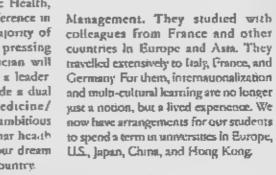

We will continue to measure ourselves against the best and prepare nor students to serve with excellence in an internationally competitive world.

Building institutions for national development

Through the 1970s and 1980s we spoke much of changing unjust structures. We realize today that building a better future demands as well that we build good institutions, graced structures. Among the institutions for building a of a better future for our country.

Ateneo teams have competed against its new home and in the same preparing the clinician of the future by bringing together the strong academic traditions of Ateneo College and the expertise of the outstanding chinicians of The Medical City, It will also be a School of Public Health, committed to making a difference in the health needs of the majority of Filipinos. To address the pressing needs of society, the clinician will need to be a manager and a leader The School will thus provide a dual degree of Ductor of Medicine/ Master of Management. An ambitious goal, but Ateneo believes that headh for the many is central to our dream

compound through a generous donation from Meralco, it will be a School of Medicine, committed to

International Partnerships and Online Learning

Internationalization and the pursuit of excellence also invite us to international partnership. The Atenco Graduate School of Business has been paragering with Regis University in Denver in innovative management programs for working professionals. Atendo will also be partnering with Regis in online courses beginning with Management and IT The Koorad Agenquer Conterfor Journalism at the Ateneo now offers un online Masters in Journalism

The Ateneo of the future will engage in more international partnerships and online learning. We are privileged to be part of a network of 28 Jesust colleges. and universities in the U.S. and over a hundred Jesun institutions of higher learning worldwide.

Love of country

Our teachers who have been going on beachmarking visits to Singapore were struck to find that in practically every class they attended, the teacher would ask the students to "Think Singapore" How can what they are reaching and learning make a difference for their country? Faculty and students who went to a China program in Bening last spring were also much moved by the deep love of country of all whom they met. They have returned with a stronger commitment to do more, to reach and develop love of country

The Ateneo is committed to a stronger "Think Philippines" program focused on knowing our country better and growing in a deeper love for her. In the new Araling Panhpunan series in the Grade School and High School we are committed to the teaching of Philippine geography, history, and culture that will inculcate deeper love of country.

Vision and Mission

Our vision and mission is to build leaders and insumitions for the future.

able to excel and compete in an internationsusing world committed to use this excellence and competitiveness to help build a better funite for our people coming from spirituality and a deep

(Rock force has 30 days

Words set to MUSIC of a day in the life of the Inquirer

HEARD the news today, oh boy!"—The Beatles, "A Day in the Life"

For anyone who feels the beat and gets the rhythm, every day at the Philippine Daily Inquirer could be a jam session.

All right, "jam session" is dated. But although the company president's perception of the PDI newsdesk's composition as being of Woodstock vintage is fairly accurate, the editorial routine recalls rock 'n' roll before and beyond that celebrated hippie "happening."

Thus is why Elvis, demigod of the '50s, is our
19th anniversary mascot. And this is
why we're telling this little story in
words borrowed from some of the

greatest rock songs of all time.

The INQUIRER Rocks at 19.
"Smoke on the water, fire in the sky" made this possible instead of inhibiting it.

Stories are invariably driven by "More Than a Feeling."

"Bad Moon Rising"? "Highway to Hell"? "Another Brick in the Wall"? A "Revolution"? No obstacle is ever big enough for these journalists "Born to Run"—all right, sometimes "Born to be Wild."

A "Purple Haze" scenario seems strangely insignificant. They will never "Let It Be," "Jude," they "Won't Get Fooled." "Paranoia" is a virtue.

Oh, but accuracy is their mantra. Check, recheck, check once more, "cause you know sometimes words have two meanings," even those uttered while climbing the "Stairway to Heaven."

Still, if the editors never "get no sansfaction," it's because the operative word in the newsroom is supposed to be "passion." Their constant demand: "Light My Fire." That's right, even if reporters have to "Shake, Rattle & Roll" or "lose their religion."

3

Yes, we can sound like Guns N

Roses hissing, "Welcome to the Jungle," and yet U2's "Sunday, Bloody

Sunday" is not always acceptable as a theme Instead, we dare insist on Positive Sundays, because the Inquirer was listening, too, when Paul McCartney pleaded, "Well you know that it's a fool who plays it cool

by making the world a little colder."

Translation: You may say we are dreamers, but we're not the only ones. Why, even Megadeth tried to make people realize that "Peace Sells."

Though it does take a "Whole Lotta Love."

Some people may roll their eyes: "Excuse me while I kiss the sky."

They may see the INQUERER as a "Crazy Train," a stable of "Wild Horses."

What it really is, is a "Free Bird," a "Bohemian Rhapsody."

And it's never "Dazed and Confused." It's never "Yesterday."

Most of all, it's "a lovely place ... such a lovely place."

—Emmie Velarde,

Assistant Entertainment Editor

IN EDWIN BACASMAS: From the heights of power at the Palace, PDI ace photographer Bacasmas (in photo) focuses his lens on the Super generation.

Super! view of the new and now

Editor and creative director, Inquirer Superl

FOR PREVIOUS generations, rock and roll proved to be the best escape from a mundane existence born out of a desire to break away from the system and go against the mold of the ho-hum.

much used to, the fear of going with what used to be tagged as "anti-estabhishment" added to the thrill of the movement, adding to the popularity of rock scene legends Chuck Berry, Elvis Presiey, the Beatles and the like, There was something goosebump-inducing in having delight in something that was

deemed lact. "Rock and roll is here to stay"-the old ditty chose to repeat Itself, maybe thinking that if it repeated itself enough (19 times, I guess?), that it would be a self fulfilling prophecy for the musical genre that our grandparents grooved

Fast forward to now, and we see the tide shift toward the direction of "the other side," with this era forever in celebration of "what-is-old is-new-again." Not that it ever left. Every generation takes pride in its ability to let their haur down, and "rock and roll."

just takes different forms. From the disco culture of the '80s to the rave scene of the '90s to the R&B/ hip hop royalties of now, young people will forever have the desire to get down and dirty.

now? Knowing fully well that we are given much freedom, we practice as much responsibility with our actions as much as we know how to. The difference is, what was considered underground and taboo before is what is mainstream now.

The Super generation is given free rein to explore its potentials and experi-Something that the incourer is very ence everything that comes with it. Technology makes everything fast-everything that this generation needs it can get within the wave of its hand-or finger, for that matter

Style, urban living, pop culture, entertainment and recreation all play big parts in the ever evolving movement of this Super generation, who choose to nor just live it-but live it in super-sized proportions.

To balance a full-time career with an active social life. To focus on a profession at the same time indulge in one's passions. This time, it's not about "either, or," but about "both, and more."

Having the best of both worlds-thar's the Super generation's ideal. Another term tagged to people like us is the "slasher" generation. One is never just tied to a single thing. A graphic designer slash entrepreneur slash teacher slash civic volunteer. A call center employee slash accessories Rock and roll really is here to stay, it designer slash student slash fictionist. And so on. The slashes are endless.

So, how do we rock and roll? By doing all of the above, and more. We can still gyrate to our favorite house or R&B / hip hop tunes. We will still listen to For what better time to do it but our Paul van Dyk and Hed Kandy tunes

on our iPods, download our favorire logos and ringtones on our cell phone, and still know how it is to hand-write a love letter, or compose a poem for a

We will still run to a rave at the NBC Tent, even if we totally got sloshed midweek dancing to R&B at Greenbelt. We will still flock to a Bamboo or Rivermaya gig and watch the latest episode of a star searching reality show or catch "The Buzz." The clubs, TV shows, performance venues-pop culture in general--have housed the way we rock and the way we roll

Another mecca that has housed this Super generation is the gym. With the body being the temple of this generation's soul self improvement has become part and parcel to daily living. Gym is the new church, as exercise has become the new ecstasy.

Here at the Inquiren, rocking at 19 has never been more Super! Each day, we try our best to live our lives like it was our last chance to rock and roll. We aim to bring to our readers our view of pop-the new and the now, and how it can enrich their lives.

As the new baby of this 19-year-old institution, we have been called "the spoiled brats" of this publication-part of the birth pangs of a paper dedicated to "balanced news, fearless views." We have become the breakthrough baby (at 1-1/2 years young) crying out loud for change.

Redefining the rules (from deadlines to newspaper styles) and going out of the box (more like, making boxes ex-

plode) has become part of our weekly bartle plan as we wade through the urban jungle of newspaper publishing.

So far, the results have been fulfilling. From a measly two-section Superl, we are now averaging eight per week, and the pool of writers, artists, photographers and contributors and most importantly, readers, continues

And this is just the beginning.

Our aim for Super! is to continue to rock and roll for the next 19 years, and bewond.

For our first anniversary, we started our "I am Super!" awards, paying tribute to true blue rockers-the movers and shakers of this era-19 individuals whose contribution to pop culture is undeniable.

We hope to continue with this tradition as we grow younger and wiser with the inquirer each year.

Reader empowerment has always been at the forefront of our goals, so we put regular features in Super! such as Superfriends (where readers can interact with other Super! folk such as themselves) and "Caption, my caption" (where it is the readers themselves who supply the captions to photos chosen by the Superi staff)

As the youngest child of the INQUARER family, we at Superl congratulate everyone who has been rocking before us, and those who are rocking with us now. We are happy to be rocking with all of you-editors, writers and readers-and hope you'll continue to rock with us for 19 more years, and beyond.

To find jewels in the dust

By Rosario A. Garcellano Associate Editor for Readership

CONNECTION with readers has been a constant activity of the Inquirer in all its years of existence. Now, a year shy of two decades, it continues to make the effort of connecting, to ever strengthen the nes that bind us to the great mass out there who invests enormous meaning on our enterprise of publishing and advocacy.

A paradox characterizes modern times. In this cutting-edge age when communication is faster than what could once be imagined, when the sights and sounds of war and other human tragedies reach breakfast tables even before the smoke and tears can dissipate, the preponderance of information, the sheer surfeit of it, is often among the Casualties.

Rare commodities

Time and attention are now rare commodities in the business of hving, and the information provided by the media. once the way to start one's day, now often acquires the dimensions of a one-way street. This is the way it often goes in this country of our affections and despair, where, for the attention of certain readers, a newspaper has to compete with the rocketing cost of keeping body and soul together. (Or, at the other end of the spectrum where young people celebrate themselves in the manner of Rimbaud though without the elegant susurrus of his verse, to connect in terms of their language and song.)

The Inquirer is aware of its responsibility as a stalwart of Philippine journalism and strives to maintain its footing in the marketplace of ideas. It recognizes and has duly adapted to the changing needs and demands of its readers at the same time that it reiterates its commitment to inform, educate and serve as catalyst to social development. (Or, on the recent storms and typhoons that side, as the young would expect of a

newspaper in tune with Beyonce, to par-. ty. Even our dourest journalists might agree that conflict between running political news and running breathless tidbits on the spas and ski slopes of entertainment is not necessarily so.)

Fast-fact boxes

To aid readers on the run, its reports on power rate increases, pork barrel and crime as well as momentous occurrences such as catastrophes or landmark court rulings are complemented by charts, tables, sidebars and fast-fact boxes Marked "In the Know" or "What Went Before," required to be short and sweet, these boxes are designed for quick absorption. They are aimed at providing readers background and context and, along with the main reports, at assisting them in comprehending an event and apprehending its impact on their daily lives. (Memory comes short. The Inquireex is committed to galvanize it.)

On Sundays, the Inquirer makes a deliberate effort to relax, to momentarily set aside the grit of life as we have come to know it and to focus on its (few) pleasures like a lover with a slow hand. It's a challenging task, sometimes close to impossible to meet given the lay of this land where children die of hunger as their grief-maddened mothers watch. But we strive to deliver, whether in words or in

Different from the families

We find jewels in the dust and we produce stones of "common" folk-women, men and children of uncommon valor-stories told in a style different from the daily run, different but familiar and dear. (Does this mask the existing realiry? We think not. We mean to relay, even if in spurts and starts, messages of pride and hope.)

To help readers come to grips with the wrought death and destruction in Luzon,

READ ON THE RUN: Reaching breakfast tables even before the smoke and tears can dissipate.

the Incurrent news bureaus sought, and continue to seek, to put a human face on the unrelenting details—the wide swath of misery, the horrific jumble of wood and human lives wrought by the deadly rush of earth and water triggered by human greed. We mean to desensatize the jaded; to present in words and pictures what great numbers of people have come to and how they got there; to back cold figures with warm (or once-warm) bodies and the bits and pieces of their broken lives; to show how volunteers have performed even beyond their own expectations. And, from there, help readers pinpoint responsibility.

Connection. Daily. It's a continuing effort, a commitment, of the Inquiren.

The Best Way to Put Ink on Paper

Through the years we have been part of the team that brings the news to your doorstep. Our newspaper presses, FEP Printing Corp. and Alliance Media Printing Inc, prints the Philippine Daily Inquirer, Inquirer Libre, Cebu Daily News, Bandera and Tumbok. Apart from these local titles, we also print the Asian Wall Street Journal and the International Herald Tribune. As we continue to find the best way to put ink on paper, we have expanded and now print books and magazines through our commercial printing arm, Lexmedia Digital Corp.

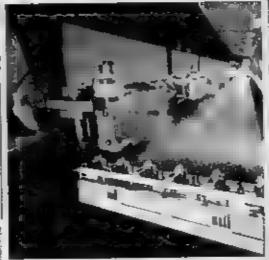

At Lexmedia, we've invested in the latest equipment and built a production platform that serves the publisher's needs first and foremost. As your business partner, we offer a complete printing solution -- a fully digital prepress, world-class print quality, state-of-the-art bindery and a full range of post-press and delivery services.

Wow! 22 stories in 7 media outlets

By Stella O. Gonzales Editor, Inquirer News Service

IT was the product of several brainstorming sessions by a team of INQUIRER sentor editors and management people, including PDI president Sandy Prieto-Romualdez.

The group was thinking of ways by which the Impuree and its media affiliares could reach as many people as possible.

Then came the idea of having a special report that would simultaneously run in the INQUIRER, Inquirer Libre, InqTV, INQ7 net, and Inquirer Publication Inc.'s Cebu Daily News, Bandera and Tumbok

But choosing the topic for the report was not

The team agreed that the report must be something non-political so as not to turn off the public, it must be a gut issue that most Finpinos could relate to and would want to read about. And it must be something the Inquires could produce in a short time.

Several topics were suggested. Some were quite interesting, but could not be produced

right away. Then someone asked: "What about cell phone theft?"

Each member of the team started recounting stories about their own experiences or their family member's or their friend's or relative's or

It was then the team knew it had a hit.

Cell phone thefr was the country's most common street crune, thieves were killing people over cell phones, and there was no indication that the situation was about to improve.

Dividing the work

The team agreed that Libre, InqTV and INQ7 would produce their own set of stories. INQUIRER was to have its own stories, which would also be uploaded in the INQ7 website.

Associate editor for readership Chato Garcellano shepherded the Inquirer's Metro Mani-In reporters to work on the stones. She sifted through their sometimes long stories, chopped them into a more readable length, and merged those that were related.

ingTV's John Nery edited the stories submitted by PDI's four provincial bureaus, and these appeared in the Across the Nation page.

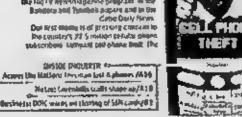

Art director Lynert Villamba was in charge of Inyout and photo consultant Boy Cabrido gave the assignments to PDI's photographers.

Cebu Daily News and Bandera ran the stories produced by the Inquiren, while Timbok ranthose produced by Libre.

The result was a first in Philippine media his tory 22 related stories in seven media outlets.

TEAM EFFORT: The first special convergence report that came out Sept. 14, 2004

Show, not tell?

By John Nery

Executive Producer, InqTV

WHAT makes a story prepared for TV different, in essence, from one written for a newspaper or a website? Last September's "convergence" special report was a terrific opportunity to discover the answer.

The series helped focus the logTV team's resolve to do stories that only TV can do. In the special report, it became clear that the task facing InqTV was simple: to show, rather than rell. To this end, laquirer reporter Luige del Pherm worked closely with IngTV producer Kitkat Wenceslag to verify anecdotal evidence, case acheal cell phone theft hot spots, and then shoot on

IngTV also decided to dedicate the week's interactive Tanonging Bayan segment to the issue. We asked: Nakawan ng cellphone, ano ng solusy-

As expected, the issue generated a rousing response. Not a few blamed the victum. The following message from Catherine of Sultan Kudarar was representative of hundreds: "wing mgna2kw kng wing ta2nga tanga." Hundreds also cailed for stricter execution of tougher laws, including the cutting off of offenders' arms. (Call this the Saudi option.) And then there were the texters, like Eric of Tayray, who waxed sareastic and pohocal: "get pgma 2 promise at 2 do nything abt th prblm, we still xper her 2 go back on her word & try 2 solv it b4 her 100th day n ofc!"

• Humanize the technology angle 7

By IV Rufino Editor in Chief, INQ7 net

THE CELL phone theft series of stories generated a lot of enthusiasm from INQ7 net editors and reporters as we have long been covering mobile phone news in our breaking news and daily infotech section on the website. Collaborating with our parent company and sister publications in the INCURER group was a chance to share our stories with local readers rather than with our predominantly oversess Filipino audience of close to a million

When we discussed what our contribution to the series would be, we decided that while technology was the natural angle for phones.

the online arm of the Inquirer to: take, we would need to "human" ize" that angle to connect with non-on me readers.

Hence, our main contribution to the series was a profile on Jun Lozada, a former telecommuncations executive who is now a dedicated anti-cell phone thest advocate.

We also took readers behind the counters of cell phone repair shops and showed how technicians went around the safeguards cell phone manufacturers had put in place to guard against theft. And our reporter discovered that cell phones can now be pawned just like jewelry. and watches-yet another way for thieves to fence stolen

Ur celfone or ur lyf >

By Chito dela Vega Editor in Chief, Libre

INQUIRER Libre had a special interest in the cell phone convergence story mainly because the topic affected the bulk of its readers- LRT and MRT com-

Most Libre readers, who commute daily to work or school, have either had a firsthand experience of cell phone theft or have a relative, friend or acquaintance who have had

Using the statement ur celfone or ur lyf? :-(as a springboard, Libre reporter Cathy C. Yamsuan, produced three stories for the convergence series. For Day 1, we came out with the story "Segunda mano? Ingat kayo d'yan," which warned the public that second-hand phones. could be stolen goods. Day 2 had the story of a chronic cell phone theft victim, "Ayoko na ng cell phone."

Our concluding story was how the police solved the case of Christian Reyes, nephew of famed hairstylist Ricky Reyes. The younger Reyes was shot and killed when he refused to give up his cell phone ("Nasa: yang na buhay dahil sa naka-

The 'dinosaur' who came in from the wires

By Ruben Alabastro

Day Newsdesk Consultant

YOU CAN'T beame people when, on hearing that you have been a reporter for more than 40 years, they shout from across the room and call you a dinosaur.

That was how you felt the day you retired from the foreign news agency where you had worked for years, threw your few possessions into a black plastic bag, and left that office tower on Ayaia, closing the door behind you for the last time.

Still, you were consoled by one thought: Life, someone once wrote, is much more successfully looked at from a single window.

Almost suddenly, the feeling that you had seen better times was gone.

This April evening, you walked into the offices of the Philippine Daily Inquirer. You were, as they say, a "veteran" reporter, but you had spent all four decades of your adult life working for international news agencies,

and it was the first time you were seeing the innards of a newspaper office. Every afternoon since then, you have been in

the teeth of daily editorial conferences, sitting side by side with editors who seem to know every hit of gossip in town, and who decide which stories and pictures would appear on the front page the next day, and which would be pushed into virtual obsivion in the inside sections.

Journalist's blood

As darkness sets in, a woman in black walks in. You immediately recognize her isn't she the irrepressible editor who, years ago, earned the wrath of a dictator?

Maybe the blood of a journalist never runs dry and soon, the woman in black is peering into every story-including headline and picture

page for tomorrow's edition, worrying about how it could be improved or better presented.

As a news agency man, you wrote one, two or maybe three stories a day, and then headed to one big difference between working the nearest dive in town. Now, working at the In-OURRER desic, story after story passes through your hands even on a quiet day. You glance at the clock and see that your night is over, so soon.

As a reporter for Agence Prance-Presse, United Press International, The Associated Press and finally Reuters, you inevitably jumped on the news that a plane or a passenger ship had gone down. A quick check, and you learned that the casualty figures were low - they could be counted on your fingers-and you shoved the story in the back of your mind.

Life in Asia is cheap

Several foreign correspondents had told you that life in Asia was cheap, and soon enough, you, too, learned to gauge the depth of human misery in terms of numbers.

It does not mean that correspondents working at foreign news organizations are callous about such things. It is just that in a world where disasters occur, bombs explode and wars are fought every day, your poor country is just a dot on a huge map.

You learned to accept that in a turbulent world, people hardly cared about that inconspicuous dot-barring volcanic eruptions, devastating cyclones, or coups.

Will the world outside care about Perlito "Poxong" Ibañez, that poor, 25-year-old triarblete champion who hanged himself in his apartment in Laguna in June last year?

Most likely not, but an enterprising Inquirer reporter seized on the news and wrote a hearttugging story about how despondency over fi-

government neglect pushed hun to the

The young man's story drove home for international news organizations and for a newspaper.

Major breaking stories also highlight the difference between the two worlds.

A huge earthquake jolts Manila or a passenger ship loaded with hundreds of people sinks off the Bay and in minutes, the story is out on the foreign wires and being broadcast on CNN. Every foreign agency scrambles to get the news out first.

One-minute difference

You still remember the day in July 1990 when a temblor shook the highrise building where you worked. A neryour building supervisor ordered ev-

stayed on, trying to dash off a quick one paragraph so the world would know.

But you lost precious time because your seat and your computer kept shaking, and you kept on lutting the wrong keys.

The following day, an editor sitting at a desk in Singapore sent you a note. thanking you for being the first to report colorful details about the quake. He also told you that another news agency had beaten you on the first break-by one minute.

The suggestion, couched in gentle words, was that someone was faster than you.

In a foreign news agency, you learned, you cannot afford to let anybody be ahead of you for a big story.

Newspapers are also gripped by a sense of urgency, but they need not be nosaur has changed.

caption—that had been laid out on the front annetal and personal problems and eryone out, saying there was a fire. You madhouses. Knowing that the story would not be read until the following morning, editors plan how the story would be developed fully-deciding which reporter will handle the trunk, and which one will write about the human interest side of the tragedy.

As you write or edit the story, one thought is always on your mind: The following day, it will be read in streets, buses, offices and homes across the country, and it will probably touch people's lives.

After all, you are a newspaperman writing for your own people, not a Manila-based foreign correspondent writing for some nameless, faceless reader in some other corner of the world who may probably wonder if your country is in Asia, or Latin America, or Africa.

Truty, the day of the grizzied di-

ABENSON

Let's hear it from the scholars

ONLY A few years back, reporters Tarra Quismundo and Leila Salaverria were mass communication students at the University of the Philippines. Unlike other hopefuls who had to join long queues at job fairs or scan the classified ads for work, Tarra and Leila had jobs waiting for them right after graduation.

They are among the scholars sponsored by the Philippine Daily Inquirer through a dergraduates. Launched in 1995, the scholar- tor Ruel de Vera

ship program covers tuition and other fees, a monthly stipend and a P1,000 yearly allowance for books and school supplies.

PDI scholars now with the INQUERER are reporters Blanche Rivera, Philip Tubeza, Norman Bordadora, Michael Ubac, Jerome Aning, Leila Salaverna, Edson Tandoc Jr., Tarra Quismundo, Abigail Ho, researcher DJ Yap, editorial production assistant Jamie Alarcon, unique journalism program for deserving un- and Sunday Inquirer Magazine associate edi-

Better than show biz

By Tarra V. Quismundo

A DREAM.

This was how it was for me, a girl who read the paper as a young child and wondered how observed to the readers the morning after. reporters looked like. I never thought I would be one of them one day.

Now that I have been part of the INQUIRER faces behind the names I was once intrigued about, I feel fortunate working for a company that has been my genie

has given me opportunities that I could never Imagine. Like any fantastic story, mine with the Inquirem has been a chain of events that has made me want to work for it longer.

The scholarship it granted me led to my landing a job as an InquiRER reporter, bearing a press ID from the nation's most respected newspaper, which in turn lent me as wellearned credibility. I should know. There is no better feeling

than being received well by strangers once they learn where I work.

Being with the Inquier has allowed me to

have the best seats as I watch history unfold, meeting its cast of characters and writing down the drama as it happens. And the best part: relanng what I had seen, heard, felt, smelled, and

Best job in the world

With the Inquirie, I feel like I have the best for more than a year and have already put the 10b in the world—I am able to do what I love and enjoy while actually doing something that is necessary to the world: delivering the news.

And I am able to do so with people who have I feel greatly indebted to the Inquirga as it been here since the Inquirer was born and with new ones like me-mentors and friends with whom I share the INQUIRER experience.

Working with the Inquiren is truly better than being in show business. As the popular television game show says, it's a chance of a lifetime.

Today I am faced with the challenge of keeping up with a paper three years my jumor and with which I share the same birth month, but which has grown more mature, gone slimmer, and has become more reader-friendly than ever.

In a curthroat world, this company is among the few that value service more than profit, and I am loving this life of a dream.

Like never leaving home

By Edson C. Tandoc Jr.

MY FATHER was more thrilled than I was when I qualified for the Philippine Daily Inquirer Scholarship in 2001

Part of the scholarship was working for at least a year with the newspaper after graduation. I thought then that that would close the door for many opportunities after college, like pursuing graduate studies.

After almost a year-and-a-half of working with the loourer, I am now more thrilled

than my father is about my profession. He would tell me my job was very demand-. ing, that I should have just taken up law.

High expectations

But a big coverage gives me fulfilment, even though that would mean going home late at night, dead tired.

Working with this organization means having to deal with a lot of expectations.

When I was in college, my professors ang with the Philippine Daily Inquirer is being home.

would occasionally talk about Inquires editors, reporters and columnists as people to emulate. Working with them now is a source of both pride and pressure for me.

Outside the office, I feel the prestige of working with the Inquirest Many sources trust me largely because I work with a newspaper they trust. It's easy to reach interviewees because I work with a newspaper they know.

I feel very fortunate to be working with this company. I can see and feel how it takes care of its employees, how it seeks to empower every member of the team through more training. Top officials regularly meet with their employees, enough to make each of us feel important.

I am also proud to be a member of the Philippine Daily Inquirer Employees' Union.

And working with people who share my values, which other people sometimes see as too rigid, encourages me to stand by my principles. It comforts me to know I am not alone.

I grew up in a family which values magnicy Work-

Checking if there's an 's'...

By D.J. Yap

MY first five morths at the inquires feels more like five weeks. A lot has happened between my first day on the job and 150 days since. A fiscal crisis, a military scandal, a super typhoon, you name it.

I'm only just beginning to eatch my breath. Working for the INQUIRER is not yet like joan-Ing the Army, but it comes close. Everywhere, every day the tempo is fast. Rush through this, zip through that. News comes and goes so quickly you have to speed along.

Along the way, the real learning begins—the kind of learning you never imag-

At UP Dihman I was taught the basics of the 5 Ws and 1 H (or what they jokingly called the 5 Wives and 1 Husband), the concepts of ob-Jectivity and advocacy, the journalist's code of ethics, the three supreme rules of accuracy, accuracy, accuracy.

Not learned in school

I was a PDI scholar and had interned at the INCURRER, I knew my stuff. Past forward to July 12, 2004, and it was a different story.

INQUIRER publisher Isagani Yambot said it all in a sentence. Holding his ring up symbolizing 15 years of service, he declared: "With this ring, I can say I am now forever married

to the Inquirer." Married to the job. Committed to the work, Paithful to the vision. There truly must be something about the Inquirer that makes us stay and want more, do more. Is it the promise of a higher profit share every year, or the prospect of staying forever young (Because, like soldiers, 'peryodustas' never die, they just write 30 and ride off into the sanset, or right after the paper is out to bed at night)?

In any case, we know veteran inquirer employees when we see them, and make individual career milestones.

ECSTATIC 10-year awardee Sandy Prieto Romualdez, Inquirer president and CEO, with 15-year awardee Isagani Yambot (right), Inquirer publisher. With them are Inquirer SVP for sales and marketing Rene Remoso (left) and SVP for corporate services Dave Valdes.

Inquirer's strategic innovations in marketing communications

By Zana Rongulllo

THE YEAR 2004 probably holds the record for having the most number of innovations in Inquirer's 19-year history. This was the year that the publication launched Inquirer Badminton Monthly, the glossy JustShop magazine, and went into television via nications (SMC) group was alship of the group's head, assis- Drilon and Pinky Webb, top

tant vice president for strate- NOTED author and gic marketing leadership expert john C. communica-

Cellne Madamba, this 🛬 significant eddition to the ever-growing inquirer marketing family also houses the corporate relations

The group's main thrust is to address the concerns of advertisers and strengthen corporete image through various special events and programs designed for inquirer's key publics and stakeholders.

Despite its relative newness, SMC was successful in launching landmark events, delivering improved results in annual programs, and solidifying relationships with readers, advertisers and the com-

Arguably SMC's most successful project this year was the launching of the Cannes Lions in Manila Festival in partnership with the Advertising Board of the Philippmes. As country's official Pestival Representative of the Cannes Lions International Advertising Festival-regarded as the "Olympics of Advertising" -the inquirer brought in the world's most creative and impactful ads this year to local shores. This was Inquirer's way of encouraging the Fil-

lpino advertising industry to further explore crestivity and bring home the country's first Cannes Lion award in advertising.

From Sept. 27 to Oct. 1, Filipinos were exposed to the winningest creative advertising executions at the Green-InqTV Early in the year, the belt mail in Ayala Center, Strategic Marketing Commu- Makati. door and direct marketing were exhibited at the cinema

The group's main thrust is to address the concerns of advertisers and strengthen corporate image through various special events and programs designed for Inquirer's key publics and stakeholders

Another notable event was the first offering of the Inquirer Executive Seminar Series co-presented with PLDT and organized by Salt and Light Ventures. Entitled "Maxwell in Manile", it brought in record crowds during the engagement at Coliseum last Araneta September. More than 17,000 attended the semmars conducted by noted author and leadership expert Dr. John C.

Maxwell. Aside from opening doors to key decision-makers via several executive luncheons, dinners and even cocktails, SMC also serves as media and marketing consultant by providing business reviews, market research and feedback mechanism as exclusive services to Inquirer's major clients. Among the organizations that SMC has played host to this year include Citibank, Ford, Globe, GMA Network, Metrobank Foundation, M.tsubishi, Pfizer, PLDT, Toyota, Unilab, Unilever, and

Smart Communications. Groups and institutions like the Bank Marketing Association of the Philippines, Center for Culinary Arts and Cravings, De La Salle University Chorale, LaSallian Scholarum Awards, Philippine Philharmonic Orchestra and even the 2004 Ms. Earth winner were also warmly welcomed in the

Maketi headquarters. On March 3, more than 30 top-level executives (including Henry Sy, Washington Sycip, Edward Perreira and Tony Tan Caktiong) attended the Management Association of the Philippines' (MAP) cocktails hosted by Inquirer and held at the Inquirer building's second floor multi-purpose area. The night was a tribute to Ambassador Jesus Tembunting (chair and CEO of Planters Bank), who was proclaimed MAP's Manage-

Be settled in

"I LOVE the Inquirer, Dito na ako humanda ing." [] grew old here]," declares Agnes Javier, executive secretary for the marketing division and one of this year's service awardees.

"I don't work just for the money anymore," she told the Inquider "Being part of an excellent team and having a considerate boss makes me happy."

Javier, a commerce graduate from the University of Santo Tomas, joined the Inquirer as classified ads account executive on June 19, 1989.

"I was hesitant to accept the position because I knew I wasn't that good at sell-

Javier sold advertising space to government and private offices in Manila.

Nobody knew the Inquirer then. "We didn't even have cellular phones, fax machines or the Internet."

In 1995, she became executive secretary to David O. Valdes, then VP for classified ads. Last June, Javier moved to marketing as executive secretary to VP for Marketing Donald Lim. Trading the field job for office work has its advantages. "I got to know the people working inside Inquirer. I also learned to use the

Heed your calling

the by-line of Christine Avendaño still appears in the pages of the Inquirer 15 years after it was first printed.

A journalism graduate of UP-Diliman, Christine was a features writer for an Ateneo-affiliated agency before the inquirer hired her as its reporter to 1989.

In 15 years, Christine made the rounds--from the police beat to the airport, labor, Health, Immigration, Phivoles, Congress, DFA, DENR and DSWD, "I've covered almost all of the beats already," she says.

WRITING is her true calling, the reason. She looks forward to covering the Malacaffang and Justice beats.

She considers foreign affairs to have been the most challenging beat. "It's hard to develop sources at DFA because we deal with diplomais," she reveals.

Christine says she has been writing hard news stories from the very first day she stepped out of the Inquirer office to come face to face with what she calls the "real world." Every now and then, though, Christine yearns to dabble more in writing

Go the extra (s)mile

SOMETIMES, you have to "take one for ings of organizations and issue press the team." Surprisingly, you find yourself still smiling.

Publisher Isagani Yambot's most challenging task for the Philippine Daily Inquirer was acting as spokesperson at the height of the ad boycott mounted against the Inquirer by the cronies of President Joseph Estrada in 1999.

He says he had to answer the questions of radio commentators in early-morning programs, appear on TV, speak at meet-

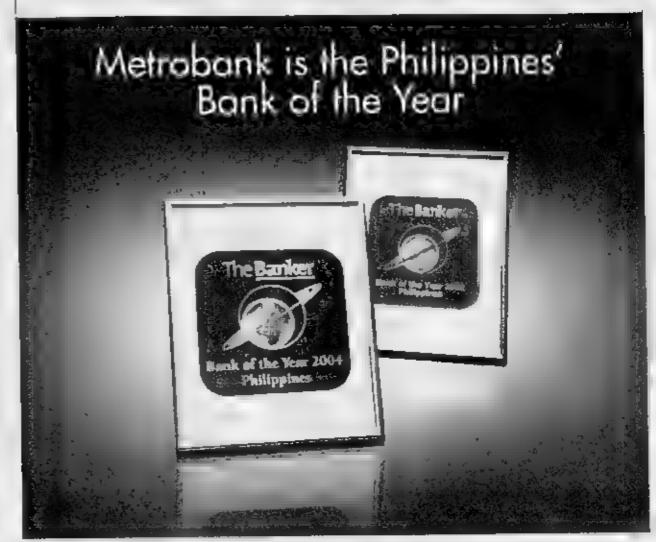

statements on behalf of the Inquirer. And that's on top of adapting to the pa-

per's ever-changing corporate and technological character.

"I am reminded of what I used to tell reporters who would ask me when they would get another raise: You will soon get your reward-in heaven." Gans, however, believes he's getting his reward here on earth, in terms of "psychic satisfaction for a job well done.".

With a job you actually like and a colleague who provides you with such happy memories, how can one even dare think of leaving Inquirer?

We've done it before, we did it again.

"Quality delivery services is our concern."

UTTER delight. That's the look of having half of the cake (and eating it, too). As the day ends, general display advertising staff members go home smaling. Shown are Arma Pineda, Carol Javier, Beth Andres, Richard Cuaresma, Aries Espinosa, Mei Fernandez, Rey Cruz, Normandy de la Paz, Alizza Butiong, Gelly Badocdoc, advertising AVP Kenny Nuyda, Jenny Rockwell, Izelle Medina, Cherry Vitalicio, Elena de los Reyes, Gina Layague, Mylene de Jesus, Raquel Gomez, Chona Agustin, VP Pepito Olarte, Aggie Pinik, and Lita Pascual,

Inquirer advertising VP Pepito Olarte utters just one number when asked what the most significant achievement Inquirer general display ads has achieved thus far in 2004: '46%'. 'That', he explains 'is the Inquirer's market share for display ads versus all other broadsheets.' He hastens to add that with the business group's perseverance, resourcefulness and flexibility propped up by the Inquirer editorial group's credibility and reliability, Inquirer readers can look forward to relishing more pages of balanced news and fearless views, not to mention more eye-catching ads, too

Going undercover

By Christine Ong ' Reporter-Producer, InqTV

OUR TAGLINE, our signature phrase, is something we in IngTV take very seriously.

In pursuit of the eye-opening or consciousness-raising story, I have had the chance to do many things--including personally applying to become an escort girl.

At the height of the escort service scandai, I wanted to invest gate the Issue without dipping into the bag of usual tricks, for example by catching escort girls providing ascort-plus services on tape. Instead, I went undercover, applying as an escort girl through various means and finally and personally experiencing how easy it was for this flegal trade to flourish, How? Simply through the use of advertisements in the broadsheets, phone directories, and the

Congress, through the office of Rep. Liza. Maze of the Gabriela Women's Party, took note, promising to conduct a congressional nquiry on the escort service business. This inquiry, however, has yet to push-through.

Four stories =

By Melanie de Ocampo Reporter-Producer, InqTV

MY REPORT on Muslim discrimination was, by far, the most challenging coverage I have had in my six years in TV in all candor, I can now say that my crew and I were terrified when we penetrated Maharika Village, something we never expected. Of course, a look back differently on that time now.

The scare we got from that series of interviews, however, was nothing compared to the time we went to Cotabato to revisit wer-torn areas. The tricklest part was listening to the victims as they went on and on about their plight, and reminding yourself not to take sides

, atsp remember a story 1 produced on the festering garbage problem. The story, tord from the garbage pit itself, including a visit inside the "house" of one garbage scavenger, exposed the real life of these grass-roots entrepreneurs.

i also enjoyed doing a story on microfinance because it was a story on empowering worner). I didn't expect that viewers would actually call InoTV to find out more about how microfinance can help them change their lives. It was an affirmation of the impact the story had on people who live below the goverty line.

This kind of stories I wouldn't trade for anything. While it is true that the excitement of reporting lies in being where the action is, in covering events as they unfold right before your eyes, a reporter is fulfilled when she knows she has had the chance to touch other people's tives, and other people have touched hers.

Get it light

By Maey Bautista Segment Host, Tanong ng Bayan, InqTV

I'VE BEEN a wife, a high achool girl in love. a business tycoon, a "taong grasa." I've even been a "manananggal," I've been alf these, and more, because I host the Tanong ng Bayan for IngTV.

Tanong ng Bayan is an B-minute segment that asks a specific question based on national issues or current controversies. I ask the question, and seek the answer from politicians, experts, two wares columnists, and, not least, the proverbial man on the street

The segment is a survey of opinions, and more often than not, feisty interviewees with fearless opinions make things, shall we say. more interesting. This all sounds like serious business. It is, but only up to a point.

A segment on taxes had me crawling and begging on a dingy overpass in Quiapo; a passerby actually gave me P2 Another time, , was a telenovela star shedding tear after tear while my "husband" ate pork for a feature on the pork barrel. And once I was even a model sashaying down a catwalk, ... of tomb stones (It was, I hasten to add for an All Soul's Day episode).

Don't get me wrong. My aim is not to make fun of news, but rather, to present viewers an alternative way to get it light ev-

THE INQUIRER ON TV

100 episodes, and counting

By John Nery Executive Producer, IngTV

AS THE video fates would have it, IngTV celebrated the laquings 19th analyersary yesterday with a mile stone of its own, its 100th episode

That's a lot of TV, especially for a start-up that's been on the air for only mine and a half months. In fact, adding up the 15-minute episodes in the extended first season and the one-hour broadcast in the second and third seasons, that's a total of almost 44 hours of airtime on ABC, since February 23.

But it isn't the math that excites us (although the financial numbers, especially in the third season, are reason enough) It's the stories.

A few come immediately to mind. Our first memorable "get" (or impor-tant interview, in US industry parlance), featuring the only one-on-one then-Sandiganbayan Presiding Justice Minita Chico-Nazario ever granted, at the height of the controversy over her appointment to the Supreme Court.

Our special episode on the dilemma faced by presidential candidate Raul Roco. As early as March 15, a month before his extraordinary "medical leave," we had already raised the terrible question: "May pag-asa pa ba si Roco?"

Our episode on the new senators from show business, especially the feature on Sen. Lito Lapid and his incredible translation machine.

But good stories are not defined by mere access to the powerful or the politi-

A political time

To be sure, InqTV has had more than its share of political stories, but that was because it was born in a political time. It went on air at the start of the national campaign period for the May elections a great time, story-wise. We had an embarrassment of stories to choose from, stories we used to cut our teeth with, stories we used to learn the business.

By and large, we were guided by what we believe the public needed to know at that crucial time. We arred, for instance, a couple of stories on the party list, and a story about public perception of the advertising campaigns of the different presidential candidates. (That of the incumbent and eventual winner was adjudged by a group of University of Santo Tomas students the most insin-

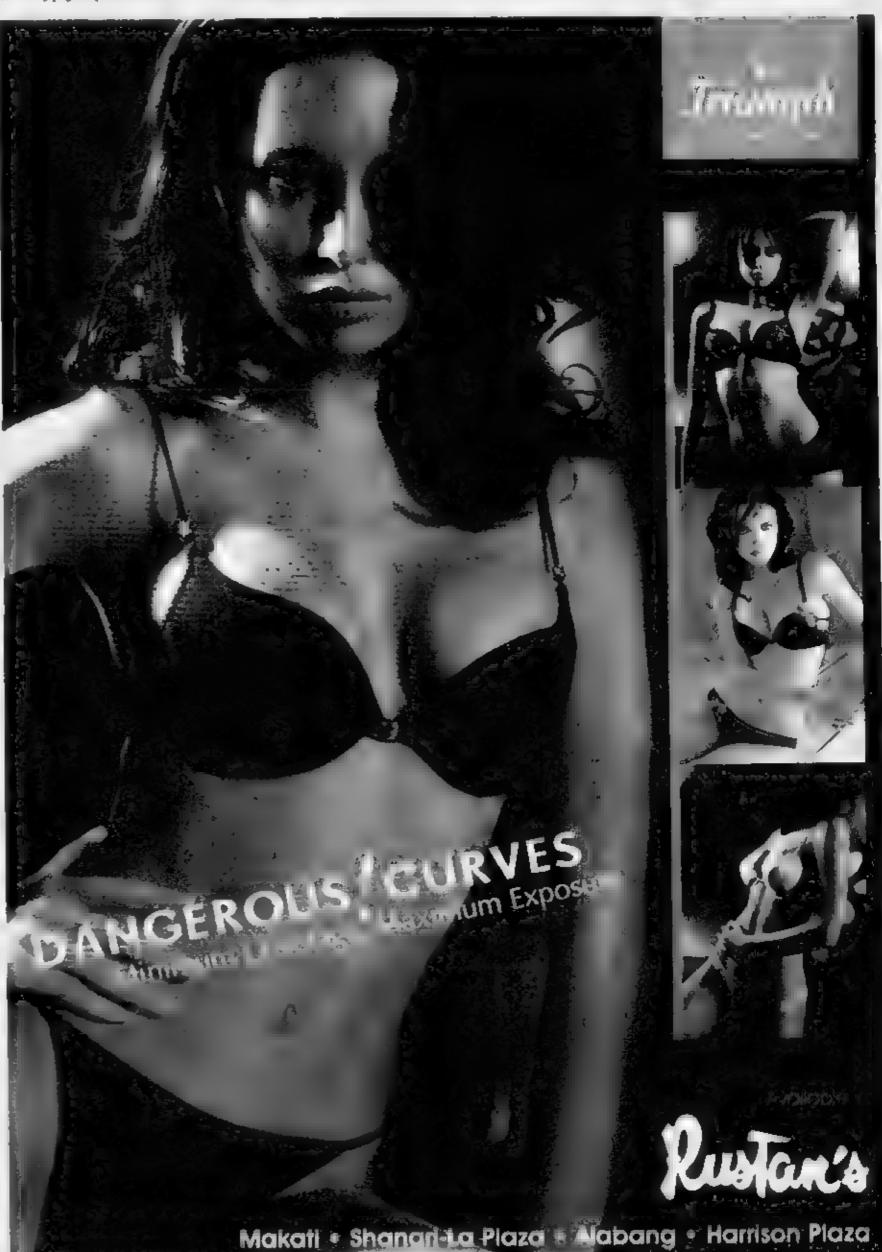

But we also tried our darnedest to air stories about the powerless. We

ON THE ROAD. Last month, InqTV trekked to an Aeta village, stopping now and then to take in the view. Mt. Pinatubo is in the distance.

informal settlers (squatters, to those of us born before political correctequally lengthy story on the experience of the perpetually flooded in the Camanava area. (Nothing remotely - otso-otso. Venetian about it.) We ran a tale of two cities, so to speak, comparing the entrenched bias against the Muslims of Maharlika village, with the inchoate one against the Muslims of

ran a 14-minute story on the life of Virra Mall. (Plenty of Dickens in it.) We stayed among Aeta villagers to tell their story, awed by the landness became fashionable) and an scape, but saddened by the steady encroachment of everything urban, including that dance from hell, the

In truth, there are too many stories to recount. But the wonderful thing is, we are only at the beginning. And that means there are many more stories to look forward to

PAY WANTED COM TO SALES A 1889 1816 PA NO 305 3039 : \$99 1897

By Stella Gonzales Editor, Inquirer News Service

ALTHOUGH the INQUERER News Service (INS)

had been in existence since 2000, it was only this year when it went into full operation following the appointment of a full time editor and desk editor. For years, the INS' main function was to act

as the gatekeeper of INQUEER content-stories, columns, photos and infographics. Its primary job was to send edited materials to its subscribers, including the news website INO7, net (a joint venture of the Isoumen and GMA 7 network established in 2001) and a few foreign chems.

The year 2004 saw INS evolve from a simple gatekeeper into a news service, although not yet on the scale of the wire agencies. Take note of the word "yet."

INS started the year with a project that had long been in the back burner providing news to Inquiren's affiliate company, the Inquiren , even the wires, to the story, Publications Inc. (IPI), specifically as newspapers Cebu Daily News (CDN), Bandera and Tumbok,

IPI, in particular, was interested in running stones and photos from the Inquirer's four provincial bureaus. After all, one of the reasons the Inculting has remained ahead of the competition is that its bureaus are staffed by some of the best journalists in the provinces.

So how could the INQUIRER provide these stories to IPI's newspapers without the latter looking exactly like the Inquiter broadsheet?

This is where INS comes in. It is the job of INS editors to sift through the large volume of stories and photos from PDI's provincial correspondents each day, check them for accuracy, and edit them for brevity, before passing the finished product to CDN, Banders and Tumbok under the tagline "Inquirer News

So when you see a story or photo in another newspaper bearing that tagline, that means it passed through INS.

Breaking news

The May 10 national and local elections brought another challenge to INS: INQ7.net needed to regularly update its breaking news page in its website throughout the day, and it wanted to use stones from the INQUIRER aside from the articles written by its own staff.

For Inquirer's reporters and correspondents who had been used to submitting their

articles in the afternoon, being asked to turn in brief stories as soon as they occurred was a new concept. After all, why submit a story early in the day right after the event occurred when the newspaper is printed at night?"

Yet, the PDI news staff supported the breaking news project. Many of the paper's provincial correspondents were regularly calling their respective bureau chiefs and the INS to submit breaking stories.

When the Commission on Elections disqualified presidential wannabe Eddie Gil, INS, through PDf Comelec reporter martin Marfil, was able to give the story to INQ7, just as the news was breaking on AM radio. INQ7 uploaded the story in its website a few min-

When soldiers and barangay officials shot it out in Tagum, Davao del Norte, on Election Day, the PDI Mindanso Bureau sent the story right away to the INS office in Makati via modem. We beat all the other media enumes,

When the Philippine Airlines website was hacked last Nov. 30, INS was able to break the story, submitted by the Mindanao Bureau, just

And these are just three samples of the many breaking stones that gave the PDI staff the adrenalme rush experienced by many broadcast journalists reporting on a live

Not bad for the PDI news staff that for years had been used to afternoon deadlines, huh?

Still the gatekeeper

This is not to say that the INS has ceased being the gatekeeper of the newspaper's content. The section's main function is still to protect the Inquirer's copyright interests when it comes to its stories, columns, photos and infographics.

All parties that want to reprint or reuse Inquirer materia, are required to seek permission from the INS, whether it's going to be used for personal, profit or altruistic purpos-

Big plans

INS has already been getting a lot of requests, despite the lack of a public announcement about the availability of Inquires materials for re-use. No request is unanswered; even questions from students working on a school project are entertained (although there have been times when they would be told to check

What's thumbs up, thumbs down about life in Lifestyle

By Chelo Banal-Formoso Editor, Lifestyle

FIVE years ago, when the editor in chief asked me to join the biquian as editor of the Lifestyle section, the first person I informed about the offer was my dad. Although a big inourses fan, he had mixed emotions about the news, He was happy because he knew, despite my having gone back to college to take up Special Education, that journalism was still tops on my list of dangerous obsessions. But he said it would take irrational courage on my part to accept a too with a paper that was at the time reeling from an advertising boycott.

Well, my dad realized soon enough that I had picked a winner. The advertisers came back in less time than it took Erap to sign Jose Velarde on his bank slips

And now, wherever it is in heaven that my father is reading this, I'm happy to report to him that the last five years have been one amazing race-against deadlines, flight departures, planning meetings and journalistic coups -yes, but at the same time my cup rutineth over with thrills like celebrity interviews, exciting innovations, cutting edge photography and an almost endless opportunity to act as agent provocateur...

keeps us going despite the long hours and the stressful deadlines. And it seems our readers have enjoyed the provocation as much as we have had fun dishing it out. They've been clamoring, for instance, for our "waker-upper" feature, that weekly exercise where we heaped praises and aimed acidic barbs where we be leved these were deserved.

This anniversary, for old times' sake, we bring back that sorely-missed gallery of rants and raves except, just this once, we give the thumbs up, or down, to what we like, or dislike, about life in Lifestyle.

No two days are alike

There's so much ground to cover in the Lifestyle section, it's up to our reporters to pursue what interests them. Be it in art, design, fitness, family, home, fashion,

food, culture, environment, weddings, travel, the youth scene, etc., there's opportunity for the staff to learn something new every day. Variety is always healthy for a journalist.

OK, your friend is not a hag-YOU are!

One day, two women in bad need of liposuction came marching to our section. They were furious that our paper had called their friend a hag in one of our Sunday

blind items. What the ... Blind item, hello? The real frony in this situation was that they took offense at the "hag" label, and not at the instruction that their friend was an estafadora

I told them I didn't think their friend would appreciate their admission that she was the person being referred to in the blind item in question. I was doing fine, being nice and all, until one of them, the one whose face had pores large enough to plant begonias in, asked how much was paid to get this item published. Now that did it! If her companion had for dragged her out fast, I would have cut her head off and declared it planting season for begonias.

Creatives, inc.

In Lifestyle, you get to meet the most creative people on earth, since they're often doing their stuff in lifestyle-related fields. Jun de Leon essayed the Seven Deadly Sins

through the magic of film and tracked down families of fabulous fashionistus for our Genetic Chic theme. Designer Inno Sotto guest-

of his writers chef Margarita Pores, who ended up doing a series on New York food. Another chef, J Gamboa, showed us that he is as adept with a camera as he is with an oven. Rachy Cuna wrapped up two sections for us, one for Christmas and another for Easter Jim Paredes revealed his Aha! moments in one issue, while Lizzie Zobel and Margarita Delgado shared the joys of reading in another. Gilda Cordero-Fernando has taken us on walks down memory lane with her essays on her mother, her childhood home, etc. So many endearing talents, so many interesting people, and none of them dirty politicians!

The killing hours

The most hardworking team in this paper closed an average of 31 Sunday pages last

month. The hours are a killer, given that Lifestyle always has the most number of pages to fill. If you're single when you're hired by Lifestyle, it's possible you'll stay unmarried for the rest

of your life-unless, of course, you stumble upon romance right in the office, which is less Likely to occur than lightning striking the It is this last perk, more than anything, that same place twice. In Lifestyle you end up with zero night life, zero social life, zero love life. Zero life, period. Ah, the irony of it!

Food for the gods

Sen. Franklin Drilon's good wife, Mila, once sent us a catered dinner so mouthwatering we are every but of 🥀 it. Others on our yummest list are Escrel's caramel cake ropped with bunches of but-

ter roses, Oscar cake from the Peninsula, suman from Tita Paring, pichi-pichi, cheese pizza from Brooklyn Pizza in BF Homes Parañaque, roast chicken from chef Ed Quimson and a homecooked version by Agnes Quintos. We can go on and on, but space (on this page, not in our turnmy) is limited.

All you can't eat

Along with the to-droof-for chow, we get carbo-loaded food that is exactly what the doctor didn't order because five of us are overweight, four are heavy smokers, three have high cholesterol

levels, two are borderline diabetics and one thinks he's a partridge in a pear tree.

Froth and frippery,

you say?

Some people still have the old-fashioned notion that the Lifestyle section is for women and, being so, that it's all fluff. News flash, the President is a woman, the president of this company is a woman and the

editor in chief is a woman. None of them stands for froth. Just because we in Lifestyle are so fab and we know that look is so two seasons ago doesn't mean we can't deal with assues, because we have. Young people who are changing the world get the chance to be heard through our 2bUI stories. We've had extensive interviews with New Age guru Deepak Chopra, leadership expert John Maxwell, CNN's Maria Ressa and writer Jessica Hagedorn, among others. People who are advocating for abused women, reading to streetchildren, teaching good nutrition to poor housewives and cleaning up the environment are all over Lifestyle. There is room in this section for all kinds of people, all sorts of lifestyle.

More on Mark

Not a few hotels have called to inform us that Mark Anchera, who has been misrepresenting himself as a

Inquirer News Service...

the information in a local library). After all, the INQUIRER sums to serve its readers.

If 2004 was already a big year for INS, 2005 promises to be even more exciting.

I cannot go into details, but I will say that INS intends to launch a project that would further extend the Inquirer brand in another medium. The Inquirer, through INS, will enable people to access Inquires news wherever ins@inquires.com.ph.)

they are and when they want it.

Right now, INS is staffed by only four people: two editors and two encoders. And it is not yet a full-blown news service like the inremational wire agencies that file reports

But INS will soon get there; just you wait.

(For inquiries on INS services, please e-mail

Checking if there's an 's'...

and Sir Mike to my co-researchers Ray, Chona and Maricar-taught me that the theories and concepts I had learned in school were not enough. A quick mind and ready feet were required, too.

As a researcher, my primary job involves finding, collecting, processing and using information that could help clanly issues that matter in the nation's life, This means preparing research materials in a variety of forms—from special reports to graphs, from spot news stories to boxes of nugget-sized data about people, places, things and events.

It's very unpredictable, and therefore exciting. One minute I'm preparing a backgrounder on the Marcoses' ill-gotten wealth, and a second later, I'm checking if there's an "s" in the last word of the Social Weather Stations (there is).

Sometimes on busy days, the pressure is enough to make me want to run around like a headless chicken. But always after the storm, there's a giddy feeling at having achieved something no matter how little. The next day of course it's a new story, a different cast of characters, a fresh start.

tr's fun.

edited a fashion section and brought in as one Lifestyle contributor, sportswriter in being what it is, we get readers or supplement writer, has been trying to book a function room at the hotel for a fashion show of text or e-mail just to ask how Congressional spouses that is cosponsored by the Inquiren. Hipo makers, cast vow to push the limits

THE DARING cast: "We want to entertain, not stir controversy."

By Remy Umerez Contributor

T IS not hard to imagine sexy star Katya ■ Santos singing and dancing. But bold hunk Allen Dizon and other Viva Hotmen?

Katya and Allen, plus Justine de Leon, Jayson Colis, Paolo Serrano. Ethan Zulueta and Jerome Ocampo are the main attractions in the sexmusical-comedy play "Hipo," open-ing tomorrow at the Music Muse-

"Hipo" is short for "hipokrito." The play is produced by Allen T. Di-

It is an entirely different endeavor for the bold actor who admits the only play he has seen in his lifetime is "Miss Saigon."

Dizon says: "Less producers are making movies nowadays. I used to make lagare when the trend was bold movies. I'm not used to being idle. I noticed that the thing now are stage plays with sexual themes-Vagina Monologues' or 'Penis Talks,' for instance. Compared with these, our title is very wholesome. When Hipo was presented to me, I thought it wasn't a bad idea at all, and the

Relevant issues

With 45 bold flicks made in a span of five years to his credit, Allen knows whereof he speaks when he describes "Hipo" as daring. "It is about hypocrisy, bigotry and prejudice in show biz," he says. "Issues which made recent headlines are presented in various segments. For example, the segment Escort Service' asks who the real victims are."

E-mail: pr_entertainment@inquirer.com.ph

"Banal na Hipokrito" is a sketch about religion and blind fanaticism. A religious show on television is turned upside down when "unexpected guest sinners" show up on

A segment Allen can easily relate to is "Bikini Open." He has been a candidate in such competition; in fact, this opened the doors of show biz for him.

Jayson Colis and Justine de Leon are also products of a male "beauty"

In 2002, Jayson won the title "Gimoong Pilipino." Running around in his undergarments is no big deal for him, being a Bench underwear model. Pampanga- born Jayson goes to the gym regularly, which explains his perfect V-shaped body. Whether on stage or on video, he doesn't make a fuss about mudicy.

Twenty-four-year-old Justine has joined regional bikini tilts several times before, but never won the

KATYA Santos and Allen Dizon

coveted title. He had to drop his studies at Adamson U when he auditioned for Viva Hotmen.

More than undressing

Originally, Justine was supposed to depict a gay character in one segment, "Parlorista." Sensing that It might harm the macho image that Hotmen projects, the role went to a Peta actor.

Instead, Justine plays an ex-convict in "Banal na Hipokrito," delivering a monologue about life in a prison cell and how society looks down on him.

Jerome Ocampo, Paolo Serrano,

and Ethan Zulueta hope "Hipo" will make the audience discover that baring is not the only "talent" they possess. All three want "to be taken seriously as actors."

Also in the cast are Peta players Buddy Caramat, Bong Embile and Lotlot Bustamante. Script and libretto music are by Vince De Jesus. Soxy Topacio directs.

Nudity within context is what "Hipo" promises to deliver Ailen vows to push the limits, but says the production team will abide by all applicable rules. "We want to entertain," he says, "not to stir controver-

Forget Britney, some people marry for keeps

LAS VEGAS-Looking radiant in a long, purple gown, Carlina Reyna left the wedding chapel in Las Vegas's Aladdin Hotel excited about

Carlina, 36, is one of about 120,000 brides who every year shun a wedding close to home and head to the bright lights of Las Vegas to get married.

"Here you can get everything for your wed ding in the same place," said Carlina alongside her new husband, 40-year-old Jose Rey-

The couple from San Antonio, Texas, brushed aside any notion that Las Vegas, the world's wedding capital with up to 200 wedding chapels, is a tacky place to marry or hosts only "quickie" weddings that break up before the champagne is flat.

Of course, there are plenty of examples of such ephemeral unions.

Britney Spears's marriage to childhood friend Jason Alexander in Las Vegas in January lasted only 55 hours before the pop

princess annulled it. Socialite Nicky Hilton, 21, heiress to the hotel fortune, showed a little more commitment. Her recent marriage to money manager Todd Meister in Las Vegas lasted three

Las Vegas's wedding industry has grown over the decades due mainly to the state's liberal marriage license rules. Anyone over 18 can get a Nevada marriage license on the spot for a \$55 fee.

Over the years some of Tinseltown's biggest names have come to Las Vegas to tie the knot, including Elvis and Priscilla Presley, Bruce Willis and Demi Moore and Paul Newman and Joanne Woodward-and some are still together.

Upscale weddings

The number of weddings has risen strongly in the past 20 years as city hotels started to host more upscale weddings alongside ceremonies at the stand alone chapels at the older end of the city's notorious strip of casinos and XXX-rated stores.

The number of licences issued rose to 119,124 in 2003 from 86,608 in 1993 and 59,835 in 1983.

Upscale hotels, known for their huge casinos and lavish enterrainment, have set up expensively adorned wedding chapels in wings well away from gamblers. They offer packages appealing to the value conscious as well as big spenders in a one-stop shop for wed-

A big advantage of a Las Vegas wedding is that you can get everything in one place and get hitched for a few hundred dollars or less, with some wedding packages priced as low as \$55, while the traditional US wedding costs an average \$20,000.

You can also book a chapel on short notice, get married 24 hours of the day, and some chapels offer Webcam services so absent of brides. guests can watch the ceremony over the later-

"It takes the stress out of the day to have ev-

ELVIS and Priscilla Presley

erything organised by us," said Linda Swift, owner of Aladdin's chapel.

The disadvantages of a Las Vegas wedding? You'll probably be sharing your special day with hundreds of other couples, with some weddings even overlapping if chapels are running late, making it feel like a production line

Charolette Richards, owner of the stand alone Little White Wedding Chapel where Britney Spears married at 5 a.m., stands by

BRITNEY Spears

From the quickie to the creepy, Las Vegas wedding packages are still drawing thousands of couples

her slogan: "We love keeping you in love." She said couples planned for months, even years, for a Las Vegas wedding, and they are

"The reason people come to Las Vegas to get married is because it is a wonderful destination of love, with the hotels designed with a lot of romance," said Richards, who has been in the wedding business for 45 years.

Drive-through weddings

Jennifer Brown, 25, in a white bridal gown, and Justin Rotarious, 23, chose to get married at the Little White Wedding Chapel, a busy chapel that boasts a drivethrough "tunnel of vows" painted with cherubs for those who don't want to leave their car.

The San Diego couple sald they didn't want an ordinary wedding.

There are also \$1,000 ceremonies aboard hot-air balloons and lavish affairs in upscale hotels, Look-alike Elvis Presleys conduct wed-

Viva Las Vegas Wedding Chapel offers a Gothic ceremony where the minister rises out of a coffin through fog. The happy couple can then retire for the night to the Gothle bridal

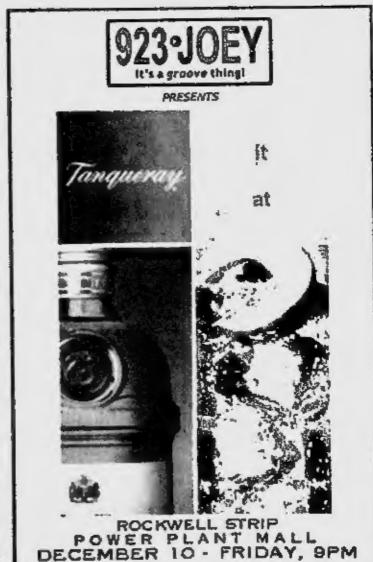

Demi Moore

chamber with a coffin-shaped bath and a BRUCE Willis and graveyard bed with a headstone reading "Till Death do Us Part."

And if creepy is not your thing, other wedding themes include James Bond, disco, western, Egyptian or Liberace.

Swift said she refused to marry a couple at Halloween who wanted to get married in bondage gear. She stressed: "A wedding here is just as emotional and important as a wedding back home and people take it seriously."

Jolly be, it's Sarah G!

NO two Sundays at the mali are the same. You'll never know what will take you by surprise. For Jollibee regulars, it could be the sight of the giddy mascot flashing his huge smile or strutting his latest moves. Or chancing upon your favorite star having a burger at the next table.

Thirteen-year old Justine Nuyda couldn't believe her eyes when she spotted her favorite singer in person at her favorite Joilibee joint. Justine was standing in line, waiting for her order to be taken when Sarah Geronimo came in and went directly behind the counter.

"I always watch her on TV," the girl gushed. "I was shocked when I saw her there. I never expected anything like it." Fortunately, Justine had a pen and notebook on hand, so she could ask for the teen actress' autograph to remember the moment.

Sarah is the Jollibee Yumburger endorser. She has a brand-new album that's bound to be another big hit, "Sweet Sixteen," which she launched earlier at the entertainment center of SM Manila. It was the first leg of a series of mall tours around the city, with the fast-food chain as one of the spon-

A matter of pride

During the program, Sarah regaled the crowd with songs from the album. Of course she also sang the Yumburger jingle, which she popularized with love teammate Mark Bautista, a fel-

Sarah and Mark are two of the many young talents that Jollibee behind the counter, much to the

DON'T be surprised if you see them at the next table.

has been supporting as part of the delight of the diners. corporation's thrust of youth empowerment. There are so many Filipino talents who have the potential to shine. To contribute to the development of this nation, we have to support such talents, so they could be recognized here and abroad," said Inez Reyes, Jollibee vice president for marketing.

After the launch and the autograph-signing that followed it, Sarah paid a surprise visit to the two Jollibee stores in SM Manila. She posed for snapshots with the Jollibee store crew and even went

Hungry princess

Some customers, like the Salazar family, were happily enjoying their merienda when they spotted Sarah. "I am such a big fan, so I was so happy when she walked into the store, Elaine Salazar said, "Even my children love her songs. She looks very nice, and when she smiled at us, it was very heartwarming."

But even stars get hungry, Before Sarah and her enrourage left, she asked for some Jollibee treats to bring ; home-Chickenjoy and, of course,

But do they get it? From page 4

Mr. C finds time for Benedictine fundraiser tomorrow

LOCAL music great Ryan Cayabyab lends his talents to a fund-raising dinner show tomorrow, 6 p.m., at St. Cecilia's Hall of St. Scholastica's College on Leon Guinto Sr. St., Manila.

The musical program features his wife Emmy and her high school Class of '79.

SSC alumna Tina Monzon-Palma will emcee the show, an initial fundraiser for the archives-museum project of the Missionary Benedictine sisters of Tutzing. The museum is intended to be completed in

time for the 2006 centennial of the college and the arrival or the first five Benedictine

KITCHIE NADAL

MTV's annual music summit plays on, with the end in view of getting the message across to

the youth:

safe sex

By Alexa H. Bacay

HEN an international pop star guests in a show for a cause, the raving fans tend to ignore the message and concentrate instead on the performer.

Such was the case last year when Mandy Moore made a special appearance in the MTV music summit for HIV/AIDS. The message of HIV/AIDS awareness was lost on the youth, the intended audience. The event looked little more than a big concert for the American singing sensation.

This year, Pinoy bands held their own alongside four international acts in the recent 2004 MTV Staying Alive music summit, held on World AIDS Awareness Day.

"What I'm very proud of about conight, regardless of what happens [is that] we don't have a Mandy Moore here," said Jack Madrid, MTV Philippines general manager. "[Instead] we have the best Pinoy bands and that's who the audience came to see."

MTV music summit, in partnership with Staying-alive.org, is a yearly worldwide event for the awareness and prevention of HIV and

AIDS among youths aged 16 to 34. This age bracket is MTV's target market; this is why it has taken up the campaign as part of its corporate social responsibility.

Global cause

"Here in the Philippines, the number of reported HIV and AIDS cases is shockingly low," Madrid said in a small gathering at the meet-and-greet tent. "But (we have) all the elements of an outbreak. I mean ... the use of condoms and [dissemination of] information about the practice of safe sex is not as [widespread as necessary]."

On a night when super typhoon "Yoyong" threatened to flood the Bonifacio Global City open field, an estimated 50,000 cheered, occasionally booed, and intermittently sang along with, the performing bands.

No one wants to talk about HIV and AIDS, said Rod Nepomuceno, MTV director for advertising and sales, because young people tend to think they are invincible.

"We want young people to realize that they can get it," Nepomuceno said. "We want them to know how they can get it, and ... how they can avoid it. And we communicate that through the music, through their idols ... who have embraced this cause."

Firestarter

The bands Check Experiment, Juan Pablo's Dream, Typerast, The Bridge and Mojofly performed during the pre-show, and Mayonnaise proved that it deserves to be this year's Red Horse Muzikiaban grand champion.

A group of volunteers presented a skit about HIV and AIDS. Spectators participated in games to win P1,000 worth of prepaid phone credits, courtesy of Globe Genext. Unfortunately, some winners' prizes were claimed by contestants who had easier access to the stage.

Firestarring the summit was The Dawn, with UZ's "Beautiful Day," and the original "Harapin ang Liwanag."

Barbie's Cradle played next, with "Independence Day" and "Torpe," followed by the hard-to-catch Makiling Ensemble, which served up a taste of its unique blend of Pinoy world music in "Spanish Dancer." South Border completed the first set. It was the 7-8 p.a. slot, but it started around 9 p.m.

Then the first foreign act, Joshua Payne, serenaded the crowd ala Josh Groban. He sang two songs, "Nature" and "The Moon," from his album, "Your Love, My Home." Payne was born deaf and had an operation that restored most of his hearing.

His apt message: "Go find your love and keep her."

Asian Craig David

Jay Sean, said to be Asia's Craig David, pumped the crowd up with his hit single "Eyes

on You." Caught at the meet-and-greet tent, Jay Sean said the comparison with Craig David was a big compliment to him. "Craig opened up many doors for British R&B," he

said. On choosing to have an identity of his own he is very clear; "I'm not gonna tell people that I am my own person because they won't understand that. If I say oh yeah, it's cool to be Craig David, but I'm so different ... thar's like jumping on the defense, and I don't ... need to do that. If people really listen to the music, they can figure it out for them-

selves." Jay Sean has this to say about HIV/AIDS: "Well you got to be real careful [because); there's a lot suffering right now and people aten't careful anymore. We're young, and we have a whole los to live."

The punk group The Barbs sang their hit, "Massive Crush."

Most awaited was Duncan Sheik who came for the sole purpose of performing at the summit. Though his guitar string snapped during a studio taping, he was still gracious enough to play six songs for the rowdy crowd. He started off with "Serena," on to "Barely Breathing," "Pake Plastic Trees," "Start MTV VI Cindy Kurleto

Again," "Wonderwall" by Oasis, and "On a High." He plans to go on tour next year to promote a new album.

Twisted knee

Sponge Cola's Yael Yuzon got injured backstage. He was reportedly standing near some cable wires when some fans called out to take his photograph. He turned, caught his foot in the wires and tripped. Despite this unfortunate incident, the band, who happens to be MTV's rising star for December, still managed to rev up the crowd with their hits, "Lunes" and "Jeepney."

The biggest crowd drawers—the ones who got the crowd really crazy-were 6cycle Mind, Kitchie Nadal, Sandwich, Kjwan, Razorback, Bamboo and Rivermaya, only seven of the more than 30 acts in the lineup. When Rico Bianco sang "Ang Awit ng Kabataan," even one of the bouncers was sighted singing and hopping to the song.

Marc Abaya played both host and performer that night with his bands Kjwan and Sandwich which had the crowd jumping around with "Daliri" and "2 trick pony," re-

6cycle Mind set the crowd on fire with "Sige," its current hit. Kitchie wowed the crowd with "Wag na 'wag mong sasabihin."

Rivermaya started its set with "Awit ng Kabatsan," followed up with "Umaarsw, Umuulan," and closed with the current hit "Liwanag sa Dilim."

Undisputed

When Kevin Roy performed with Razorback, it was clear why they are such respected rock artists.

Co-hosting the event with Mare were Cindy Kuriero and MTV's newest VJs, Reema Chanco, Chesca Litton and John Joe Joseph, Clara Sotto, Roxanne Barcelo, Regine Tolentino, Tony Leviste, Iza Calzado and Willie Revillame were among the

guests who talked about AIDS between band performances.

Dirty finger

Performers who failed to please the crowd were rewarded with dirty finger gestures. Abaya implored the crowd to respect the performers. Though one group retaliated with the same gesture, most of the unfortunate performers kept their cool and just carried

When the throng got restless and started throwing empty cans, the bouncers quickly cornered the offenders and whisked them
